Going concern

The company has net liabilities at the balance sheet date. The directors have considered the company's latest financial position and its cash flow forecasts and consider that the company will have sufficient resources to remain as a going concern and have therefore prepared the financial statements on a going concern basis.

Tumover

Turnover represents management fees and excludes value added tax and is calculated on an accruals basis

Depreciation

Depreciation is provided to write off the cost, less estimated residual values, of all fixed assets over their expected useful lives. It is calculated at the following rate.

Fixtures, fittings and equipment

- 3 years

Leasehold office building

10 years

Stock

Stock is valued at the lower of cost and net realisable value

Deferred taxation

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that the recognition of deferred tax assets is limited to the extent that the company anticipates to make sufficient taxable profits in the future to absorb the reversal of the underlying timing differences. Deferred tax balances are not discounted

Cash flow statement

The company has taken advantage of the exemption conferred by FRS 1 'Cash flow statements' not to prepare a cash flow statement as it is included in the consolidated financial statements prepared by its ultimate parent company
