HAMBLIN REVIEW SERVICES LIMITED

Notes to the Abbreviated Accounts for the Period Ended 31st May 2011

1. Accounting policies

Basis of measurement and preparation of accounts

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover policy

Turnover represents amounts receivable for goods and services at the point when the company has a right to the income, net of VAT.

Intangible fixed assets amortisation policy

Positive goodwill is capitalised, classified as an asset on the Balance Sheet and amortised over its estimated useful life up to a maximum of 20 years. This length of time is presumed to be the maximum useful life of the goodwill because it is difficult to make projections beyond this period. Goodwill is reviewed for impairment at the end of each financial year and subsequently as and when necessary if circumstances emerge that indicate that the carrying value may not be recoverable. Amortisation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset. The current policy is to amortise goodwill over 20 years.

Other accounting policies

Deferred taxation is recognised in respect of all timing differences that have not been reversed at the balance sheet date. However, no deferred taxation is provided on asset revaluations where it is likely that any taxable gain on disposal will be rolled over into replacement assets.
