Strategic Report

Principal activities

The principal activity of the Company during the year was of an investment holding company.

Risk analysis

The Directors have reviewed the investments of Bart Spices Holdings Limited and carried out a risk assessment based on cash flow, legislation, price and liquidity and are satisfied with the investment risk.

The Company funds its business model using a combination of internally generated cash, an invoice discounting facility and term loans (held in the holding company) under an agreement with its bank. In May 2015, the Company agreed a standstill arrangement with the bank, as there was in breach of certain covenant metrics in respect of the financing facilities as at 31 March 2015. This standstill arrangement resulted in the bank agreeing not to enforce the terms of the facility agreement in respect of the repayments of capital for a period of one year. To further strengthen the Company's financial position, a cash injection of £1.0 million was made by the ultimate controlling party as a condition precedent to this agreement. Further information on this agreement is provided in Note F of the Notes to the Financial Statements.

The Company has £12.2 million (2014: £12.2 million) of loan notes payable (in principal) which on 27 February 2014 were listed on the Channel Islands Securities exchange. The loan notes principals are split into two, one of £11,915,000 and one of £285,000, with these tranches listed separately. The interest posted to the profit and loss account is a non-cash transaction and the investment in the Company is supported by the ongoing profitability of its trading subsidiary, The Bart Ingredients Co Ltd.

Based upon the trading position of the underlying investment a £3.5 million impairment was required to the investment value of Secbeck 30 Limited, which was determined by considering the value of the underlying business against the investment held, using an EBITDA multiple calculation.

The shareholder deficit of £8.0 million (2014: £2.2 million) is due to interest on the investment loan notes, and the impairment of the investment balance which is non cash and therefore carries acceptable risk.

Statement of directors' responsibilities in respect of the Strategic Report, the Directors' Report and the financial statements

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice).

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

Respective responsibilities of directors and auditor

Notes

(forming part of the financial statements)

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements, except as noted below.

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards, and under the historical cost accounting rules.

The Company is exempt by virtue of Section 400 of the Companies Act 2006 from the requirement to prepare group financial statements. These financial statements present information about the Company as an individual undertaking and not about its group.

Under FRS 1 the Company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the Company in its own published consolidated financial statements.

As the Company is a wholly owned subsidiary of Bart Spices Group Holdings Limited, the Company has taken advantage of the exemption contained in FRS 8 and has therefore not disclosed transactions or balances with wholly owned subsidiaries which form part of the group.

The financial statements for the company are drawn up to the nearest Sunday to 31 March which was 29 March 2015.

Going concern

The financial statements are prepared on a going concern basis which the directors believe to be appropriate for the following reasons.

The Company is party to a group facilities agreement with its banks dated 31 March 2015 which provides term facilities to the Company and an invoice discounting facility ("IDF") to a subsidiary company, Bart Ingredients Co. Limited ("BICL"). As of the balance sheet date there was in breach of certain of the covenant metrics in respect of these facilities.

On 13 May 2015 the Company and BICL agreed a standstill arrangement ("Standstill Agreement") whereby the bank waived all rights to demand repayment as a result of existing breaches and agreed not to enforce the terms of the facilities agreement in respect of the repayment of capital, or compliance with covenants, for a period of one year from the date of the Standstill Agreement ("the standstill period"). A cash injection of £1.0 million was made by way of Priority Loan Notes as a condition precedent to this agreement (see note 14). As part of the Standstill Agreement, the parties undertook to renegotiate the relevant covenant metrics prior to the end of the standstill period. To the extent not renegotiated, on expiry of the standstill period the terms and conditions of the existing facilities agreement will apply.

The effect of the covenant breach (see note 8) is to classify all facilities as current liabilities. However the Standstill Agreement waived this breach at the balance sheet date and all covenant testing until 13 May 2016. The Company has complied with the terms of the standstill agreement and as such expect the facilities to be repaid under their normal terms as set out in note 8.

Further to the Standstill Agreement, the Company has received an undertaking from its bank that it expects to reset the financial covenants relating to the facilities at an appropriate level such that, on the basis of the directors' forecasts, the Company will be able to operate within the conditions of the facility for a period of twelve months from the date of approval of these financial statements. The directors are confident that the covenants will be successfully renegotiated prior to 14 May 2016 and, accordingly, the directors have prepared the accounts on a going concern basis.

Investments

Investments are stated at cost less any provision made for any impairment in value.

Notes (continued)

1 Accounting policies (continued)

Taxation

The charge for taxation is based on the result for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

Debt financing

Fees on the issue of debt have been deducted from the gross proceeds of the issue and together with the finance costs are allocated to the profit and loss account over the life of the debt.

2 Notes to the profit and loss account

Auditor's remuneration was borne by another group company in respect of the current period.

Fees paid to the company's auditors KPMG LLP and their associates for services other than statutory audit of the company are not disclosed in the company's accounts since the consolidated accounts of the company's ultimate parent, Bart Spices Group Holdings Limited are required to disclose non-audit fees on a consolidated basis.

Directors' remuneration was borne by another group company in respect of the current period.

Impairment to the investment value of £3,500,000 was also recognised in the year (2014: £nil); see note 6.

3 Exceptional expenses

There were no exceptional expenses in the year (2014: £86,000 consisting of legal fees related to the transfer and listing of loan notes).

Further reductions to 21% (effective from 1 April 2015) and 20% (effective from 1 April 2015) were substantively enacted on 2 July 2014. This will reduce the company's future current tax charge accordingly. The deferred tax balance at 31 March 2015 has been calculated based on the rate of 20% substantively enacted at the balance sheet date.
