Strategic Report

Review of the business

The principal activity of the Monster Energy Europe Limited ("the Company") during the year has been the marketing of energy drinks across Europe, the Middle East and Africa.

The business has achieved its goals in 2018 involving further expansion and investment in support of group activities and continuing with the successful integration of the agreement with The Coca-Cola Company ("TCCC"). The directors anticipate the continuation of this model as the group continues to expand into further new markets. More information on Group results can be found on: http://investors.monsterbevcorp.com/static-files/cf736c53-16ff-4e17-b12c-bada8016d506

In the opinion of the directors, the key performance indicator of the company is increase in profit. In the year to 31 December 2018, the company's profit increased by £2,170,694 (43%) from £5,073,404 in 2017 to £7,244,098 in 2018 due to the above-mentioned expansion and investment. Revenue is earned on a cost-plus basis, all costs are recharged to the parent company, Monster Energy Limited.

As at 31 December 2018, the company had net assets of £42,086,550 (2017: £31,493,469) and cash at bank and in hand of £18,585,239 (2017: £16,809,071).

Going concern

The directors view the company as continuing in business for the foreseeable future with neither the intention nor the necessity of liquidation, ceasing trading or seeking protection from creditors.

The company is reliant on a group intercompany service agreement and has obtained a written confirmation from its intermediate parent company guaranteeing that it will provide financial support to the company for a period of at least 12 months from the date of approving these financial statements if required. The company continues to receive a high level of commitment to support the growth of the Energy brands across Europe and other territories from its immediate parent Monster Energy Limited (Incorporated in Ireland) and its ultimate parent Monster Beverage Corporation, incorporated in the USA. Monster Beverage Corporation is the ultimate controlling party of Monster Energy Europe Limited. The directors consider that the immediate parent company has adequate liquidity and assets to support the company for the foreseeable future and where necessary will make funds available to meet the company's obligations as they fall due.

Principal risks and uncertainties

The company is not directly exposed to price, competition and credit risks as the principal activity during the year has been the provision of marketing services to a group company.

In order to maintain liquidity to ensure that sufficient funds are available for ongoing operations, the company uses long term financial support from its immediate parent company, which continues to provide a high level of commitment.

There is exposure to the financial risk of changes in foreign currency exchange rates on intercompany funding and transactions in foreign currency. The company does not operate a hedging policy as its parent company bears the risk of foreign currency fluctuations.

Continued uncertainty in the financial markets and other changes in general economic or political conditions (eg Brexit) in any of the major countries in which we do business could adversely affect our industry, business and results of operations. However, this shouldn't have a significant effect on the Company as revenue is earned on a cost-plus basis, all costs are recharged to the parent company, Monster Energy Limited.

Disabled employees

Applications for employment by disabled persons are always fully considered, bearing in mind the abilities of the applicant concerned. In the event of members of staff becoming disabled every effort is made to ensure that their employment with the Company continues and that appropriate training is arranged. It is the policy of the Company that the training, career development and promotion of disabled persons should, as far as possible, be identical to that of other employees.

Strategic Report (continued)

Employee Consultation

The Company places considerable value on the involvement of its employees and has continued to keep them informed on matters affecting them as employees and on the various factors affecting the performance of the Company. This is achieved through formal and informal meetings, the Company website and annual financial statements. All employees receive discretionary bonuses based on personal and company performance.

Future developments

The directors expect the general level of activity to increase compared with 2018 in the forthcoming year. The business has achieved its goals in 2018 involving steady expansion and investment. This will continue in 2019 as the company enters new markets and expands its marketing activities in existing markets in the EMEA region.

Directors' Report (continued)

Directors

The directors, who served throughout the year and to the date of this report, were as follows:

Guy Carling

Rodney Sacks

Hilton Schlosberg

Neil Shirley

Auditor

Each of the persons who is a director at the date of approval of this report confirms that:

- so far as the director is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- the director has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

A resolution to reappoint Deloitte LLP will be proposed at the forthcoming Annual General Meeting.

Dividends

No dividends were proposed in the year (2017: nil).

Approval of reduced disclosures

The Company, as a qualifying entity, has taken advantage of the disclosure exemptions in FRS 102 paragraph 1.12. The Company's shareholders have been notified in writing about the intention to take advantage of the disclosure exemptions and no objections have been received.

The Company also intend to take advantage of these exemptions in the financial statements to be issued in the following year. Objections may be served on the Company by Monster Energy Limited, as the immediate parent of the entity, or by a shareholder's holding in aggregate 5 per cent or more of the total allocated shares in the Company or more than half of the allotted shares in the entity not held by Monster Energy Limited as the immediate parent. They should be served by no later than 4 September 2019.

Approved by the Board and signed on its behalf by:

Neil Shirley Director

Middlesex, UB6 8UP

Directors' Responsibilities Statement

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law) including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland". Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent Auditor's Report to the Members of Monster Energy Europe Limited

Report on the audit of the financial statements

Opinion

In our opinion the financial statements of Monster Energy Europe Limited (the 'company'):

- give a true and fair view of the state of the company's affairs as at 31 December 2018 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, which comprise:

- the Statement of Comprehensive Income;
- the Balance Sheet;
- the Statement of Changes in Equity; and
- the related notes 1 to 21.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We are required by ISAs (UK) to report in respect of the following matters where:

- the directors' use of the going concern basis of accounting in preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of
 accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of these matters.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material

Independent Auditor's Report to the Members of Monster Energy Europe Limited (continued)

inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in respect of these matters.

Responsibilities of directors

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

Independent Auditor's Report to the Members of Monster Energy Europe Limited (continued)

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the financial statements

For the year ended 31 December 2018

1. Accounting policies

The principal accounting policies are summarised below. They have all been applied consistently throughout the year and the preceding year.

a. General information and basis of accounting

Monster Energy Europe Limited ('the Company') is a private company limited by shares incorporated in the United Kingdom under the Companies Act 2006 and is registered in England and Wales. The address of the registered office is given on page 2. The nature of the Company's operations and its principal activities are set out in the Strategic report on pages 1 to 2.

The financial statements have been prepared under the historical cost convention, modified to include certain items at fair value, and in accordance with Financial Reporting Standard 102 (FRS 102) issued by the Financial Reporting Council.

The functional currency of the Company is considered to be pounds sterling because that is the currency of the primary economic environment in which the Company operates.

The Company meets the definition of a qualifying entity under FRS 102 and has therefore taken advantage of the disclosure exemptions available to it in respect of its separate financial statements. Exemptions have been taken in relation to financial instruments, presentation of a cash flow statement, intra-group transactions and remuneration of key management personnel.

The Company has taken advantage of the exemption from preparing consolidated financial statements afforded by Section 400 of the Companies Act 2016 because it is a wholly owned subsidiary of another company. Group financial statements which include the Company, for Monster Beverage Corporation are publicly available. These may be obtained at 1 Monster Way, Corona, California 92879, USA.

Going concern

The financial statements have been prepared using the going concern basis of accounting. The directors view the company as continuing in business for the foreseeable future with neither the intention nor the necessity of liquidation, ceasing trading or seeking protection from creditors. The company is reliant on a group intercompany service agreement and has obtained a written confirmation from its ultimate parent company guaranteeing that it will provide financial support to the company for a period of at least 12 months from the date of approving these financial statements if required. The company continues to receive a high level of commitment to support the growth of the Energy brands across Europe from its intermediate parent Monster Energy Company and its ultimate parent Monster Beverage Corporation, both incorporated in the USA. The directors consider that the intermediate parent company has adequate liquidity and assets to support the company in the foreseeable future and where necessary will make funds available to meet the company's obligations as they fall due.

Notes to the Financial Statements (continued)

For the Year Ended 31 December 2018

1. Accounting policies (continued)

b. Tangible fixed assets

Tangible fixed assets are stated at cost, net of depreciation and any provision for impairment. Depreciation is provided on all tangible fixed assets, other than investment properties and freehold land, at rates calculated to write off the cost, less estimated residual value, of each asset on a straight-line basis over its expected useful life, as follows:

Leasehold improvements term of lease

Motor vehicles 4 years

Office and computer equipment 3-5 years

Coolers 3 years

Event equipment 3-5 years

Residual value represents the estimated amount which would currently be obtained from disposal of an asset, after deducting estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life.

Assets under construction are accounted for at cost and are not depreciated until the accounting period in which they are brought into use.

c. Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

(i) Financial assets and liabilities

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets and liabilities are only offset in the balance sheet when, and only when there exists a legally enforceable right to set off the recognised amounts and the Company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Debt instruments which meet the following conditions are subsequently measured at amortised cost using the effective interest method:

- (a) The contractual return to the holder is (i) a fixed amount; (ii) a positive fixed rate or a positive variable rate; or (iii) a combination of a positive or a negative fixed rate and a positive variable rate.
- (b) The contract may provide for repayments of the principal or the return to the holder (but not both) to be linked to a single relevant observable index of general price inflation of the currency in which the debt instrument is denominated, provided such links are not leveraged.

Notes to the Financial Statements (continued)

For the Year Ended 31 December 2018

1. Accounting policies (continued)

c. Financial instruments (continued)

- (c) The contract may provide for a determinable variation of the return to the holder during the life of the instrument, provided that (i) the new rate satisfies condition (a) and the variation is not contingent on future events other than (1) a change of a contractual variable rate; (2) to protect the holder against credit deterioration of the issuer; (3) changes in levies applied by a central bank or arising from changes in relevant taxation or law; or (ii) the new rate is a market rate of interest and satisfies condition (a).
- (d) There is no contractual provision that could, by its terms, result in the holder losing the principal amount or any interest attributable to the current period or prior periods.
- (e) Contractual provisions that permit the issuer to prepay a debt instrument or permit the holder to put it back to the issuer before maturity are not contingent on future events, other than to protect the holder against the credit deterioration of the issuer or a change in control of the issuer, or to protect the holder or issuer against changes in levies applied by a central bank or arising from changes in relevant taxation or law.
- (f) Contractual provisions may permit the extension of the term of the debt instrument, provided that the return to the holder and any other contractual provisions applicable during the extended term satisfy the conditions of paragraphs (a) to (c).

Debt instruments that have no stated interest rate (and do not constitute financing transaction) and are classified as payable or receivable within one year are initially measured at an undiscounted amount of the cash or other consideration expected to be paid or received, net of impairment.

With the exception of some hedging instruments, other debt instruments not meeting these conditions are measured at fair value through profit or loss.

Commitments to make and receive loans which meet the conditions mentioned above are measured at cost (which may be nil) less impairment.

Financial assets are derecognised when and only when a) the contractual rights to the cash flows from the financial asset expire or are settled, b) the Company transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the Company, despite having retained some, but not all, significant risks and rewards of ownership, has transferred control of the asset to another party.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

(ii) Investments

Investments in subsidiaries and associates are measured at cost less impairment. For investments in subsidiaries acquired for consideration including the issue of shares qualifying for merger relief, cost is measured by reference to the nominal value of the shares issued plus fair value of other consideration. Any premium is ignored.

(iii) Equity instruments

Equity instruments issued by the Company are recorded at the fair value of cash or other resources received or receivable, net of direct issue costs.

Notes to the Financial Statements (continued)

For the Year Ended 31 December 2018

1. Accounting policies (continued)

d. Impairment of assets

Assets, other than those measured at fair value, are assessed for indicators of impairment at each balance sheet date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss as described below.

Financial assets

For financial assets carried at amortised cost, the amount of impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets carried at cost less impairment, the impairment loss is the difference between the asset's carrying amount and the best estimate of the amount that would be received for the asset if it were to be sold at the reporting date.

Where indicators exist for a decrease in impairment loss, and the decrease can be related objectively to an event occurring after the impairment was recognised, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired financial asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised.

e. Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax liabilities are recognised for timing differences arising from investments in subsidiaries and associates, except where the Company is able to control the reversal of the timing difference and it is probable that it will not reverse in the foreseeable future.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of the timing difference. Deferred tax relating to non-depreciable property, plant and equipment measured using the revaluation model and investment property is measured using the tax rates and allowances that apply to sale of the asset. In other cases, the measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Where items recognised in other comprehensive income or equity are chargeable to or deductible for tax purposes, the resulting current or deferred tax expense or income is presented in the same component of comprehensive income or equity as the transaction or other event that resulted in the tax expense or income.

Notes to the Financial Statements (continued)

For the Year Ended 31 December 2018

1. Accounting policies (continued)

e. Taxation (continued)

Current tax assets and liabilities are offset only when there is a legally enforceable right to set off the amounts and the Company intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are offset only if: a) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and b) the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

f. Turnover

Turnover is stated net of VAT. Turnover from the supply of services represents recharges for marketing services performed across Europe and other territories for another group company and is recognised on an accruals basis. Interest receivable and other income is prepared on an accruals basis.

g. Employee benefits

For defined contribution schemes the amount charged to the statement of comprehensive income in respect of pension costs and other retirement benefits is the contributions payable in the year. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet.

Other long-term employee benefits are measured at the present value of the benefit obligation at the reporting date.

h. Foreign currency

Transactions in foreign currencies are recorded at the rate of exchange at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are reported at the rates of exchange prevailing at that date.

Exchange differences are recognised in profit or loss in the period in which they arise except for:

- exchange differences on transactions entered into to hedge certain foreign currency risks (see above); and
- exchange differences arising on gains or losses on non-monetary items which are recognised in other comprehensive income.

i. Leases

The Company as lessee

Assets held under finance leases, hire purchase contracts and other similar arrangements, which confer rights and obligations similar to those attached to owned assets, are capitalised as tangible fixed assets at the fair value of the leased asset (or, if lower, the present value of the minimum lease payments as determined at the inception of the lease) and are depreciated over the shorter of the lease terms and their useful lives. The capital elements of future lease obligations are recorded as liabilities, while the interest elements are charged to the statement of comprehensive income over the period of the leases to produce a constant periodic rate of interest on the remaining balance of the liability.

Notes to the Financial Statements (continued)

For the Year Ended 31 December 2018

1. Accounting policies (continued)

i. Leases (continued)

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis. Benefits received and receivable as an incentive to sign an operating lease are similarly spread on a straight-line basis over the lease term.

j. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

k. Share-based payment

The Company grants to its employees rights to equity instruments of Monster Beverage Corporation, its ultimate parent company. The required disclosures are therefore included in Monster Beverage Corporation consolidated financial statements. The Company records compensation expense for employee stock options based on the estimated fair value of the options on the date of grant using the Black-Scholes-Merton option pricing formula.

l. Interest Revenue

Interest income is recognised when it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 1, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying the Company's accounting policies

There are no critical judgements, apart from those involving estimations (which are dealt with separately below), that the directors have made in the process of applying the Company's accounting policies and that have significant effect on the amounts recognised in the financial statements.

Key source of estimation uncertainty

There are no key sources of estimation uncertainty.

Notes to the Financial Statements (continued)

For the Year Ended 31 December 2018

9. Tax on profit

The tax charge/(credit) comprises:

	2018	2017
	£	£
Current tax on profit		
UK corporation tax at 19.00% (2017: 19.25%)	2,348,010	456,978
Double tax relief	(365,575)	(132,885)
Foreign tax	498,763	212,589
	2,481,198	536,682
Adjustments in respect of prior years		
UK corporation tax	(982,411)	(472,889)
Foreign tax	79,565	48,158
Total current tax	1,578,352	111,951
Deferred tax		
Origination and reversal of timing differences	(372,589)	(171,998)
Total deferred tax (note 14)	(372,589)	(171,998)
Total tax on profit	1,205,763	(60,047)
		

The standard rate of current tax for the year, based on the United Kingdom standard rate of corporation tax is 19% (2017 - 19.25%).

In recent years, the UK Government has steadily reduced the rate of UK corporation tax, with the latest rates substantively enacted by the balance sheet date being 20% with effect from 1 April 2015, 19% effective from 1 April 2017 and 17% effective from 1 April 2020. The closing deferred tax assets and liabilities have been calculated at 17%, on the basis that this is the rate at which those assets and liabilities are expected to unwind.

Notes to the Financial Statements (continued)

For the Year Ended 31 December 2018

9. Tax on profit (continued)

The difference between the total tax charge/(credit) shown above and the amount calculated by applying the standard rate of UK corporation tax to the profit before tax is as follows:

	2018 £	2017 £
Profit before tax	8,449,861	5,013,357
Tax on profit at standard UK corporation tax rate of 19.00% (2017: 19.25%)	1,605,474	965,424
Effects of: - Expenses not deductible for tax purposes - Share base acquisition - Higher tax rates on overseas earnings - Adjustments to tax charge in respect of previous years	152,479 217,468 133,188 (902,846)	21,395 (701,840) 79,705 (424,731)
Total tax charge/(credit)	1,205,763	(60,047)

Notes to the Financial Statements (continued)

For the Year Ended 31 December 2018

10. Share-based payments

Equity settled share option plan

Certain employees of the Company have been granted Monster Beverage Corporation share options, restricted stock and restricted stock units under the Monster Beverage Corporation 2011 Omnibus Incentive Plan. This plan provided for a grant price equal to the quoted price of Monster Beverage Corporation shares at the date of grant. The vesting period is generally five years. These options are exercisable at such time and in such amounts as determined by the Compensation Committee of the Board of Directors of Monster Beverage Corporation up to a ten-year period after their date of grant.

If the options remain unexercised after a period of ten years from the date of grant the options expire. Options are forfeited if the employee leaves the Company before the options vest.

The company recognised a total expense of £3,348,983 (2017: £3,127,740) related to equity-settled share based payment transactions in the year.

Stock Split

On 14 October 2016, the Group announced a three-for-one stock split of the Company's common stock ("the Stock Split"), to be effected in the form of a 200% stock dividend. The common stock dividend was issued on 9 November 2016 and the Company's common stock began trading at the split adjusted price on 10 November 2016. Accordingly, all per share amounts, average common stock outstanding, common stock outstanding, common stock repurchased and equity-based compensation presented in this disclosure have been adjusted retroactively, where applicable, to reflect the stock split.

Stock Options

Details of the Monster Beverage Corporation share options granted to Monster Energy Europe Limited employees during the year ended 31 December 2018 and 2017 are outstanding are as follows:

	2018		2017		
	Options	Weighted average exercise price US \$	Options	Weighted average exercise price US \$	
Outstanding at beginning of year	1,251,800	37.21	1,461,675	33.69	
Granted during the year	398,500	57.93	89,000	49.08	
Forfeited during the year	(102,125)	46.28	(69,350)	32.54	
Adjustment	-	-	-	-	
Exercised during the year	(72,593)	26.01	(229,525)	19.99	
Outstanding at the end of the year	1,475,582	42.73	1,251,800	37.21	
Exercisable at the end of the year	498,207	30.33	270,225	29.11	

The weighted average exercise price has been expressed in US dollars, as that is the currency in which the options strike price has been granted.

The options outstanding at 31 December 2018 had a weighted average exercise price of \$42.73 (2017: \$37.21) and a weighted average remaining contractual life of 6.91 years (2017: 7.24 years). In the year to 31 December 2018 options were granted on a number of dates. The aggregate of the estimated fair value of the options granted on those dates is \$8,896,183 (2017: \$1,689,046).

Notes to the Financial Statements (continued)

For the Year Ended 31 December 2018

10. Share-based payments (continued)

The inputs into the Black-Scholes-Merton Options Pricing Formula are as follows:

,	2018	2017
Weighted average share price (US \$)	22.32	18.98
Weighted average exercise price (US \$)	57.93	49.08
Expected volatility	34.57%	36.31%
Expected life (years)	6.01	6.07
Risk free rate	2.81%	2.13%
Expected dividend yield	0.00%	0.00%

Expected volatility was determined by calculating the historical volatility of Monster Beverage Corporation share price over a period of time equivalent to the expected term of option. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations.

Restricted Stock Awards and Restricted Stock Units

Stock based compensation cost for restricted stock awards and restricted stock units is measured based on the closing fair market value of the Company's common stock at the date of grant. In the event that the Company has the option and intent to settle a restricted stock unit in cash, the award is classified as a liability and revalued at each balance sheet date

The following table summarizes the Company's activities with respect to non-vested restricted stock awards and non-vested restricted stock units as follows:

		Weighted Average Grant
	Number of Shares	– Date Fair Value
Non-vested at 1 January 2018	6,300	\$ 31.66
Granted	12,000	\$51.50
Vested	(4,050)	\$21.21
Forfeited/cancelled	-	-
Adjustment	<u>-</u>	<u>-</u> _
Non-vested at 31 December 2018	14,250	\$51.34

In the year ended 31 December 2018, 12,000 restricted stock units were granted. As of 31 December 2018, approximately 12,087 of restricted stock units are expected to vest.

At 31 December 2018, total unrecognised compensation expense relating to non-vested restricted stock awards and non-vested restricted stock units was \$0.6 million, which is expected to be recognized over a weighted-average period 4.1 years.

	2018	2017
	£	£
At 1 January 2018	880,670	427,504
Charged to statement of comprehensive income	46,235	453,166
At 31 December 2018	926,905	880,670

Other

Other provisions relate to National Insurance Contributions (NIC) which will become payable on exercise of share options. The share options can be exercised between 1 January 2019 and 1 December 2022. The amount payable is dependent on the Company's share price at the date of exercise of the options. The provision has been calculated based on the share price at the balance sheet date of £36.69 and the assumption that 100 per cent of employees will exercise the share options and that the rate of NIC is 13.8 per cent. There is uncertainty about timing, exchange rate as well as share price and rate of NIC when the share options are actually exercised.

17. Financial instruments

The carrying values of the Company's financial assets and liabilities are summa	arised by category below: 2018	2017
	£	£
Financial assets at amortised cost		
Measured at amortised cost		
Current assets - amounts owed by subsidiary undertakings (note 13)	13,065,972	9,643,660
	13,065,972	9,643,660
Financial liabilities at amortised cost		<u></u>
Measured at amortised cost		
Current liabilities - amounts owed to associates (note 15)	6,534,201	5,443,746
Trade and other payables (note 15)	10,949,323	15,195,322
	17,483,524	20,639,068

Notes to the Financial Statements (continued)

For the Year Ended 31 December 2018

18. Called-up share capital and reserves

	2018	2017
	£	£
Allotted, called-up and fully-paid		
500,000 ordinary shares of £1 each	500,000	500,000

The Company has one class of ordinary shares which carry no right to fixed income.

The Company's other reserve is as follows:

The profit and loss reserve represent cumulative profits or losses, including unrealised profit on the remeasurement of investment properties, net of dividends paid and other adjustments.

19. Financial commitments

Total future minimum lease payments under operating leases are as follows:	2018 Land and buildings	2017 Land and buildings
	£	£
- within one year	724,787	489,870
- between one and five years	1,174,966	1,308,733
	1,899,753	1,798,603

20. Employee benefits

Defined contribution schemes

The Company operates defined contribution retirement benefit schemes for all qualifying employees. The total expense charged to profit or loss in the year ended 31 December 2018 was £702,430 (2017: £646,792). The total amount payable as at 31 December 2018 was £81,786 (2017: £43,980).

21. Controlling party

In the opinion of the directors, the Company's ultimate controlling party and parent Company is Monster Beverage Corporation, a Company incorporated in the USA. The parent undertaking of the largest group, which includes the Company and for which group accounts are prepared, is Monster Beverage Corporation, a Company incorporated in the USA and the registered address 1 Monster Way, Corona, California 92879, USA. The Company's immediate controlling party is Monster Energy Limited, a company incorporated in the Republic of Ireland, which is also the smallest group that the Company is consolidated into. Please see the link to obtain financial statements of Monster Beverage Corporation: http://investors.monsterbevcorp.com/financial-information/annual-reports
