As director of the company I confirm:-

- a) That for the year ended 31st March 2014 the company was entitled to the exemption from audit under Section 477 of the Companies Act 2006 relating to small companies,
- b) That the members have not required the company to obtain an audit of its accounts for the year in question in accordance with Section 476,
- c) That I acknowledge my responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

Approved by the board of directors on

3rd November 2014.

Director

### 1. ACCOUNTING POLICIES

### **Basis of Accounting**

The financial statements are prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective 2008) and the provisions applicable to small companies subject to the small companies regime.

### **Turnover**

The turnover shown in the profit and loss account represents amounts invoiced for goods and services supplied during the year exclusive of Value Added Tax.

### **Tangible Fixed Assets**

The cost of tangible fixed assets is their purchase cost together with any incidental costs of acquisition.

Depreciation is calculated to write of the cost of tangible fixed assets, less their estimated residual value, over the expected useful economic life of the relevant asset. The annual rates and method of depreciation applied are:-

Equipment

25%

Reducing Balance

### **Intangible Fixed Assets**

Purchased goodwill is amortised on a straight line basis over its estimated useful economic life of 4 years.

### **Finance Leases**

Where the company enters into a lease which entails taking substantially all the risks and rewards of ownership of an asset, the lease is treated as a finance lease. The asset is recorded in the balance sheet as a tangible fixed asset and is depreciated in accordance with the above depreciation policies. Future instalments under such leases, net of finance charges, are included with creditors. Rentals payable are apportioned between the finance element, which is charged to the profit and loss account, and the capital element which reduces the outstanding obligation for future instalments.

Rentals applicable to operating leases, where substantially all of the benefits and risks of ownership remain with the lessor, are charged against profits as incurred.

### **Deferred Taxation**

Provision is made, under the liability method, to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred or accelerated is accounted for in respect of all material timing differences to the extent that it is considered that a net liability may arise.
