Profit and loss reserves			132,020		163,774
<b>Total equity</b>			<u>132,120</u>		<u>163,874</u>

The directors of the company have elected not to include a copy of the profit and loss account within the financial statements.

For the financial year ended 31 December 2016 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of financial statements.

The members have not required the company to obtain an audit of its financial statements for the year in question in accordance with section 476.

These financial statements have been prepared and delivered in accordance with the provisions applicable to companies subject to the small companies' regime.

## **NOTES TO THE FINANCIAL STATEMENTS**

**FOR THE YEAR ENDED 31 DECEMBER 2016**

---

### **1 Accounting policies**

#### **Company information**

Berrymead Consultants Limited is a private company limited by shares incorporated in England and Wales. The registered office is 5th Floor, 1 Lumley Street, Mayfair, London, W1K 6TT.

#### **1.1 Accounting convention**

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006 as applicable to companies subject to the small companies regime. The disclosure requirements of section 1A of FRS 102 have been applied other than where additional disclosure is required to show a true and fair view.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of freehold properties and to include investment properties and certain financial instruments at fair value. The principal accounting policies adopted are set out below.

These financial statements for the year ended 31 December 2016 are the first financial statements of Berrymead Consultants Limited prepared in accordance with FRS 102, The Financial Reporting Standard applicable in the UK and Republic of Ireland. The date of transition to FRS 102 was 1 January 2015. An explanation of how transition to FRS 102 has affected the reported financial position and financial performance is given in note 7.

#### **1.2 Going concern**

The Company acquired its first investment property in June 2011 and is confident that this will generate future income and capital growth sufficient to generate funds for the company to meet its short term liabilities as they fall due. Therefore the financial statements have been prepared on a going concern basis.

#### **1.3 Turnover**

Turnover is recognised at the fair value of the consideration received or receivable for services provided in the normal course of business. The fair value of consideration takes into account trade discounts, settlement discounts and volume rebates.

When cash inflows are deferred and represent a financing arrangement, the fair value of the consideration is the present value of the future receipts. The difference between the fair value of the consideration and the nominal amount received is recognised as interest income.

#### **1.4 Investment properties**

Investment property, which is property held to earn rentals and/or for capital appreciation, is initially recognised at cost, which includes the purchase cost and any directly attributable expenditure. Subsequently it is measured at fair value at the reporting end date. The surplus or deficit on revaluation is recognised in the profit and loss account.

Where fair value cannot be achieved without undue cost or effort, investment property is accounted for as tangible fixed assets.

#### **1.5 Cash and cash equivalents**

Cash and cash equivalents are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 DECEMBER 2016

---

### 1 Accounting policies

(Continued)

#### 1.6 Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's balance sheet when the company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

##### **Basic financial assets**

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

##### **Classification of financial liabilities**

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

##### **Basic financial liabilities**

Basic financial liabilities, including creditors, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

#### 1.7 Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of direct issue costs.

Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

#### 1.8 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

##### **Current tax**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 DECEMBER 2016

### 1 Accounting policies

(Continued)

#### **Deferred tax**

Deferred tax liabilities are generally recognised for all timing differences and deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Such assets and liabilities are not recognised if the timing difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. Deferred tax assets and liabilities are offset when the company has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority.

### 1.9 Financial Instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

### 2 Investment property

	2016 £
<b>Fair value</b>	
At 1 January 2016	550,000
Revaluations	(50,000)
	<hr/>
At 31 December 2016	500,000
	<hr/>

The above represents an investment property and as such, no depreciation has been provided. The fair value of the investment property has been arrived at on the basis of a valuation carried out by Foxtons in January 2017. The valuation was made on an open market value basis by reference to market evidence of transaction prices for similar properties.

### 3 Debtors

	2016 £	2015 £
<b>Amounts falling due within one year:</b>		
Other debtors	1,792	1,698
	<hr/>	<hr/>

# BERRYMEAD CONSULTANTS LIMITED

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 DECEMBER 2016

### 4 Creditors: amounts falling due within one year

	2016 £	2015 £
Bank loans and overdrafts	954	954
Corporation tax	2,062	1,432
Other creditors	377,827	377,913
	<u>380,843</u>	<u>380,299</u>

Included in other creditors is an amount of £362,936 (2015: £362,936) due to M. Fauconnet. The loan is interest free and repayable on demand.

### 5 Called up share capital

	2016 £	2015 £
<b>Ordinary share capital</b>		
<b>Issued and fully paid</b>		
100 Ordinary shares of £1 each	100	100
	<u>100</u>	<u>100</u>

### 6 Related party transactions

No guarantees have been given or received.

The company was under the control of M. Fauconnet throughout the current and previous year.

### 7 Reconciliations on adoption of FRS 102

#### Reconciliation of equity

	1 January 2015 £	31 December 2015 £
<b>Notes</b>		
Equity as reported under previous UK GAAP	194,621	200,347
Adjustments arising from transition to FRS 102:	-	(36,473)
Equity reported under FRS 102	<u>194,621</u>	<u>163,874</u>

## BERRYMEAD CONSULTANTS LIMITED

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 DECEMBER 2016

---

#### 7 Reconciliations on adoption of FRS 102 (Continued)

##### Reconciliation of profit/(loss) for the financial period

	Notes	2015 £
Profit as reported under previous UK GAAP		5,726
Adjustments arising from transition to FRS 102:		
		<u>(36,473)</u>
Loss reported under FRS 102		<u><u>(30,747)</u></u>

##### Notes to reconciliations on adoption of FRS 102

###### Deferred tax

The above adjustments have been made in respect of deferred tax on revaluations of investment property under FRS 102. Under old UK GAAP, any surplus on revaluations of investment property was recorded in the Revaluation Reserve. Upon transition to FRS 102, the balance of the revaluation reserve has been moved to the profit and loss account as per the requirements of the standard.

Deferred tax on the revaluation of the property has been restated in the 2015 accounts and provided in the 2016 accounts, which has the effect of showing a deferred tax liability of £26,473 as at the balance sheet date.

This document was delivered using electronic communications and authenticated in accordance with the registrar's rules relating to electronic form, authentication and manner of delivery under section 1072 of the Companies Act 2006.
