The presentation currency of the financial statements is the Pound Sterling (£).

2. ACCOUNTING POLICIES

BASIS OF PREPARING THE FINANCIAL STATEMENTS

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

The financial statements contain information about Warrens of Winchester Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company is exempt under Section 399(2A) of the Companies Act 2006 from the requirements to prepare consolidated financial statements.

REVENUE RECOGNITION

Revenue is the amount derived from trading activities of stationery sales, stated after trade discounts, and net of VAT. Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

GOODWILL

Goodwill represents the difference between the fair value of the consideration paid on acquisition of a business in 2010 and the fair value of its separate net assets at the date of acquisition. Goodwill is amortised over its estimated useful life of 20 years.

Amortisation and impairment charges are included within administrative expenses in the Income Statement.

TANGIBLE FIXED ASSETS

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Short leasehold - Straight line over 10 years
Fixtures and fittings - Straight line over 5 years
Computer equipment - Straight line over 3 years

Tangible fixed assets are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost included expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

The assets' residual values, useful lives and depreciation methods are reviewed and if appropriate are adjusted if there is an indication of a significant change since the last reporting date.

GOVERNMENT GRANTS

Government grants have been claimed as part of the UK Job Retention Scheme. These grants are recognised as part of other operating income when it is likely that the economic benefits will flow to the entity. There are no unfulfilled conditions or contingencies attached to these grants.

STOCKS

Stocks are valued at the lower of cost or net realisable value, after making due allowance for any obsolete or slow moving items.

PENSION COSTS AND OTHER POST-RETIREMENT BENEFITS

Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate. Obligations for contributions to defined contribution pension schemes are recognised as an expense in the profit and loss account in the periods during which services are rendered by employees.

INVESTMENTS

Investments in subsidiaries are held at historical cost less any applicable provision for impairment. The company assesses at each reporting date whether there is an indication that an investment may be impaired. If any such indications exist the company makes an estimate of the asset's recoverable amount in order to determine the extent of the impairment loss. Impairment losses are recognised in the Income Statement.
