##### **Basis of preparation**

##### **Going concern**

The directors have considered the financial position of the company in view of the results in the year ended 31 October 2019.

The company's ability to continue trading is reliant on Dr J Moore and Dr L Moore, the directors, continuing to support the company through their directors' loan account. The directors have agreed not to seek repayment of the amounts owed to them within 12 months of the date of the accounts where doing so would affect the company's ability to trade.

The directors have considered a period of 12 months from the date of approval of the financial statements and consider it appropriate to prepare the financial statements on the going concern basis.

##### **Revenue recognition**

Turnover represents the amounts, excluding value added tax, derived from the provision of goods and services to customers during the year.

##### **Tax**

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements and on unused tax losses or tax credits in the company. Deferred income tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

The carrying amount of deferred tax assets are reviewed at each reporting date and a valuation allowance is set up against deferred tax assets so that the net carrying amount equals the highest amount that is more likely than not to be recovered based on current or future taxable profit.

##### **Tangible assets**

Tangible assets are stated in the statement of financial position at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.
