Wayside Trade Parts Limited
Report and Financial Statements

STRATEGIC REPORT
FOR THE YEAR ENDED 31 DECEMBER 2020

The directors present their Strategic report for Wayside Trade Parts Limited (the 'company') for the year ended 31 December 2020.

Principal activities

The principal activity of the company is a parts wholesale agent for Volkswagen.

Business review and future developments

Despite the impact of COVID-19 on the operations of the business during the year, the company has been able to continue trading at subdued levels. As a consequence of the pandemic on UK economic activity overall, the company experienced a fall in turnover of 7.7% but has made a profit, supported by the UK Government's Coronavirus Job Retention Scheme.

The directors anticipate that in 2021 the company will experience a return to more normal levels of activity and profitability.

Key Performance Indicators (KPIs) and principal risks and uncertainties

The directors manage the group's risks and those of its fellow subsidiaries at a group level. Furthermore, they monitor the group's performance on a dealership basis rather than at a subsidiary company level.

For these reasons the company's directors do not believe that a discussion of the principal risks facing the company is appropriate for an understanding of its development, performance or financial position.

The KPIs used by the group and the principal business risks it faces are discussed in the Directors' report of Jardine Motors Group UK Limited's annual report, which does not form part of this report.

This report was approved by the board on 30 August 2021 and signed on its behalf.

DIRECTORS' REPORT
FOR THE YEAR ENDED 31 DECEMBER 2020

The directors present their annual report and the financial statements for the year ended 31 December 2020.

Principal activity

The principal activity of the business is discussed in the Strategic report on page 1.

Business review and future developments

The review of the business and future developments are discussed in the Strategic report on page 1.

Principal risks and uncertainties

The principal risks and uncertainties facing the company are discussed in the Strategic report on page 1.

Post balance sheet events

Since the year-end, the wider group has continued to operate under the UK Government regulations covering the on-going COVID-19 pandemic. On 6 January 2021, the UK entered its third national lockdown. The wider group was unable to open its showrooms during the lockdown and re-opened on 12 April 2021, in line with the Government's roadmap. During this period the wider group was able to continue trading through its on-line sales channels and also continued to service customers through its aftersales operations.

The wider group remains committed to ensuring the highest levels of COVID-19 safe dealerships for both its colleagues and customers with rigid rules and regulations in place at all its dealerships.

As a result of the wider group's resolute response to the COVID-19 pandemic and the re-structure during 2020, continued investment in digital sales platforms and appropriate utilisation of available Government support the wider group was able to return to profitability in the first half of 2021 and remains confident of meeting its own internal budgets for the year.

Financial risk management

The company is part of the Jardine Motors Group UK Limited group of companies (referred to as 'group'). The directors manage the company's risks and those of its fellow subsidiaries on a group basis.

a) Funding and liquidity risk

The group's policy is to ensure that the funding requirements forecast by the group can be met within available committed facilities.

b) Interest rate risk

The group's interest rate policy is to manage the risk of interest rate fluctuations on the cash flows payable on the group's debt.

c) Credit risk

An external credit risk company is used to check the credit ratings of corporate customers and limit the group's exposure to credit risk. Credit ratings are updated both throughout the year and also upon credit alerts received from the credit risk company.

Corporate governance

The measures taken to ensure a strong framework of corporate governance are fully disclosed in the Directors' report of Jardine Motors Group UK Limited.

Wayside Trade Parts Limited
Report and Financial Statements

DIRECTORS' REPORT (CONTINUED)
FOR THE YEAR ENDED 31 DECEMBER 2020

Results and dividends

The results for the year are set out in the profit and loss account on page 6.

During the year, the directors recommended and paid a final dividend of £1,500,000 (2019: £nil).

Directors

The directors of the company who served during the year and up to the date of signing the financial statements were:

D N Williamson
D J Muir

Qualifying third party indemnity provisions

No qualifying third party indemnity provision was in force during the financial year ended 31 December 2020 or at the date of this report.

Going concern

The directors have adopted the going concern basis in preparing these financial statements after assessing the company's principal risks including those arising from COVID-19.

The wider group meets its day-to-day working capital requirements through a mixture of its banking facilities and manufacturer stock funding lines. The directors have assessed the wider group's ability to continue trading for the twelve months following the approval of these financial statements by preparing detailed cash flow and profit forecasts, including considering a "severe but plausible" downside scenario.

The key assumptions made in those projections are as follows:

- Following the successful roll out of the COVID-19 vaccine programme the UK economic recovery continues throughout 2021 and there are no further lockdowns post the UK Government's roadmap.
- The UK new car market continues to recover to pre-COVID-19 activity.
- The wider group does not renew the bank loans expiring in 2021 and 2022.
- The wider group continues to have access to funding provided by finance companies associated with brand partners to finance some of its used and demonstrator stocks.

Taking into account the modelling and the availability of funding the directors confirm that the wider group has adequate resources and sufficient facilities to meet funding requirements over the next twelve months and the wider group therefore continues to adopt the going concern basis in preparing its and its subsidiary undertakings financial statements.

Wayside Trade Parts Limited
Report and Financial Statements

DIRECTORS' REPORT (CONTINUED)
FOR THE YEAR ENDED 31 DECEMBER 2020

Employees and equal opportunities

The company is committed to an active equal opportunities policy from recruitment and selection, through training and development, appraisal and promotion to retirement.

It is the company's policy to promote an environment free from discrimination, harassment and victimisation, where everyone will receive equal treatment regardless of age, disability, gender reassignment, marriage and civil partnerships, pregnancy and maternity, race, religion or belief, sex and sexual orientation. All decisions relating to employment practices are objective, free from bias and based solely upon work criteria and individual merit.

Applications for employment by disabled persons are always fully considered, bearing in mind the respective aptitudes and abilities of the applicant concerned. In the event of members of staff becoming disabled, every effort is made to ensure that their employment with the company continues and that appropriate training is arranged. It is the policy of the company that the training, career development and promotion opportunities of a disabled person should, as far as possible, be identical to that of a person who does not suffer from a disability.

Consultation with employees or their representatives has continued at all levels, with the aim of ensuring that their views are taken into account when decisions are made that are likely to affect their interests and that all employees are aware of the financial and economic performance of their business units and of the company as a whole. Communication with all employees continues through internal newsletters, briefing groups and various electronic communications.

Streamlined Energy & Carbon Reporting (SECR)

Full reporting of SECR covering Wayside Trade Parts Limited is included in the Directors' report of Jardine Motors Group UK Limited.

Wayside Trade Parts Limited
Report and Financial Statements

DIRECTORS' REPORT (CONTINUED)
FOR THE YEAR ENDED 31 DECEMBER 2020

Statement of directors' responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards comprising FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and applicable law).

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 102, have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

This report was approved by the board on 30 August 2021 and signed on its behalf.

Wayside Trade Parts Limited
Report and Financial Statements

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2020

1. General information

The principal activity of Wayside Trade Parts Limited (the 'company') is a parts wholesale agent for Volkswagen.

The company is a private company limited by shares and is incorporated in England. The address of its registered office is 770 The Crescent, Colchester Business Park, Colchester, CO4 9YQ.

2. Statement of compliance

The financial statements of Wayside Trade Parts Limited have been prepared in compliance with United Kingdom Accounting Standards, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102") and the Companies Act 2006.

3. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

The financial statements are prepared on a going concern basis under the historical cost convention.

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to their financial statements are disclosed in note 4.

Going concern

The directors have adopted the going concern basis in preparing these financial statements after assessing the company's principal risks including those arising from COVID-19.

The wider group meets its day-to-day working capital requirements through a mixture of its banking facilities and manufacturer stock funding lines. The directors have assessed the wider group's ability to continue trading for the twelve months following the approval of these financial statements by preparing detailed cash flow and profit forecasts, including considering a "severe but plausible" downside scenario.

The key assumptions made in those projections are as follows:

- Following the successful roll out of the COVID-19 vaccine programme the UK economic recovery continues throughout 2021 and there are no further lockdowns post the UK Government's roadmap.
- The UK new car market continues to recover to pre-COVID-19 activity.
- The wider group does not renew the bank loans expiring in 2021 and 2022.
- The wider group continues to have access to funding provided by finance companies associated with brand partners to finance some of its used and demonstrator stocks.

Taking into account the modelling and the availability of funding the directors confirm that the wider group has adequate resources and sufficient facilities to meet funding requirements over the next twelve months and the wider group therefore continues to adopt the going concern basis in preparing its financial statements.

Wayside Trade Parts Limited
Report and Financial Statements

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2020

Exemptions for qualifying entities under FRS 102

FRS 102 allows a qualifying entity certain disclosure exemptions subject to certain conditions. The company has taken advantage of the following exemptions in its financial statements:

- from preparing a statement of cash flows, it is a wholly owned subsidiary of Lancaster Public Limited Company and it is included in the consolidated financial statements of that company, which are publicly available; and
- from disclosing the company key management personnel compensation, as required by FRS 102, paragraph 33.7.

Functional and presentation currency

The financial statements are presented in pound sterling and rounded to thousands. The company's functional and presentation currency is pound sterling.

Revenue recognition

Turnover comprises income from Volkswagen for acting as a parts wholesale agent. Value added tax is excluded.

Government grants

The company recognises any government grants, including receipts under the Coronavirus Job Retention Scheme, as they are received and only when there is reasonable assurance that the company has complied with conditions relating to the grants. Such grants are recognised in the profit and loss account in the periods during which, or after, the costs for which they are intended to compensate are incurred. The grants are presented in other operating income.

Pensions

Contributions made to the defined contribution scheme are charged to the profit and loss account as incurred.

Taxation

Current tax is the amount of corporation tax payable provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse based on tax rates and laws that have been enacted or substantively enacted at the balance sheet date.

Wayside Trade Parts Limited
Report and Financial Statements

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2020

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use. Depreciation is provided on tangible fixed assets in equal annual instalments over their expected useful economic lives as follows:

Short-term leasehold land and buildings	-	over term of lease
Plant and machinery	-	10% - 33% per annum
Computer equipment	-	20% - 33% per annum
Furniture, equipment and motor vehicles	-	10% - 33% per annum

The profit or loss on disposal of tangible fixed assets is recognised by reference to their carrying amount.

Stock

Stock is valued at the lower of cost and net realisable value. Cost is actual purchase price, excluding value added tax. Net realisable value is based on estimated selling price less further costs to be incurred to completion and disposal. Provision is made where necessary for obsolete, slow moving and defective stocks.

Trade and other debtors

Trade debtors are recognised and measured at their original invoiced amount less provision for any uncollectable amounts. An estimate for doubtful debts is made when the collection of the full amount is no longer probable. Bad debts are written off to the profit and loss account when they are identified.

Provisions

The company provides in full for liabilities when it has a legal or constructive obligation arising from a past event, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated.

Leased assets

Operating lease rentals are charged to the profit and loss account on a straight-line basis over the term of the lease.

Where assets are financed by leasing arrangements that give rights approximating to ownership (finance leases), the assets are treated as if they had been purchased outright. The amount capitalised is the present value of the minimum lease payments payable over the term of the lease. The corresponding leasing commitments are shown as amounts payable to the lessor. Depreciation on the relevant assets is charged to profit or loss over the shorter of estimated useful economic life and the term of the lease.

Lease payments are analysed between capital and interest components so that the interest element of the payment is charged to profit or loss over the term of the lease and is calculated so that it represents a constant proportion of the balance of capital repayments outstanding. The capital part reduces the amounts payable to the lessor.

Wayside Trade Parts Limited
Report and Financial Statements

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2020

Financial instruments

The company has chosen to adopt Sections 11 and 12 of FRS 102 in respect of financial instruments.

Financial assets

Basic financial assets, including trade and other receivables and cash and bank balances, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Such assets are subsequently carried at amortised cost using the effective interest rate method.

At the end of each reporting period financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in the profit and loss account.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment not previously been recognised. The impairment reversal is recognised in the profit and loss account.

Financial assets are derecognised when (a) the contractual rights to the cash flows from the asset expire or are settled, or (b) substantially all the risks and rewards of the ownership of the asset are transferred to another party, or (c) despite having retained some significant risks and rewards of ownership, control of the asset has been transferred to another party who has the practical ability to unilaterally sell the asset to an unrelated third party without imposing additional restrictions.

Financial liabilities

Basic financial liabilities, including trade and other payables, bank loans and loans from fellow group companies, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest rate method.

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

Distributions to equity holders

Dividends and other distributions to company's shareholders are recognised as a liability in the financial statements in the period in which the dividends and other distributions are approved by the company's shareholders and paid. These amounts are recognised in the statement of changes in equity.

Wayside Trade Parts Limited
Report and Financial Statements

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2020

Related party transactions

The company is exempt from disclosing related party transactions with entities that are part of the group as the company is a wholly owned subsidiary of Jardine Motors Group UK Limited.

Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. Bank overdrafts, when applicable, are shown within borrowings in current liabilities.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares are shown in equity as a deduction, net of tax, from the proceeds.

4. Critical accounting judgements and estimation uncertainty

The company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

Impairment of other fixed assets

The company tests for impairment annually by applying procedures to ensure that its assets are carried at no more than their recoverable amount. The procedures require estimates and assumptions to be made.

Stock

As stocks are carried at the lower of cost and net realisable value this requires the estimation of the eventual sales price of goods to customers in the future. A high degree of judgement is applied when estimating the impact on the carrying value of stock of factors such as obsolete, slow moving and defective stocks. The quantity, age and condition of stocks are regularly measured and assessed as part of a range of reviews and stock counts undertaken throughout the year and across the company.

Tax estimates

The calculation of the company's total tax charge for the year necessarily involves a degree of estimation and judgement in respect of certain items whose tax treatment cannot be finally determined at the reporting date. The recognition of deferred tax assets is based upon whether it is more likely than not that sufficient and suitable taxable profits, based on the latest available profit forecasts, will be available in the future against which the reversal of timing differences can be deducted.

Wayside Trade Parts Limited
Report and Financial Statements

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2020

5. Turnover

All turnover is derived from the principal activity transacted within the United Kingdom.

Analysis of turnover by category:

	2020 £000	2019 £000
Parts sales	2,291	2,481

19. Related party transactions

The company is exempt from disclosing related party transactions with entities that are part of the group as the company is a wholly owned subsidiary of Jardine Motors Group UK Limited, who prepare consolidated financial statements.

20. Commitments under operating leases

At 31 December the company had total future minimum lease payments under non-cancellable operating leases which expire as follows:

	Land and buildings	<i>Land and buildings</i>
	2020	<i>2019</i>
	£000	<i>£000</i>
Within one year	30	<i>30</i>
Within two to five years	120	<i>120</i>
After five years	48	<i>78</i>
	198	<i>228</i>

The majority of leases of land and buildings are subject to rent reviews at intervals of five years.

21. Pension schemes

The ultimate United Kingdom parent undertaking, Jardine Motors Group UK Limited, operates one principal scheme, which is in part defined benefit and in part defined contribution, and one principal defined contribution pension scheme that the company participates in. The principal scheme closed to future accrual on 1 December 2009, at which point all remaining members were able to join the defined contribution scheme.

During the year the company has made no contributions (2019: £nil) to the defined benefit scheme and £39,000 (2019: £34,000) to the defined contribution scheme.

Full details of the scheme are given in the financial statements of Jardine Motors Group UK Limited.

22. Contingent liabilities

The company is subject to cross guarantees covering overdrafts in Jardine Motors Group UK Limited and fellow subsidiaries. These overdrafts amounted to £nil at 31 December 2020 (2019: £nil).

23. Post balance sheet events

Since the year-end, the wider group has continued to operate under the UK Government regulations covering the on-going COVID-19 pandemic. On 6 January 2021, the UK entered its third national lockdown. The wider group was unable to open its showrooms during the lockdown and re-opened on 12 April 2021, in line with the Government's roadmap. During this period the wider group was able to continue trading through its on-line sales channels and also continued to service customers through its aftersales operations.

The wider group remains committed to ensuring the highest levels of COVID-19 safe dealerships for both its colleagues and customers with rigid rules and regulations in place at all its dealerships.

As a result of the wider group's resolute response to the COVID-19 pandemic and the re-structure during 2020, continued investment in digital sales platforms and appropriate utilisation of available Government support the wider group was able to return to profitability in the first half of 2021 and remains confident of meeting its own internal budgets for the year.

24. Ultimate parent undertaking

The immediate parent undertaking is Jardine Automotive Limited (formerly Lancaster Motor Company Limited).

The ultimate parent undertaking and controlling party is Jardine Matheson Holdings Limited, a company incorporated in Bermuda.

Jardine Matheson Holdings Limited is the parent undertaking of the largest group of undertakings to consolidate these financial statements.

Lancaster Public Limited Company is the parent undertaking of the smallest group of undertakings to consolidate these financial statements.
