NOTES TO THE FINANCIAL STATEMENTS
for the period 22 January 2008 to 31 December 2008

1 ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention

The principal accounting policies are summarised below. They have been applied consistently throughout the period.

Going concern

The financial statements have been prepared on a going concern basis, which assumes the company will be able to meet its liabilities as they fall due, for the foreseeable future.

The current economic conditions have created a number of uncertainties in the market in which the company and group operates, in particular in respect of asset valuations. The company's financing arrangements include valuation covenants amongst other requirements.

The director has acknowledged the latest FRC guidance on going concern during the current economic conditions. The group has prepared forecasts (including those of the company), taking into account reasonably possible changes, which have been reviewed by the director, based on estimates and judgements about the economic environment in which the group operates. In addition, the parent company, Acquire London Limited, has confirmed that it will provide financial support for the company to meet its liabilities for the foreseeable future.

After making enquiries, the director has formed a judgement, at the time of approving the financial statements, that there is a reasonable expectation that the company has access to adequate resources to continue in operational existence for the foreseeable future. Accordingly, the director continues to adopt the going concern basis in preparing the financial statements.

Financial Reporting Standard Number 1

Exemption has been taken from preparing a cash flow statement on the grounds that the company is a wholly owned subsidiary of a parent company preparing consolidated financial statements in which the company is included.

Stocks

Stocks are valued at the lower of cost and net realisable value.

Turnover

Revenue is measured at the fair value of the consideration received or receivable and is stated net of discounts and VAT.

Revenue comprises income in relation to the sale of properties and is recognised on the point of completion.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Rental income

Rental income is recognised on an accruals basis.

2 OPERATING LOSS

The operating loss is stated after charging

Fees payable to the company's auditors for the audit of the company's annual accounts	2,044
