**Birmingham Highways Limited**

---

**STRATEGIC REPORT**  
**For the year ended 30 June 2022**

The Directors present their strategic report for the year ended 30 June 2022.

**Performance and financial position at the year end**

The principal activity of Birmingham Highways Limited ("BHL") is to finance, rehabilitate, operate and maintain the Birmingham highways, under a PFI/PPP concession known as Birmingham Highways PFI Project ("the Project"), for the period of 25 years from May 2010 to May 2035, pursuant to a project agreement dated 6 May 2010.

The results for the year are shown on page 13 in the income statement. This shows total revenue for the year ended 30 June 2022 of £125,898,000 (2021: £104,322,000) and operating loss of £49,010,000 (2021 loss: £1,062,000). Net finance expense for the year ended 30 June 2022, including a profit recognised on a derivative financial instrument of £nil (2021: loss of £12,095,000) amounted to £64,592,000 (2021: £38,689,000) and the loss after tax was £64,592,000 (2021: £46,768,000 loss after tax). Net Liabilities were £237,793,000 (2021: £175,187,000).

The change in revenue and operating costs result largely arose from a higher accounting turnover from a Capital Improvement Programme and lower interest charges.

Since 1 April 2020, the Company's sub-contract agreement has been with Kier Highways Limited ("Kier") who have a contract extension that goes to 31 August 2023. To the date of signature of these financial statements this sub-contract agreement has been running successfully.

The re-procurement process to engage a long-term contractor has been documented by the BHL Board as part of the Outline Business case (OBC) that was submitted to DfT (HM Government Department with overall responsibility) on 6 December 2021. The response received from the DfT gave the BHL Board comfort that it was appropriate to commence the procurement of the long-term contractor. The procurement will run until July 2023.

The Company's costs during the extended Restructuring Period, have been and will continue to be materially higher than previously, principally because sub-contractors' charges are greater than that by Amey LG Limited ("Amey") prior to the Settlement; but additionally because, following the Settlement, the company has had to increase the scope of its operations and therefore its resources, in order to deliver the procurement of Amey's replacement through to the end of the contract.

At 30 June 2022, the Company also had a receivable of £34.225m from Amey, reflecting the £35m balance of the settlement due from Amey, discounted to reflect its current value. In the year to 30 June 2022, the Company received £10m of the original £215m settlement value so has now received a total of £180m.

At 30 June 2022 the Company had net liabilities of £237,793,000. This primarily reflects the accumulated trading losses of recent years.

At the end of the previous financial year, a restructuring of the Company's senior debt obligations took place with the Company's senior secured lenders ("the Senior Lenders") which saw the Company's cash reserves used to reduce the outstanding senior debt and realign the hedge position with the new level of senior debt. In total, £108m of senior debt was repaid to leave £45m outstanding. The hedge position on the debt was also reduced to align with the remaining senior debt and repayment profile.

**Birmingham Highways Limited**

---

**STRATEGIC REPORT** *(continued)*

**Performance and financial position at the year end** (continued)

The long-term strategy of the company is to rehabilitate the city of Birmingham's highway infrastructure in line with highway standards and to maintain those standards at an acceptable and value for money level through a long-term management and maintenance contract through to 2035. Decisions and actions through the year work towards that goal by moving towards a long term procurement contract that gives all stakeholders confidence in the company, so giving time to continue working towards finding a long term works provider.

**Key performance indicators**

The Directors consider cashflow, revenue, operating loss; and loss before tax and achievement of milestones under the Project to be the key performance indicators of the Company.

The Directors monitor actual performance against anticipated performance. The financial performance of the Company over the last few years has been significantly impacted by the litigation and subsequently the Settlement, but there has been less of an impact over the year to 30 June 2022 as the company focuses on the long-term procurement contract.

**Principal risks and uncertainties**

The Settlement consensually resolved disputes that had arisen previously between the Company, its key customer Birmingham City Council (BCC) and its subcontractor Amey and the parties entered into two key agreements and a number of related arrangements.

The Settlement provided stability during the Restructuring Period in which the Company and BCC would work collaboratively to procure a replacement long-term contractor. As part of the Settlement, BCC agreed to continue making sufficient cash available to the Company to cover the Company's operating costs and all debt service. The Settlement also provided continued Senior Lender support.

Under the terms of the Settlement Agreement there will be no risk on asset renewal expenditure; and operational deductions have ceased.

The Company has individual committed senior term loan facilities granted by the Senior Lenders, which are secured by the assets and future revenues of the Company, and on 29 June 2021 the debt restructuring saw these facilities reduced by £107,838,000 and the repayment re-profiled.

The Company has a floating interest rate on the long-term facilities, which is managed by entering into fixed interest rate swaps to mitigate interest rate exposure. These interest rate swaps were re-aligned at the end of the previous financial year to match with the remaining senior debt and new repayment profile put in place as part of the senior debt restructuring. The Company does not undertake speculative financial instrument transactions. With respect to financial instrument risk, further detail is provided in Note 10 of the Financial Statements.

The term of the Restructuring Period has been extended from 29 April 2022 to 3 February 2023. The expiry date of the Interim Services Contract did not change through the year and is still August 2023.

With vaccines for COVID-19 being rolled out throughout the UK, the impact of this virus on BHL's operations during the financial year was very minimal. Where required, management ran the business remotely, or in a hybrid model and work on the Project by contractors continued to occur with the addition of increased safety equipment and personal distancing. Core income was not affected.

Information in respect of financial risk management and financial risks is provided in Note 3 to the financial statements.

**Birmingham Highways Limited**

---

**STRATEGIC REPORT** *(continued)*

**Section 172(1) Statement**

The following disclosure describes how the directors have regard to the matters set out in section 172(1)(a) to (f) and forms the directors statement required under section 414 of The Companies Act 2006:

**Customers** – The company maintains open and honest communications with its customer Birmingham City Council and holds regular meetings with them.

**Employees** – As a PFI scheme only minimal employees are in place and as they are all Board Members, they are kept well informed on company matters.

Although there are less than a handful of employees, the group operates an equal opportunity policy.

**Suppliers** – Partnership and collaboration are key to ensure good relationships are kept in place with key contractors.

**Shareholders** – There is regular sharing of company performance and strategy with the parent firm and its shareholders, with shareholder requirements taken into account with regard strategic decision making.

**Communities and the Environment** – Company culture is supportive of work that is done by employees and suppliers in relation to their communities and the environment.

This report was approved by the board on 29 December 2022 and signed on its behalf by:

Robert Wiggins  
**Director**  
Company number: 07064140

**Birmingham Highways Limited**

---

**DIRECTORS' REPORT**  
**For the year ended 30 June 2022**

The Directors present their report together with the audited financial statements for the year ended 30 June 2022.

**Matters covered by Strategic report**

A review of the business and performance of the Company are included in the strategic report on pages 2 and 3.

The Company has chosen in accordance with Section 414C(11) of the Companies Act 2006 (as inserted by the Companies Act 2006 (Strategic Report and Directors' Report) Regulations 2013) to set out within this Directors' report the Company's Strategic Report information required by Schedule 7 of the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008. This includes information that would have been included in the business review, details of the principal risk and uncertainties and 'future developments' paragraph.

**Principal activities**

The principal activity of the Company is to finance, rehabilitate, operate and maintain the Birmingham highways, under a PFI/PPP concession known as the Birmingham Highways PFI Project ("the Project"), for the period of 25 years from May 2010 to May 2035, pursuant to a project agreement dated 6 May 2010.

**Dividends**

The Directors do not recommend the payment of a dividend.

**Going concern and impact of COVID-19**

As referenced in the Strategic Report, the extension of the Restructuring Agreement from 29th June 2021 to 30 December 2021 to 29th April 2022 and then to 3 February 2023 provided the Directors with greater certainty about going concern. Under the terms of the Restructuring Agreement to which the Company, BCC and the Senior Lenders were party, BCC will fund the Company and, save for an operational cash balance of £5m, all cash in the Company will be held in restricted accounts that can only be operated with the consent of the Senior Lenders.

A key operational variable is currently the long-term procurement which, on a programme set following the settlement, should have started on 1 July 2021. Instead, the programme has been delayed. The Restructuring Period has been extended to 3 February 2023 with a view to agreeing a further extension. The additional time is needed to secure the long-term procurement.

Given the delay to the long-term procurement timetable agreed at the time of concluding the Settlement, the DfT requested a business plan in relation to the strategy. This was submitted in September 2021 and the outcome of the DfT review was positive. A more detailed plan was then prepared and presented to DfT in December 2021 and an initial positive response, received back along with requests for more information. Subsequently, the procurement commenced on 14 February 2022.

---

**Birmingham Highways Limited**

---

**DIRECTORS' REPORT** *(continued)*

**Going concern and impact of COVID-19** *(continued)*

On 31 March 2022, the DfT set out a requirement for a further business case that was jointly submitted by BHL and BCC on 30 September 2022 and for updates to continue to be given as the procurement makes progress. BCC and BHL maintain a good relationship with the DfT who continue to give strong support. A final business case is expected to be submitted in 2023 once the long-term procurement process approaches completion.

The presence of continued discussions and exchanges with DfT means that some risks remain with respect to the formal approval of the additional business case submitted in September 2022 and the final business case in 2023.

With respect to the period beyond 3 February 2023, whilst there is no mechanism within the Restructuring Agreement to extend it, the Directors have carefully considered the prospects of its key stakeholders consensually agreeing the terms for such an extension. The Directors have reasonable confidence that such an extension could be agreed, providing that the Senior Lenders are satisfied that the Company and BCC are aligned in their procurement strategy for a long term replacement for the sub-contractor and are working collaboratively. This conclusion is informed by the explicit language in the documents underpinning the extension to 3 February 2023, with regard to the parties' intention to work towards a further extension.

The Directors have concluded that these events or conditions indicate that a material uncertainty exists which may cast significant doubt over the company's ability to continue as a going concern and therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

In relation to liquidity, a cash flow forecast to the end of June 2024 shows that funding from BCC is required beyond the contractual level. This is principally because BCC have requested incremental capital investment over the extension period. Under the legal agreements currently in place, BCC would be required to fund any shortfall to 3 February 2023.

In relation to the above operational variable, it needs to be noted that an extension past the 3 February 2023 could lead to adjustments in the amended cash flow forecast to June 2024 that shows an additional, unfunded, liquidity need.

In weighing up the risk that this outcome presents to the Company, the Directors have considered three principal factors. Firstly, the agreement to extend the Restructuring Period to 3 February 2023 and the approach being taken by all stakeholders to further extend by that date. Secondly, the quality of the detailed business plans submitted to the DfT in September 2022. Thirdly, the Company's detailed cash flow forecasts, which indicate that there will be sufficient liquidity until at least 30 June 2024.

Having taken the above into account, the Directors are confident that the Company will be able to continue as a going concern until the cash flow forecast date of 30 June 2024 and so these accounts have therefore been prepared on a going concern basis.

The Directors have assessed the impact of the COVID-19 pandemic on the Company's operations and have concluded that road maintenance requirements were not significantly reduced or impacted and that this is unlikely to change. The Company has been able to maintain its services levels to BCC and has received its expected level of income during the pandemic period and the directors are not currently aware of any reason why the services levels should be significantly impacted by COVID-19 in the next twelve months.

Some changes were implemented because of COVID-19. Extra controls were built-in around social distancing workers and personal protection equipment which meant work could carry on largely as normal whilst being in strict compliance with Standard Operating Procedures required by HM Government.

**Birmingham Highways Limited**

---

**DIRECTORS' REPORT** *(continued)*

**Future developments**

The re-procurement process to engage a long-term contractor is ongoing and was documented as part of the business plan that was submitted to DfT in December 2021. Following receipt of approval of that business plan, BHL commenced the procurement of the long-term contractor. It is currently anticipated that the procurement will run until April 2023.

**Directors**

The Directors of the Company during the period, and up to the date of this report were:

|               | <b>Appointed</b> | <b>Resigned</b> |
|---------------|------------------|-----------------|
| A Clapp       |                  | 25/08/2021      |
| C Tanner      | 25/08/2021       |                 |
| A G H Gullan  |                  | 30/09/2022      |
| S L Jones     |                  | 29/06/2022      |
| R D Knight    |                  |                 |
| K Rahuf       |                  |                 |
| R E F Wiggins |                  |                 |
| A R J Thakrar | 21/01/2022       |                 |

**Directors' responsibilities**

The Directors are responsible for preparing the Strategic report, Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial period. The Directors believe that the approach they have taken to the evaluation of the PFI/PPP financial asset as at 30 June 2022 is the most appropriate one in all the circumstances but recognise that there were material uncertainties at that time which may subsequently prove to be inappropriate, especially as a result of the settlement agreement. Subject to that uncertainty, which is fully disclosed, the Directors believe they have fulfilled their responsibilities under company law.

**Birmingham Highways Limited**

---

**DIRECTORS' REPORT** *(continued)*

**Directors' responsibilities** *(continued)*

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis, unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records, that are sufficient to show and explain the Company's transactions and disclose, with reasonable accuracy at any time, the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

All of the current Directors have taken all the steps that they ought to have taken, to make themselves aware of any information needed by the Company's auditors for the purposes of their audit and to establish that the auditors are aware of that information. The Directors are not aware of any relevant audit information, of which the auditors are unaware.

**Auditors**

BDO LLP were reappointed as auditors and have expressed their willingness to continue in office. A resolution to reappoint them will be proposed at a Board Meeting.

This report was approved by the board on 29 December 2022 and signed on its behalf by:

Robert Wiggins  
**Director**

Company number: 07064140

**Birmingham Highways Limited**

---

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BIRMINGHAM HIGHWAYS LIMITED**  
**For the year ended 30 June 2022**

**Opinion on the financial statements**

In our opinion, the financial statements:

- give a true and fair view of the state of the Company's affairs as at 30 June 2022 and of its loss for the year then ended;
- have been properly prepared in accordance with UK adopted international accounting standards; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements of Birmingham Highways Limited ("the Company") for the year ended 30 June 2022 which comprise the income statement, the statement of comprehensive income, the balance sheet, the statement of changes in equity, the statement of cash flows and the notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and UK adopted international accounting standards.

**Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Independence**

We remain independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

**Material uncertainty related to going concern**

We draw attention to note 1 to the financial statements concerning the Company's ability to continue as a going concern, which states that the Company will need to secure the extension of the Restructuring Agreement and approval of the business plan submitted to the Department for Transport. As stated in note 1, these events or conditions, indicate that a material uncertainty exists that may cast significant doubt on the company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

In auditing the financial statements, we have concluded that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this report.

**Birmingham Highways Limited**

---

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BIRMINGHAM HIGHWAYS LIMITED**  
(continued)

**Other information**

The Directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

**Other Companies Act 2006 reporting**

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic report and Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic report and Directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic report and Director's report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

**Birmingham Highways Limited**

---

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BIRMINGHAM HIGHWAYS LIMITED  
(continued)**

**Responsibilities of Directors**

As explained more fully in the Directors' responsibilities statement, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

**Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Extent to which the audit was capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

- We obtained an understanding of the Company's activities and considered the laws and regulations of the UK to be of significance in the context of the audit. In doing so, we made inquiries of the Directors, considered the Company's control environment as it pertains to compliance with laws and regulations and considered the activities of the Company. We determined the most significant laws and regulations to be Companies Act 2006, elements of the reporting framework and tax legislation
- We communicated relevant identified laws and regulations and potential fraud risks to all engagement team members and remained alert to any indications of fraud or non-compliance with laws and regulations throughout the audit.
- We made inquiries of the Directors to identify any instances of irregularities or non-compliance.
- We agreed the financial statement disclosures to underlying supporting documentation and performed detailed testing on accounts balances which were considered to be at a greater risk of susceptibility to fraud.
- In addressing risk of management override of control, we performed testing of general ledger journal entries to the financial statements, including verification of journals which we consider exhibit higher fraud risk characteristics based on our understanding of the Company.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BIRMINGHAM HIGHWAYS LIMITED  
(continued)**

**Auditor's responsibilities for the audit of the financial statements (continued)**

Our audit procedures were designed to respond to risks of material misstatement in the financial statements, recognising that the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery, misrepresentations or through collusion. There are inherent limitations in the audit procedures performed and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we are to become aware of it.

A further description of our responsibilities is available on the Financial Reporting Council's website at: <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

**Use of our report**

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

---

**Notes to the financial statements**

**1 ACCOUNTING POLICIES**

Birmingham Highways Limited (the Company) is a private limited company incorporated and domiciled in the United Kingdom. The principal activity of the Company is to finance, rehabilitate, operate and maintain the Birmingham highways, under a PFI/PPP concession for the period of 25 years from May 2010 to May 2035, pursuant to a project agreement dated 6 May 2010.

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the Company's financial statements for the year ended 30 June 2022 and the comparative information presented in these financial statements for the year ended 30 June 2021.

**Basis of preparation**

The principal accounting policies adopted in the preparation of the financial statements are set out below. The policies have been consistently applied to the period presented, unless otherwise stated.

These financial statements have been prepared in accordance with UK adopted International Accounting Standards.

The financial statements have been prepared on an accruals basis and on the historical cost basis, except for derivative financial instruments, which are measured at fair value. Cost is based on fair value of consideration given in exchange for assets.

The preparation of financial statements in compliance with adopted IFRSs, requires the use of certain critical accounting estimates. It also requires Company management to exercise judgement in applying the Company's accounting policies. The areas where significant judgements and estimates have been made in preparing the financial statements and their effect are disclosed in note 2.

**Going Concern and the impact of COVID-19**

As referenced in the Strategic Report, the extension of the Restructuring Agreement from 29th June 2021 to 30 December 2021 to 29th April 2022 and then to 3 February 2023 provided the Directors with greater certainty about going concern. Under the terms of the Restructuring Agreement to which the Company, BCC and the Senior Lenders were party, BCC will fund the Company and, save for an operational cash balance of £5m, all cash in the Company will be held in restricted accounts that can only be operated with the consent of the Senior Lenders.

A key operational variable is currently the long-term procurement which, on a programme set following the settlement, should have started on 1 July 2021. Instead, the programme has been delayed. The Restructuring Period has been extended to 3 February 2023 with a view to agreeing a further extension. The additional time is needed to secure the long-term procurement.

Given the delay to the long-term procurement timetable agreed at the time of concluding the Settlement, the DfT requested a business plan in relation to the strategy. This was submitted in September 2021 and the outcome of the DfT review was positive. A more detailed plan was then prepared and presented to DfT in December 2021 and an initial positive response, received back along with requests for more information. Subsequently, the procurement commenced on 14 February 2022.

On 31 March 2022, the DfT set out a requirement for a further business case that was jointly submitted by BHL and BCC on 30 September 2022 and for updates to continue to be given as the procurement makes progress. BCC and BHL maintain a good relationship with the DfT who continue to give strong support. A final business case is expected to be submitted in 2023 once the long-term procurement process approaches completion.

The presence of continued discussions and exchanges with DfT means that some risks remain with respect to the formal approval of the additional business case submitted in September 2022 and the final business case in 2023.

With respect to the period beyond 3 February 2023, whilst there is no mechanism within the Restructuring Agreement to extend it, the Directors have carefully considered the prospects of its key stakeholders consensually agreeing the terms for such an extension. The Directors have reasonable confidence that such an extension could be agreed, providing that the Senior Lenders are satisfied that the Company and BCC are aligned in their procurement strategy for a long term replacement for the sub-contractor and are working collaboratively. This conclusion is informed by the explicit language in the documents underpinning the extension to 3 February 2023, with regard to the parties' intention to work towards a further extension.

The Directors have concluded that these events or conditions indicate that a material uncertainty exists which may cast significant doubt over the company's ability to continue as a going concern and therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

In relation to liquidity, a cash flow forecast to the end of June 2024 shows that funding from BCC is required beyond the contractual level. This is principally because BCC have requested incremental capital investment over the extension period. Under the legal agreements currently in place, BCC would be required to fund any shortfall to 3 February 2023.

In relation to the above operational variable, it needs to be noted that an extension past the 3 February 2023 could lead to adjustments in the amended cash flow forecast to June 2024 that shows an additional, unfunded, liquidity need.

**Notes to the financial statements** *(continued)*

**1 ACCOUNTING POLICIES** *(continued)*

**Basis of preparation** *(continued)*

**Going Concern and the impact of COVID-19** *(continued)*

In weighing up the risk that this outcome presents to the Company, the Directors have considered three principal factors. Firstly, the agreement to extend the Restructuring Period to 3 February 2023 and the approach being taken by all stakeholders to further extend by that date. Secondly, the quality of the detailed business plans submitted to the DfT in September 2022. Thirdly, the Company's detailed cash flow forecasts, which indicate that there will be sufficient liquidity until at least 30 June 2024.

Having taken the above into account, the Directors are confident that the Company will be able to continue as a going concern until the cash flow forecast date of 30 June 2024 and so these accounts have therefore been prepared on a going concern basis.

The Directors have assessed the impact of the COVID-19 pandemic on the Company's operations and have concluded that road maintenance requirements were not significantly reduced or impacted and that this is unlikely to change. The Company has been able to maintain its services levels to BCC and has received its expected level of income during the pandemic period and the directors are not currently aware of any reason why the services levels should be significantly impacted by COVID-19 in the next twelve months.

Some changes were implemented because of COVID-19. Extra controls were built-in around social distancing workers and personal protection equipment which meant work could carry on largely as normal whilst being in strict compliance with Standard Operating Procedures required by HM Government.

**Carrying value of the PFI/PPP financial asset**

The Directors have carefully considered whether, as at 30 June 2022, the PFI/PPP financial asset should be impaired. In carrying out their impairment review, the Directors made the judgement that it was appropriate to consider assumptions regarding future revenues and costs. At 30 June 2022, using these assumptions, the Directors concluded that an impairment is required.

**1 ACCOUNTING POLICIES** *(continued)*

***Functional and presentation currency***

The functional currency of the Company is pounds sterling. The presentation currency of the Company is pounds sterling, rounded to the nearest thousand pounds.

***Measurement convention***

The financial statements are prepared on the historical cost basis, except that the following assets and liabilities are stated at their fair value: derivative financial instruments, and Amey debtor.

**Revenue**

PFI revenue has been accounted for in accordance with IFRIC 12, using the financial asset model, where it has been determined that the Company has an unconditional right to receive cash for the construction and maintenance service. Revenue is determined by the fair value of consideration received or receivable in respect of goods and services provided in the same way as other long-term contracts. The amounts recoverable from the infrastructure enhancement element of PFI contracts are shown separately on the face of the balance sheet as PFI financial assets.

Revenue from other contract activities represents fee income receivable in respect of services provided during the year. Estimates are included of amounts not yet invoiced.

All revenue excludes value added tax.

**Service concessions**

In accordance with IFRIC 12 and the various provisions of UK adopted International Accounting Standards, the Company has determined the appropriate treatment of the principal assets of, and income streams from, PFI and similar contracts. Results of all service concessions which fall within the scope of IFRIC 12 conform to the following policies depending on the rights to consideration under the service concessions:

***Service concessions treated as financial assets***

The Company recognises a financial asset arising from a service concession arrangement when it has an unconditional contractual right to receive cash or another financial asset from or at the direction of the grantor for the construction or upgrade services provided. Such financial assets are measured at fair value upon initial recognition. Subsequent to initial recognition, the financial assets are held at amortised cost.

Revenue is recognised by allocating a proportion of total cash receivable to construction income and service income. The consideration received will be allocated by reference to the relative fair value of the services delivered, when the amounts are separately identifiable.

During the operational stage, cash received in respect of the service concessions is allocated to service and maintenance revenue based on its fair value, with the remainder being allocated between capital repayment and interest income using the effective interest method.

**Birmingham Highways Limited**

---

**Notes to the financial statements** *(continued)*

**1 ACCOUNTING POLICIES** *(continued)*

**Financial assets**

The Company classifies its financial assets at amortised cost as discussed below. The Company has not classified any of its financial assets as held to maturity or available for sale.

Other than financial assets in a qualifying hedging relationship, the Company's accounting policy for each category is as follows:

***(i) Financial assets - measured at amortised cost***

These assets are non-derivative financial assets, with fixed or determinable payments, that are not quoted in an active market. They arise principally through the provision of goods and services to customers (trade receivables) under PFI/PPP contracts, but also incorporate other types of contractual monetary asset. They are carried at cost, less any provision for impairment. For PFI/PPP contracts, cost is determined by the fair value of goods and services, as adjusted for the expected payment date at the time of providing the services. Interest bearing financial assets are subsequently measured at amortised costs, using the effective interest rate (EIR) method. Interest calculated in accordance with this policy is recognised in finance income in the income statement.

The financial assets measured at amortised costs comprise trade and other receivables and cash and cash equivalents in the statement of financial position.

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short term highly liquid investments with original maturities of three months or less and, for the purpose of the statement of cash flows, bank overdrafts.

Impairment provisions are recognised when there is objective evidence, such as significant financial difficulties on the part of the counterparty or default or significant delay in payment, that the Company will be unable to collect all of the amounts due under the terms receivable, the amount of such a provision being the difference between the net carrying amount and the present value of the future expected cash flows associated with the impaired receivable. For trade receivables, which are reported net; such provisions are recorded in a separate allowance account, with the loss being recognised within administrative expenses in the statement of comprehensive income. On confirmation that the trade receivable will not be collectable, the gross carrying value of the asset is written off against the associated provision.

---

**Notes to the financial statements** *(continued)*

**1 ACCOUNTING POLICIES** *(continued)*

**Financial liabilities**

The Company classifies its financial liabilities into one of two categories, depending on the purpose for which the liability was acquired.

Other than financial liabilities in a qualifying hedging relationship, the Company's accounting policy for each category is as follows:

***(i) Financial liabilities - fair value through profit or loss***

This category comprises only out-of-the-money derivatives (see financial assets for in-the-money derivatives). They are carried in the balance sheet at fair value, with changes in fair value recognised in the statement of comprehensive income. The Company does not hold or issue derivative instruments for speculative purposes, but for hedging purposes. Other than these derivative financial instruments, the Company does not have any liabilities held for trading, nor has it designated any financial liabilities as being at fair value through profit or loss.

***(ii) Financial liabilities - other financial liabilities***

Other financial liabilities include the following items:

- Bank borrowings are recognised at the amount advanced, net of any transaction costs directly attributable to the issue of the instrument. Such interest bearing liabilities are subsequently measured at amortised cost, using the effective interest rate method, which ensures that any interest expense over the period to repayment is at a constant rate on the balance of the liability carried in the balance sheet. Interest expense, in this context, includes initial transaction costs and premium payable on redemption, as well as any interest or coupon payable while the liability is outstanding.
- Trade payables and other short-term monetary liabilities, are recognised at amortised cost.

**Birmingham Highways Limited**

---

**Notes to the financial statements** *(continued)*

**1 ACCOUNTING POLICIES** *(continued)*

**Fair value measurement hierarchy**

Certain disclosures are required to the classification of financial assets and financial liabilities measured at fair value, using a fair value hierarchy that reflects the significance of the inputs used in making the fair value measurement (see note 3). The fair value hierarchy has the following levels:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The level in the fair value hierarchy within which the financial asset or financial liability is categorised, is determined on the basis of the lowest level input that is significant to the fair value measurement. Financial assets and financial liabilities are classified in their entirety into only one of the three levels.

**Hedge accounting**

Hedge accounting is applied to financial assets and liabilities only where all of the following criteria are met:

- at the inception of the hedge, there is a formal designation and documentation of the hedging relationship and the Company's risk management objective and strategy for the undertaking;
- for cash flow hedges, the hedged item in a forecast transaction is highly probable and presents an exposure to variations in cash flows that could ultimately affect income or expense;
- the cumulative change in the fair value of the hedging instruments is expected to be between 80% and 125% of the cumulative change in the fair value or cash flows of the hedged item attributable to the risk hedged, i.e. it is expected to be highly effective;
- the effectiveness of the hedge can be reliably measured; and
- the hedge effectiveness is assessed on a regular basis and remains highly effective.

The Company does not hold or issue derivative instruments for speculative purposes, although derivatives not meeting the above criteria are designated for accounting purposes at fair value through the income statement, as appropriate.

**Derivative financial instruments at fair value – cash flow hedges**

The Company uses derivative financial instruments ("derivatives") to manage interest rate risk and, where the hedge accounting criteria are met, designates these as cash flow hedges. Changes in the fair value of the effective portion of derivatives that are designated as qualifying hedges, are recognised in other comprehensive income.

Changes in the fair value of the ineffective portion of cash flow hedges are recognised in the income statement. Amounts accumulated in equity are transferred to the income statement when the underlying transaction occurs. The Company is amortising the hedge reserve arising whilst the hedge was effective over the remaining term of the derivatives by reference to the estimated interest costs of the hedged item.

**Birmingham Highways Limited**

---

**Notes to the financial statements** *(continued)*

**1 ACCOUNTING POLICIES** *(continued)*

**Share capital**

Financial instruments issued by the Company are classified as equity only to the extent that they do not meet the definition of a financial liability or financial asset.

The Company's ordinary shares are classified as equity instruments.

**Deferred taxation**

Deferred tax assets and liabilities are recognised where the carrying amount of an asset or liability in the balance sheet differs from its tax base, except for differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting nor taxable profit.

Recognition of deferred tax assets is restricted to those instances where it is probable that taxable profit will be available against which the difference can be utilised.

The amount of the asset or liability is determined using tax rates that have been enacted, or substantively enacted, by the reporting date and are expected to apply when the deferred tax assets are recovered.

Deferred tax assets and liabilities are offset when the Company has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority on the same taxable Company. Deferred tax is not discounted.

**2 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS**

The Company makes certain estimates and assumptions regarding the future. Estimates and judgements are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are discussed below.

***Judgements***

**(a) Revenue recognition and contract costs**

The Company's activities are undertaken via long term contracts which are accounted for in accordance with IFRIC 12 Service Concession Agreements.

During the year, Management's judgement was that revenue should continue to be recognised in accordance with the existing contractual arrangements and calculated in accordance with the finance debtor model, reflecting the continuing provision of services in accordance with the contract.

**Birmingham Highways Limited**

---

**Notes to the financial statements** *(continued)*

**2 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS** *(continued)*

**Judgements** *(continued)*

**(b) Carrying value of PFI/PPP financial asset**

The Directors have carefully considered whether, as at 30 June 2022, the PFI/PPP financial asset should be impaired. In carrying out their impairment review, the Directors made the judgement that it was appropriate to consider assumptions regarding future revenues and costs. At 30 June 2022, using these assumptions, the Directors concluded that an impairment is required.

**(c) Assessment of hedge effectiveness**

The Directors must assess each year whether the company is meeting the criteria for cash flow hedge accounting. For the reasons explained in Note 7, the Company meets the requirements for cash flow hedge accounting.

**Estimates**

**Fair value of financial instruments**

The Company determines the fair value of financial instruments that are not quoted, using valuation techniques. Those techniques are significantly affected by the assumptions used, including discount rates and estimates of future cash flows. In that regard, the derived fair value estimates cannot always be substantiated by comparison with independent markets and, in many cases, may not be capable of being realised immediately.

The methods and assumptions applied, and the valuation techniques used, are disclosed in note 10.

**3 FINANCIAL INSTRUMENTS - RISK MANAGEMENT**

The Company is exposed through its operations to the following financial risks:

- Credit risk
- Cash flow interest rate risk
- Liquidity risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

**Birmingham Highways Limited**

---

**Notes to the financial statements** *(continued)*

**3 FINANCIAL INSTRUMENTS - RISK MANAGEMENT** *(continued)*

***Principal financial instruments***

The principal financial instruments used by the Company, from which financial instrument risk arises, are as follows:

- trade receivables
- cash and cash equivalents
- trade and other payables
- financial assets
- floating rate bank loans
- fixed rate bank loans
- interest rate swaps
- fixed rate authority loan

A summary of the financial instruments held by category is provided below.

***Financial Assets***

Financial assets are classified as trade and other receivables and PFI financial assets.

***Financial Liabilities***

***Financial instruments measured at fair value***

IFRS 7 (Financial Instruments: Disclosure) requires the Company to analyse its financial assets and liabilities held at fair value, according to the valuation basis applied. Level 1 represents fair values based on quoted prices in active markets; level 2 represents fair values where valuation inputs are based on observable market data; and level 3 represents fair values where any significant valuation input is not based on observable market data.

**Birmingham Highways Limited**

**Notes to the financial statements (continued)**

**3 FINANCIAL INSTRUMENTS - RISK MANAGEMENT (continued)**

**Financial Liabilities (continued)**

*Financial instruments measured at fair value (continued)*

The Company has no level 1 or level 3 financial assets or liabilities. The amounts held at level 2 basis of valuation and included within the balance sheet in respect of derivative contracts are as follows:

| Derivative financial instrument                  | Fair value measurement<br>using Level 2 at: |                                        |
|--------------------------------------------------|---------------------------------------------|----------------------------------------|

| Non current liability                            | 731                                         | 2,141                                  |
| Current liability                                | 292                                         | 1,530                                  |
|                                                  | <b>1,023</b>                                | <b>3,671</b>                           |
| <b>Amount recognised in the income statement</b> |                                             |                                        |
|                                                  | Year ended<br>30 June<br>2022<br>£'000      | Year ended<br>30 June<br>2021<br>£'000 |
| Decrease in derivative liability                 | 2,648                                       | 38,853                                 |
| Deferred tax                                     | -                                           | -                                      |
| <b>In respect of financial liabilities</b>       | <b>2,648</b>                                | <b>38,853</b>                          |

As a condition of the lending, the Company is required to take out interest rate hedges to fix the interest rate, to hedge against cash flow interest rate risk until the debt has been repaid. This expires July 2025.

All financial liabilities with the exception of derivatives are classified as other financial liabilities measured at amortised cost.

**Birmingham Highways Limited**

**Notes to the financial statements (continued)**

**3 FINANCIAL INSTRUMENTS - RISK MANAGEMENT (continued)**

**General objectives, policies and processes**

The board has overall responsibility for the determination of the Company's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure the effective implementation of the objectives and policies to the Company's finance function.

The overall objective of the board is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility. Further details regarding these policies are set out below:

*Credit risk*

The Company's main financial assets are cash and cash equivalents, a PFI/PPP financial asset, trade, and other receivables from Amey plc. The Company's credit risk is mainly attributable to its public sector trade receivables from local authorities. The amounts are carried on the balance sheet net of any provision for doubtful receivables estimated by the Directors, based on experience and an evaluation of prevailing economic conditions.

The PFI/PPP financial asset will be recovered over the life of the contract.

*Interest rate risk*

The Company is exposed to interest rate risk from long term borrowings at variable rate. The Company's exposure to variable rate long term borrowings is eliminated through the use of interest rate hedge contracts. A sensitivity analysis has not been performed, on the basis that the majority of variable interest rates are swapped for fixed rates and therefore the exposure to interest rate risk is minimised.

*Credit quality of financial assets and impairment losses*

The ageing of trade and other receivables and other financial receivables at the balance sheet date was:

|              | Year ended<br>30 June<br>2022<br>£'000 | Year ended<br>30 June<br>2021<br>£'000 |
|--------------|----------------------------------------|----------------------------------------|
| Not past due | 74,165                                 | 83,452                                 |
| Past due     | -                                      | -                                      |
|              | <b>74,165</b>                          | <b>83,452</b>                          |

At 30 June 2022, there were trade receivables past due, but not impaired, of £nil (2021: £nil). The Directors consider that no impairment is necessary in respect of the current year.

**Birmingham Highways Limited**

**Notes to the financial statements (continued)**

**3 FINANCIAL INSTRUMENTS - RISK MANAGEMENT (continued)**

**General objectives, policies and processes (continued)**

*Liquidity risk*

Liquidity risk is defined as the risk that the Company would not be able to settle or meet its obligations on time or at a reasonable price. Management is responsible for liquidity, funding and settlement management. In addition, liquidity and funding risks, as well as related processes and policies, are overseen by management. The Company manages its liquidity risk based on business needs, tax, capital or regulatory considerations, if applicable, through numerous sources of finance in order to maintain flexibility. In accordance with IFRS 7 (Financial Instruments Disclosures), the table below sets out the repayment of principal and associated interest payments. In accordance with IAS1 requirements, the PFI non-recourse loans continue to be classified as a current liability at the end of June 2022. This arises because the Company has breached the provisions of the facilities agreement and, although the lenders have not declared the loans to be immediately due and payable, the Company did not have an unconditional right to defer settlement for at least 12 months after the reporting date.

|                                          | 1 year<br>or less | 1 to 2 years | 2 to 5 years | 5 years<br>and over<br>and later | Total   |
|------------------------------------------|-------------------|--------------|--------------|----------------------------------|---------|
|                                          | £'000             | £'000        | £'000        | £'000                            | £'000   |

- derivative financial liabilities – note 10

**Birmingham Highways Limited**

**Notes to the financial statements** *(continued)*

**3 FINANCIAL INSTRUMENTS - RISK MANAGEMENT** *(continued)*

*Capital Structure*

The Company manages its cash, bank loans and overdrafts and equity as capital. The Company's principal objective is to ensure that the Company has sufficient capital to fund its operations. In developing business plans, management consider the likely capital requirements and how to fund these requirements.

The Company's capital was summarised as follows:

|                             | <b>2022</b>       | 2021       |
|-----------------------------|-------------------|------------|
|                             | <b>£'000</b>      | £'000      |
| Cash and cash equivalents   | <b>(15,009)</b>   | (14,789)   |
| Authority loan              | <b>143,502</b>    | 90,257     |
| Bank and shareholder loans  | <b>168,010</b>    | 166,820    |
| Total shareholders' deficit | <b>(237,793)</b>  | (175,187)  |
| <br>Total capital           | <br><b>58,710</b> | <br>67,101 |

**4 REVENUE**

The turnover and loss on ordinary activities before taxation are attributable to the continuing operations and principal activities carried on within the United Kingdom. All turnover arises solely in the United Kingdom.

**5 OPERATING LOSS**

Operating loss is stated after charging:

|                        | <b>Year ended</b> | Year ended |
|------------------------|-------------------|------------|

**Birmingham Highways Limited**

**Notes to the financial statements (continued)**

**6 KEY MANAGEMENT PERSONNEL COMPENSATION**

From 1 April 2021, two Independent Directors were directly employed by the Company. Previously all services provided by the contractors include the provision of staff and management to perform contractual responsibilities. Costs associated with the staff and management are included within the contractors service charge.

In the year, payments of £526,000 were made for the services of Directors to their employers (2021: £621,000).

The previously ineffective SWAP Agreements were cancelled on 29 June 2021. These were renewed at an effective level based upon the loan value at that date. The cash flow hedge relating to the cancelled SWAPs has been reclassified to profit and loss in the prior year only.

The finance costs in the year includes interest payable on the liability of £54,950,000 for amounts repayable to Birmingham City Council in respect of overpayments made for contract milestones 6-9.

The PFI/PPP financial asset is a fixed rate financial asset and bore interest during the year at an average rate of 7.25%.

The Directors have carefully considered whether, as at 30 June 2022, the PFI/PPP financial asset should be impaired. In carrying out their impairment review, the Directors made the judgement that it was appropriate to consider assumptions regarding future revenues and costs. At 30 June 2022, using these assumptions, the Directors concluded that an impairment is required.

**Cash flow interest rate swaps**

The Company manages its cash flow interest rate risk by using floating-to-fixed interest rate swaps. Normally the Company raises long term borrowings at floating rates and then fixes the interest rate by entering into an interest rate swap contract "derivative".

At 30 June 2022, the main floating rates were based on SONIA. Gains and losses will be recognised in the cash flow hedge reserve on interest rate swap contracts as of 30 June 2022.

| Non-current                           |                               |                               |
| Subordinated shareholder loans        | 68,560                        | 68,560                        |
| Authority loan                        | 143,502                       | 90,257                        |
|                                       | <b>212,062</b>                | <b>158,817</b>                |
| Total loans and borrowings            | <b>311,512</b>                | <b>257,077</b>                |

The book value and the fair value are not materially different.

Principal terms and the debt repayment schedule of the Company's loans and borrowings are as follows as at 30 June 2022:

|                                             | Currency | Nominal rate | Year of<br>maturity |
|---------------------------------------------|----------|--------------|---------------------|
| Bank loan fixed interest rate               | Sterling | 6.97%        | 2025                |
| Bank loan floating interest rate            | Sterling | SONIA +2.5%  | 2025                |
| Shareholder loan fixed interest             | Sterling | 10%          | 2034                |
| Birmingham City Council fixed interest rate | Sterling | 8%           | 2022                |

**Bank borrowings**

The bank loans are secured by a fixed and floating charge over the assets of the business.

The amount payable to Birmingham City Council in respect of the overpayment claim was converted into a secured loan. This originally had an Authority Repayment Longstop Date of 31 July 2021. On 29 June 2022, this was extended to 3 February 2023.

**Birmingham Highways Limited**

**Notes to the financial statements** *(continued)*

**13 LOANS AND BORROWINGS** *(continued)*

**Bank borrowings** *(continued)*

The Company has no undrawn committed borrowing facilities in the current and previous year.

The Company facilities were scheduled to be fully drawn by the end of 2015. The undrawn facilities lapsed on 31 March 2018.

**14 DEFERRED TAX**

Deferred tax is calculated in full on temporary differences under the liability method using a tax rate of 25% (2021: 25%).

The movement on the deferred tax account is as shown below:

|                                            | <b>Year ended<br/>30 June<br/>2022<br/>£'000</b> | Year ended<br>30 June<br>2021<br>£'000 |

**Birmingham Highways Limited**

**Notes to the financial statements (continued)**

**14 DEFERRED TAX (continued)**

Deferred tax has been recognised in respect of all tax losses and other temporary differences, giving rise to deferred tax assets where the directors believe it is probable that these assets will be recovered.

There are unrecognised tax losses of £202,156,000 as at 30 June 2022.

Details of the deferred tax asset, amounts recognised in profit or loss and amounts recognised in other comprehensive income are as follows:

|                                                     | Credited to<br>profit or loss<br>£'000 | Credited to<br>equity<br>£'000 | Total<br>£'000 |

A new SWAP arrangement was entered into on 29 June 2021. The old SWAP arrangements were cancelled on the same date.

**17 LEGAL DISPUTES AND CONTINGENT LIABILITIES**

On 29 June 2019, a consensual settlement was signed for Amey to exit the Birmingham Highways PFI contract. The agreement involves the payment by Amey of £215m, of which £10m was paid in the year, £170m in previous years; and the remaining £35m over the next three years, or earlier under certain circumstances. Amey continued to provide services on an interim basis until 31 March 2020, and then were replaced by Kier on a fixed-term interim basis.

This agreement, to which both Birmingham City Council and the Company's Senior Lenders were parties, provides for interim arrangements and originally a two year period to re-procure a new sub-contractor, which has now been extended. Whilst the settlement has provided funds to assist in the resetting of the contract, the full financial impact of the settlement will not be known until re-procurement takes place, as the terms of a re-procurement are not yet known.

The Company has not made any provision for bad or doubtful debts in respect of related party debtors nor has any guarantee been given or received during the year regarding related party transactions.

From 1 April 2021, two of the Directors received emoluments directly from the Company. For the remaining Directors a payment is made for services as Directors to their employers.

**Birmingham Highways Limited**

---

**Notes to the financial statements** *(continued)*

**19 ULTIMATE PARENT UNDERTAKING**

The immediate parent company is Birmingham Highways Holdings Limited (BHHL), a company incorporated in the United Kingdom. This company entered administration on 19 September 2018. The registered address of BHHL is Ernst & Young LLP, One Colmore Square, Birmingham, B4 6HQ.

Birmingham Highways Holdings Limited has no ultimate parent undertaking or controlling related party, by virtue of the Company's joint ownership and control by PiP Infrastructure Investments (No 5) Limited and Equitix Highways 2 Limited.

PiP Infrastructure Investments (No 5) Limited's ultimate parent undertaking is PIP Multi-Strategy Infrastructure PPP LP, a Scottish Limited Partnership.

The ultimate parent undertaking of Equitix Highways 2 Limited is Equitix Fund II LP, an English Limited Partnership.

**20 SUBSEQUENT EVENTS**

In November 2022, BHL received £2.49m from Amey Highways Limited in advance of the £10m Settlement instalment due in December 2022. This payment was triggered following the disposal of one of Amey's business subsidiaries.
