NOTES TO THE ACCOUNTS
for the year to 31 March 2016

1. ACCOUNTING POLICIES

Accounting convention

The accounts have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Cash flow statement

The Director has taken advantage of the exemption in Financial Reporting Standard No 1 (Revised 1996) from including a cash flow statement in the accounts on the grounds that the Company is small.

Deferred taxation

Deferred taxation is provided on all timing differences, without discounting, calculated at the rate at which it is estimated that tax will be payable, except where otherwise required by accounting standards.

Going concern

Given the accumulated losses, the Company is dependent upon its Shareholder to support its operations. Having reviewed the projections of the Company, together with the management results of the Company from the balance sheet date the Director is confident that the business has adequate resource to fund its activities. As such, these Financial Statements do not reflect any adjustments which would have to be made should this going concern basis prove inappropriate, whereby adjustments would have to be made to reduce the value of assets to their realisable amount to provide further liabilities which might arise, and to reclassify fixed assets and long term liabilities as current assets and current liabilities.

2. TURNOVER

The trading income represents realised profits and losses on dealing in equity financial options and futures, together with provisions for any foreseeable losses arising on open positions. At maturity or upon exercise, the option premia, net of any released gains on exercise, are taken to the profit and loss account. Unrealised profits on trading are not recognised in the accounts.

The turnover and operating profit for the period was derived from the Company's principal continuing activity which was carried out wholly in the UK.
