NOTES TO THE ABBREVIATED ACCOUNTS

For the year ended 31st December 2014

1. ACCOUNTING POLICIES

Accounting convention

The accounts are prepared under the historical cost convention.

Depreciation

Depreciation is provided on all tangible fixed assets, at rates calculated to write off the cost, less estimated residual value, of each asset evenly over its expected useful life as follows:

Equipment - 15% reducing balance method

Deferred Taxation

Deferred taxation is provided on the liability method on all timing differences which are expected to reverse in the future, calculated at the rate at which it is estimated that tax will be payable.

Leasing and Hire Purchase

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible fixed assets. Assets acquired by finance lease are depreciated over the shorter of the lease term and their expected useful lives. Assets acquired under hire purchase are depreciated over their useful lives. Finance lease are those where substantially all the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce periodic rate of charge on the net obligations outstanding in each period.

Cash Flow Statement

The company has taken advantage of the exemption in Financial Reporting Standard number 1 from producing a cash flow statement on the grounds that it is a small company.

Deferred Taxation

Deferred taxation is provided on the liability method on all timing differences which are expected to reverse in the future, calculated at the rate at which it is estimated that tax will be payable.
