# AI Sky UK Holdco Limited

## Strategic Report

### for the year from 1 January 2021 to 31 December 2021

#### Introduction

The Directors present their strategic report for AI Sky UK Holdco Limited (the "Company") and its subsidiaries (collectively the "Group") for the year from 1 January 2021 and 31 December 2021.

The Company was formed on 4 June 2019 to acquire the existing business of Transaction Services Group Limited ("TSGL"), a United Kingdom registered business. This acquisition completed on 15 October 2019. The financial results for the year ended 31 December 2021 record the 12 months trading since 1 January 2021, while the financial results for the period ending 31 December 2020 record the 9 months of trading from the change of year-end date to that date and are therefore not comparable.

On 1 July 2021 AI Sky UK Midco III Limited ("UK Midco III"), an intermediate parent of the Group that controls and consolidates substantially all of the Group's trading business, completed its merger with Megalo Parent Inc. Megalo Parent Inc consolidates the trading business of Clearent, a USA limited liability company, pursuant to the Merger Agreement. Clearent is a provider of business management software and payment services in the USA. The newly combined business was branded "Xplor Technologies". As part of the business combination AI Sky UK Midco II Limited ("UK Midco II"), the previous immediate parent of UK Midco III, transferred 100% of its shares in UK Midco III to a subsidiary of Xplor Technologies, LLC, the newly incorporated parent company of Xplor Technologies. In exchange for this transfer, Xplor Technologies, LLC issued UK Midco II with shares equating to 49% of the shareholders' equity in Xplor Technologies.

Immediately subsequent to the merger, the Group sold its interest in AI Sky US Bidco Inc, a subsidiary that held the Group's US-domiciled operations, to Xplor T1, LLC. From 1 July 2021 AI Sky UK Holdco ceased to consolidate AI Sky US Bidco Inc and its subsidiaries as controlled entities. The sale of AI Sky US Bidco Inc has been treated by the Group as a disposal of that subsidiary and reported in the current period as a discontinued operation which is disclosed in Note 30.

The merger has had a material impact on the Group's balance sheet and consolidated statement of comprehensive income during the year with the main impacts listed below:

- The Group's loan facilities that were established on 15 October 2019 with various institutional lenders were restructured to now be held at the Xplor Technologies, LLC level. These loan facilities were disclosed as Borrowings on the balance sheet for the period ended 31 December 2020, but due to the restructure were replaced by related party loans which are disclosed as amounts payable to related parties on the balance sheet for the year ended 31 December 2021. The corresponding interest payable on loan facilities were disclosed as Trade and other payables on the balance sheet for the period ended 31 December 2020 but are now disclosed as amounts payable to related parties for the year ended 31 December 2021. Refer to Note 16 and 17.
- As part of the sale of AI Sky US Bidco Inc., an intercompany loan was established between the Group (as lender) and XT1, LLC (as borrower) which is disclosed on the balance sheet as amounts receivable from related parties for the year ended 31 December 2021. Refer to Note 16.
- The Group provides management services to XT1, LLC for which a management fee is charged. This is disclosed as management fee income in the consolidated statement of comprehensive income for the year ended 31 December 2021. Refer to Note 6 and 16.

The Directors are fully aware of their responsibilities to promote the success of the Company in accordance with section 172 of the Companies Act 2006 (the Act). The Directors acknowledge that every decision they make will not necessarily result in a positive outcome for all stakeholders. By considering the Company's strategic priorities and having processes in place for decision-making, they do, however, aim to make sure that their decisions are consistent. For information about the Board's approach to stakeholder engagement, see Consideration and engagement of our stakeholders on page 5.

#### Review of the business

The Group specialises in providing software and integrated payments for the fitness & wellbeing and early education markets. The solutions help fitness clubs, leisure and education centres manage their operations, attract and retain more members, and optimise their payments and revenue. That means they can focus on what they love: their business. We deliver this through a range of world-class software solutions operating across Australasia, the United Kingdom and Europe.

# AI Sky UK Holdco Limited

## Strategic Report

### for the year from 1 January 2021 to 31 December 2021

The full product offering of business management software integrated with payments and other commerce accelerating technologies, such as mobile apps and digital marketing solutions, presents a compelling and comprehensive value proposition for clients and means the business continues to hold a strong competitive advantage.

Historically the Group has seen strong growth in revenue driven by both continued organic expansion and growth through acquiring businesses. However, the COVID-19 pandemic adversely impacted trading to a varying extent in all of the Group's primary markets during the period. The impacts commenced when trading restrictions were enforced in Australasia, the United Kingdom and Europe from late March 2020. The restrictions required many of our clients in the Fitness & Wellbeing industry to temporarily close and freeze subscription memberships, which resulted in the Group's revenue generated from subscription payments from Fitness & Wellbeing clients reducing significantly. The Group's other industries were also impacted to a lesser extent. Restrictions eased in the United Kingdom and Europe through the first half of 2021. Australia and New Zealand continued to see intermittent, regional restrictions through 2021 but at the time of approval of the financial statements, many of these restrictions have lifted.

The Group is continuing to monitor the potential impacts of the COVID-19 pandemic on its business, financial condition and results of operations. To date, the Group has not incurred impairment losses in the carrying values of its assets as a result of the pandemic and it is not aware of any specific event or circumstance that would require it to revise its estimates reflected in these consolidated financial statements. The extent to which the pandemic will continue to affect the business, financial condition and results of operations of the Group will depend on numerous evolving factors that the Group may not be able to accurately predict, and which may cause actual results to differ from estimates and assumptions used in the preparation of the Group's consolidated financial statements.

In response to the reduction in revenue the Group undertook numerous cost management actions, including ceasing certain capital expenditure projects, accelerating the integration of recently acquired businesses and utilising government support schemes. Many of the cost management actions create a run rate benefit and will improve profitability as volumes recover.

To support our clients through the crisis we offered promotions and further development of our Fitness & Wellbeing and Education products that contain online features to enable a continuation of certain services at home through lockdowns.

The health and well-being of all colleagues has remained of utmost importance through the COVID-19 pandemic. Our workforce transitioned easily to working from home and we have been able to provide uninterrupted service to our clients. We also introduced various forms of support for our colleagues and continued to keep them informed on the impact of COVID on the Group.

We continue to expand into new regions where we have identified opportunities, often with established clients who have a market presence. In the next fiscal year, we plan to further establish our business in Japan and continental Europe.

Despite the impact of COVID, the Group has continued to invest in the development and expansion of its flagship products, and colleagues capability across its functions to establish a sound platform for growth. These ongoing investments will ensure the Group is in a strong position to continue winning market share as markets recover from the impact of COVID.

The Group has completed three acquisitions in the period to 31 December 2021. Two businesses offer business management software to the Education markets in Australasia and the third offers data analytics and visualisation tools for the fitness and wellbeing sectors in North America. These acquisitions present opportunities to deliver synergies through integrating with our payments platforms and/or selling software across the Group's broader network.

As the Group sold its interest in AI Sky US Bidco Inc. on 1 July 2021 to another company in the wider Xplor Technologies corporate group, the consolidated statement of comprehensive income has been disaggregated to show the results from continuing operations and discontinued operations separately. The results of AI Sky US Bidco Inc. and its subsidiaries for the period 1 January 2021 to 1 July 2021 are disclosed as profit / (loss) from discontinued operations in the consolidated statement of comprehensive income for the year ended 31 December 2021. The comparative figures in the consolidated statement of comprehensive income for the period 1 April 2020 to 31 December 2020 and corresponding notes have been restated to reflect what continuing operations and discontinued operations would have been to provide a more useful basis for predicting future results.

**AI Sky UK Holdco Limited**  
**Strategic Report**  
**for the year from 1 January 2021 to 31 December 2021**

Overall, the Group revenue for the 12 months ended 31 December 2021 amounted to Australian \$180,326k. The Group reports a loss before income tax from continuing operations of Australian \$(135,665)k. The loss before income tax is impacted by acquisition, integration and restructuring costs associated with the Xplor Technologies merger as well as the Group's business combinations during the year \$(24,215)k, accelerated amortised funding costs of \$(29,764)k as a result of the Group's external debt being refinanced, increased employee costs to support the growth of the business, increased cost of sales consistent with the increase in revenue, and an increase in amortisation of intangible assets due to an increase in intangible assets.

Net assets at 31 December 2021 are Australian \$830,226k.

The key performance indicators ("KPIs") that are regularly monitored by the Group are transaction volume and revenue and are listed below.

\$ are Australian Dollars.

	Group total	
	12 months ended 31 December 2021	9 months ended 31 December 2020
	'000s	'000s
Transaction Volume	\$ 4,795,081	\$ 3,204,919
Revenue	\$ 180,326	\$ 105,368

The merger has also impacted the balance sheet, refer to the main impacts listed on page 2.

Financial performance controls include the preparation and review of detailed monthly management reports, which include measures of revenue by type and by client, and profitability. The financial and non-financial performance of the Group is reviewed on a monthly basis by the Board.

**Environmental, social and governance risks and policy**

As the Group expands through both organic and acquisitive growth the Board recognises the need to establish a clear set of values and approaches with regard to environmental and social matters. These values contribute to how management make decisions that can impact all stakeholders.

The Group seeks to comply with applicable local laws (including labour laws) in the countries in which we either are based or in which we otherwise do business, support the payment of competitive wages and benefits to employees, provide a safe and healthy workplace in conformance with national and local law, and consistent with applicable law, respect the rights of employees to decide whether to join a union and engage in collective bargaining. We also respect the human rights of those affected by our business activities, including ensuring that we do not do business with organisations that utilise child or forced labour, or that have discriminatory policies. The Group has a zero-tolerance approach to bribery, facilitation payments and corruption of any form.

The Group is currently considered a low risk sector for Environmental and Social risks, with higher Governance risks in the areas of data security and governance. A summary of key environment, social and governance risks and associated management actions is summarised below.

*Environmental*

Due to the nature of the Group's business, environmental impact due to emissions, energy and waste management are limited. However, the Group recognises climate change as one of the biggest challenges of our time and we are conscious of our environmental responsibilities. All information in the Group is typically stored electronically. We continuously improve our various digital services solutions, which allows individuals to sign up, manage their account online and pay online. Likewise our customer correspondence is increasingly digital, with email and text messages our preferred channels for communication. These processes have been introduced to reduce the Group's administrative burden, increase efficiency and reduce our carbon footprint. We have initiatives in place to further increase the use of these processes in the future. There are opportunities for cost savings and further reputational enhancement through defining policy more broadly and as the Group carries out the operational integration of acquisitions.

The Group is not required to report on Streamlined Energy and Carbon Reporting matters as this is not material to the Group.

# AI Sky UK Holdco Limited

## Strategic Report

### for the year from 1 January 2021 to 31 December 2021

#### *Social*

Ensuring the Health & Safety of colleagues at all times is an important area of social risk management. During the period management commenced a process analysing health and safety regulation across all markets in which it participates, with the objective of defining a single Group-wide policy.

The Group continues to promote an inclusive and diverse work environment with initiatives to develop LGBTQI+ inclusion, disability inclusion and cultural diversity. During the period the Group appointed a senior leadership position to oversee the further development of inclusion and diversity, and has established Group-wide policy and objectives.

It is important to ensure that clients uphold the same standards as the Group. As part of onboarding a client the Group will follow a "Know Your Customer" approach to client due diligence. This process verifies the nature of the client's business and includes a background check of the client and controlling parties against credit records and sanctions listings.

#### *Governance*

Data security and customer privacy are important areas of risk management for the Group. Breaches in data security or misuse of customer data could cause severe reputational impact or fines from regulatory authorities. The Group has installed leadership roles of General Counsel, Chief Information Security Office and Enterprise Risk Director together with dedicated resource to establish processes across compliance, legal, security and risk and to ensure the ongoing security of data and compliance with privacy laws.

The Group continues to be acquisitive. As part of undertaking due diligence, management will evaluate environmental, public health, safety, and social issues associated with the acquisition target. After an acquisition takes place, the Group will utilise established governance structures to oversee the areas of audit, risk management, and potential conflicts of interest, and to implement policies that align the interests of owners and management.

#### **Consideration and engagement of our stakeholders**

The Board recognises its responsibility to consider the needs and concerns of our stakeholders as part of its discussion and decision-making processes and seeks to deliver value for all stakeholders.

The Group has a broad range of stakeholders who are taken into consideration by the Company during the course of its operations. Our core stakeholder groups are set out below together with points of engagement with each stakeholder group throughout the period.

#### *Clients*

Our clients are the primary beneficiary of the unique value proposition delivered through the combination of our software, payments and services platforms. We regularly engage our clients to understand their business needs and incorporate these into the ongoing development and continuous enhancement of our solutions.

#### *Our Clients' Customers*

Our solutions also serve the needs of our clients' customers, such as the members of a Fitness & Wellbeing location or the caregiver of a child participating in early education. Dependent on the solution being provided to our client, we often engage directly with a client's customers through our software or our contact centres. We also collect various forms of customer data on behalf of our clients, for which we always comply with relevant regulatory requirements for collecting and holding this data.

#### *Colleagues*

Our colleagues and their engagement within the organisation is critically important to the success of the Group. The large number of our colleagues represent the business externally on a daily basis, whether engaging through client support or engaging with our clients' customers through customer service. Furthermore a large number of our colleagues participate in the research and development of the Group's intellectual property, which again directly and indirectly benefits all stakeholders of the Group. The Group recognises the importance of high colleague engagement and colleagues having the skills and knowledge to represent the organisation externally. The Group maintains regular communication with colleagues through various communication platforms, keeping colleagues informed of business performance and strategic objectives. Management actively encourages feedback and engagement in communications and also carries out surveys to seek feedback on engagement. The Group also invests in training and development of

# AI Sky UK Holdco Limited

## Strategic Report

### for the year from 1 January 2021 to 31 December 2021

colleagues. The Group provides a share ownership scheme to certain officers and senior management as disclosed in Note 23.

#### *Shareholders*

We engage with our shareholders through both routine and structured management reporting and also on a continuous basis to keep them informed of material developments in the Group. During this period we have also engaged with our shareholders in relation to assessing and executing each acquisition opportunities.

#### *Suppliers*

We engage with our suppliers on an ongoing basis to ensure continuity of optimal supply and in the negotiation of commercial terms. Many of our suppliers have worked with us during the period COVID-19 has impacted the business to allow an extension of payment terms. Terms with suppliers have now returned to normal.

#### *Communities*

We are mindful of our social responsibility to the community. We continuously engage with the community that interacts with our business, through actively seeking their feedback on satisfaction with our service delivered to them. We also encourage all colleagues to spend a workday each period giving back to the community through working for a charity or community service.

#### *Regulators & Governments*

We engage with regulators and government organisations in a number of areas in the business, including taxation, statutory reporting, subsidies and the maintenance of operating licences in various markets. We have dedicated staff across finance and compliance functions who are responsible for ensuring ongoing compliance with regulatory and government requirements.

### **Future developments**

#### *Outlook and Strategic Focus*

Despite the challenges presented by the COVID-19 pandemic throughout the period the Directors consider the current state of affairs of the Group to be satisfactory and believe that Fitness & Wellbeing markets will recover quickly and that all parts of the Group will return to growth in the near term based on the sustainable, scalable platform that has been developed and the comprehensive portfolio of products.

The Group expects to continue investing in product development, sales and marketing and customer support for its products. Following the merger with Megalo Parent Inc. the Group is working with its sister and parent companies in the wider Xplor Technologies Group to optimize its investment in technology, particularly in respect of its payment platform, and broaden the distribution of products across multiple regions.

#### **Principal risks and uncertainties facing the business**

The Directors acknowledge the importance of dedicating resource to ensure sufficient planning is made to improve operating margins within the Group. Other principal risks and their mitigation are described to be:

#### **Market risk**

Competition within the market creates pricing pressures and potential margin erosion. This risk is managed through continuously improving our software products to strengthen the value proposition for our clients and delivering operational efficiencies through developing more automated and digitalised solutions.

#### **Investment risk**

Failure to invest in infrastructure to meet increasing demands of business growth is an inherent risk of a growing business. Management monitors infrastructure performance and regularly reviews requirements to ensure sufficient resources are available to meet service level commitments and adequately accommodate forecast growth in business demands.

# AI Sky UK Holdco Limited

## Strategic Report

### for the year from 1 January 2021 to 31 December 2021

#### Employee risk

The correct level, mix and retention of staff is required to execute and achieve business strategies and goals. Management ensure key personnel are committed and personal development plans are in place which are specific to their job, measurable on performance and provide challenges which motivate and identify training needs.

Our staff have adapted well to working from home through COVID-19, with many employees now working on this basis either part or full time. Although this has brought personal and work challenges, particularly for those with younger children, living alone or with home not easily adapted to work environments. Due to the regionally distributed nature of our business, our teams were already familiar with online collaboration tools as part of their way of working, so productivity has not been impacted materially. The health and well-being of all colleagues has remained of utmost importance through the COVID-19 pandemic. Maintaining frequent communication with our staff while working remotely has been priority.

#### Regulatory risk

An increasingly complex regulatory and legislative environment increases cost and reduces flexibility. It is common to see reforms of regulation and legislation in our existing markets, such as Brexit in Europe. Similarly, as we expand into new markets, the Group becomes subject to new regulation and legislation. The Group maintains adequate resources to monitor compliance against existing, new and changing regulations and laws.

#### Cyber risk

The Group continually monitors cyber risk. An adverse cyber related event where systems or data are compromised could negatively affect our market reputation or expose us to penalties, liabilities or legal claims. The Group has a Chief Information Security Officer who is responsible for protecting the business against cyber risk through multiple methods that defend against an intrusion of systems and ensure the protection of all data that the Group collects and holds. This active management of cyber risk is also supplemented with cyber related insurance policies. Lockdowns through COVID-19 have required colleagues to transition to work from home on a continuous basis. Our technology environment was already set up to enable this from both an accessibility, productivity and cyber risk perspective, so changes or disruption from a cyber risk perspective have been minimal.

Further risks are described in the Directors Report on pages 8-12.

Approved by the Board and signed on its behalf by:

---

Floris Petrus de Kort  
11 August 2022

# AI Sky UK Holdco Limited

## Directors' Report

### for the year from 1 January 2021 to 31 December 2021

The Directors present their report and the audited consolidated financial statements for the 12 months ended 31 December 2021.

#### General information

The Company was incorporated on 4 June 2019 in England and Wales. On incorporation 1 ordinary share was issued at par for cash. Until 15 October 2019 the Company was dormant. On 15 October 2019, an additional 672,343,620 ordinary shares were issued at par for cash. A total of 825,911,071 ordinary shares were issued as at 31 December 2021. The financial results for the year ended 31 December 2021 record the 12 months trading since 1 January 2021, while the financial results for the period ending 31 December 2020 record the 9 months of trading from the change of year-end date to that date and are therefore not comparable.

AI Sky UK Holdco Limited is domiciled in England and Wales and is a limited Company limited by shares.

The Group has established operations in the United Kingdom, Europe, Australia, New Zealand and North America.

The immediate parent company of the Company is AI Sky UK Midco III Limited, a Jersey incorporated company. The ultimate parent undertakings of the Group are New Clearent Holdings, LLC (which owns 51.22% of Xplor Technologies, LLC) and AI Sky (Cayman) Limited (which owns 48.78% of Xplor Technologies, LLC). New Clearent Holdings, LLC and AI Sky (Cayman) Limited are owned by various investment funds managed by Advent International Corporation. The ultimate controlling party is Advent International Corporation, an SEC Registered investment adviser.

The following acquisitions took place within the Group during the year:

On 1 January 2021, AI Sky US Bidco Limited, a subsidiary within the Group, acquired 100% of the shares in Adaptive Analytics LLC, a company incorporated in the USA, for approximately AU\$5,260,000.

On 3 May 2021, Transaction Services Holdings Limited, a subsidiary within the Group, acquired 100% of the shares in Superior Admin Limited, a company incorporated in New Zealand, for approximately AU\$13,920,000.

On 30 July 2021, TSG Holdings (Aust) No.2 PTY Limited, a subsidiary within the Group, acquired 100% of the shares in Zenrol PTY Limited, a company incorporated in Australia, for AU\$500,000.

Adaptive Analytics LLC provides data analytics and visualisation tools for the health and fitness sectors in North America. Superior Admin Limited provides business management, education and parent engagement software to early education centres in New Zealand. Zenrol PTY Limited provides sales and marketing solutions for early education centres in Australia.

#### Principal activities

The principal activity of the Company during the year was that of a non-trading holding Company. The principal activity of the Group is the provision of business management software, integrated payment processing and services solutions to the Fitness & Wellbeing and Childcare & Education industries.

#### Disclosure in the Strategic Report

As permitted by section 414C (11) certain matters which are required to be disclosed in the Directors' Report have been omitted as they are in the Strategic Report on pages 2 to 7. These matters relate to the future developments, review of business and principal risks and uncertainties of the Company and engagement with suppliers, customers and others in a business relationship with the Company.

#### Results and dividends

The Group loss after tax for the 12 months ended 31 December 2021 amounted to Australian \$(56,747)k (12 months to 31 December 2020: \$(100,075)k). No dividends were paid or proposed for the year (31 December 2020: nil). Refer to page 3 for details of the restated comparative figures in the consolidated statement of comprehensive income.

#### Research and development

Ongoing investment and innovation in technology has placed the Group at the forefront of business management software and integrated payment processing, which has allowed the Group to drive an increased market share in the

# AI Sky UK Holdco Limited

## Directors' Report

### for the year from 1 January 2021 to 31 December 2021

health and fitness and childcare and education industries in Australasia, the United Kingdom and North America. The Group's research and development programmes provide continuous improvement in the value proposition and features offered to our clients, and also underpins expansion of our products across our established markets.

#### Charitable and political contributions

During the 12 months ended 31 December 2021 the Group or Company made no political donations (31 December 2020: \$9,999). The Group or Company did not make any charitable donations (31 December 2020: nil).

#### BIS audit exemption

For the Group's UK subsidiaries, Transaction Services Group Limited, AI Sky Aus Finance Limited, AI Sky NZ Finance Limited, AI Sky CDN Finance Limited, AI Sky UK Bidco Limited, TSG Holdings (UK) Limited, Transserv UK Limited, Harlands Group Ltd, Harlands Finance Limited, Harlands Services Ltd, Legend Club Management Systems (UK) Limited, Legend Leisure Services Limited, Club Machine Holdings Limited, Brightlime Limited, Debit Finance Collections PLC and Myxplor UK Ltd advantage has been taken of the audit exemption available for companies conferred by section 479A of the Companies Act 2006 on the grounds that;

- for the 12 months ended 31 December 2021 the Company was entitled to the exemption from a statutory audit under section 479A of the Companies Act 2006 relating to subsidiary companies, and
- no notice has been deposited under section 476 of the Companies Act 2006 in relation to the financial statements for the financial year.

The Directors acknowledge their responsibilities for:

- ensuring that the Company keeps adequate accounting records which comply with section 386 of the Companies Act 2006, and
- preparing financial statements which give a true and fair view of the state of the affairs of the Company at 31 December 2021 and of its profit and loss for the period then ended in accordance with the requirement of section 394 of the Companies Act 2006, and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements so far as applicable to the Company.

#### Directors

The Directors of the Company who were in office during the year and up to the date of signing the financial statements, unless otherwise stated, were:

Thomas Alexander Lorenzo Weisman (resigned on 19 May 2022)  
Floris Petrus de Kort  
Jeffrey David Paduch

The Company maintained Directors' and Officers' Liability Insurance cover throughout the year for Directors of the Company and for Directors of subsidiaries in the Group.

#### Employees

During the year, the policy of providing employees with information about the Group's financial performance and strategy has been continued through internal media methods. Employees are encouraged to present their suggestions and views on the Group's performance, and management also carries out engagement surveys allowing employees to provide feedback in an anonymised way. Regular meetings are held between local management and employees to allow a free flow of information and ideas, including contributing to the formation of Group strategy. Departments within the Group hold regular team meetings for the purpose of sharing information and ideas and gathering views which are considered when making decisions which are likely to affect their interests.

During the year we continued to prioritise communication with employees, in particular as large portions of work force now work at least partly from home, to keep them informed of the impact of COVID-19 on the business, changes being made in response to COVID-19 and ensuring they feel supported through a period of significant disruption.

The Group gives full consideration to applications for employment from disabled persons where the requirements of the job can be adequately fulfilled by a disabled person. Where existing employees become disabled, it is the Group's policy wherever practicable to provide continuing employment under normal terms and conditions and to provide training, career development and promotion to disabled employees wherever appropriate.

# AI Sky UK Holdco Limited

## Directors' Report

### for the year from 1 January 2021 to 31 December 2021

The Group actively encourages and celebrates the diversity of its workforce and ensures that all employees are offered equal opportunity.

#### **Financial instruments**

The Group uses a variety of financial instruments including cash, equity investments and various items, such as trade debtors and trade creditors that arise directly from its operations. The main purpose of these financial instruments is to provide working capital for the Group's operations. The Directors are of the view that the main risk arising from the Group's financial instruments is liquidity risk. Credit risk is low. The Directors set and review policies for managing each of these risks and they are summarised below. Due to the restructuring of loan facilities (as detailed on page 2 of the Strategic Report) there are no bank covenants to comply with as at 31 December 2021.

#### **Exchange rate risk**

Exchange rate fluctuation represents significant risk as the Group's operations are spread over multiple jurisdictions and trade is conducted in the home currency of each jurisdiction. The primary risk is that of translation risk where foreign based operations are translated to the functional and presentation currency for the Group's financial reports (United States and Australian Dollars). As a natural hedge to partially offset this risk, external debt is held in currencies proportionate to the currencies of earnings.

The Directors do not consider that the potential downside associated with this risk at this stage in the Group's development (or in the immediate future) is of sufficient size to require further hedging.

#### **Interest rate risk**

The Group finances its operations through shareholders' funds and related party loans. Interest rates on related party loans in various currencies are monitored regularly. The Directors do not consider that the potential downside associated with this risk at this stage in the Group's development (or in the immediate future) is of sufficient size to require further hedging.

#### **Liquidity risk**

The Group seeks to manage financial risk by ensuring sufficient liquidity is available to meet foreseeable needs and to invest cash assets safely and profitably. The funding for significant new ventures is secured before commitments are made. The cash position is reviewed daily and cash flows are monitored weekly and monthly. This position is also managed by the mix of external financing from the banks too.

The impact of COVID-19 on our clients and our revenue has impacted the Group's cash generation and therefore liquidity. During the year we have utilised our debt facilities to manage liquidity and raised more equity from shareholders to support the continued investment in the business and for acquisition.

We consider that the Group has sufficient financial means and liquidity to withstand any further impacts of the COVID-19 pandemic. However, at this stage we are seeing all markets recovering from the impact of COVID-19.

#### **Credit risk**

The Group has low credit risk on revenue as a larger proportion of the fees due are deducted from amounts due to customers. The Group does carry a level of credit risk on payment processing for clients in relation to amounts collected that represent a prepayment for subscription services. This risk is diminished due to the high frequency of transactions and because services are continuously delivered to customers, as a result it is considered a low risk. All potential areas of financial risk are monitored by management. Any preventative or corrective measures are taken as necessary.

#### **Independent auditors**

During the year, PricewaterhouseCoopers LLP were re-appointed in office as auditors of the Company, and a resolution to reappoint will be considered at a forthcoming Board meeting.

# **AI Sky UK Holdco Limited**

## **Directors' Report**

### **for the year from 1 January 2021 to 31 December 2021**

The Company's statement on corporate governance can be found in the "Environmental, social and governance risks and policy" section of the strategic report on pages 4 to 5 of these financial statements. This section forms part of this directors' report and is incorporated into it by reference.

#### **Statement of directors' responsibilities in respect of the financial statements**

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have prepared the Group and Company financial statements in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006.

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and Company and of the profit or loss of the Group for that period. In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable international accounting standards in conformity with the requirements of the Companies Act 2006 have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group and Company will continue in business.

The Directors are responsible for safeguarding the assets of the Group and Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Group and Company's transactions and disclose with reasonable accuracy at any time the financial position of the Group and Company and enable them to ensure that the financial statements comply with the Companies Act 2006.

#### **Directors' confirmations**

In the case of each Director in office at the date the Directors' Report is approved:

- so far as the Director is aware, there is no relevant audit information of which the Group and Company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a Director in order to make themselves aware of any relevant audit information and to establish that the Group and Company's auditors are aware of that information.

#### **Going concern**

The Directors have undertaken a review of the going concern status of the Group by considering the anticipated level of future trading activity and the associated cash flows for a period of 12 months from the date of authorisation of these financial statements for issue. This review focused primarily on the liquidity requirements of the Group and the wider Xplor Technologies business. The review also considered a letter of support from the Group's parent company XT1 LLC.

The COVID-19 pandemic has had a significant impact on the Group to date and the Directors have taken into account their best estimate of the anticipated future impact of COVID-19 when assessing the Group's liquidity position. This anticipated impact has been factored into the Director's base case outlook in reviewing the going concern basis of preparation. The base case outlook reflects the gradual recovery of a large portion of our client base in all markets from the closures over the previous year. This base case indicates that the Group can meet its obligations when they fall due and has sufficient headroom for a period of at least 12 months from the date of approval of these financial statements. The Group will rely on support from its parent company XT1 LLC to enable it to meet all obligations as they come due.

**AI Sky UK Holdco Limited**  
**Directors' Report**  
**for the year from 1 January 2021 to 31 December 2021**

Having reviewed forecast liquidity for the Group for a period of at least 12 months from the date of approval of the financial statements, and also taking into account a severe but plausible downside scenario as a result of the uncertainty caused by COVID-19 and the actions available to the Directors in the event that scenario eventuated, the Directors are satisfied that the financial statements should be prepared on a going concern basis.

On behalf of the Board

# Independent auditors' report to the directors of Al Sky UK Holdco Limited

## Report on the audit of the financial statements

### Opinion

In our opinion, Al Sky UK Holdco Limited's group financial statements and company financial statements (the "financial statements"):

- give a true and fair view of the state of the group's and of the company's affairs as at 31 December 2021 and of the group's loss and the group's cash flows for the year then ended;
- have been properly prepared in accordance with UK-adopted international accounting standards; and
- have been prepared in accordance with the requirements of the Companies Act 2006

We have audited the financial statements included within the Annual Report and financial statements (the "Annual Report"), which comprise Consolidated and Company Balance Sheets as at 31 December 2021; Consolidated Statement of Comprehensive Income, Consolidated and Company Statements of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended; and the notes to the financial statements which include a description of the significant accounting policies.

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We remained independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

### Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's and the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the group's and the company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

## Reporting on other information

*The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.*

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

### Strategic report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' Report for the year ended 31 December 2021 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the group and company and their environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' Report.

## Responsibilities for the financial statements and the audit

### Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities in respect of the financial statements, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the company or to cease operations or have no realistic alternative but to do so.

### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the group and industry, we identified that the principal risks of non-compliance with laws and regulations related to Data protection, payment services and the Financial Conduct Authority's regulations, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the financial statements such as the Companies Act 2006. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls) and determined that the principal risks were related to posting inappropriate journal entries to increase reported revenue or reduce reported expenditure, and application of management bias in accounting estimates. Audit procedures performed by the engagement team included

- Enquiries of the Directors, management, staff in tax and compliance functions, internal audit and the legal counsel to identify any instances of non-compliance with laws and regulations including considerations of known or suspected instances of fraud
- Evaluation of management's controls designed to prevent and detect irregularities.
- Auditing the risk of management override of controls, including through testing journal entries and other adjustments for appropriateness and evaluating the business rationale of significant transactions outside the normal course of business. In particular any journal entries posted with unusual account combinations, unusual words or those posted by senior management.
- Reading key correspondence with regulatory authorities
- Reviewing minutes of meetings of those charged with governance; and
- Reviewing financial statement disclosures and testing to supporting documentation to assess compliance with applicable laws and regulations

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities). This description forms part of our auditors' report.

#### Use of this report

This report, including the opinions, has been prepared for and only for the company's directors as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

## Other required reporting

### Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the company financial statements are not in agreement with the accounting records and returns

We have no exceptions to report arising from this responsibility.

**AI Sky UK Holdco Limited**  
**Consolidated and Company Balance Sheets**  
**as at 31 December 2021**

The Company has elected to take exemption under section 408 of the Companies Act 2006 not to present the Company profit and loss account. The loss for the Company for the period from 1 January 2021 to 31 December 2021 was \$174,000 (1 April 2020 to 31 December 2020: \$60,000). The Company does not present a company statement of cash flows as the Company does not hold any cash and/or does not have any cash transactions.

The Notes on pages 23 to 65 are an integral part of these consolidated financial statements.

The financial statements and related notes on pages 17 to 65 were approved by the Board of Directors on 11 August 2022 and signed on its behalf by:

# AI Sky UK Holdco Limited

## Notes to the Financial Statements

### General information

The Company was formed on 4 June 2019 to acquire the existing business of Transaction Services Group Limited ("TSGL"), a United Kingdom registered business with established operations in the United Kingdom, Continental Europe, Australia, New Zealand and the North America. This acquisition completed on 15 October 2019. The financial results for the year ended 31 December 2021 record the 12 months trading since 1 January 2021, while the financial results for the period ending 31 December 2020 record the 9 months of trading from the change of year-end date to that date and are therefore not comparable.

The Group specialise in providing business management software and the outsourced management of recurring payment services. Collectively the software and services are described by the Group as revenue management solutions that help clients to onboard, manage, retain and maximise revenue from their customers. The solutions are organised in support of the sales channels or 'go to-market' product verticals (Health and Fitness, Education, and Boutique Studios) which operate across Australasia, North America, the United Kingdom, Europe, and Japan.

The principal activity of the Company is that of a holding company for the Group and it has no operating activities. The Company is a private limited company, limited by shares, incorporated in England, United Kingdom. The address of its registered office is 1st Floor Central Square South, Orchard Street, Newcastle Upon Tyne, United Kingdom, NE1 3AZ. For commentary on the Group's performance and financial position during the reported period, refer to the Strategic Report.

The financial position and performance of the Group was particularly affected by the following events and transactions that occurred during the reporting periods covered by these financial statements:

- Acquisitions took place within the Group. These acquisitions resulted in the recognition of goodwill and other intangible assets, which are disclosed in Note 8.
- On 1 July 2021 UK Midco III (an intermediate parent of the Group that controls and consolidates substantially all of the Group's trading business) completed its merger with Megalo Parent Inc. Megalo Parent Inc consolidates the trading business of Clearent, a USA limited liability company, pursuant to the Merger Agreement. Clearent is a provider of business management software and payment services in the USA. The newly combined business was branded "Xplor Technologies". As part of the business combination UK Midco II transferred 100% of its shares in UK Midco III to a subsidiary of Xplor Technologies, LLC, the newly incorporated parent company of Xplor Technologies. In exchange for this transfer, Xplor Technologies, LLC issued UK Midco II with shares equating to 49% of the shareholders' equity in Xplor Technologies.
- Immediately subsequent to the merger, the Group sold its interest in AI Sky US Bidco Inc, a subsidiary that held the Group's US-domiciled operations, to Xplor T1, LLC. From 1 July 2021 AI Sky UK Holdco Limited ceased to consolidate AI Sky US Bidco Inc and its subsidiaries as controlled entities. The sale of AI Sky US Bidco Inc has been treated by the Group as a disposal of that subsidiary and reported in the current period as a discontinued operation which is disclosed in Note 30.

As the Group sold its interest in AI Sky US Bidco Inc. on 1 July 2021 to another company in the wider Xplor Technologies corporate group, the consolidated statement of comprehensive income has been disaggregated to show the results from continuing operations and discontinued operations separately. The results of AI Sky US Bidco Inc. and its subsidiaries for the period 1 January 2021 to 1 July 2021 are disclosed as profit from discontinued operations in the consolidated statement of comprehensive income for the year ended 31 December 2021. The comparative figures in the consolidated statement of comprehensive income for the period 1 April 2020 to 31 December 2020 and corresponding notes have been restated to reflect what continuing operations and discontinued operations would have been to provide a more useful basis for predicting future results.

The merger has had a material impact on the Group's balance sheet and consolidated statement of comprehensive income during the year with the main impacts listed below:

- The Group's loan facilities that were established on 15 October 2019 with various institutional lenders were restructured to now be held at the Xplor Technologies, LLC level. These loan facilities were disclosed as Borrowings on the balance sheet for the period ended 31 December 2020, but due to the restructure were replaced by related party loans which are disclosed as amounts payable to related parties on the balance sheet for the year ended 31 December 2021. The corresponding interest payable on loan facilities were disclosed as Trade and other payables on the balance sheet for the period ended 31 December 2020 but are now disclosed as amounts payable to related parties for the year ended 31 December 2021. Refer to Note 16 and 17.

## AI Sky UK Holdco Limited

### Notes to the Financial Statements

- As part of the sale of AI Sky US Bidco Inc., an intercompany loan was established between the Group (as lender) and XT1, LLC (as borrower) which is disclosed on the balance sheet as amounts receivable from related parties for the year ended 31 December 2021. Refer to Note 16.
- The Group provides management services to XT1, LLC for which a management fee is charged. This is disclosed as management fee income in the consolidated statement of comprehensive income for the year ended 31 December 2021. Refer to Note 6 and 16.

The principal accounting policies applied in the preparation of these financial statements are set out below.

#### Ultimate Parent Company

The ultimate parent companies of AI Sky UK Holdco Limited are New Clearent Holdings, LLC (which owns 51.22% of Xplor Technologies, LLC) and AI Sky (Cayman) Limited (which owns 48.78% of Xplor Technologies, LLC). New Clearent Holdings, LLC and AI Sky (Cayman) Limited are owned by various investment funds managed by Advent International Corporation. The ultimate controlling party is Advent International Corporation, an SEC Registered investment adviser.

There is no company above this Company that files publicly available financial statements that consolidate these financial statements. The Company's immediate parent undertaking is AI Sky UK Midco III Limited.

#### COVID-19 Impacts

The COVID-19 pandemic started to impact our markets during March 2020. The most significant impact on the Group was triggered when lockdowns were enforced across many markets from late March 2020.

In response to the reduction in revenue, the Group has undertaken numerous cost management actions, including ceasing certain capital expenditure projects, accelerating the integration of recently acquired businesses and accessing government support schemes. We do not consider that any cost management actions to date impact the longer-term strategic objectives of the Group.

The extent to which the pandemic will continue to affect the business, financial condition and results of operations of the Group will depend on numerous evolving factors that the Group may not be able to accurately predict, and which may cause actual results to differ from estimates and assumptions used in the preparation of the Group's consolidated financial statements.

Our assessment at 31 December 2021 was that the Group has sufficient financial means and liquidity to withstand the ongoing impact of the COVID-19 pandemic.

The recovery of the Group's revenue forecasted for a period of at least 12 months from the date of approval of the financial statements supports there being no impairment of the Group's goodwill balance.

## 1 Summary of significant accounting policies

### (a) Basis of preparation

#### International Financial Reporting Standards

On 31 December 2020, IFRS as adopted by the European Union at that date was brought into UK law and became UK-adopted International Accounting Standards, with future changes being subject to endorsement by the UK Endorsement Board. The Company and Group transitioned to UK-adopted International Accounting Standards in its company financial statements on 1 January 2021. This change constitutes a change in accounting framework. However, there is no impact on recognition, measurement or disclosure in the period reported as a result of the change in framework. The financial statements of the Company and Group have been prepared in accordance with UK-adopted International Accounting Standards and with the requirements of the Companies Act 2006 as applicable to companies reporting under those standards. The financial statements have been prepared on a historical cost basis, as modified by the financial assets and financial liabilities at fair value through profit and loss.

The preparation of financial statements in conformity with UK-adopted International Accounting Standards and in conformity with the requirements of the Companies Act 2006 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. Refer to Note 3 for details.

# AI Sky UK Holdco Limited

## Notes to the Financial Statements

The Group and Company has applied all accounting policies consistently, other than where new policies have been adopted.

### Amendments to published standards

The following new standards and amendments to standards and interpretations are effective for annual periods beginning on or after 1 January 2021, and have been applied in preparing these financial statements:

- Interest Rate Benchmark Reform – Phase 2 – Amendments to IFRS 7, IFRS 4 and IFRS 16

The application of these amendments did not have a material impact on the financial statements and is not expected to have a material impact on future periods.

The following new standards and amendments to standards and interpretations have been issued but are not yet effective for the year ended 31 December 2021 and have not been early adopted.

- Amendment to Classification of Liabilities as Current or Non-current IAS 1
- Amendment to IAS 1 and IFRS Practice Statement 2 Disclosure of Accounting policies
- Amendment to IAS 8 Definition of Accounting Estimates
- Amendment to IFRS 3 Business Combinations, IAS 16 Property, Plant and Equipment, IAS 37 Provisions, Contingent Liabilities and Contingent Assets, and Annual Improvements 2018-2020

Management is still reviewing the impact of the above standards and amendments.

### Going concern

The Directors have undertaken a review of the going concern status of the Group by considering the anticipated level of future trading activity and the associated cash flows for a period of 12 months from the date of authorisation of these financial statements for issue. This review focused primarily on the liquidity requirements of the Group and the wider Xplor Technologies business.

Having reviewed forecast liquidity for the Group for a period of at least 12 months from the date of approval of the financial statements, and also taking into account a severe but plausible downside scenario as a result of the uncertainty caused by COVID-19 and the actions available to the Directors in the event that scenario eventuated, the Directors are satisfied that the financial statements should be prepared on a going concern basis. The Group will rely on support from its immediate parent company XT1 LLC to enable it to meet all obligations as they come due.

### Entities reporting

The Consolidated Financial Statements for the Group are for the economic entity comprising AI Sky UK Holdco Limited and its subsidiaries.

## (b) Basis of consolidation

### Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of the subsidiaries of the Company as at 31 December 2021 and 2020 and the results of its subsidiaries for the periods ending on those dates. Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases. The acquisition method of accounting is used to account for the business combinations by the Group. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The excess of the consideration transferred over the fair value of the identifiable net assets acquired is recorded as goodwill.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those

## AI Sky UK Holdco Limited

### Notes to the Financial Statements

provisional amounts are adjusted during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date, that if known, would have affected the amounts recognised as of that date.

#### Transactions eliminated on consolidation

Intragroup balances and any unrealised gains or losses or income and expenses arising from intragroup transactions, are eliminated in preparing the consolidated financial statements.

#### (c) Foreign currency

##### Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The consolidated financial statements are presented in Australian dollars, which is the Group's presentation currency. On 1 July 2021 the Company changed its functional currency from AUD to USD. The Group's presentation currency remains in Australian dollars.

##### Foreign currency transactions

Transactions in foreign currencies are translated at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to Australian dollars at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the statement of comprehensive income within finance costs - net. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to Australian dollars at foreign exchange rates ruling at the dates the fair values were determined.

##### Financial statements of foreign operations

The revenues from foreign operations are translated to Australian dollars at rates approximating to the foreign exchange rates ruling at the dates of the transactions. This would normally be the average foreign exchange rate for the reporting period, or such shorter period for an entity or business acquired or disposed of during the period. All resulting exchange differences are recognised in other comprehensive income. Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Exchange differences arising are recognised in other comprehensive income.

#### (d) Revenue

All revenue is measured net of discounts, refunds, rebates and sales tax and excludes amounts collected on behalf of third parties. Payments and Software revenues are derived from separately identifiable short and long term processing and software contracts.

##### Payments revenue

Payments revenue relates to contractual fees and commissions earned by facilitating the collection of client monies in the form of billing transactions from the client's customers and distribution back to the client. The Payments revenues are generated by services priced as a percentage of transaction value or a specified fee per transaction depending on the level of value added service provided. Fees earned on billing transactions are recognised on completion of the billing transaction.

In respect of its Payments revenues, the Group followed the guidance on principal versus agent considerations in IFRS 15 to determine the appropriateness of recognising revenue based on the gross transaction fees and commissions billed to a client or the net commissions receivable by evaluating the facts and circumstances of the contractual arrangements in place. Where the Group's Payments revenue is recognised gross of transaction fees, these are charged to the Group by third party banks or card acquiring partners and recognised as an expense, on the basis that the Group contracts separately and directly with both the client and third party banks or card acquiring partners and is primarily responsible for fulfilling the promise to provide the billing transaction to its clients, assumes the risk of loss and has pricing discretion with its clients.

##### Software revenue

The Group provides a majority of its software offerings only as SaaS where the customer has no license to use the software on premise, only via a Group-hosted service. For certain products, the Group does provide an on-premise license. There are selected on-premise arrangements where the Group combines the on-premise software license with

## **AI Sky UK Holdco Limited**

### **Notes to the Financial Statements**

the related updates and maintenance to recognize revenue over time. This is because these updates are integral to the customer's ability to derive substantive benefit from the software license. These updates incorporate regulatory updates that are necessary to continue processing certain transactions; without the updates the software would not function as intended. As a result, the updates and software license are highly interrelated and not separately identifiable. Revenue obtained for the combined performance obligation is recognised evenly each month, the Director's have judged that this most closely follows the customer's consumption of the service.

#### **Hardware revenue**

Hardware revenue relates to the sale of hardware and other consumables to be used alongside the Group's software offerings, and is recognised when control of a product is transferred to the client.

#### **Professional services revenue**

Professional services revenue relates to the development and sale of bespoke software and consulting services for clients, and is recognised on a stage of completion basis.

### **(e) Other income**

#### **Government grants**

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attached to them and that the grants will be received.

#### **Covid-19 grants**

Covid-19 government grants are recognised in profit or loss over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

#### **Research and developments grants**

Government grants in the form of research and development grants are receivable as compensation for expenses already incurred and are recognised in comprehensive income in the period in which they are received.

### **(f) Expenses**

#### **Leases**

A right-of-use asset and a lease liability are recognised at the lease commencement date.

Lease liabilities are initially measured at the present value of the remaining lease payments, discounted by using the interest rate implicit in the lease. If this rate cannot be readily determined, the lessee uses its incremental borrowing rate. Subsequently, the carrying value of the liability is adjusted to reflect interest and lease payments made. The interest and lease payments made are expensed in the Statement of Comprehensive Income. Lease liabilities may be re-measured when there is a change in future lease payments arising from a change in an index or market rate, or if there is a change in the lessee estimate of the amount expected to be payable.

The carrying amount of the leased asset is recorded as the right of use asset and is measured as being equal to the lease liability at the beginning of the reporting period. Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Payments associated with short-term leases of equipment and vehicles and all leases of low-value assets are recognised on a straight-line basis as an expense in the Statement of Comprehensive Income. Short-term leases are leases with a lease term of 12 months or less without a purchase option. Low-value assets comprise IT equipment and small items of office furniture.

The lessee assesses at lease commencement whether it expects to exercise renewal options included in contracts. Where it is reasonably certain that renewal options will be exercised, the extension period is included in the lease liability calculation.

#### **Interest expense**

Interest expense comprises interest payable on borrowings calculated using the effective interest rate method, and gains and losses on derivative instruments that are recognised in the statement of comprehensive income.

## AI Sky UK Holdco Limited

### Notes to the Financial Statements

The interest expense component of lease payments is recognised in the statement of comprehensive income using the effective interest rate method.

#### (g) Income tax

Income tax on the profit or loss for the period comprises current and deferred tax. Income tax is recognised in the statement of comprehensive income except if it relates to items recognised directly in equity, in which case the income tax is recognised in equity.

Current tax is the expected tax payable on the taxable income for the period, using tax rates at the balance sheet date, and any adjustments to tax payable in prior periods.

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for accounting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: goodwill, the initial recognition of assets and liabilities that affect neither accounting nor taxable profit, and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted by the end of the reporting period.

#### (h) Property, plant and equipment

##### Owned assets

All property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

##### Depreciation

Assets are depreciated straight line at the rates below which equate approximately to their estimated useful lives.

The depreciation rates are as follows:

Land, lease improvements & buildings	2% – 20% or over the life of the lease
Furniture, office equipment & motor vehicles	5% – 40%
Computer hardware	18% – 48%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These are included in the statement of comprehensive income.

#### (i) Intangible assets

##### Goodwill

Goodwill arises on the acquisition of subsidiaries and represents the excess of the consideration paid over the fair value of the identifiable net assets acquired. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units (CGUs) that is expected to benefit from the business combination in which the goodwill arose. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of the CGU containing the goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed. Goodwill is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the amount of goodwill relating to the entity sold.

##### Customer relationships

Customer relationships acquired in a business combination are recognised at fair value at the acquisition date calculated on an excess earnings basis. Customer relationships is defined as the relationship with customers paying membership fees, or when appropriate, key contracts with clients. Customer relationships are amortised over their useful life at an

## AI Sky UK Holdco Limited

### Notes to the Financial Statements

amortisation rate of between 5% to 20% on a straight line basis. The useful economic life of customer relationships is based on benchmarking analysis performed during valuations for acquisition.

#### Trade names

Trade names acquired in a business combination are recognised at fair value at the acquisition date calculated on a royalty relief basis. Trade names are amortised straight line over a period of between 10–20 years. At acquisition the estimated useful life has been individually assessed via benchmarking analysis documented as part of the acquisition process. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

#### Computer software

Computer software purchased is capitalised on the basis of the costs incurred to acquire and bring to use the specific software.

Development costs that are directly attributable to the design, development and testing of new or substantially improved major software products and processes controlled by the Group are capitalised and recognised as intangible assets when the following criteria are met:

- the product or process is technically and commercially feasible;
- the Group has sufficient resources to complete development, and intends to complete the development of the software product;
- there is an ability to use or sell the software product;
- it can be demonstrated how the software product will generate probable future economic benefits; and
- the expenditure attributable to the software product during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the software product include the software development employee costs and an appropriate portion of relevant overheads. Other development expenditures that do not meet these criteria are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

Computer software acquired in a business combination is recognised at fair value at the acquisition date based on a replacement cost valuation method or multi period excess earnings method.

Computer software is stated at cost less accumulated amortisation and is amortised to residual value over estimated useful life. Amortisation rates range between 15% and 40%.

Costs associated with maintaining computer software programmes and annual licence fees are recognised as an expense as incurred.

#### (j) Trade receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one period or less, they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

In accordance with IFRS 9 *Financial Instruments*, the Group recognises impairment losses using the lifetime Expected Credit Loss (ECL) model. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and the cash flows that the Group expects to receive. The Group applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables.

## **AI Sky UK Holdco Limited**

### **Notes to the Financial Statements**

#### **(k) Financial assets at amortised costs**

Financial assets at amortised costs are initially recognised at the fair value of the amounts to be received, plus any transaction costs (if any). They are subsequently measured at amortised cost using the effective interest rate method less impairment losses.

#### **(l) Cash and cash equivalents and collection deposits**

Cash and cash equivalents include cash on hand, deposits held at call with financial institutions and bank overdrafts with maturities of 3 months or less. Collection deposits are Company funds deposited at call with financial institutions in bank accounts separate from those relating to the operations of the Group.

#### **(m) Impairment on non-financial assets**

The carrying amount of the Group's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets recoverable amount is estimated.

For goodwill, assets that have an indefinite useful life, and intangible assets that are not yet available for use, the recoverable amount is estimated at each balance sheet date. These classes were valued as at the date of acquisition and considered for impairment at 31 December 2021. Refer to Note 8 for details of the impairment assessment performed as at 31 December 2021.

An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in the statement of comprehensive income. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to cash-generating units and then to reduce the carrying amount of other assets in the unit on a pro-rata basis.

The recoverable amount of other assets is the greater of their fair value less costs of disposal and value in use.

#### **(n) Share capital**

Ordinary shares are classified as equity. Transaction costs attributable to the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

Dividends are recognised as a liability in the period in which they are declared.

#### **(o) Borrowings**

Interest-bearing borrowings are recognised initially at fair value less attributed transaction costs. The attributed transaction costs are amortised over the period of the borrowings on an effective interest basis. Borrowings are subsequently measured at amortised cost. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance date.

#### **(p) Trade payables**

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are classified as current liabilities if payment is due within one period or less. If not, they are presented as non-current liabilities.

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method.

#### **(q) Employee benefits**

##### **Wages and salaries, annual leave and sick leave**

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable.

# AI Sky UK Holdco Limited

## Notes to the Financial Statements

### **Pension contributions**

For defined contribution plans, the Group pays contributions to independently administered superannuation plans on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due.

### **(r) Share based payments**

The Group has two equity settled share based payment arrangements.

Equity settled share based payments are fair valued at grant date, with the grant date fair value being recognised in employee costs and equity progressively over the vesting period. The fair value of equity settled share based payments is not remeasured after grant date unless the award is subsequently modified.

### **(s) Value added tax (VAT) / Goods and services tax (GST)**

The statement of comprehensive income has been prepared so that all components are stated exclusive of VAT/GST. All items in the balance sheet are stated net of VAT/GST, with the exception of receivables and payables, which include VAT/GST invoiced.

### **(t) Financial instruments**

Financial instruments recognised in the Statement of Financial Position include cash and cash equivalents, receivables and payables, contingent consideration and term debt.

#### **Classification and fair values**

The Group performs a fair value assessment of its financial assets and liabilities at each financial period end in accordance with IFRS 9. Under IFRS 9, financial instruments are classified as either measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss. The Group classifies its financial assets and liabilities stated above at amortised cost, except for when a business combination includes a contingent consideration arrangement, the contingent consideration is remeasured at year end.

#### **Recognition and derecognition**

Financial assets are recognised on trade date, being the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

#### **Measurement**

At initial recognition, the Group recognises its financial assets and liabilities at fair value. The financial assets and liabilities are subsequently recognised at amortised cost, except for when a business combination includes a contingent consideration arrangement, the contingent consideration is remeasured at year end.

### **(u) Derivatives**

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value. The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument. For those derivative instruments that do not qualify for hedge accounting, any changes in the fair value of the derivative instrument is recognised immediately in the statement of comprehensive income.

Derivative instruments that do qualify for hedge accounting reflect changes in the fair value of the derivative instrument through a hedge reserve in the balance sheet, to the extent that the hedge is effective. The gain or loss relating to any ineffective portion is recognised immediately in the statement of comprehensive income.

There were no derivatives as at 31 December 2021 (31 December 2020: Nil).

# AI Sky UK Holdco Limited

## Notes to the Financial Statements

### 2 Financial risk management

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

#### (a) Market risk

##### (i) Foreign Exchange Risk

The Group operates internationally and is exposed to fluctuations in foreign exchange rates when reporting on a consolidated basis, where performance in the home currency of foreign operations is translated to the reporting currency of Australian dollars. However, the Group's exposure to fluctuations in foreign currency in trading and cash flow is limited as the Group's trading and financing structure naturally hedges the exposure to foreign currency. This is due to the majority income and costs from trading in foreign jurisdictions being denominated in local currencies and the Group's borrowings and financings costs being denominated in proportion to local currencies.

Below is an illustrative sensitivity of the impact on reported Profit before Tax due to a +/- 5% shift in the translation of below mentioned currencies to Australian Dollars for the year ended 31 December 2021:

	GROUP		GROUP	
	1 January 2021 to 31 December 2021 AUS000s +5%	1 January 2021 to 31 December 2021 AUS000s -5%	1 April 2020 to 31 December 2020 AUS000s +5%	1 April 2020 to 31 December 2020 AUS000s -5%
<b>(Loss)/Profit before Tax</b>				
NZD	146	(146)	(764)	764
GBP	1,077	(1,077)	1,089	(1,089)
USD	820	(820)	(691)	691

##### (ii) Interest Rate Risk

The Group's interest rate risk arises from related party loans. Related party loans issued at variable rates exposes the Group to cash flow interest rate risk which is partially offset by cash held at variable rates.

Based on a simple simulation, if for the period from 1 January 2021 to 31 December 2021 interest rates on variable borrowings had been 50 basis points higher/lower with all other variables held constant, the calculated Profit before Tax for the period would have been \$3,174,738 lower/higher.

##### (iii) Price Risk

The Group is not exposed to price risk given the Group does not hold any equity investments.

#### (b) Credit risk

The Group has minimal credit risk as the majority of the fees due are deducted from amounts due to customers. All potential areas of financial risk are regularly monitored and reviewed by the Directors and senior management. Any preventative or corrective measures are taken as necessary.

Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions, as well as credit exposures to customers, including outstanding receivables and committed transactions.

For banks and financial institutions, only independently rated parties with an appropriate credit rating are accepted.

Receivables from customers are settled in cash as part of the collection services performed by the Group.

## AI Sky UK Holdco Limited

### Notes to the Financial Statements

The credit risk associated with trade receivables is small due to the inherently short timing difference and the distribution over a large number of customers. Due to this, the trade receivable balances do not consist of any concentration of risk that is considered individually material.

At the period end, the receivables that are over 30 days due are still within their collection terms, thus there is no increased credit risk for these receivables. Loss allowance on receivables are based on assumptions about the counterparty's risk of default. The Group uses judgement in making these assumptions and to determine balances that are in default. Refer Note 21 for further disclosures.

#### (c) Liquidity risk

The Group seeks to manage financial risk by ensuring sufficient liquidity is available to meet foreseeable needs and to invest cash assets safely and profitably. The funding for significant new ventures is secured before commitments are made. The cash position is reviewed daily and cash flows are monitored weekly and monthly. The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

GROUP	31 December 2021			
	Less than 12 months AUS000s	Between 1 and 2 years AUS000s	Between 2 and 5 years AUS000s	Over 5 years AUS000s

#### (d) Fair value estimation

Level 1 — Financial instruments for which valuations are determined by reference to unadjusted quoted prices for identical assets or liabilities in active markets, where the quoted price is readily available and the price represents actual and regularly occurring market transactions on an arm's length basis;

Level 2 — Financial instruments valued using inputs other than quoted prices as described above for level 1 but which are observable for the asset or liability, either directly or indirectly, such as:

- using recent arm's length market transactions or with reference to the current fair value of similar instruments;
- linear financial instruments such as swaps and forwards which are valued using market standard pricing techniques;
- options that are commonly traded in markets whereby all the inputs to the market standard pricing models are deemed observable.

## AI Sky UK Holdco Limited

### Notes to the Financial Statements

For financial assets and financial liabilities not measured at fair value, their carrying values approximate their fair value as the impact of discounting is not significant. Trade receivables and trade payables are level 2 instruments under the fair value hierarchy, while cash and cash equivalents are a level 1 instrument under the fair value hierarchy.

### 3 Critical accounting judgments and key sources of estimation uncertainty

#### (a) Critical judgements in applying accounting policies

The following are the critical accounting judgements that have the most significant effect on the amounts recognised in the financial statements:

##### Revenue recognition

###### Software revenue recognition

The Group enters into software contracts which provide the customer with the right to use the Group's intellectual property over the duration of the contract. As part of the contract the Group also provides professional maintenance services to maintain the functionality of the software during the life of the contract. The Group combines both the software licensing and professional maintenance into one performance obligation. Revenue obtained for the combined performance obligation is recognised evenly each month, as the Directors have judged that this most closely follows the customer's consumption of the service. For certain products, the Group does provide an on-premise license. There are selected on-premise arrangements where the Group combines the on-premise software license with the related updates and maintenance to recognize revenue over time. As a result, the updates and software license are highly interrelated and not separately identifiable.

###### Professional services revenue recognition

The Group provides a professional service for installation of various software products for specialised business operations. Such services are recognised as a performance obligation satisfied over time. Revenue is recognised for these installation services based on the stage of completion of the contract. The Directors have assessed that the stage of completion determined as the proportion of the total time expected to install that has elapsed at the end of the reporting period is an appropriate measure of progress towards complete satisfaction of these performance obligations under IFRS 15.

###### Capitalised development costs

The continual enhancement of the Group's software platforms is a key strategy to achieve the the Group's goals. We continue to invest in the functionality of our products and to improve the experience for all our clients and there is judgement in how to account for this subsequent expenditure on our existing intangible assets.

Judgement is required in evaluating whether subsequent development expenditure is to be capitalised as an internally generated intangible asset. The key elements of judgement are whether the development project will generate incremental probable future economic benefit and which projects result in substantial improvements that increase the functionality of the asset. Economic benefit is determined as either an increase in revenues or reduction in costs. Only those projects that are a substantial improvement and that result in direct and incremental economic benefit will be capitalised.

#### (b) Key sources of estimation uncertainty

The following are the key sources of estimation uncertainty that have the most significant effect on the amounts recognised in the financial statements:

##### Impairment testing of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use and/or fair value less costs of disposals of the CGUs to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the CGUs and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, a material impairment loss may arise in the future.

##### Impairment testing of intangible assets other than goodwill

Intangible assets other than goodwill are impaired if the carrying value exceeds the recoverable amount (i.e. the higher of fair value less costs of disposal or costs to sell and value in use). An impairment test is carried out on the intangible

# AI Sky UK Holdco Limited

## Notes to the Financial Statements

asset or CGU where there is an indication of impairment during the year. In such cases, the Group determines the value in use by estimating the future cash flows expected to arise from the asset or CGU and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, a material impairment loss may arise in future.

### **Business combinations**

The main area of estimation in business combinations are the assumptions and estimations used in accounting for the acquisition of new businesses, particularly in relation to the allocation of the purchase price between goodwill and intangible assets. The methodology used to value computer software and customer relationships, along with the key assumptions used to value goodwill and trade names, are detailed in Note 8.

### **Useful economic lives of intangibles**

The Group reviews the estimated useful lives and residual values of intangible assets annually. The assets are amortised over their estimated useful lives to their residual values. Details of the useful lives assigned to the Group's intangible assets is included in Note 1 (i). The carrying values of the Group's intangible assets are included in Note 8.

### **Deferred tax**

The amount of deferred tax provided is based on the expected realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted by the end of the reporting period.

- Deferred tax liabilities are generally recognised for all taxable temporary differences.
- Deferred tax assets are generally recognised for all deductible temporary differences and losses to the extent that it is probable that in the near future taxable profits will be available against which those deductible temporary differences and losses can be utilised.

### **Share based payments**

The valuation and accounting of the Group's share based payment arrangements are dependent on a number of key assumptions which are set out in Note 23b.

### **Contingent consideration**

The vendor liabilities included in Note 26 have been determined with reference to the circumstances at balance date. Management has also used post balance date information to estimate the fair value of the liability.

### **Going concern**

A review of the going concern status of the Group is carried out by considering the anticipated level of future trading activity and the associated cash flow requirements for a period of 12 months from the date of approval of these financial statements, taking into account the potential impact of COVID-19 on the commitments of the Group. Refer to Note 1 for further details.

## **4 Capital management**

The Group defines capital as equity, borrowings and cash and cash equivalents. The Group's objectives when managing capital are to safeguard their ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group can adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. During the period which it is subject, the Group complied with all externally imposed capital requirements.

**AI Sky UK Holdco Limited**  
**Notes to the Financial Statements**

**5 Revenue**

Revenue is split as follows:

	<b>GROUP</b> <b>1 January 2021</b> <b>to</b> <b>31 December</b> <b>2021</b> <b>AUS000s</b>	<b>GROUP</b> <b>1 April 2020</b> <b>to</b> <b>31 December</b> <b>2020</b> <b>AUS000s</b> <b>Restated</b>
<b>Revenue by product type</b>		
Payments revenue	111,585	58,756
Software revenue	61,178	39,924
Hardware revenue	3,783	3,399
Professional services revenue	2,431	2,384
Other revenue	1,349	905
<b>Total Revenue</b>	<b>180,326</b>	<b>105,368</b>

	<b>GROUP</b> <b>1 January 2021</b> <b>to</b> <b>31 December</b> <b>2021</b> <b>AUS000s</b>	<b>GROUP</b> <b>1 April 2020</b> <b>to</b> <b>31 December</b> <b>2020</b> <b>AUS000s</b> <b>Restated</b>
<b>Revenue by geographical region</b>		
Australasia	122,955	68,880
United Kingdom & Europe	42,050	25,695
North America	15,201	10,793
Other	120	—
<b>Total Revenue</b>	<b>180,326</b>	<b>105,368</b>

The Group delivers its payment services with the involvement of various third party banks and card acquiring partners. As disclosed in Note 1, where the Group's Payments revenue is recognised gross of transaction fees, these are charged to the Group by third party banks or card acquiring partners and recognised as an expense.

Included within the Group's Cost of Sales (see Note 9) for the year ended 31 December 2021 is \$12,901k (31 December 2020: \$6,688k) of payment processing costs (including network costs) incurred by the Group under its contracts with third party banks and card acquirer partners, and where the Group has recognised the related Payment Service revenue gross.

## AI Sky UK Holdco Limited

### Notes to the Financial Statements

The amortisation charge for the period 1 April 2020 to 31 December 2020 of \$59,280,000 shown above includes amortisation of \$6,788,000 related to US Boutique which was sold on 1 July 2021. Excluding this amount, the amortisation charge for 1 April 2020 to 31 December 2020 would have been \$52,492,000, as disclosed on the restated Consolidated Statement of Comprehensive Income.

There was no impairment charge for the year ended 31 December 2021 (31 December 2020: \$3,644,000). There was no impairment of goodwill.

No intangible assets have been pledged as security against any liabilities.

#### Allocation of Intangibles to CGUs

The Group has two CGUs (31 December 2020: 3) described below.

##### *Fitness & Wellbeing*

The Group serves Fitness & Wellbeing ("F&W") (e.g., large gyms) clients globally, including Australasia, North America, Europe, and Japan. Key software brands are Clubware and Links, while key payment brands include Debitsuccess, Payscale, Harlands, DFC, Legend, Perfect Mind, Stadline and Deciplus.

##### *Education*

The Group serves the early childhood education centres within Australasia. Key software brands are QikKids and Xplor.

##### *Boutique and Studio (Discontinued)*

The Group previously served boutique and studio ("B&S") fitness centres (e.g., personal trainers, HIIT classes, yoga and cycling studios and online classes). Software brands include Truecoach, Zingfit, and Mariana Tek. This CGU was discontinued during the year as a result of the Group's disposal of AI Sky US Bidco Inc., detailed further in Note 30.

In the current period, the Group has allocated its intangibles in accordance with this structure and carried out impairment testing on that basis.

The allocation of indefinite life intangibles to these CGUs are presented below:

	<b>Fitness &amp; Wellbeing CGU</b>	<b>Education CGU</b>	<b>Boutique CGU</b>	<b>Total CGU</b>
Goodwill as at December 2021	692,213	259,734	—	951,947
Goodwill as at December 2020	675,632	252,843	111,300	1,039,775

#### Impairment testing of goodwill

The recoverable amount of each CGU has been determined based on both value in use and fair value less cost of disposal (FVLCD) methodologies, using ten year forecasts, with detailed forecasts in year one being approved by the Board. Ten year forecasts have been used as all CGUs operate in under penetrated and competitive markets, and reaching stable EBITDA margins is expected to take five to ten years.

As at 31 December 2021 the recoverable amount of the Fitness & Wellbeing and Education CGUs has been determined based on a fair value less costs of disposal using income approach and market approach with reference to revenue and EBITDA multiples.

Recoverable amounts and carrying values for the CGUs are shown below. As a result of this analysis, no impairment has been identified.

## AI Sky UK Holdco Limited

### Notes to the Financial Statements

	<b>Fitness &amp; Wellbeing</b>	<b>Education</b>
	<b>Smillion</b>	<b>Smillion</b>
Recoverable amount	1,305	423
Carrying value	974	353
Headroom	331	70

Key assumptions incorporated into the forecasts are shown in the table below.

	<b>Fitness &amp; Wellbeing</b>	<b>Education</b>
	<b>CGU</b>	<b>CGU</b>
<b>Key assumptions</b>		
Revenue (% annual growth rate) average of years 2-5	14%	10%
EBITDA margin (% of revenue) average of years 2-5	36%	47%
EBITDA margin (% of revenue) average of years 6-10	45%	56%
Terminal growth rate	3.5%	3.5%
Discount rate	9.5%	9%

The Directors and management have considered and assessed reasonably possible changes for other key assumptions and have not identified any instances that could cause the carrying amount of the above CGUs to exceed its recoverable amount.

## 9 Expenses by nature

<b>Deferred tax liability, net</b>	<b><u>(60,280)</u></b>	<b><u>(96,151)</u></b>

Deferred tax balance is expected to be recovered / settled as follows:

	<b>GROUP 31-Dec-21</b>	<b>GROUP 31-Dec-20</b>
	AUS000s	AUS000s
No more than 12 months after the reporting period	(7,884)	(3,204)
More than 12 months after the reporting period	<u>(52,396)</u>	<u>(92,947)</u>
Deferred tax liability, net	<b><u>(60,280)</u></b>	<b><u>(96,151)</u></b>

The UK tax rate for the Group for the current period is 19%. In the Spring Budget 2020, the UK Government announced that from 1 April 2020 the corporation tax rate would remain at 19% (rather than reducing to 17%, as previously enacted). The Government made a number of budget announcements on 3 March 2021. These include confirming that the rate of corporation tax will increase to 25% from 1 April 2023. This new law was substantively enacted on 24 May 2021. Deferred taxes at the balance sheet date have been measured using these enacted tax rates and reflected in these financial statements

## AI Sky UK Holdco Limited

### Notes to the Financial Statements

#### (c) Unrecognized tax losses

	<b>GROUP</b> <b>31-Dec-21</b> <b>AUS000s</b>	<b>GROUP</b> <b>31-Dec-20</b> <b>AUS000s</b>
Unused tax losses for which no deferred tax assets has been recognised	61,252	87,865
Potential tax benefit @ 19%	11,638	16,694

The unrecognised tax losses relate to acquired subsidiaries in Canada and Australia from which it is uncertain when the tax losses may be able to be utilised, along with losses from the UK where it is uncertain when the losses will be utilised. The losses can be carried forward indefinitely but some may be forfeited upon closure of the relevant entities.

#### (d) Recognized tax losses on deferred tax assets

	<b>GROUP</b> <b>31-Dec-21</b> <b>AUS000s</b>	<b>GROUP</b> <b>31-Dec-20</b> <b>AUS000s</b>
New Zealand	5,226	5,827
Australia	7,774	4,734
United Kingdom	18,738	1,087
Canada	110	50
	<u>31,848</u>	<u>11,698</u>

Australia generated tax losses due to large non-recurring transactions and it is expected that the entities will generate taxable income in the future to utilise the tax losses recognised. Canada generated a small loss in respect of the post acquisition period and it is expected to make taxable income to offset the tax losses in the future to utilise the tax losses recognised. New Zealand generated tax losses from non-recurring transactions and is expected to generate taxable income in the future. The UK tax losses balance includes denied interest that is allowed to be carried forward along with the tax losses. The UK has continued to generate tax losses and denied interest based on a scheduling analysis. All tax losses are technically available to carry forward post the merger based on a review undertaken.

proceeds of winding up the Company in proportion to the number of and amounts paid on the shares held. On a show of hands, every holder of ordinary shares present at a meeting, in person or by proxy, is entitled to one vote; and, on a poll, each share is entitled to one vote. The Company does not have a limited amount of authorised capital.

#### 13 Redeemable preference shares

	<b>GROUP</b>	<b>GROUP</b>
	<b>31-Dec-21</b>	<b>31-Dec-20</b>
	AUS000s	AUS000s
Redeemable preference shares	—	21,408

During the year ended 31 December 2021 no redeemable preference shares were issued (31 December 2020: On 1 April 2020, 8,000,000 redeemable preference shares in Sky EU Bidco S.a.r.l, a subsidiary of AI Sky UK Holdco Limited, were issued as fully paid with a par value of €1 per share. On 23 November 2020, 8,000,000 redeemable preference shares in the Company were issued to entities with an indirect shareholding in the Company as fully paid with a par value of A\$1 per share). During the year ended 31 December 2021, all redeemable preference shares were redeemed by holders and settled by the Group.

#### 14 Cash and cash equivalents

	<b>GROUP</b>	<b>GROUP</b>
	<b>31-Dec-21</b>	<b>31-Dec-20</b>
	AUS000s	AUS000s
Cash equivalents	10,512	32,145
Total cash and cash equivalents	<u>10,512</u>	<u>32,145</u>

#### 15 Trade and other receivables

	<b>GROUP</b>	<b>GROUP</b>
	<b>31-Dec-21</b>	<b>31-Dec-20</b>
	AUS000s	AUS000s
Trade receivables and accrued income	6,533	12,328
Prepayments	7,723	6,483
Other receivables	4,718	2,613
	<u>18,973</u>	<u>21,424</u>

The trade receivables above are presented net of provision for impairment on this balance. The provision for impairment in the year was \$2,667,826 (31 December 2020: \$632,000).

The credit quality of financial assets that are neither due nor impaired can be assessed by reference to historical information about counterparty default rates. The trade receivables are in Level 2, which consists of existing customers (more than 6 months) with no defaults in the past.

Trade receivables do not carry any interest and are stated at their nominal value. The Group applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the age of the outstanding amounts. A historical default rate is applied to the current period trade receivables balances to calculate the impairment. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. There were no general allowances made for estimated irrecoverable amounts.

The Directors consider that the carrying amount of trade receivables approximates their fair value.

## AI Sky UK Holdco Limited

### Notes to the Financial Statements

#### 16 Related party transactions and balances

In addition to management fees disclosed in Note 6, interest expense on amounts payable to related parties disclosed in Note 9 and compensation of key management personnel disclosed in Note 22(c), the Group had the following related party transactions:

- On 1 July 2021 UK Midco III (an intermediate parent of the Group that controls and consolidates substantially all of the Group's trading business) completed its merger with Megalo Parent Inc. As part of the business combination the Group's loan facilities that were established on 15 October 2019 with various institutional lenders were restructured to be held at the Xplor Technologies, LLC level and from the Group's perspective were replaced with an intercompany loan facilities between the Group and Xplor T1, LLC. As at 31 December 2021 these loan facilities are classified as Amounts payable to related parties.
- Immediately subsequent to the merger, the Group sold its interest in AI Sky US Bidco Inc, a subsidiary that held the Group's US-domiciled operations (including the Group's previous Boutique CGU), to Xplor T1, LLC. As part of this sale an intercompany loan note was established between the Group (as lender) and Xplor T1, LLC (as borrower).
- Loans were advanced between the Group and entities having an indirect shareholding in the Group on inter-company accounts.
- Repayments are made as cash flows allow and business needs require.
- Intercompany services provided to and from parent companies Clearent LLC and XT1 LLC.
- Redeemable preference shares issued to related parties were capitalised.

Where applicable these transactions and balances are disclosed on the face of the Balance Sheet and Statement of Comprehensive Income.

Amounts recognised in relation to related party transactions with shareholders having a controlling or significant interest in the Group:

Related party payables	16	—	1,876
Vendor liability	26	3,670	19,453
		<u>37,274</u>	<u>80,466</u>

Trade payables are unsecured and are usually paid within 90 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

\*Accrued expenses and other payables include; purchase and overhead accruals, accrued interest, sales and employee taxes payable as well as amounts due for integration, acquisition and restructuring, which due to their non-recurring nature are not classified as trade payables.

# AI Sky UK Holdco Limited

## Notes to the Financial Statements

### 19 Business Combinations

The following acquisitions took place within the Group during the periods reported:

On 1 January 2021, AI Sky US Bidco Limited, a subsidiary within the Group, acquired 100% of the shares in Adaptive Analytics LLC, a company incorporated in the USA, for US\$3,954,000 which is equivalent to AU\$5,260,000. Adaptive Analytics LLC provides data analytics and visualisation tools for the health and fitness sectors in North America. In the period 1 January to 30 June 2021 Adaptive Analytics LLC contributed AU\$227,000 of discontinued revenue and AU\$139,000 of net loss after tax. AI Sky US Bidco Limited was sold on 1 July 2021 therefore Adaptive Analytics LLC is no longer part of the Group.

On 3 May 2021, Transaction Services Holdings Limited, a subsidiary within the Group, acquired 100% of the shares in Superior Admin Limited, a company incorporated in New Zealand, for NZ\$15,000,000 which is equivalent to AU\$13,920,000. Superior Admin Limited trades as Discover, providing business management, education and parent engagement software to early education centres in New Zealand. In the current year Superior Admin Limited contributed AU\$1,070,000 of revenue and AU\$351,000 of net profit after tax. If the entity had been acquired on 1 January 2021, Superior Admin Limited would have contributed AU\$1,619,000 of revenue and AU\$640,000 of net profit after tax. Deferred tax of \$1,637,000 has been provided in relation to these fair value adjustments.

On 30 July 2021, TSG Holdings (Aust) No.2 PTY Limited, a subsidiary within the Group, acquired 100% of the shares in Zenrol PTY Limited, a company incorporated in Australia, for AU\$500,000. Zenrol PTY Limited provides sales and marketing solutions for early education centres in Australia. In the current year Zenrol PTY Limited contributed AU\$127,000 of revenue and AU\$35,000 of net profit after tax. If the entity had been acquired on 1 January 2021, Zenrol PTY Limited would have contributed AU\$293,000 of revenue and AU\$98,000 of net profit after tax.

Goodwill is shown as the difference of net assets acquired to purchase price. The value of goodwill is attributable to the expected benefit from the ability to generate new streams of revenue and the synergy opportunities through integration of the acquired entities with the existing business. Goodwill for Adaptive Analytics LLC is expected to be deductible for income tax purposes. Goodwill for Superior Admin Limited is not expected to be deductible for income tax purposes. There was no accumulated impairment at the start or end of the year 1 January 2021 to 31 December 2021.

Net cash effect	<u>(3,947)</u>	<u>(11,108)</u>	<u>(500)</u>	<u>(15,555)</u>

Acquisition-related costs of \$3,184,000 that were not directly attributable to the issue of shares are included in administrative expenses in the statement of profit or loss and in operating cash flows in the statement of cash flows.

The fair value of the 3,179,176 B ordinary shares issued as part of the consideration paid for Superior Admin Limited was estimated using a market approach.

The totals in the above differs from the goodwill and intangibles in Note 8 and deferred tax liability in Note 10 due to an immaterial prior period error which is corrected in the current year in line with IFRS.

During the prior period, the following acquisitions took place within the Group:

On 1 April 2020, TSG Holdings (UK) Limited, a subsidiary within the Group, acquired 100% of the shares in Synodia SAS, a company incorporated in France, for €31,900,000 which is equivalent to A\$57,704,000. Subsequent to the acquisition, Sky EU Bidco S.a.r.l was incorporated and 100% the shareholding in Synodia SAS was transferred from TSG Holdings (UK) Limited to Sky EU Bidco S.a.r.l.

On 24 June 2020, the Sky EU Bidco S.a.r.l acquired 100% of the shares in Lodecom SAS, a company incorporated in France, for €6,350,000 which is equivalent to A\$10,384,000.

Both of these entities provide software management systems to the Health and Fitness market in Europe.

The fair value of assets acquired, as listed below, include an allocation of value to software and customer relationships on an excess earnings rate and value of trade names on a royalty relief basis.

Goodwill is shown as the difference of net assets acquired to purchase price. The value of goodwill is attributable to the expected benefit from the ability to generate new streams of revenue and the synergy opportunities through integration of the acquired entities with the existing business. The fair values applied to the intangible assets above, with the exception of the value of software, are not expected to be deductible for income tax purposes.

#### 21 Financial Instruments

The main risks arising from the Group's financial instruments are foreign exchange risk, interest rate risk, credit risk and liquidity risk. The Board policies for managing these risks are summarised in Note 2. During the year, there were no changes to the Group's exposure to these risks or the manner in which it manages and measures these risks.

For cash and cash equivalents, the Group minimises credit risk by dealing exclusively with highly credit rated counterparties. The creditworthiness (with reference to external credit rating agencies) of the counterparties in respect of cash and cash equivalents balances in the Group is as follows:

	GROUP 31-Dec-21 AUS000s	GROUP 31-Dec-20 AUS000s
AA-	3,703	9,519
A+	3,950	2,512
A	2,763	16,546
BBB+	96	3,568
<b>Total Cash and cash equivalents</b>	<b>10,512</b>	<b>32,145</b>

Other financial assets with counterparties comprise of trade receivables. As the Group usually collects its billing transaction fee upfront and only the net collections are submitted to each customer, the trade receivables balance is small relative to the size of revenue. Existing trade receivables balances relate to large, well established customers with long standing relationships with the Group with no defaults in the past. Refer Note 15 for further details.

## Notes to the Financial Statements

### 23 Management Equity

#### (a) Overview of management equity arrangements

Certain current and former managers of the Group hold equity interests in AI Sky UK Midco II Limited ('UK Midco II'), an entity with an indirect shareholding in the Company and Group.

The various share based payment arrangements are described in more detail below.

#### C shares

This arrangement is a share ownership scheme under which certain managers ('participants') are issued restricted interests in UK Midco II Class-C shares. With the exception of one holder who owns a direct restricted interest in C shares, legal title to the underlying C shares are held by Ocorian Limited, the Trustee of AI Sky UK Midco II's Employee Benefit Trust ('EBT'). The participants acquired the interests through cash investment, paying an upfront subscription price. These interests permit the participant to benefit from the value of a number of C shares. Under IFRS 2 the awards are classified as equity settled share based payments. Under the terms of the original award, the C shares were to fully vest in management on the occurrence of an IPO or other liquidity event. The grant date value of the original award was recognised in employee expenses over the anticipated period to the liquidity event.

#### *Vesting/leaver conditions*

- a) Interests fully vest in the participants on the occurrence of an IPO or other liquidity event.
- b) The interests are subject to a call option that can be exercised by UK Midco II or the EBT in the event that the participant leaves the business before an IPO or other liquidity event ("leavers call option"):
  - i) Where a participant leaves the business and is classified as a "Bad Leaver" (defined as: all leavers other than "Good Leavers"), the exercise price of the leavers call option is the lower of the subscription price paid by the participant and the fair value of the interest.
  - ii) Where a participant leaves the business before an IPO or exit event and is classified as a "Good Leaver" (defined as: the participant leaves the business as a result of their position being made redundant by the Group, death or permanent disability), a five year vesting calculation is applied. Good leavers are entitled to the fair value of their vested interests, and the lower of subscription price and fair value for their unvested interests.

#### *Modified awards*

On 26 April 2021, the terms of the C share arrangement were modified which resulted in changes to the vesting and settlement conditions of the awards. A summary of the key amendments is as follows:

1. The C ordinary shares will vest over a 5-year period, increasing daily on a straight-line basis after the first anniversary of the grant date ("Vesting Start Date").
2. Upon the completion of an IPO which results in the exchange or conversion of the C shares into listed shares of the IPO vehicle, all vested C shares will convert into fully vested shares of the listed shares (subject to customary lock-up restrictions).
3. Any unvested shares at the time of the IPO will be exchanged/ converted into unvested listed shares, which will vest in equal quarterly instalments over the longer of:
  - a) the unexpired portion of the five-year period starting after the Vesting Start Date, and
  - b) two years after the date of the IPO.
4. After the IPO, the Group/ IPO vehicle will have the option to purchase any unvested listed shares at the lower of:
  - a) the cost of the unvested C shares that were converted into listed shares, and
  - b) the market value of any unvested listed shares.

#### *Accounting treatment for the modified awards*

IFRS 2 treats the original award and the incremental value of the modified award as if they were two separate awards. As the modifications increased the fair value of the award, the Group continues to recognise an expense for the grant date fair value of the original award over its original vesting period, even though the vesting period of the modified award is longer, and the incremental fair value of the modified award is recognised over the remaining period until full vesting.

Accordingly, the Group continues to recognise the value of the original award over the original vesting period (estimated time to IPO). In addition, the incremental fair value of the modified award is accounted for as follows:

## AI Sky UK Holdco Limited

### Notes to the Financial Statements

- For those shares expected to vest at IPO: Over the period from the modification date to the expected date of IPO
- For later tranches (shares expected to vest quarterly after IPO): The incremental fair value of the modification will be recognised over the period from the modification date to the expected date of vesting

UK Midco II's issue of these share based payments is accounted for by the Group as a capital contribution in equity.

#### C2 Shares

The C2 shares have economics that are tied to a synthetic valuation of certain companies within the Group. The holder acquired the C2 shares through cash investment, paying an upfront subscription price that was set according to a valuation agreed between UK Midco II and the holder. The C2 shares had similar terms to the Management equity plan above.

#### *Vesting/leaver conditions*

C2 shares do not have any vesting or leaver conditions.

#### *Accounting treatment*

The C2 shares were accounted for as an Equity Settled Share Based Payment arrangement, and were expensed over the period of vesting. The fair value of the C2 shares awarded was determined using a Monte-Carlo option pricing model, with a deduction for the upfront subscription price paid by the holder to acquire the shares.

UK Midco II's issue of these share based payments is accounted for by the Group as a capital contribution in equity.

#### (b) Share based payments

The key assumptions in valuing the share based payments are as follows:

##### Grants during the year ending 31 December 2021

	<b>C Shares Classified as Equity Settled</b>
Anticipated liquidity event date at the time of award	Apr 2022 to Dec 2022
Group EV Volatility	37.7 %
Risk free rate	0.07 %
Expected dividends	Nil

##### Grants during the period ending 31 December 2020

	<b>C Shares Classified as Equity Settled</b>
Anticipated liquidity event date at the time of award	Dec 2021 to March 2022
Group EV Volatility	40.6 %
Risk free rate	0.26 %
Expected dividends	Nil

The fair value of the C shares were estimated based on a valuation methodology having regard to the expected future liquidity event and asset volatility based on comparable companies.

## AI Sky UK Holdco Limited

### Notes to the Financial Statements

The following amounts have been recognised in relation to share based payment arrangements.

	<b>GROUP</b> <b>1 January 2021</b> <b>to 31 December</b> <b>2021</b>	<b>GROUP</b> <b>1 April 2020</b> <b>to 31 December</b> <b>2020</b>

Non-current	16,464	12,401

**AI Sky UK Holdco Limited**  
**Notes to the Financial Statements**

**25 Collection deposits and Collection liabilities**

	<b>GROUP</b> <b>31-Dec-21</b> <b>AUS000s</b>	<b>GROUP</b> <b>31-Dec-20</b> <b>AUS000s</b>
Collection deposits	79,470	51,039
	<u>79,470</u>	<u>51,039</u>
	<b>GROUP</b> <b>31-Dec-21</b> <b>AUS000s</b>	<b>GROUP</b> <b>31-Dec-20</b> <b>AUS000s</b>
Collection liabilities	79,470	51,039
	<u>79,470</u>	<u>51,039</u>

Collection deposits and liabilities represent the funds collected on behalf of the Group's clients which are held in separate bank accounts on their behalf to be remitted.

**26 Vendor Liability**

	<b>Note</b>	<b>GROUP</b> <b>31-Dec-21</b> <b>AUS000s</b>	<b>GROUP</b> <b>31-Dec-20</b> <b>AUS000s</b>
Deferred consideration		—	10,381
Contingent consideration		16,117	18,144
		<u>16,117</u>	<u>28,525</u>
Current	18	3,670	19,453
Non-current		12,447	9,072

Vendor liabilities represent outstanding payables due to vendors of businesses acquired by the Group. Deferred consideration is recognised at amortised cost and contingent consideration is recognised at fair value. Contingent consideration is dependent on various performance targets and is initially valued with reference to external valuations. The fair value of the liability is reassessed at each reporting period, any revaluations are recognised in profit and loss. Interest accrued on deferred consideration was nil for the year to 31 December 2021 (December 2020: \$166,000). The fair value adjustment as at 31 December 2021 for Contingent consideration was \$(1,404,000) (31 December 2020: \$4,374,000).

**27 Commitments**

The Group had no letters of credit outstanding at 31 December 2021 (31 December 2020: \$22,720,977). The Group had also issued bank guarantees amounting to \$546,718 (31 December 2020: \$350,000).

There were no capital commitments at 31 December 2021 (31 December 2020: nil).

**28 Contingent Liabilities**

There were no material contingent liabilities at 31 December 2021 (31 December 2020: nil).

Investment in AI Sky UK Bidco Limited increased due to funding for acquisitions.

### **BIS audit exemption**

For the Group's UK subsidiaries, Transaction Services Group Limited, AI Sky Aus Finance Limited, AI Sky NZ Finance Limited, AI Sky CDN Finance Limited, AI Sky UK Bidco Limited, TSG Holdings (UK) Limited, Transserv UK Limited, Harlands Group Ltd, Harlands Finance Limited, Harlands Services Ltd, Legend Club Management Systems (UK) Limited, Legend Leisure Services Limited, Club Machine Holdings Limited, Brightlime Limited, Debit Finance Collections PLC and Myxplor UK Ltd advantage has been taken of the audit exemption available for companies conferred by section 479A of the Companies Act 2006 on the grounds that;

- for the 12 months ended 31 December 2021 the Company was entitled to the exemption from a statutory audit under section 479A of the Companies Act 2006 relating to subsidiary companies, and
- no notice has been deposited under section 476 of the Companies Act 2006 in relation to the financial statements for the financial year.

The Directors acknowledge their responsibilities for:

- ensuring that the Company keeps adequate accounting records which comply with section 386 of the Companies Act 2006, and
- preparing financial statements which give a true and fair view of the state of the affairs of the Company at 31 December 2021 and of its profit and loss for the period then ended in accordance with the requirement of section 394 of the Companies Act 2006, and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements so far as applicable to the Company.

## AI Sky UK Holdco Limited

### Notes to the Financial Statements

#### 30 Discontinued operations

On 1 July 2021 UK Midco III (an intermediate parent of the Group that controls and consolidates substantially all of the Group's trading business) completed its merger with Megalo Parent Inc. Megalo Parent Inc consolidates the trading business of Clearent, a USA limited liability company, pursuant to the Merger Agreement. Clearent is a provider of business management software and payment services in the USA. The newly combined business was branded "Xplor Technologies".

As part of the business combination UK Midco II (a former intermediate parent of the Group that previously controlled and consolidated UK Midco III and its subsidiaries) transferred 100% of its shares in UK Midco III to a subsidiary of Xplor Technologies, LLC, the newly incorporated parent company of Xplor Technologies. In exchange for this transfer, Xplor Technologies, LLC issued UK Midco II with shares equating to 49% of the shareholders' equity in Xplor Technologies. Immediately subsequent to the merger, the Group sold its interest in AI Sky US Bidco Inc, a subsidiary that holds the Group's US-domiciled operations (including the Group's previous Boutique CGU), to Xplor T1, LLC. From 1 July 2021 AI Sky UK Holdco Limited ceased to consolidate AI Sky US Bidco Inc and its subsidiaries as controlled entities. The sale of AI Sky US Bidco Inc has been treated by the Group as a disposal of that subsidiary and reported in the current year as a discontinued operation. Financial information relating to the discontinued operation for the period to the date of disposal is set out below.

#### Financial performance and cash flow information

The financial performance and cash flow information presented are for the six months ended 30 June 2021 and the nine months ended 31 December 2021.

Amounts payable to related parties	(26,368)
<b>Total liabilities</b>	<b>(46,763)</b>
<b>Net assets</b>	<b>150,981</b>

### 31 Events after the reporting period

Following a strategic review of the Group's Fitness & Wellbeing software product portfolio, in Q2 2022 a decision was made to discontinue development of one of the products in the portfolio, with a carrying value of \$10,750,000 at year end, and instead focus investment in another product serving the same addressable market. At the time of this decision, the discontinued product had not yet been rolled out to a significant number of customers so is not expected to impact asset carrying values other than a write down to the carrying value of the discontinued product. The accounting for this has not been finalised therefore we cannot reliably estimate the financial impact.

On 30 April 2022, the Group and Xplor T1, LLC. have agreed to set off the Group's intercompany loan receivable referred to in Note 16 plus any interest accrued thereon, which arose from the sale of AI Sky US Bidco Inc. against the Group's intercompany loan payable to Xplor T1, LLC. referred to in Note 16.
