For the year ending 31 December 2020 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors responsibilities:

- The members have not required the company to obtain an audit of its financial statements for the year in question in accordance with section 476;
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of financial statements.

These financial statements have been prepared and delivered in accordance with the provisions applicable to companies subject to the small companies' regime and in accordance with FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

In accordance with section 444 of the Companies Act 2006, the statement of comprehensive income has not been delivered.

These financial statements were approved by the board of directors and authorised for issue on 24 September 2021 , and are signed on behalf of the board by:

Mr N C Nutt

Director

Company registration number: 06345870

ALLBOAT SERVICES LIMITED

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2020

1. General information

The company is a private company limited by shares, registered in England and Wales. The address of the registered office is Unit C2 Apollo Court, Neptune Park, Plymouth, Devon, PL4 0SJ.

Principal activity

The principal activity of the company is the maintenance, repairs and servicing to all types of marine craft, installation and sales and servicing of marine equipment.

2. Statement of compliance

These financial statements have been prepared in compliance with the provisions of FRS 102, Section 1A, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis. The financial statements are prepared in sterling, which is the functional currency of the entity.

Judgements and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Accounting estimates and assumptions are made concerning the future and, by their nature, will rarely equal the related actual outcome.

Turnover

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have transferred to the buyer, usually on despatch of the goods; the amount of revenue can be measured reliably; it is probable that the associated economic benefits will flow to the entity and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

Taxation

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively. Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

Operating leases

Lease payments are recognised as an expense over the lease term on a straight-line basis. The aggregate benefit of lease incentives is recognised as a reduction to expense over the lease term, on a straight-line basis.

Tangible assets

Tangible assets are initially recorded at cost, and is subsequently stated at cost less any accumulated depreciation and any accumulated impairment losses.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Website development	-	15 Year straight line
Plant and machinery	-	25 % reducing balance
Fittings fixtures and equipment	-	10 Year straight line
Motor vehicles	-	25 % reducing balance
Computer equipment	-	4 Year straight line

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of tangible assets, the depreciation is revised prospectively to reflect the new estimates.

Impairment

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date. When it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs. The cash-generating unit is the smallest identifiable group of assets that includes the asset and generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stocks to their present location and condition.

Government grants

Government grants are recognised at the fair value of the asset received or receivable. Grants are not recognised until there is reasonable assurance that the company will comply with the conditions attaching to them and the grants will be received. Government grants are recognised using the accrual model and the performance model. Under the accrual model, government grants relating to revenue are recognised on a systematic basis over the periods in which the company recognises the related costs for which the grant is intended to compensate. Grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the entity with no future related costs are recognised in income in the period in which it becomes receivable. Grants relating to assets are recognised in income on a systematic basis over the expected useful life of the asset. Where part of a grant relating to an asset is deferred, it is recognised as deferred income and not deducted from the carrying amount of the asset. Under the performance model, where the grant does not impose specified future performance-related conditions on the recipient, it is recognised in income when the grant proceeds are received or receivable. Where the grant does impose specified future performance-related conditions on the recipient, it is recognised in income only when the performance-related conditions have been met. Where grants received are prior to satisfying the revenue recognition criteria, they are recognised as a liability.

Provisions

Provisions are recognised when the entity has an obligation at the reporting date as a result of a past event; it is probable that the entity will be required to transfer economic benefits in settlement and the amount of the obligation can be estimated reliably. Provisions are recognised as a liability in the statement of financial position and the amount of the provision as an expense. Provisions are initially measured at the best estimate of the amount required to settle the obligation at the reporting date and subsequently reviewed at each reporting date and adjusted to reflect the current best estimate of the amount that would be required to settle the obligation. Any adjustments to the amounts previously recognised are recognised in profit or loss unless the provision was originally recognised as part of the cost of an asset. When a provision is measured at the present value of the amount expected to be required to settle the obligation, the unwinding of the discount is recognised in finance costs in profit or loss in the period it arises.

Financial instruments

A financial asset or a financial liability is recognised only when the company becomes a party to the contractual provisions of the instrument. Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Defined contribution plans

Contributions to defined contribution plans are recognised as an expense in the period in which the related service is provided. Prepaid contributions are recognised as an asset to the extent that the prepayment will lead to a reduction in future payments or a cash refund. When contributions are not expected to be settled wholly within 12 months of the end of the reporting date in which the employees render the related service, the liability is measured on a discounted present value basis. The unwinding of the discount is recognised in finance costs in profit or loss in the period in which it arises.

4. Employee numbers

The average number of persons employed by the company during the year amounted to 7 (2019: 8).

5. Tangible assets

	Plant and machinery	Fixtures, fittings and equipment	Motor vehicles	Computer equipment	Total
	£	£	£	£	£
Cost					
At 1 January 2020	7,435	25,417	34,088	71,100	138,040
Additions	-	265	-	-	265
At 31 December 2020	7,435	25,682	34,088	71,100	138,305
Depreciation					
At 1 January 2020	6,960	19,187	20,251	49,680	96,078
Charge for the year	119	650	3,459	1,478	5,706
At 31 December 2020	7,079	19,837	23,710	51,158	101,784
Carrying amount					
At 31 December 2020	356	5,845	10,378	19,942	36,521
At 31 December 2019	475	6,230	13,837	21,420	41,962

6. Debtors

	2020	2019
	£	£
Trade debtors	12,217	21,563
Other debtors	41,600	11,054
	<u>53,817</u>	<u>32,617</u>

7. Creditors: amounts falling due within one year

	2020	2019
	£	£
Bank loans and overdrafts	15,981	10,000
Trade creditors	63,799	65,292
Accruals and deferred income	2,318	2,000
Social security and other taxes	10,381	12,240
Other creditors	398	6,951
	<u>92,877</u>	<u>96,483</u>

8. Creditors: amounts falling due after more than one year

	2020	2019
	£	£
Bank loans and overdrafts	75,747	34,999

The bank loan is secured by way of a personal guarantee from the director N Nutt and the company secretary.

9. Reserves

Profit and loss account: This reserve records retained earnings and accumulated losses.

10. Other financial commitments

As at 31 December 2020 the company had non-cancellable commitments totalling £145,000 (2019: £165,000).

11. Directors advances, credits and guarantees

During the year the directors entered into the following advances and credits with the company:

	Loans to / (from) directors at 1 January 2020 £	Loans to / (from) the directors £	Balance at 31 December 2020 £
Directors	(6,336)	14,070	7,734
	Loans to / (from) directors at 1 January 2019 £	Loans to / (from) the directors £	Balance at 31 December 2019 £
Directors	(18,647)	12,311	(6,336)

12. Material uncertainty relating to going concern - COVID-19

The continued impact of the global Coronavirus outbreak that was declared a world health emergency by the World Health Organisation in January 2020 should be noted. In March 2020, November 2020 and again in January 2021, the UK government implemented travel restrictions and other guidance in an attempt to reduce the spread of the virus, which has impacted, and continues to impact, the UK economy significantly. The financial impact of this developing situation in the subsequent period will be reflected in the financial statements of the corresponding subsequent period.
