**Notes to the Abbreviated Accounts**  
**for the Year Ended 30 September 2012**

**1. ACCOUNTING POLICIES**

**Accounting convention**

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

**Turnover**

Turnover represents net invoiced sales of goods, excluding value added tax as adjusted for crop stock movements.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Freehold property	- not provided
Improvements to property	- 2% on cost
Plant and machinery	- 15% on reducing balance
Motor vehicles	- 25% on reducing balance

**Investment property**

Investment property held as a fixed asset is stated at open market value. Any aggregate surplus or deficit arising from changes in market value is transferred to a revaluation reserve.

Under the Companies Act 2006 all fixed assets should be depreciated over their estimated useful lives. However, in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), investment properties should not be subject to a periodic charge for depreciation, and should be included in the balance sheet at their open market value. The directors consider the property is not held for consumption, but for its investment potential, and in order to give a true and fair view it is appropriate to depart from the Companies Act 2006.

**Stocks**

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

The cost of crops and tenantry include all production overheads and depreciation and the attributable proportion of indirect overheads.

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. Deferred tax is not recognised when assets are revalued unless, by the balance sheet date, the company has entered into a binding agreement to sell the assets and recognised the gains and losses expected to arise on sale or where assets have been sold and it is expected that the taxable gain will be rolled over into a replacement asset.

**Pension costs and other post-retirement benefits**

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.
