### **Notes to the Financial Statements for the Year Ended 31 December 2022**

#### **1 General information**

The company is a private company limited by share capital incorporated in United Kingdom. The address of its registered office is:

3<sup>rd</sup> Floor  
Walker House  
Liverpool  
L2 3YL

#### **2 Accounting policies**

##### **Summary of significant accounting policies and key accounting estimates**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

##### **Statement of compliance**

These financial statements were prepared in accordance with Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and applicable legislation as set out in the Companies Act 2006 and The Small Companies and Groups Regulations 2008.

##### **Basis of preparation**

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

The functional currency of Bibby Taurus Limited is considered to be pounds sterling because that is the currency of the primary economic environment in which the Company operates.

##### **Group accounts not prepared**

The company has taken the exemption from preparing group accounts as it is included in consolidated accounts for a larger group, Bibby Holdings Limited, which are drawn up as full consolidated audited accounts which are filed at Companies House.

##### **Going concern**

The financial statements have been prepared on a going concern basis, which the directors consider is appropriate. Bibby Holdings Limited has provided assurance that it will not seek repayment of its loan of £14,021,280 shown in creditors until Bibby Taurus Limited is able to meet other financial liabilities or from 12 months of signing the accounts.

The directors consider, having received the support from Bibby Holdings Limited, that the business has sufficient resources to meet its liabilities for at least 12 months following the signing of these accounts and consequently have prepared the accounts on a going concern basis.

## **Bibby Taurus Limited**

### **Notes to the Financial Statements for the Year Ended 31 December 2022**

#### **2 Accounting policies (continued)**

##### **Key sources of estimation uncertainty**

In applying the company's accounting policies, the directors are required to make judgements, estimates and assumptions in determining the carrying amounts of assets and liabilities. Due to the nature of the operations undertaken by the company, the directors do not consider there to be any key sources of estimation uncertainty or critical judgements in the amounts recognised in the financial statements.

##### **Current tax**

There is no tax expense for the period. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the UK.

##### **Business combinations**

Business combinations are accounted for using the purchase method. The consideration for each acquisition is measured at the aggregate of the fair values at acquisition date of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquired, plus any costs directly attributable to the business combination. When a business combination agreement provides for an adjustment to the cost of the combination contingent on future events, the Group includes the estimated amount of that adjustment in the cost of the combination at the acquisition date if the adjustment is probable and can be measured reliably.

##### **Investments**

Investments in equity shares are measured at cost less impairment (note 6).

##### **Borrowings**

Interest-bearing borrowings are initially recorded at fair value, net of transaction costs. Interest-bearing borrowings are subsequently carried at amortised cost, with the difference between the proceeds, net of transaction costs, and the amount due on redemption being recognised as a charge to the Profit and Loss Account over the period of the relevant borrowing.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

##### **Share capital**

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

##### **Related parties**

The company has taken advantage of the exemption in FRS 102 "Related Party Disclosures" from disclosing transactions with other members of the group.

##### **Critical accounting judgements**

The Company did not trade in the year. In preparing these financial statements the assumption that the business is a going concern is fundamental (see Going Concern in this note).
