General Information

FJD Construction Ltd is a private company, limited by shares, registered in England and Wales, registration number 07079564, registration address 33 Ludgate Hill, Birmingham, B3 1EH.

1. Accounting Policies

Significant accounting policies

The financial statements are prepared in accordance with the FRS 102 Financial Reporting Standard for Smaller Entities.

Turnover

Turnover is measured at the fair value of the consideration received or receivable net of VAT and trade discounts. The policies adopted for the recognition of turnover are as follows: Rendering of services

When the outcome of a transaction can be estimated reliably, turnover is recognised by reference to the stage of completion at the balance sheet date.

When the outcome cannot be measured reliably, turnover is recognised only to the extent of the expenses recognised that are recoverable.

Taxation

Current tax represents the amount of tax payable or receivable in respect of the taxable profit (or loss) for the current or past reporting periods. It is measured at the amount expected to be paid or recovered using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred taxation

Deferred tax represents the future tax consequences of transactions and events recognised in the financial statements of current and previous periods. It is recognised in respect of all timing differences, with certain exceptions. Timing differences are differences between taxable profits and total comprehensive income as stated in the financial statements that arise from the inclusion of income and expense in tax assessments in periods different from those in which they are recognised in the financial statements. Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of timing differences. Deferred tax on revalued non-depreciable tangible fixed assets and investment properties is measured using the tax rates and allowances that apply to the sale of the asset.

Dividends

Proposed dividends are only included as liabilities in the statement of financial position when their payment has been approved by the shareholders prior to the statement of financial position date.

Tangible fixed assets

Tangible fixed assets, other than freehold land, are stated at cost or valuation less depreciation and any provision for impairment. Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following basis:

Fixtures and Fittings	25% Straight Line
-----------------------	-------------------

Fixed asset investments

Fixed asset investments are stated at cost less provision for any permanent diminution in value.

Provisions

Provisions are recognised when the company has a present obligation as a result of a past event which it is more probable than not will result in an outflow of economic benefits that can be reasonably estimated.
