Directors' report

The directors present their directors' report and financial statements for the year ended 31 December 2018.

The directors have taken advantage of the small companies exemption in preparing the directors' report and in not preparing a strategic report.

Principal activities

The principal activity of the company is property development and the operation of a historic country house exclusive use venue.

Business review

The trading results for the year and the company's financial position at the end of the year are shown in the attached financial statements.

Proposed dividend

The directors do not recommend the payment of a dividend (2017: £nil).

Directors

The directors who held office during the year and up to the date of signing this report were as follows:

JDR Fothergill
JP Pickering

Political contributions

The company made no political donations or incurred any political expenditure during the year.

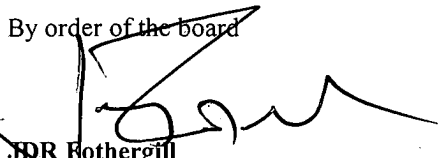

Disclosure of information to auditor

The directors who held office at the date of approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the company's auditor is unaware; and each director has taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information.

Auditor

Pursuant to Section 487 of the Companies Act 2006, the auditor will be deemed to be reappointed and KPMG LLP will therefore continue in office.

By order of the board

JDR Fothergill
Director

Statement of directors' responsibilities in respect of the directors' report and the financial statements

The directors are responsible for preparing the directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

Independent auditor's report to the members of First Sight Estates Limited

Opinion

We have audited the financial statements of First Sight Estates Limited ("the company") for the year ended 31 December 2018 which comprise the profit and loss account, balance sheet, statement of changes in equity, and related notes, including the accounting policies in note 1.

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2018 and of its loss for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the company in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

The impact of uncertainties due to the UK exiting the European Union on our audit

Uncertainties related to the effects of Brexit are relevant to understanding our audit of the financial statements. All audits assess and challenge the reasonableness of estimates made by the directors and related disclosures and the appropriateness of the going concern basis of preparation of the financial statements. All of these depend on assessments of the future economic environment and the company's future prospects and performance.

Brexit is one of the most significant economic events for the UK, and at the date of this report its effects are subject to unprecedented levels of uncertainty of outcomes, with the full range of possible effects unknown. We applied a standardised firm-wide approach in response to that uncertainty when assessing the company's future prospects and performance. However, no audit should be expected to predict the unknowable factors or all possible future implications for a company and this is particularly the case in relation to Brexit.

Going concern

The directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the company or to cease its operations, and as they have concluded that the company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over its ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

Independent auditor's report to the members of First Sight Estates Limited *(continued)*

Going concern *(continued)*

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least a year from the date of approval of the financial statements. In our evaluation of the directors' conclusions, we considered the inherent risks to the company's business model, including the impact of Brexit, and analysed how those risks might affect the company's financial resources or ability to continue operations over the going concern period. We have nothing to report in these respects.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the absence of reference to a material uncertainty in this auditor's report is not a guarantee that the company will continue in operation.

Directors' report

The directors are responsible for the directors' report. Our opinion on the financial statements does not cover that report and we do not express an audit opinion thereon.

Our responsibility is to read the directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the directors' report;
- in our opinion the information given in that report for the financial year is consistent with the financial statements; and
- in our opinion that report has been prepared in accordance with the Companies Act 2006.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- the directors were not entitled to take advantage of the small companies exemption from the requirement to prepare a strategic report.

We have nothing to report in these respects.

Directors' responsibilities

As explained more fully in their statement set out on page 2, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Independent auditor's report to the members of First Sight Estates Limited (continued)

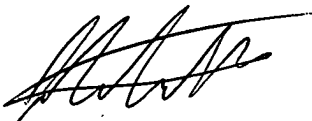

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes

(forming part of the financial statements)

1 Accounting policies

First Sight Estates Limited (the "company") is a company limited by shares and incorporated, domiciled and registered in the UK.

The company is exempt by virtue of s400 of the Companies Act 2006 from the requirement to prepare group financial statements. These financial statements present information about the company as an individual undertaking and not about its group.

These financial statements were prepared in accordance with Financial Reporting Standard 102 *The Financial Reporting Standard* applicable in the UK and Republic of Ireland ("*FRS 102*"). The presentation currency of these financial statements is sterling. All amounts in the financial statements have been rounded to the nearest £1,000.

The company's ultimate parent undertaking, Kiplun Limited, includes the company in its consolidated financial statements. The consolidated financial statements of Kiplun Limited are available to the public and may be obtained from Cleveland House, Norton Road, Stockton-on-Tees, Cleveland, TS20 2AQ. In these financial statements, the company is considered to be a qualifying entity (for the purposes of this FRS) and has applied the exemptions available under FRS 102 in respect of the following disclosures:

- Reconciliation of the number of shares outstanding from the beginning to end of the period;
- Cash flow statement and related notes; and
- Key management personnel compensation.

As the consolidated financial statements of Kiplun Limited include the equivalent disclosures, the company has also taken the exemptions under FRS 102 available in respect of the following disclosures:

- The disclosures required by FRS 102.11 *Basic Financial Instruments* and FRS 102.12 *Other Financial Instrument Issues* in respect of financial instruments not falling within the fair value accounting rules of Paragraph 36(4) of Schedule 1.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

Judgements made by the directors, in the application of these accounting policies that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed in note 16.

Measurement convention

The financial statements are prepared on the historical cost basis.

Going concern

As the company is subject to cross guaranteed banking arrangements with other Group undertakings going concern is intrinsically linked with the overall Group position. Detailed information regarding the financial position of the Group headed by Kiplun Limited, its cash flows, liquidity position and borrowing facilities are included in the Group financial statements of Kiplun Limited, which can be obtained from Companies House. The following analysis considers the position of the Group as a whole.

The Group meets its day-to-day working capital requirements through operating cash flows, overdraft and bank loan facilities. The Group's forecasts and projections, taking account of reasonable possible changes in trading performance, show that the Group is expected to have a sufficient level of financial resources available through facilities agreed and expected to be agreed when these fall due for renewal.

The Group's bank overdraft is a rolling facility which is due for review in late 2020 when the directors anticipate that this will continue under the same terms. At the year end the Group's overdraft was £7.6m and the Group also had cash at bank of £5.0m and bank term loans of £0.4m.

Notes (continued)

1 Accounting policies (continued)

Notwithstanding net current liabilities of £4,960,000 at the balance sheet date, which include amounts due to group undertakings of £11,809,000, these financial statements have been prepared on the going concern basis which the directors believe to be appropriate for the following reasons. The company is reliant on the continued financial support of its parent group to fund its working capital needs and has received confirmation of continuing financial support from Kiplun Limited, such that it will continue to make sufficient funds available to the company for the next 12 months following approval of these financial statements, and thereafter for the foreseeable future, to allow the company to meet its liabilities as they fall due in the normal course of business and will not seek repayment of amounts currently made available to the company by group undertakings.

As with any company placing reliance on other group companies for financial support, the directors acknowledge that there can be no certainty this support will continue although, at the date of approval of these financial statements, they have no reason to believe that sufficient funds will not continue to be made available and therefore the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to prepare the financial statements on a going concern basis.

Foreign currency

Transactions in foreign currencies are translated to the company's functional currency at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the profit and loss account.

Classification of financial instruments issued by the company

In accordance with FRS 102.22, financial instruments issued by the company are treated as equity only to the extent that they meet the following two conditions:

- (a) they include no contractual obligations upon the company to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the company; and
- (b) where the instrument will or may be settled in the company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the company's own equity instruments or is a derivative that will be settled by the company's exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the company's own shares, the amounts presented in these financial statements for called up share capital and share premium account exclude amounts in relation to those shares.

Basic financial instruments

Trade and other debtors / creditors

Trade and other debtors are recognised initially at transaction price less attributable transaction costs. Trade and other creditors are recognised initially at transaction price plus attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses in the case of trade debtors. If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate of instrument for a similar debt instrument.

Investments in subsidiaries

These are separate financial statements of the company. Investments in subsidiaries are carried at cost less impairment.

Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses.

Where parts of an item of tangible fixed assets have different useful lives, they are accounted for as separate items of tangible fixed assets, for example land is treated separately from buildings.

The company assesses at each reporting date whether tangible fixed assets are impaired.

Notes (continued)

1 Accounting policies (continued)

Depreciation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of each part of an item of tangible fixed assets. The estimated useful lives are as follows:

- freehold buildings 10 years
- plant and machinery 10 years
- fixtures and fittings 10 years
- motor vehicles 5 years

Depreciation methods, useful lives and residual values are reviewed if there is an indication of a significant change since last annual reporting date in the pattern by which the company expects to consume an asset's future economic benefits.

Research and development

Expenditure on research activities is recognised in the profit and loss account as an expense as incurred.

Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost includes expenditure incurred in acquiring the stocks, production or conversion costs and other costs in bringing them to their existing location and condition. In the case of manufactured stocks and work in progress, cost includes an appropriate share of overheads based on normal operating capacity.

Impairment excluding stocks and deferred tax assets

Financial assets (including other debtors)

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. For financial instruments measured at cost less impairment an impairment is calculated as the difference between its carrying amount and the best estimate of the amount that the company would receive for the asset if it were to be sold at the reporting date. Interest on the impaired asset continues to be recognised through the unwinding of the discount. Impairment losses are recognised in profit or loss. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

Non-financial assets

The carrying amounts of the company's non-financial assets, other than stocks and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

An impairment loss is reversed if and only if the reasons for the impairment have ceased to apply.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Notes (continued)

1 Accounting policies (continued)

Employee benefits

Defined contribution plans and other long term employee benefits

A defined contribution plan is a post-employment benefit plan under which the company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an expense in the profit and loss account in the periods during which services are rendered by employees.

Termination benefits

Termination benefits are recognised as an expense when the company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognised as an expense if the company has made an offer of voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably. If benefits are payable more than 12 months after the reporting date, then they are discounted to their present value.

Provisions

A provision is recognised in the balance sheet when the company has a present legal or constructive obligation as a result of a past event, that can be reliably measured and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the amount required to settle the obligation at the reporting date.

Where the company enters into financial guarantee contracts to guarantee the indebtedness of other companies within its group, the company treats the guarantee contract as a contingent liability until such time as it becomes probable that the company will be required to make a payment under the guarantee.

Turnover

Turnover represents the amounts receivable in the ordinary course of business from the provision of goods and services to customers. Turnover is measured at the fair value of the right to consideration net of sales related rebates, discounts and value added tax.

The company recognises revenue at the point of sale of goods and for services when they have been provided. Turnover represents the amounts (excluding value added tax) derived from the provision of goods and services to customers.

Turnover is derived from the principal activity, wholly undertaken in the UK.

Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on timing differences which arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements. The following timing differences are not provided for: differences between accumulated depreciation and tax allowances for the cost of a fixed asset if and when all conditions for retaining the tax allowances have been met; and differences relating to investments in subsidiaries, to the extent that it is not probable that they will reverse in the foreseeable future and the reporting entity is able to control the reversal of the timing difference. Deferred tax is not recognised on permanent differences arising because certain types of income or expense are non-taxable or are disallowable for tax or because certain tax charges or allowances are greater or smaller than the corresponding income or expense.

Deferred tax is measured at the tax rate that is expected to apply to the reversal of the related difference, using tax rates enacted or substantively enacted at the balance sheet date.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Notes (continued)

2 Expenses and auditor's remuneration

Included in profit/(loss) are the following:

	2018 £000	2017 £000
Depreciation of tangible fixed assets	407	-
	<u>407</u>	<u>-</u>
<i>Auditor's remuneration:</i>		
	2018 £000	2017 £000
Audit of these financial statements	9	8
	<u>9</u>	<u>8</u>

Amounts receivable by the company's auditor and its associates in respect of services to the company and its associates, other than the audit of the company's financial statements, have not been disclosed as the information is required instead to be disclosed on a consolidated basis in the consolidated financial statements of the company's parent, Kiplun Limited.

3 Staff numbers and costs

The average number of persons employed by the company (including directors) during the year, analysed by category, was as follows:

	Number of employees 2018	2017
Directors	2	2
Administration	16	12
	<u>18</u>	<u>14</u>

The aggregate payroll costs of these persons were as follows:

	2018 £000	2017 £000
Wages and salaries	313	252
Social security costs	25	22
Contributions to defined contribution plans (see note 11)	4	3
	<u>342</u>	<u>277</u>

4 Directors' remuneration

No remuneration was paid to the directors by the company during the current or preceding year, but was paid on behalf of the Company by another company within the Group.

Notes (continued)

5 Taxation

Total tax expense recognised in the profit and loss account

	2018 £000	£000	2017 £000	£000
<i>Current tax – group relief</i>				
Consideration received for losses transferred as group relief		(187)		(181)
<i>Deferred tax (see note 10)</i>				
Origination and reversal of timing differences	39		72	
Change in tax rate	-		(8)	
	<hr/>		<hr/>	
Total deferred tax		39		64
		<hr/>		<hr/>
Total tax credit		(148)		(117)
		<hr/>		<hr/>

Reconciliation of effective tax rate

	2018 £000	2017 £000
Loss for the year	(788)	(641)
Total tax credit	(148)	(117)
	<hr/>	<hr/>
Loss excluding taxation	(936)	(758)
	<hr/>	<hr/>
Tax using the UK corporation tax rate of 19% (2017: 19.25%)	(178)	(146)
Non-deductible expenses	34	37
Effect of decreased tax rate	(4)	(8)
	<hr/>	<hr/>
Total tax credit included in profit or loss	(148)	(117)
	<hr/>	<hr/>

Factors that may affect future current and total tax charges

The company has trading losses of £12,000 (2017: £12,000) to carry forward against future taxable profits.

A reduction in the UK corporation tax rate from 19% to 17% (effective from 1 April 2020) was substantively enacted on 6 September 2016. This will reduce the company's future current tax charge accordingly.

The deferred tax asset at 31 December 2018 has been calculated based on the rate of 17% substantively enacted at the balance sheet date.

The company has surrendered UK corporation tax losses to fellow group undertakings. The amount of tax saved for the group undertaking has been reflected in the tax credit and the remainder classed as capital contribution.

Notes (continued)

6 Tangible fixed assets

	Freehold land and buildings £000	Plant and machinery £000	Fixtures and fittings £000	Motor vehicles £000	Total £000
Cost					
Balance at 1 January 2018	3,404	15	4,009	119	7,547
Additions	5	9	28	11	53
Disposals	-	(5)	-	-	(5)
Balance at 31 December 2018	3,409	19	4,037	130	7,595
Depreciation and impairment					
Balance at 1 January 2018	211	11	1,434	85	1,741
Depreciation charge for the year	121	2	271	13	407
On disposals	-	(4)	-	-	(4)
Balance at 31 December 2018	332	9	1,705	98	2,144
Net book value					
At 1 January 2018	3,193	4	2,575	34	5,806
At 31 December 2018	3,077	10	2,332	32	5,451

7 Stocks

	2018 £000	2017 £000
Finished goods and goods for resale	23	29

Raw materials, consumables and changes in finished goods and work in progress recognised as cost of sales in the year amounted to £46,000 (2017: £54,000).

8 Debtors

	2018 £000	2017 £000
Trade debtors	5	8
Amounts owed by group undertakings	6,908	5,923
Prepayments and accrued income	8	8
Due within one year	6,921	5,939

The company, together with its parent and fellow subsidiary undertakings has entered into a composite banking arrangement to secure group interest and banking facilities (see note 14). These facilities are secured against certain assets across various companies within the group, including a fixed charge against all the company's property, plant and equipment, stock and book debts, together with a floating charge against all other debtors of the company.

Notes (continued)

Notes (continued)

13 Financial instruments – carrying amount of financial instruments

The carrying amounts of the financial assets and liabilities include:

	2018 £000	2017 £000
Assets measured at amortised cost	6,957	5,967
Liabilities measured at amortised cost	(11,940)	(11,360)

14 Contingencies

The company, together with its parent and fellow subsidiary undertakings has entered into a composite banking arrangement to secure group interest and banking facilities. As part of this arrangement a cross guarantee was given to the bank by the company.

At the year end aggregate group borrowings guaranteed by the company amounted to £8,040,000 (2017: £8,189,000).

These facilities are secured against certain individual assets across various companies within the group.

15 Ultimate parent company and parent company of larger group

The company is a subsidiary undertaking of Kiplun Europe BV, Paasheuvelweg 16, Amsterdam Zuidoost, 1105BH. The ultimate parent company is Kiplun Limited, Cleveland House, Norton Road, Stockton-on-Tees, Cleveland, TS20 2AQ. The ultimate controlling party is JDR Fothergill M.A., M.B.A., Chairman and Managing Director of Kiplun Limited.

The only group in which the results of the company are consolidated is that headed by Kiplun Limited. The consolidated financial statements of this group are available to the public and may be obtained from Cleveland House, Norton Road, Stockton-on-Tees, Cleveland, TS20 2AQ.

16 Accounting estimates and judgements

In the application of the company's accounting policies, which are described in note 1, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty arise from:

Tangible fixed assets – estimated useful lives

Depreciation charges require the entity to estimate the useful economic lives of each part of tangible fixed assets. The depreciation method and useful lives are estimated based on the pattern by which the entity expects to consume an assets future economic benefits and are reviewed where there is an indication of significant change.
