1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with FRS 102, The Financial Reporting Standard applicable in the UK and Republic of Ireland (as applied to small entities by section 1A of the standard).

Turnover

Turnover represents the value of grants and donations received from various sources including, income from campaigns and reimbursements from and the company's associated not for profit company

Debtors

Short term debtors are measured at transaction price (which is usually the invoice price), less any impairment losses for bad and doubtful debts. Loans and other financial assets are initially recognised at transaction price including any transaction costs and subsequently measured at amortised cost determined using the effective interest method, less any impairment losses for bad and doubtful debts.

Creditors

Short term creditors are measured at transaction price (which is usually the invoice price). Loans and other financial liabilities are initially recognised at transaction price net of any transaction costs and subsequently measured at amortised cost determined using the effective interest method.

Pensions

Contributions to defined contribution plans are expensed in the period to which they relate.

6 Going Concern

The financial statements have been prepared on the going concern basis on the directors assumption that this not for profit company will continue to meet its obligations as they fall due. This depends on sympathetic individuals and Christian groups continuing to donate gifts to fund CLC's working capital requirements.

These donations are vital for the survival and on going function of the company until income streams can be increased, or funds injected by strategic partners to fund the accumulated deficit. At the date that the accounts were approved the company was still fully operational and that the year end creditors had been satisfied by subsequent donations.
