1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements.

Statement of Compliance

The Company's financial statements have been prepared in compliance with FRS 102 as it applies to the financial statements of the Company for the year ended 31 December 2016.

Basis of preparation

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards. The financial statements have been prepared on a going concern basis. Pound Sterling is the Company's functional and presentation currency.

The Company has not traded during the year. It received no income and incurred no expenditure and therefore made neither profit nor loss.

Critical accounting judgements and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the statement of financial position date and the amounts reported for revenues and expenses during the year. However, the nature of estimation means that actual outcomes could differ from those estimates. The following judgements have had the most significant effect on amounts recognised in the financial statements.

Going concern: The directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Furthermore, the directors are not aware of any material uncertainties that may cast significant doubt upon the company's ability to continue as a going concern. Accordingly, the directors continue to adopt the going concern basis in preparing these financial statements.

Foreign Currencies

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the statement of financial position date.
