### Statement on Section 172(1)

The following Section 172 statement, which is required by the Companies Act 2006, describes how the directors have had regard to the matters set out in Section 172(1a to 1f) including key decisions and matters that are of strategic importance to the company. The Directors, in line with their duties under Section 172 of the Companies Act 2006, act in a way they consider, in good faith would be most likely to promote the success of the company for the benefit of its members as a whole, and in doing so have regard to a range of matters when making decisions for the long term.

From the perspective of the company, decisions and policies relating to Section 172(1) are determined at group level and applied to the company, where relevant, by the Directors. Accordingly, further details in relation to how the directors have engaged with suppliers, customers, employees and other stakeholders are included in the financial statements of Priory Group UK 1 Limited, an intermediate parent of the company, which includes the company and does not form part of this report.

## Notes to the Financial Statements for the Year Ended 31 December 2021 (continued)

### 2 Accounting policies (continued)

#### Going concern

The intermediate parent company, Priory Group UK 1 Limited, has confirmed that it will continue to provide financial support to the company for the foreseeable future and for at least twelve months from the date of approval of these financial statements. Accordingly the financial statements have been prepared on the going concern basis.

#### Judgements

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period then ended. Management bases its estimates on historical experience and various other assumptions that are considered to be reasonable in the particular circumstances. Actual results may differ from these estimates.

#### Tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Deferred income tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements and on unused tax losses or tax credits in the Company. Deferred income tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

The carrying amount of deferred tax assets are reviewed at each reporting date and a valuation allowance is set up against deferred tax assets so that the net carrying amount equals the highest amount that is more likely than not to be recovered based on current or future taxable profit.

#### Investments

Investments in equity shares which are publicly traded or where the fair value can be measured reliably are initially measured at fair value, with changes in fair value recognised in profit or loss. Investments in equity shares which are not publicly traded and where fair value cannot be measured reliably are measured at cost less impairment.

Interest income on debt securities, where applicable, is recognised in income using the effective interest method. Dividends on equity securities are recognised in income when receivable.

#### Debtors

Debtors are amounts due from customers for merchandise sold or services performed in the ordinary course of business.

Debtors are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for the impairment of debtors is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables.

## Partnerships in Care (Pastoral) Limited

### Notes to the Financial Statements for the Year Ended 31 December 2021 (continued)

#### 2 Accounting policies (continued)

##### Creditors

Creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if the Company does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Creditors are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

##### Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

#### 3 Directors' remuneration

The costs relating to the directors' services have been borne by Priory Central Services Limited, a fellow group company. No amounts have been recharged to the company in respect of the directors' services and the directors do not believe that it is practical to allocate these costs between group companies.

#### 4 Taxation

Finance Bill 2021 was substantively enacted on 24 May 2021; this legislation increases the main rate of corporation tax to 25% with effect from 1 April 2023. Deferred tax has been calculated at 25% (2020: 19%), reflecting the period in which the temporary differences that give rise to deferred tax will reverse.

Deferred tax assets relating to deductible temporary differences are recognised if it is probable that they can be offset against future taxable profits or existing temporary differences.
