Notes to the Abbreviated Financial Statements For the year ended 31 March 2016

1. Accounting Policies

Basis of accounting

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

Intangible assets

Intangible assets (including purchased goodwill and patents) are amortised at rates calculated to write off the assets on a straight line basis over their estimated useful economic lives. Impairment of intangible assets is only reviewed where circumstances indicate that the carrying value of an asset may not be fully recoverable.

Tangible fixed assets

Depreciation is provided, after taking account of any grants receivable, at the following annual rates in order to write off each asset over its estimated useful life.

Freehold buildings 2% on cost or revalued amounts

Plant and machinery 15% on cost

Fixtures and fittings 10% on cost

Motor vehicles 25% on cost

No depreciation is provided on freehold land.

Assets on finance lease and hire purchase

Assets held under finance lease or hire purchase contracts i.e. those contracts where substantially all the risks and rewards of ownership have passed to the company, are included in the appropriate category of tangible fixed assets and depreciated over the shorter of the lease term and their estimated expected useful lives.

Future obligations under such contracts are included in creditors net of the finance charge allocated to future periods.

Stocks

Stocks are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow moving items. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads.

Turnover

Turnover comprises the invoiced value of goods and services supplied by the company, net of Value Added Tax and trade discounts.
