Notes to the Abbreviated Accounts
for the Year Ended 31 March 2016

1. **ACCOUNTING POLICIES**

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax, except in respect of service contracts where turnover is recognised when the company obtains the right to consideration.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off the cost less estimated residual value of each asset over its estimated useful life.

Fixtures and fittings	- 25% on reducing balance
Computer equipment	- 33% on cost

Deferred tax

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred tax is recognised in respect of all timing differences that have originated but not reversed by the balance sheet date. Deferred tax assets are only recognised where it is considered more likely than not that future profits will be available for offset. Deferred tax is measured on a non-discounted basis at the average tax rates that would apply in the periods in which the timing differences are expected to reverse, based on the tax rates and laws that have been enacted by the balance sheet date.

Operating leases

The relevant annual rentals are charged to the profit and loss account on a straight line basis over the lease term.

Work in progress

Contractual work in progress is included with debtors
