S J Charlton

29 March 2016

The annexed notes form part of these financial statements.

CHARLTON REFRIGERATION SERVICES LIMITED

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2015

1. Accounting policies

Basis of preparing the financial statements

The accounts have been prepared in accordance with the Financial Reporting Standard for Smaller Entities (Effective January 2015).

Turnover

Turnover represents income receivable for goods and services provided in the period, exclusive of Value Added Tax and trade discounts. Income from the sale of goods and services is recognised at the date the service is complete.

Fixed assets

A full year's depreciation is charged in the year of acquisition of an asset but none in the year of disposal. Depreciation has been computed to write off the cost of fixed assets over their expected useful lives at the following rates:-

Plant and machinery 25% per annum reducing balance

Fixtures and fittings 25% per annum straight line

Motor vehicles 25% per annum reducing balance

Stocks and work in progress

Stocks and work in progress are valued consistently at the lower of cost (on a first in, first out basis) or net realisable value. Cost, where appropriate, includes a proportion of directly attributable overheads.

Leasing

Leasing rentals payable on agreements which transfer substantially all the risk and rewards associated with ownership of the lessee ("finance leases") are capitalised within fixed assets, and the obligation to pay future rentals included in creditors as a liability. The interest charges implicit in such a lease are written off to the profit and loss account in proportion to the balance outstanding during the year. All other leasing rentals ("operating leases") are written off to the profit and loss account over the life of the lease.

Deferred taxation

Deferred tax assets and liabilities have arisen from timing differences between the recognition of gains and losses in the financial statements and their recognition in a tax computation. Full provision is made for all liabilities, and provision is made for assets to the extent that they are considered more likely than not to be recoverable in the foreseeable future. Provision is made using tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based upon rates enacted at the balance sheet date.

2. Tangible fixed assets

	Total
Cost	
At start of period	128,075
Additions	<u>2,160</u>

At end of period	<u>130,235</u>
<i>Depreciation</i>	
At start of period	69,469
Provided during the period	<u>15,927</u>
At end of period	<u>85,396</u>
