HALEWOOD WINES AND SPIRITS PLC

STRATEGIC REPORT

BUSINESS REVIEW

Halewood Wines and Spirits PLC (Halewood) has grown its revenues by 26% and achieved EBITDA growth of 15% in the financial period to June 2019. The results are driven by a strong performance of Whitley Neill Gin in the core UK market.

The Group strategy remains focused on premium artisanal spirits with strong provenance and brand marketing. We continue to invest in Route to Market distribution and vertical integration in core markets with "boots on the ground". During 2019, the Group invested in production capability in distilling and craft beer as well as brand acquisitions. Whitley Neill Gin has become the UK's number one premium gin and continues to dominate the growing flavoured gin category. In the UK, Halewood has delisted non-profitable lines particularly in the low margin 'Ready to Drink' category resulting in artisanal spirits becoming the leading category. In addition, international expansion in North America, Russia, China and Australia through acquisitions and investment in sales infrastructure will yield positive results in the coming years.

The shareholders and senior managers decided that the sale of the business was not in the best interests of the Group due to significant growth opportunities in artisanal spirits. This decision resulted in one off deal costs and contractual management incentive payments in return for a long term commitment from senior managers.

H&A Prestige has performed well as the demand for specialised packaging and new artisanal spirits has increased. Construction is progressing well for our Crabbies' Scottish Whisky Distillery in Edinburgh and the Bankhall English Whisky Distillery in Blackpool both scheduled to be completed by the end of the year.

South Africa has achieved strong growth in spirits, particularly Belgravia Gin, in 2019, despite political and economic headwinds and has invested in canning and distilling capabilities.

A key objective for the Group is to generate growth in earnings before interest, taxation, depreciation, amortisation and other one off costs (adjusted EBITDA) period on period. The following table summarises turnover and adjusted EBITDA for each of the last 2 periods:

	2019 £'000	2018 £'000
Turnover	334,986	265,151
Operating profit	8,528	14,341
Depreciation	6,767	6,846
Amortisation	2,129	1,691
One off deal fees and contractual management incentive payments	8,906	-
Adjusted EBITDA	26,330	22,878

Key performance indicators

The directors consider the key performance indicators of the Group to be Gross Margin, Adjusted EBITDA and operating cash flows which are documented on pages 10 to 15. The KPI targets were achieved during the period and future targets are based on further growth and continued implementation of strategy.

The Group monitors closely cash flow from operating activities. During the period, the cash outflow from operating activities amounted to £25,334K (2018: £22,581K) as the business invested in new distilling capacity, acquisitions and working capital.

HALEWOOD WINES AND SPIRITS PLC STRATEGIC REPORT

FUTURE OUTLOOK

The Group will continue to focus on its successful strategy of new product development in artisanal spirits, combined with key brand acquisitions. Acquisitions and investment into distilling, brewing and production capability over the last three periods in gin, vodka, rum and whisky on a global basis will provide future opportunities in these high margin, high growth long term categories. Consumers globally have shown continued interest in craft brands with strong and local provenance.

The Group plans further vertical integration and global investment in its distilling capability to enhance the artisanal spirits portfolio. Geographical expansion in new and existing markets with initial focus on Russia, China, USA and Australia will improve margins and rate of growth.

By developing an artisanal spirits portfolio at multiple price points and operating in core geographical regions, especially Australia, China, South Africa, Russia and the US, the Group expects to mitigate risk from competition, changes in consumers' tastes and the impact of Brexit.

PRINCIPAL RISKS AND UNCERTAINTIES

The management of the business and the execution of the Group's strategy are subject to a number of risks. The key business risks affecting the Group are considered to relate to competition from other operators and industry developments.

Competitor risk

Competitor risk manifests itself in the form of competing brands in the same category all competing for the consumers' spend. The Group ensures that there is a constant pipeline of new products to bring to market and that it is investing in current brands.

Credit risk

The Group's credit risk is primarily attributable to its trade receivables and it has implemented policies that require appropriate credit checks on potential customers before services are provided and credit insurance.

Taxation risk

As a producer and distributor of alcoholic beverages the Group is exposed to the taxation risk associated with these products. In order to mitigate the risk the Group maintains a diverse portfolio of products within different alcohol duty classifications. In addition the Group is represented on various trade bodies.

Interest rate risk

The Group has interest bearing liabilities, which are linked to LIBOR, and does not consider itself to be exposed to any significant interest cash flow risk given interest coverage from earnings. The directors will revisit the appropriateness of this policy should the Group's operations change in size or nature.

Currency risk

As the Group sells and operates in multiple markets around the globe it is exposed to movements in key currencies, in particular the Euro, Australian dollar, Russian Rouble, US Dollar and South African Rand. This risk is managed at a Group level with forward contracts taken out to manage the risk. The Group has a number of contracts open at 30 June 2019, as disclosed in note 28.

Liquidity risk

The Group ensures availability of funding through an appropriate amount of committed facilities that are designed to ensure the Group has sufficient available funds for operations.

DIRECTORS' RESPONSIBILITIES STATEMENT

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland". Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

AUDITOR AND DISCLOSURE OF INFORMATION TO AUDITOR

Each of the persons who are directors at the date of approval of this annual report confirms that:

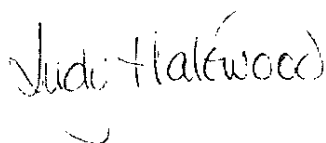

- so far as the director is aware there is no relevant audit information of which the company's auditor is unaware; and
- the director has taken all the steps that he/she ought to have taken as a director in order to make himself/herself aware of any relevant audit information and to establish that the company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

A resolution to reappoint Deloitte LLP will be proposed at the forthcoming Annual General Meeting.

APPROVAL

The Directors' Report was approved by the Board on 20 December 2019 and signed on its behalf by:

HALEWOOD WINES AND SPIRITS PLC
INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF HALEWOOD WINES AND SPIRITS PLC

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

OPINION

In our opinion the financial statements of Halewood Wines and Spirits Plc (the 'parent company') and its subsidiaries (the 'Group'):

- give a true and fair view of the state of the Group's and of the parent company's affairs as at 29th June 2019 and of the group's profit for the 52 week period then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the consolidated profit and loss account;
- the consolidated statement of comprehensive income;
- the consolidated and parent company balance sheets;
- the consolidated and parent company statements of changes in equity;
- the consolidated cash flow statement; and
- the related notes 1 to 34.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the Group and the parent company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

CONCLUSIONS RELATING TO GOING CONCERN

We are required by ISAs (UK) to report in respect of the following matters where:

- the directors' use of the going concern basis of accounting in preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Group's or the parent company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of these matters.

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

HALEWOOD WINES AND SPIRITS PLC

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF HALEWOOD WINES AND SPIRITS PLC

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact.

We have nothing to report in respect of these matters.

RESPONSIBILITIES OF DIRECTORS

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

OPINIONS ON OTHER MATTERS PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial period for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the Group and of the parent company and their environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

HALEWOOD WINES AND SPIRITS PLC
INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF HALEWOOD WINES AND SPIRITS PLC

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

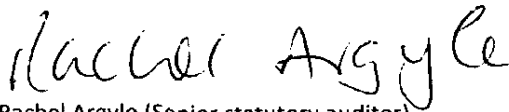

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

USE OF OUR REPORT

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS

For the 52 week period ended 29 June 2019

1. ACCOUNTING POLICIES

Halewood Wines and Spirits PLC, a privately owned company limited by shares, is incorporated in England and the address of the registered office is given on page 1. The principal accounting policies are summarised below. They have all been applied consistently throughout the current and preceding period. The functional currency of Halewood Wines and Spirits PLC is considered to be pound sterling as that is the currency of the primary economic environment in which the company operates. The consolidated financial statements are also presented in pound sterling. Foreign operations are included in accordance with the policies set out below.

Audit Exemption

A number of subsidiary undertakings consolidated as at 29 June 2019, are claiming exemption from audit under section 479A Companies Act 2006, please refer to note 13 for details.

Basis of accounting

The financial statements have been prepared under the historical cost convention, modified to recognise financial instruments at fair value and in accordance with applicable law and Financial Reporting Standard 102 (FRS 102) issued by the Financial Reporting Council.

Basis of consolidation

The Group financial statements consolidate the financial statements of the company and its subsidiary undertakings drawn up to 29 June 2019. The results of subsidiaries acquired or sold are consolidated for the periods from or to the date on which control passed. Acquisitions are accounted for under the acquisition method unless the subsidiary is held exclusively with a view to subsequent resale and the subsidiary has not previously been consolidated. Where a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

Halewood Wines and Spirits PLC meet the definition of a qualifying entity under FRS 102 and is therefore taking advantage of the disclosure exemptions available to it in respect of its separate financial statements, which are presented alongside the consolidated financial statements. Exemptions have been taken in relation to presentation of the cash flow statement, financial instruments and remuneration of the key management personnel.

Going concern

The Group meets its day-to-day working capital requirements through a combination of bank overdrafts secured over debts and stock and loans secured over mixed assets, (refer to Note 19). The Group's forecasts and projections, taking account of possible changes in trading performance, show that the Group and company are expected to be able to operate within the level of funding available. On 29 November 2018 the Group completed on a re-financing agreement with Investec Bank PLC, and also secured additional finance on 20 November 2019. The facility has a minimum term of 60 months from commencement date.

The directors manage liquidity risk by performing regular cash flow forecasting and consistently reviewing operations. The Group's cash position at 29 June 2019 was £4.5m (2018: £10.0m). Debt has increased from £44.6m at 30 June 2018 to debt of £81.0m at 29 June 2019. Overall net debt as at 29 June 2019 is £76.5m from £34.6m as at 30 June 2018.

In carrying out their duties in respect of going concern, the directors have carried out a review of the Group's financial position and cash flow forecast for a period of 12 months from the date of signing these financial statements. These have been based on a comprehensive review of revenue, expenditure and cash flows, taking into account specific business risks and the uncertainties brought about by the current economic environment.

NOTES TO THE FINANCIAL STATEMENTS

For the 52 week period ended 29 June 2019

1. ACCOUNTING POLICIES (continued)

Having taken all of the above factors into consideration, the directors have reached a conclusion that the Group is able to manage its business risks. Accordingly, they continue to adopt the going concern basis in preparing the annual report and financial statements.

Capital grants

Capital government grants received are treated as deferred income and released to the profit and loss account over the expected useful lives of the assets to which they relate.

Turnover

Turnover comprises sales to customers less discounts and allowances and is net of value added tax. Turnover is recognised upon despatch of goods.

Interest revenue

Interest income is recognised when it is highly probable that the economic benefits will flow to Group and the amount of the revenue can be measured reliably. Interest income is accrued on a timely basis, by reference to the principle outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Interest payable

Interest payable is accrued on a timely basis, by reference to the principle outstanding and at the effective interest rate agreed with the lenders.

Goodwill

Positive goodwill is the excess of the cost of an acquired entity over the aggregate of the fair values of that entity's identifiable assets and liabilities. Positive goodwill, where treated as an asset, is amortised on a straight line basis of ten years, which has been determined by the Directors as their best estimate of its useful economic life. In addition to systematic amortisation, the book value is written down to recoverable amount when any impairment is identified.

Negative goodwill is similarly included in the balance sheet and is credited to the profit and loss account in the periods in which the acquired non-monetary assets are recovered through depreciation or sale. Negative goodwill in excess of the fair values of the non-monetary assets acquired is credited to the profit and loss account in the periods expected to benefit.

Intangible assets

Brand and intellectual property rights (IPR), and customer databases are valued at cost on acquisition and are amortised on a straight line basis over their estimated useful economic lives of five years.

Tangible fixed assets

Tangible fixed assets are stated at cost, net of depreciation and any provision for impairment.

Depreciation is provided evenly on the cost (or valuation where appropriate) of tangible fixed assets, to write them down to their estimated residual values over their expected useful lives. Where there is evidence of impairment, fixed assets are written down to their recoverable amount. Any such write down would be charged to operating profit unless it was a reversal of a past revaluation surplus in which case it would be taken to the statement of comprehensive income. No depreciation is provided on freehold land. The principal annual rates used for other assets are:

- | | |
|-------------------------|---------------------------------------|
| • Freehold buildings | 2% straight line on cost or valuation |
| • Leasehold buildings | Over lease period |
| • Fixtures and fittings | 15% to 25% straight line on cost |
| • Plant and machinery | 10% to 25% straight line on cost |

NOTES TO THE FINANCIAL STATEMENTS
For the 52 week period ended 29 June 2019

1. ACCOUNTING POLICIES (continued)

Investments

Fixed asset investments are shown at cost less provision for impairment. Current asset investments are stated at the lower of cost and net realisable value.

In the Group financial statements investments in joint ventures are accounted for using the equity method. Investments in joint ventures are initially recognised at the transaction price (including transaction costs) and are subsequently adjusted to reflect the Group's share of the profit or loss and other comprehensive income of the associate. Goodwill arising on the acquisition of associates is accounted for in accordance with the policy set out above.

Stocks

Stocks are stated at the lower of cost and net realisable value. Cost includes any expenses incurred in bringing each product to its present location and condition using a first in, first out (FIFO) basis. Net realisable value is based on estimated selling price less further costs of disposal.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised where the recoverability against future taxable profits is considered to be more likely than not.

Deferred tax is recognised in respect of the retained earnings of overseas subsidiaries and associates only to the extent that, at the balance sheet date, dividends have been accrued as receivable or a binding agreement to distribute past earnings in future has been entered into by the subsidiary or associate.

Foreign currencies

Transactions in foreign currencies are recorded at the rate of exchange at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are reported at the rates of exchange prevailing at that date.

The results of overseas operations are translated at the average rates of exchange during the period and their balance sheets at the rates ruling at the balance sheet date. Exchange differences arising on translation of the opening net assets and results of overseas operations and on foreign currency borrowings are reported in the statement of comprehensive income. All other exchange differences are included in the profit and loss account.

NOTES TO THE FINANCIAL STATEMENTS
For the 52 week period ended 29 June 2019

1. ACCOUNTING POLICIES (continued)

Leases

Assets held under finance leases and other similar contracts, which confer rights and obligations similar to those attached to owned assets, are capitalised as tangible fixed assets and are depreciated over the shorter of the lease terms and their useful lives. The capital elements of future lease obligations are recorded as liabilities, while the interest elements are charged to the profit and loss account over the period of the leases to produce a constant rate of charge on the balance of capital repayments outstanding. Hire purchase transactions are dealt with similarly, except that assets are depreciated over their useful lives.

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis. Benefits received and receivable as an incentive to sign an operating lease are similarly spread on a straight-line basis over the lease term, except where the period to the review date on which the rent is first expected to be adjusted to the prevailing market rate is shorter than the full lease term, in which case the shorter period is used.

Bank borrowings

Interest-bearing bank loans and overdrafts are recorded at the proceeds received, net of direct issue costs. Finance charges, including premiums payable on settlement or redemption and direct issue costs, are accounted for on an accrual basis in profit or loss account using the effective interest method and are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise.

Pensions

The Group contributes to defined contribution pension arrangements (including stakeholder equivalent arrangements) on behalf of employees. The assets of these schemes are held separately from those of the Group in independently administered funds. The pension cost for these schemes represents contribution payable in the period.

Associates

In the Group financial statements investments in associates are accounted for using the equity method. Investments in associates are initially recognised at the transaction price (including transaction costs) and are subsequently adjusted to reflect the Group's share of the profit or loss and other comprehensive income of the associate. Goodwill arising on the acquisition of associates is accounted for in accordance with the policy set out above. Any unamortised balance of goodwill is included in the carrying value of the investment in associates.

In the company financial statements investments in associates are accounted for at cost less impairment.

NOTES TO THE FINANCIAL STATEMENTS
For the 52 week period ended 29 June 2019

1. ACCOUNTING POLICIES (continued)

Financial instruments

The Group has chosen to adopt Sections 11 and 12 of FRS 102 in respect of financial instruments.

Financial assets

Basic financial assets are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Such assets are subsequently carried at amortised cost using the effective interest method.

At the end of each reporting period financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

Financial assets are derecognised when (a) the contractual rights to the cash flows from the asset expire or are settled, or (b) substantially all the risks and rewards of the ownership of the asset are transferred to another party or (c) despite having retained some significant risks and rewards of ownership, control of the asset has been transferred to another party who has the practical ability to unilaterally sell the asset to an unrelated third party without imposing additional restrictions.

Financial liabilities

Basic financial liabilities are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt is measured at the present value of the future receipts discounted at a market rate of interest.

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one or less. If not, there are presented as non-current liabilities. Trade payables are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

The company uses derivatives to hedge its exposure to changes in foreign currency exchange rates. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. Changes in the fair value of derivatives are recognised in profit or loss, unless they are included in a hedging arrangement.

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

NOTES TO THE FINANCIAL STATEMENTS

For the 52 week period ended 29 June 2019

1. ACCOUNTING POLICIES (continued)

Related party transactions

The company discloses transactions with related parties which are not wholly owned within the same Group. It does not disclose transactions with members of the same Group that are wholly owned.

2. STATEMENT OF COMPLIANCE

The financial statements of Halewood Wines and Spirits PLC have been prepared in accordance with United Kingdom Accounting Standards, including Financial Reporting Standard FRS 102, "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" ("FRS 102"), and the Companies Act 2006.

3. CRITICAL ACCOUNTING JUDGEMENTS AND ESTIMATION UNCERTAINTY

In the application of the company's accounting policies, which are described in note 1, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

- i. Critical judgements in applying the company's accounting policies - the directors do not consider there to be any critical accounting judgements that must be applied.
- ii. Key accounting estimates and assumptions – the directors do not consider there to be any key accounting estimates and assumptions that require further analysis.

4. TURNOVER

The analysis of turnover by distribution, split by geographical market, all of which relates to the principal activity, is as follows:

	52 weeks ended 29 June 2019 £'000	52 weeks ended 30 June 2018 £'000
United Kingdom	231,011	180,235
Other EC countries	7,021	20,079
Rest of Europe	5,544	7,231
Other	91,410	57,606
	334,986	265,151

Segmental reporting of the origins of turnover and profit by geographical area has not been provided. In the opinion of the directors, such disclosure would be seriously prejudicial to the interests of the Group, and has therefore not been disclosed as permitted by FRS 102.

Effect of a change in the tax rates	(66)	(38)
Total deferred taxation	<u>406</u>	<u>579</u>
Total taxation on profit	<u>3,585</u>	<u>2,773</u>

The standard rate of tax applied to reported profit is 19% (2018: 19%).

The Finance Act 2016 enacted a reduction in main rate to 17% with effect from 1 April 2020. Deferred tax has therefore been provided at a rate of 17% for UK entities.

During the period beginning 30 June 2019, the net increase of the deferred tax assets and liabilities is expected to increase the corporation tax charge for the period by £288k. (2019 267k) This is mainly due to fixed asset timing differences.

The difference between the total tax charge shown above and the amount calculated by applying the standard rate of UK corporation tax to the profit before tax is shown on the following page.

Derivative financial instruments

The Group enters into derivative financial instruments to hedge against certain risks, such as exchange rate volatility, through forward contracts. Although the instruments represent hedge arrangements, the Group does not apply hedge accounting and, therefore, movements in the fair value of such instruments are recognised in the profit and loss account. During the period ended 29 June 2019 the Group entered into forward foreign currency contracts to mitigate the exchange rate risk for certain foreign currency payables. At 29 June 2019, the outstanding contracts all mature within 18 months of the period end. The forward currency contracts are measured at fair value, which is determined using valuation techniques that utilise observable inputs. The key inputs used in valuing the derivatives are the forward exchange rates. The fair value of the forward-foreign currency contracts is an asset of £125K (2018: liability £48K).
