HIGH PERFORMANCE COMPUTING WALES

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

1. STATUTORY INFORMATION

High Performance Computing Wales is a private company, limited by guarantee, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Turnover

Turnover represents net invoiced sales of services, excluding value added tax, and grants received and applied in the year.

Grant income is recognised as it is receivable, to the extent that the grant has been spent by the end of the financial year. Unspent grants are shown on the balance sheet as liabilities.

Tangible fixed assets

Grant funded assets are expensed in the year the costs are incurred.

Equipment is stated at cost. Non grant funded equipment costing less than £25,000 per individual item or group of related items is written off in the year of acquisition.

All other non-grant funded equipment, including site preparation costs in relation to assets costing £25,000 or more are capitalised on a straight line basis over the shorter of any lease term or the expected useful life.

Equipment is reviewed for impairment within the 5 year cycle specified by FRS 15 (Tangible Fixed Assets).

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Pension costs and other post-retirement benefits

The company operated a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.

HIGH PERFORMANCE COMPUTING WALES

NOTES TO THE FINANCIAL STATEMENTS - continued FOR THE YEAR ENDED 31 MARCH 2018

7. RELATED PARTY DISCLOSURES

All transactions involving a related party are conducted at an arms length basis.

The directors must declare an interest if a related party transaction occurs.

The following are related parties by equal subscribers of the company by guarantee:

Aberystwyth University
Bangor University
Cardiff University
Swansea University

8. GOING CONCERN

The Directors are intending to wind up the company within the next 12 months.

The company's assets have negligible value and member institutions have historically supported the liabilities of the company.
