Notes

(forming part of the financial statements)

1 Accounting policies

Firerush Ventures No.1 Limited (the "Company") is a private company limited by shares and incorporated and domiciled in the United Kingdom.

The Company is exempt by virtue of s402 subject to the small companies regime of the Companies Act 2006 from the requirement to prepare group financial statements. These financial statements present information about the Company as an individual undertaking and not about its group.

The presentation currency of these financial statements is sterling. Amounts in the financial statements have been rounded to the nearest £1,000 or to the nearest £1 as indicated.

Judgements made by the directors, in the application of these accounting policies that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed in note 5.

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements.

Measurement convention

The financial statements are prepared on the historical cost basis.

Going concern

In previous years, the financial statements have been prepared on a going concern basis. However, as the Company is not intending to continue trading for a period of greater than one year from the date of approval of these financial statements, the financial statements have not been prepared on a going concern basis. All financial assets and liabilities have been recognised as current and all investments have been recognised on a fair value basis.

Classification of financial instruments issued by the Company

In accordance with FRS 102.22, financial instruments issued by the Company are treated as equity only to the extent that they meet the following two conditions:

- (a) they include no contractual obligations upon the Company to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the Company; and
- (b) where the instrument will or may be settled in the Company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the Company's own equity instruments or is a derivative that will be settled by the Company's exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the Company's own shares, the amounts presented in these financial statements for called up share capital and share premium account exclude amounts in relation to those shares.

Basic financial instruments

Trade and other debtors / creditors

Trade and other debtors are recognised initially at transaction price less attributable transaction costs. Trade and other creditors are recognised initially at transaction price plus attributable transaction costs.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances.

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements.
