Company law requires the directors to prepare accounts for each financial year. Under that law the directors have elected to prepare the accounts in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the accounts unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these accounts, the directors are required to

- · select suitable accounting policies and then apply them consistently,
- · make judgements and accounting estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, and
- prepare the accounts on the going concern basis unless it is inappropriate to presume that the company will
