Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax

Amortisation

Amortisation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows

Goodwill - over 20 years

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows

Freehold Property - over 50 years

Fixtures & Fittings - over 10 years

Equipment - over 3 years

Investment properties

Investment properties are valued annually and shown in the accounts at open market value. Gains or losses in respect of revaluing properties are recognised in the Statement of Total Recognised Gains and Losses, except in the case where the loss is deemed to be a permanent diminution in value, in which case it is charged to the profit and loss account. No depreciation is charged on this class of fixed asset. This treatment follows the principles outlined in the Standard Statement of Accounting Practice 19 (Accounting for Investment Properties) and is a departure from Financial Reporting Standard 15 (Tangible Fixed Assets), which requires all tangible fixed assets to be depreciated. This departure is necessary in order to give a true and fair view.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items
