Pathway Holdings Limited

Accounting policies

The financial statements have been prepared in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom. A summary of the principal accounting policies, which have been applied consistently, is set out below.

The functional and presentation currency of the Company is the US Dollar.

Basis of preparation

The financial statements have been prepared on a going concern basis under the historical cost convention. The Company is a subsidiary of Vita Investments North America Limited and is included in the consolidated financial statements of British Vita (Lux III) S à r l, which are publicly available. Consequently, the Company has taken advantage of the exemption from preparing consolidated financial statements under the terms of section 400 of the Companies Act 2006.

Investments

Investments in subsidiary undertakings are stated at cost less provision for impairment.

Intangible assets

Intangible assets comprise patents and trademarks and are stated at cost less provision for impairment. They are amortised over their expected useful life of 4 years.

Impairment reviews

Where circumstances indicate that there may have been an impairment of the carrying value of an investment, intangible or tangible fixed asset, an impairment review is carried out using cash flows calculated from budgets and projections approved by the board which are discounted at the Group's risk-adjusted weighted average cost of capital calculated from equity market data and borrowing costs. The impairment cost, if material, is booked as an exceptional item.

Turnover

Turnover represents royalty income on the Company's patents and is recognised on an accruals basis.

Taxation

Corporation tax payable is provided on taxable profits at the current rate after adjusting for double taxation relief in respect of overseas taxation.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Company's taxable profits and its results as stated in the financial statements.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

Foreign currencies

Transactions denominated in foreign currencies are translated into sterling at actual exchange rates as of the date of the transaction (or where appropriate, at the rate of exchange in a related foreign currency forward contract). Monetary assets and liabilities denominated in foreign currencies at the period end are translated into sterling at the rate of exchange prevailing at the period end (or, where appropriate, at the rate of exchange in a related foreign currency forward contract). Any gain or loss arising from a change in exchange rates subsequent to the date of transaction is included as an exchange gain or loss in the profit and loss account.

Financial liabilities and equity

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities.

Cash flow statement

The Company is a wholly owned subsidiary of British Vita (Lux III) S à r l, which produces consolidated financial statements that are publicly available. Consequently, the Company is exempt from the requirement of Financial Reporting Standard (FRS) 1 "Cash flow statements" (Revised 1996) to prepare a cash flow statement.

Pathway Holdings Limited

Notes to the financial statements

for the year ended 31 December 2011

1 Operating loss

The turnover represents royalty income received from group companies in the USA

There were exceptional operating costs in 2011 of \$2,418,750 in respect of the impairment of intangible assets. Operating loss in 2010 is stated after charging an exceptional item in respect of the impairment of investments of \$8,650,000. Amortisation of intangible fixed assets during the year was \$4,837,500 (2010 \$4,837,500).

Fees payable to the Company's auditor of \$4,000 (2010 \$4,000) for audit services were borne by Vita Industrial (UK) Limited, a fellow group undertaking. No directors' emoluments were paid during the period. The Company has no employees.

The closing exchange rate of Sterling to US Dollar at 31 December 2011 used in preparing these financial statements was 1.54 (2010 1.55). The average rate was 1.60 (2010 1.54).

2 Tax on loss on ordinary activities

	2011 \$	2010 \$
Current tax		
United Kingdom corporation tax at 26.5% (2010 28%)	-	(399,603)
Adjustment in respect of previous years	399,603	-
Tax on loss on ordinary activities	399,603	(399,603)

The tax assessed for the year differs (2010 differs) from the effective rate of Corporation tax in the UK. The differences are explained as follows:

	2011 \$	2010 \$
Loss on ordinary activities before taxation	(5,920,176)	(12,192,154)
Tax on loss on ordinary activities at standard UK Corporation tax rate of 26.5% (2010 28%)	(1,568,847)	(3,413,803)
Expenses not deductible for tax purposes	3,394,033	2,422,000
Adjustment in respect of previous years	399,603	-
Tax losses (utilised)/not utilised	(1,825,186)	592,200
Current tax credit for the year	399,603	(399,603)

Potential deferred tax assets of \$0.3m (2010 \$2.1m) have not been recognised in respect of losses carried forward, as it is considered the degree of certainty around the future is not sufficient to recognise these assets.

On 23 March 2011 the Chancellor announced the reduction in the main rate of UK corporation tax to 26% with effect from 1 April 2011 and a further reduction to 25% with effect from 1 April 2012. These changes became substantively enacted on 29 March 2011 and 5 July 2011 respectively. The effect of these rate reductions has been included in the relevant figures above.

In his budget of 21 March 2012, the Chancellor of the Exchequer announced certain tax changes. The proposals included phased reductions in the corporation tax rate. The rate reduced to 24% from 1 April 2012 and further reductions were proposed to 23% effective from 1 April 2013 and to 22% effective from 1 April 2014. As at 31 December 2011 these changes had not been substantively enacted and therefore are not recognised in the financial statements. The overall effect of the further reductions from 25% to 22%, if these applied to the deferred tax balance not recognised at 31 December 2011, would not be significant.
