STRATEGIC REPORT

Principal activities

The principal activity of Palio (No10) Limited ("the Company") is to invest in PPP infrastructure projects.

Business review

The Company currently holds 100% interest in Three Valleys Healthcare Holdings Limited. During the year, the company continued to receive revenues from its investments in the form of interest on sub debt loans and dividends. The Company reports a loss after tax for the year of £3,457,000 (2015: profit of £587,000) and a negative movement in investments at fair value of £3,922,000 (2015: positive movement of £680,000).

The Company is required under Investment Entities (Amendments to IFRS 10, IFRS 12 and IAS 27) to measure its investments in subsidiaries at fair value through profit or loss, except where the subsidiary provides investment-related services or activities. The Company measures its investments in PPP assets in accordance with IFRS 13 Fair Value Measurement, with changes in fair value recognised in profit or loss in the period of the change.

The Company's subsidiary is held at fair value in the statement of financial position with movements recorded through the Income Statement as explained in note 2. In order to determine the fair value of these investments, the Company takes into consideration the fair value of the underlying portfolio companies and intermediate holding companies.

During 2016 a dispute arose between the Roseberry Park Mental Health project SPV (100% owned by Palio (No 10) Limited) and the public sector client regarding the provision of certain Hard FM services, the operation of the Helpdesk at the project, as well as certain alleged construction defects.

As at the balance sheet date, settlement negotiations were taking place. Both the project agreement and the loan agreement of the project SPV were in default as a consequence of the number of service failure points. The number of service failure points gave the Trust the right to terminate the project agreement, however, a standstill agreement was in place which prevented the Trust from exercising this right to terminate. A settlement had been reached in respect of the service failures up to 31 December 2015 and negotiations were continuing over further service failures and alleged construction defects. On 7 October 2016 the Company injected a further loan note of £1,828,721 into Three Valleys Healthcare Holdings Limited, which was funded by a loan from the Company's immediate parent. The directors were expecting that a settlement would be reached based on the negotiations that were ongoing and legal advice at the balance sheet date. As such the fair value of investments as at 31 December 2016 reflected the directors' belief that a settlement would be reached and that there continued to be value in the company's investment. Subsequent to the year-end, these negotiations did not proceed as expected, the standstill agreement expired and in July 2017 the Trust exercised its termination notice. In August 2017, a further standstill agreement which suspends the termination process was agreed between all parties to allow further work to be undertaken to finalise the fire compartmentation scope and work. However, on 11 September, the SPV company's lenders served notice to the project company enforcing its security and administrators were appointed to Three Valleys Healthcare Holdings Limited, the parent of the Roseberry Park Mental Health project SPV and the Company lost control of Three Valleys Healthcare Holdings Limited and its subsidiary.

As a consequence of the events that have taken place post year end the directors anticipate writing down the fair value of the investment down to £nil during 2017.

Going concern

The Directors have considered the use of the going concern assumption and in light of the appointment of the administrators to Three Valleys Healthcare Holdings Limited (the SPV holding company) after the year end the Directors of the Company consider that the Company has ceased to trade and that the Company is not a going concern. Consequently the financial statements have been prepared on a basis other than a going concern and the financial assets and liabilities have therefore been reported on a fair value basis. All liabilities have been disclosed as current liabilities, as they will fall due on the date the Company ceases to trade. Further details are provided in note 2.

Principal risks and uncertainties

The principal risk faced by the Company is credit risk in relation to its investment, however following the appointment of the administrators to the Three Valleys Healthcare Holdings Limited (detailed in the Business Review above) the Company anticipates writing down the fair value of its investment to £nil in 2017.

STRATEGIC REPORT (CONTINUED)

Key performance indicators

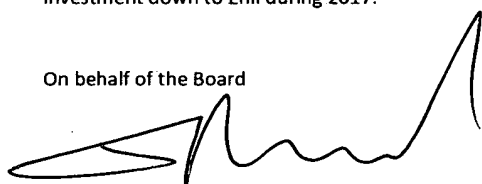

The key performance indicator for the Company is the net assets attributable to shareholders, as detailed on page 7 of the financial statements.

Post balance sheet events and future developments

Following the dispute with the Trust settlement negotiations between all parties took place throughout the year and at the year end the outcome was still unknown. Following the year end a stand-still agreement which suspends the termination process was agreed between all parties to allow further work to be undertaken to finalise the fire compartmentation scope and work. However, on 11 September, the SPV company's lenders served notice to the project company enforcing its security and administrators were appointed to Three Valleys Healthcare Holdings Limited, the parent of the Roseberry Park Mental Health project SPV as described in the Business Review section above.

As a consequence of the events that have taken place post year end the directors anticipate writing down the fair value of the investment down to £nil during 2017.

On behalf of the Board

J Pritchard
Director

28 September 2017

DIRECTORS' REPORT

The Directors submit their Annual Report and the audited financial statements for the year ended 31 December 2016.

The Company is a limited company incorporated in England. The Company is wholly owned by JLIF Limited Partnership, the limited partner of which is JLIF LuxCo 2 S.á.r.l. The limited partner is an indirectly wholly owned subsidiary of John Laing Infrastructure Fund Limited. The Company invests in PFI/PPP infrastructure projects in the UK.

Results and dividends

The Directors have declared and paid total dividends of £nil (2015: £nil) in respect of the year ended 31 December 2016. The Directors recommended that no final dividend be paid (2015: £nil).

Directors

The Directors who served throughout the year were as follows:

A G Charlesworth (resigned 19 May 2017)

J Pritchard

D M Hardy (appointed 19 May 2017)

Employees

The Company had no employees during the year (2015: none).

Auditor

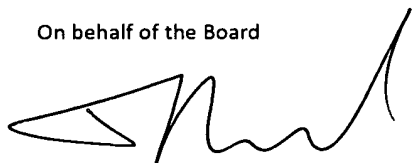

Each of the persons who is a Director at the date of approval of this report confirms that:

- as far as the Director is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- the Director has taken all the steps that he ought to have taken as a Director in order to make himself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provision of section 418 of the Companies Act 2006.

Deloitte LLP was appointed auditor at a meeting of the Board of Directors. Deloitte LLP has indicated their willingness to be reappointed as auditor and appropriate arrangements have been put in place for them to be deemed reappointed as auditor in the absence of an Annual General Meeting.

On behalf of the Board

J Pritchard

Director

28 September 2017

DIRECTORS' RESPONSIBILITIES STATEMENT

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. [In preparing these financial statements, International Accounting Standard 1 requires that directors:

- properly select and apply accounting policies;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- provide additional disclosures when compliance with the specific requirements in IFRSs are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance; and
- make an assessment of the company's ability to continue as a going concern.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PALIO (NO 10) LIMITED

We have audited the financial statements of Palio (No 10) Limited for the year ended 31 December 2016 which comprise the Income Statement, the Statement of Financial Position, the Statement of Changes in Equity, the Cash Flow Statement and the related notes 1 to 21.

The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of Directors and auditor

As explained more fully in the Directors' responsibilities statement, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies in the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2016 and of its loss for the year ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Emphasis of matter – Financial statements prepared other than on a going concern basis

In forming our opinion on the financial statements, which is not modified, we have considered the adequacy of the disclosure made in note 2 to the financial statements, which explains that the financial statements have been prepared on a basis other than that of a going concern.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and the Directors' Report have been prepared in accordance with applicable legal requirements

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Strategic Report and the Directors' Report.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Cash and cash equivalents comprise cash and short-term bank deposits with an original maturity of three months or less. The carrying amount of these assets is approximately equal to fair value.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 December 2016

1 GENERAL INFORMATION

Palio (No 10) Limited (the "Company") is a limited company incorporated in England. The Company is wholly owned by JLIF Limited Partnership, the limited partner of which is JLIF LuxCo 2 S.à.r.l. The limited partner is an indirectly wholly owned subsidiary of John Laing Infrastructure Fund Limited. The Company invests in PPP infrastructure projects in the UK.

The Financial Statements of Palio (No 10) Limited have been prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union ("EU").

2 SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of accounting

The Company has considered the need to prepare consolidated financial statements, however, the Company meets the definition of an Investment Entity under IFRS 10. The Company has applied Investment Entities Standards IFRS 10, IFRS 12 and IAS 27, as a result has not prepared consolidated financial statements and instead recognises its investments in PPP assets as Investments at fair value through profit or loss.

The financial statements have been prepared on a basis other than a going concern in light of the post balance sheet events detailed in the Business Review. Consequently the financial assets and liabilities have therefore been reported on a fair value basis and all liabilities have been disclosed as current liabilities, as they will fall due on the date the Company ceases to trade. The principal accounting policies are set below.

The Company has not adopted during the year any new and revised International Financial Reporting Standards interpretations and amendments. At the date of approval of these financial statements, the Company has not applied the following new and revised IFRS standards that have been issued but are not yet effective and have not yet been adopted by the EU:

IFRS 9 Financial Instruments

IFRS 15 Revenue from Contracts with Customers

IFRS 16 Leases

IFRS 2 (amendments) Classification and Measurement of Share-based Payment Transactions

IAS 7 (amendments) Disclosure Initiative

IAS 12 (amendments) Recognition of Deferred Tax Assets for Unrealised Losses

IFRS 10 and IAS 28 (amendments) Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The Directors do not expect that the adoption of the standards listed above will have a material impact on the financial statements of the Company in future periods. The Directors intend to perform a detailed analysis of the potential impact of these standards on the Company and its investments during 2017.

A summary of the principal accounting policies adopted by the Directors, which have been applied consistently throughout the current and preceding year, is shown below.

Investments

IFRS 10 requires the Company to measure its interest in investments at fair value with gains and losses on measurement of investments accounted through profit or loss.

Sub debt debtors

Under IFRS, sub debt debtors of amounts owed by investments have been included within the fair value of the investment to which it relates and the debtor has been classified to investments. Consequently, the interest revenue associated to the sub debt debtor is reported within Operating Income in the Income Statement.

Investments in subsidiaries

The Company is required under Investment Entities (Amendments to IFRS 10, IFRS 12 and IAS 27) to measure its investments in subsidiaries at fair value through profit or loss, except where the subsidiary provides investment-related services or activities. The Company measures its investments in PPP assets in accordance with IFRS 13 Fair Value Measurement, with changes in fair value recognised in profit or loss in the period of the change.

Deferred tax

The deferred tax liability is adjusted annually as gains or losses arise on the fair value of the subordinated debt interest income.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
for the year ended 31 December 2016

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.2 Going concern

The Company has an investment in one operational non-recourse PPP Project company which yields annual interest, dividends and loan repayments. Following the appointment of the Administrators to Three Valleys Healthcare Holdings Limited, the parent of the Roseberry Park Mental Health project SPV the Directors of the Company do not anticipate that the Company will receive any cash flows in the future and therefore do not consider it appropriate to adopt the going concern basis. The financial statements have therefore been prepared on a break up basis and not on a going concern basis and the financial assets and liabilities have therefore been reported on a fair value basis. All liabilities have been disclosed as current liabilities, as they will fall due on the date the Company ceases to trade. Further details are provided in the post balance sheet events note.

2.3 Revenue recognition

(i) Interest income

Interest income is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time-apportioned basis, using the effective interest rate of the instrument concerned as calculated at the acquisition or origination date. Interest income is recognised gross of withholding tax, if any.

(ii) Dividend income

Dividend income is recognised when the Company's right to receive the payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably). Dividend income is recognised gross of withholding tax, if any, and only when paid by the PPP project company.

(iii) Gains on investments at fair value through profit or loss

Gains or losses that arise from the movement in the fair value of investments are presented separately from interest income and dividend income above.

Revenue excludes the value of intra-group transactions and VAT.

2.4 Cash and cash equivalents

Cash and cash equivalents comprise cash balances, deposits held on call with banks and other short-term highly liquid deposits with original maturities of three months or less. Bank overdrafts that are repayable on demand are included as a component of cash and cash equivalents for the purpose of the cash flow statement. Deposits held with original maturities of greater than three months are included in other financial assets.

2.5 Borrowing costs

All borrowing costs are recognised in the Income Statement in the period in which they are incurred.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
for the year ended 31 December 2016

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Income Statement because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the Statement of Financial Position date.

Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the Statement of Financial Position liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities (other than in a business combination) in a transaction that affects neither the tax profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. The carrying amount of deferred tax assets is reviewed at each Statement of Financial Position date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited to the Income Statement except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Financial instruments

Financial assets and financial liabilities are recognised on the Company's Statement of Financial Position when the Company becomes a party to the contractual provisions of the instrument. Financial assets are derecognised when the contractual rights to the cash flows from the instrument expire or the asset is transferred and the transfer qualifies for derecognition in accordance with IAS 39 'Financial Instruments: Recognition and Measurement' and IFRS13 'Fair Value Measurement'.

i) Financial assets

The Company classifies its financial assets in the following categories: fair value through profit or loss and loans and receivables. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

a) Investments at fair value through profit or loss

Investments at fair value through profit or loss are designated upon initial recognition as financial assets at fair value through profit or loss. The Company's policy is to fair value both the equity and subordinated debt investments in PPP assets together. Subsequent to initial recognition, the investments are measured on a combined basis at fair value with changes recognised within operating income in the Income Statement.

The Company's investments comprises both equity and debt. Both elements are exposed to the same primary risk, being performance risk. This performance risk is taken into consideration when determining the discount rate applied to the forecast cash flows. In determining fair value we have considered observable market transactions and have measured fair value using assumptions that market participants would use when pricing the asset including assumptions regarding risk. The debt and equity are considered to have the same risk characteristics. As such the debt and equity form a single class of financial instrument for the purposes of disclosure. The Company measures its investment as a single class of financial asset at fair value in accordance with IFRS 13 'Fair Value Measurement'.

The Company qualifies as an Investment Entity as it:

- A) Obtains funds from one or more investors for the purpose of providing those investor(s) with investment management services;
- B) Commits to its investor(s) that its business purpose is to invest funds solely for returns from investment income, capital appreciation, or both; and
- C) Measures and evaluates the performance of substantially all of its investments on a fair value basis

Consequently, under IFRS 10 and Investment Entities - Amendments to IFRS 10, IFRS 12 and IAS 27, the Company is required to measure its investments in subsidiaries at fair value through profit or loss, except where the subsidiary provides investment-related services or activities. The Company measures its investments in PPP assets in accordance with IFRS 13 Fair Value Measurement, with changes in fair value recognised in profit or loss in the period of the change. Fair values for those investments for which a market quote is not available, are determined using the income approach which discounts the expected cash flows at the appropriate rate. Estimates such as future cash flows are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. In determining the discount rate, management applies their judgement in determining the appropriate risk-free rates and specific risks, and considering the evidence of recent transactions. Management deems the discount rate to be one of the most significant unobservable inputs and any change in it could have a material impact on the fair value of the investments.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
for the year ended 31 December 2016

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

b) Loans and receivables

Trade receivables, loans and other receivables that are non-derivative financial assets and that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and other receivables'. Loans and other receivables are measured at amortised cost using the effective interest method, less any impairment. They are included in current assets, except where maturities are due in greater than 12 months after the Statement of Financial Position date which are classified as non-current assets. The Company's loans and receivables comprise 'trade and other receivables' and 'cash and cash equivalents' in the Statement of Financial Position.

ii) Financial liabilities and equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

a) Equity instruments - Share Capital

The nominal amount of shares issued is included in the share capital account.

b) Equity instruments - Share Premium

The balance of proceeds received net of direct issue costs is recorded as share premium.

c) Financial liabilities

Financial liabilities are classified as other financial liabilities, comprising of:

- Loans and borrowings are recognised initially at fair value of the consideration received, less transaction costs. Subsequent to initial recognition, loan and borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest basis.

- Other non-derivative financial instruments are measured at amortised cost using the effective interest method less any impairment losses.

iii) Fair value estimation

The fair value of financial instruments that are not traded in active markets is derived in one of two ways:

a) Investments at fair value through profit or loss

Fair value is calculated by discounting future cash flows, from investments in both equity (dividends and equity redemptions) and subordinated loans (interest and repayments), to the company at an appropriate discount rate. The basis of discount rates are long run average government bond rates adjusted for an appropriate premium to reflect PPP specific risk. Risk premia are then added to this adjusted base gilt rate depending on the phase of the project. The discount rates that have been applied to the investments at 31 December 2016 were in the range of 7.02% to 9.00% (2015: 7.19% to 8.46%). Refer to note 8 for details of the areas of estimation in the calculation of the fair value.

b) Loans and receivables, borrowings and payables

Loans and borrowings are held at amortised cost.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values.

3. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

In the application of the Company's accounting policies, which are described in note 2, the Directors are required to make judgements, estimates and assumptions about the fair value of assets and liabilities that affect reported amounts. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

As detailed in the post balance sheet events the directors have concluded that the appointment of the administrator after the year end to the project SPV holding company (Three Valleys Healthcare Holdings Limited) is classified as a non adjusting post balance sheet event. The financial statements have been prepared on a basis other than that of a going concern and the financial assets and liabilities have therefore been reported on a fair value basis. All liabilities have been disclosed as current liabilities, as they will fall due on the date the Company ceases to trade.

Investments at fair value through profit or loss

Fair values for those investments for which a market quote is not available are determined using the income approach which discounts the expected cash flows at the appropriate rate.

Estimates such as future cash flows are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. These cash flows also contain various assumptions, most significantly the inflation rate, deposit rate and tax rates used in forecasting the expected cash flows for each period. Sensitivities to these critical assumptions and their impact on the fair value of investments at fair value through profit and loss is disclosed in note 8.

In determining the discount rate, management applies their judgement in determining the appropriate risk-free rates and specific risks, and considering the evidence of recent transactions. Management deems the discount rate to be one of the most significant unobservable inputs and any change in it could have a material impact on the fair value of the investments. Underlying assumptions and discount rates are disclosed in note 8.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
for the year ended 31 December 2016

4. OPERATING PROFIT

The operating profit is attributable to the principal activity of the Company, all of which was carried out in the United Kingdom.

The audit fee for Palio (No 10) Limited of £2,536 (2015: £2,220) has been borne by JLIF Limited Partnership who will not seek recovery from the Company.

The Company had no employees other than directors for the year or preceding year. There was no directors' remuneration for the year or preceding year.

5. FINANCE COST

	2016 £'000s	2015 £'000s
Interest expense on loans from immediate parent company	940	880
Total finance cost	940	880

6. TAX

	2016 £'000s	2015 £'000s
Current Tax		
UK Corporation tax	-	-
Total Current Tax	-	-
Deferred Tax		
Changes to tax rates and laws	(286)	-
Total Deferred tax	(286)	-
Total (credit)/charge on profit on ordinary activities	(286)	-
Factors affecting tax (credit)/charge for the year:		
(Loss)/profit on ordinary activities before taxation	(3,922)	680
(Loss)/profit on ordinary activities multiplied by the blended rate of corporation tax in the UK of 20% (2015: 20.25%)	(784)	138
Effect of:		
Non-taxable UK dividends received	-	-
Net gain on investments at FV through profit or loss	784	(138)
Origination and reversal of timing differences	(179)	93
Changes to tax rates and laws	(286)	-
Total tax (credit) / charge for the year	(465)	93

Since 1 April 2015, the main UK corporation tax rate is 20% and will reduce to 19% from 1 April 2017. The UK Finance Bill enacted in September 2016 reduced the UK Corporation Tax rate from 19% to 17% from April 2020.

Deferred taxes at the Statement of Financial Position date have been measured using the enacted rates and reflected in these financial statements.

7. DIVIDENDS

	2016 £'000s	2015 £'000s
The following interim dividends have been paid during the period:		
Interim dividend paid	-	-

The Company paid £nil interim dividends the year ended 31 December 2016 (2015 : nil).

The Directors recommended that no final dividend be paid (2015: £nil).

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
for the year ended 31 December 2016

8. INVESTMENTS AT FAIR VALUE THROUGH PROFIT OR LOSS

	2016	2015
	£'000s	£'000s
Opening balance	16,982	15,737
Loan stock investment	1,829	-
Interest received from investments*	(940)	(880)
Movement in accrued interest	940	565
Unwind of discount rate and other movements*	(2,523)	1,410
Discount rate movement*	(459)	150
Carrying amount at 31 December	15,829	16,982

*Net loss on investments at fair value through profit or loss for the year ended 31 December 2016 is £3,922,000 (2015: gain of £680,000).

The Ultimate Parent Company's Investment Advisor has carried out fair market valuations of the investments as at 31 December 2016. The Directors have satisfied themselves as to the methodology used, the discount rates applied and the valuation. The investments are all investments in PPP projects and are valued using a discounted cash flow methodology. The valuation techniques and methodologies have been applied consistently with the methodology used to value the Investments since the launch of the ultimate parent company John Laing Infrastructure Fund Limited in 2010. Discount rates applied range from 7.02% to 9.00% (2015: 7.19% to 8.46%).

The following economic assumptions were used in the discounted cash flow valuations:

	2016	2015
Inflation rates (UK)	2.75%	2.75%
Deposit interest rates (UK)	1% for 2017 and rising to 2.75% from 2020	1% for 2016 rising to 3.25% from 2019

Since 1 April 2015, the main UK corporation tax rate is 20% and will reduce to 19% from 1 April 2017. The UK Finance Bill enacted in September 2016 reduced the UK Corporation Tax rate from 19% to 17% from April 2020.

The fair value of the PPP investments would be an estimated £1.8 million higher or £1.6 million lower (2015: estimated £1.9 million higher or £1.6 million lower) if the discount rate used in the discounted cash flow analysis were to differ by 1% from that used in the fair value calculation.

The fair value of the PPP investments would be an estimated £0.2 million lower (2015: £0.2 million lower) if the inflation rate used in the discounted cash flow analysis was an absolute 1% higher than that used in the fair value calculation, and £0.2 million higher (2015: £0.1 million higher) if the inflation rate was an absolute 1% lower. The inflation rate assumed for all future periods from 31 December 2016 was 2.75% (2015: 2.75%).

The fair value of the PPP investments would be an estimated £0.4 million higher or £0.4 million lower (2015: estimated £0.3 million higher or £0.3 million lower) if the deposit rates used in the discounted cash flow analysis were to differ by 1% from that used in the fair value calculation. The deposit rates assumed for all future periods from 31 December 2016 were 1% for 2017, gradually rising to 2.75% from 2020.

Details of investments recognised at fair value through profit or loss were as follows:

Investments (project name - see note 18 for further details)	% holding		% holding	
	31 December 2016		31 December 2015	
	Equity	Subordinated loan stock	Equity	Subordinated loan stock
Three Valleys Healthcare Holdings Limited	100.0%	100.0%	100.0%	100.0%

There are no future loan stock or capital commitments on investments held at fair value through profit or loss.

As detailed in the Business Review section and Post Balance Sheets Events following the appointment of the administrators to Valleys Healthcare Holdings Limited, the parent of the Roseberry Park Mental Health project SPV the Company anticipates writing down the fair value of the investment down to £nil in 2007.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
for the year ended 31 December 2016

9. TRADE AND OTHER RECEIVABLES

The Company had no trade or other receivable as at 31 December 2016.

10. TRADE AND OTHER PAYABLES

	2016 £'000s	2015 £'000s
Accruals and deferred income	1,727	787
Amounts owed to parent company	27	27
Balance at 31 December	<u>1,754</u>	<u>814</u>

11. LOANS AND BORROWINGS

	2016 £'000s	2015 £'000s
Loan from parent company	8,928	7,099
Balance at 31 December *	<u>8,928</u>	<u>7,099</u>

The loan from Parent Company is repayable in line with repayments schedules. Interest is charged on an arm's length basis at a fixed rate of 12.4%.

The carrying amount of these liabilities approximates their fair value.

12. DEFERRED TAX LIABILITY

	2016	2015
Deferred Tax Liability *	1,447	1,912
Balance at 31 December	<u>1,447</u>	<u>1,912</u>

An initial deferred tax liability has been recognised on the subordinated debt interest income included in the fair value of the investments. The deferred tax liability is adjusted annually as gains or losses arise on the fair value of the subordinated debt interest income.

* Following the post balance sheet events resulting in the Company preparing the financial statements on a basis other than that of a going concern the non-current liabilities have been reclassified as current liabilities in the year.

13. SHARE CAPITAL

	2016 £'000s	2015 £'000s
Issued and fully paid 50,001 (2015: 50,001) ordinary shares of £1 each	<u>50</u>	<u>50</u>

The Company is authorised to issue an unlimited number of shares.

At present, the Company has one class of ordinary shares which carry no right to fixed income.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
for the year ended 31 December 2016

14. RETAINED EARNINGS

	2016 £'000s	2015 £'000s
Opening balance	7,107	6,520
Net (loss)/profit for the year	(3,457)	587
Balance at 31 December	<u>3,650</u>	<u>7,107</u>

15. TRANSACTIONS WITH RELATED PARTIES

As a wholly owned subsidiary of John Laing Infrastructure Fund Limited, the Company has taken advantage of the exemption under IAS 24 (revised), 'Related party disclosures' not to provide information on related party transactions with other undertakings within the John Laing Infrastructure Fund Limited Group. Note 19 gives details of how to obtain a copy of the published financial statements of John Laing Infrastructure Fund Limited.

The following transactions took place between the Company and its subsidiary during the year:

	2016 £'000s	2015 £'000s
Three Valleys Healthcare Holdings Limited		
Cash received		
Subordinated loan interest	-	315
Dividends	-	-
Repayment		
Income statement		
Subordinated loan interest	940	880
Dividends	-	-
Balance due		
Subordinated loan	8,928	7,099
Subordinated loan interest	1,727	787

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
for the year ended 31 December 2016**16. FINANCIAL INSTRUMENTS****CAPITAL RISK MANAGEMENT****Capital management**

The Company manages its capital to ensure that it is able to continue as a going concern while maximising the return to the shareholder through the optimisation of the debt and equity balance. The Company's overall strategy remains unchanged from 2015.

The capital structure of the Company consist of net debt less cash and cash equivalents and equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings as disclosed in notes 13 and 14. The Company aims to deliver its objective by investing available cash and using leverage whilst maintaining sufficient liquidity to meet ongoing expenses and dividend payments.

Gearing ratio

As at the reporting date, the Company had outstanding debt of £8.9m (2015: £7.1m) which represented a gearing ratio of 71% (2015: 50%).

FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks: market risk (including foreign currency exchange rate risk, interest rate risk and inflation risk), credit risk, liquidity risk, and capital risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance. The Company's investment entities use derivative financial instruments to hedge certain risk exposures.

The financial risks of the Company's investments are hedged at the inception of a project. The various types of financial risk are managed as follows:

Market risk - interest rate risk

The Company's interest rate risk arises on the floating rate deposits. The Company does not have borrowings issued at variable rates and therefore is not subject to interest rate risk on its liabilities.

Each PPP investment hedges its interest rate risk at the inception of a project. The PPP investment is bank financed, with variable rate debt which are swapped into fixed rate by the use of interest rate swaps.

The fluctuations in interest rates impact the return from floating rate deposits and hence the income from investments at fair value through profit or loss. A 1% increase or decrease represents Management's assessment of the reasonable possible change in interest rates.

For a sensitivity analysis of investments at fair value through profit or loss, refer to Note 8.

Market risk - inflation risk

The investment has part of its revenue and some of its costs linked to a specific inflation index at inception of the project. This creates a natural hedge, meaning a derivative does not need to be entered into in order to mitigate inflation risk.

For a sensitivity analysis of investments at fair value through profit or loss, refer to Note 8.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
for the year ended 31 December 2016

16. FINANCIAL INSTRUMENTS (CONTINUED)

FINANCIAL RISK MANAGEMENT (CONTINUED)

Credit risk

Credit risk is managed by the Company's parent. Credit risk arises from cash and cash equivalents, derivative financial instruments and deposits with banks and financial institutions, as well as credit exposures to customers.

The Company's parent mitigates its risk on cash investments and derivative transactions by only transacting with banking counterparties with high credit ratings assigned by international credit rating agencies (a minimum of Standard and Poor's A-1).

The Company's investments receive revenue from government departments, public sector or local authority clients. Therefore these projects are not exposed to significant credit risk.

The performance risk arises from the PPP investments' inability to pay the forecast distributions as the Company relies on its PPP investments projects companies to perform adequately and return the expected yields.

Several factors could hinder this ability such as poor operational performance, exceptional expenditures, major maintenance overspend or an event that would affect the PPP project company's cover ratios. The Company's PPP investments are also dependent on the performance of their main operational contractors. The Company regularly monitors the contractors' concentration and financial strength.

Given the above factors, the Board does not consider it appropriate to present a detailed analysis of credit risk.

Liquidity risk

The Company adopts a prudent approach to liquidity management by maintaining sufficient cash and available committed facilities to meet its obligations. Due to the nature of its investments (PPP projects) the timing of cash outflows is reasonably however following the post balance sheet events detailed in the Business Review that future expected cash flows from the project is expected to be nil.

The Company's liquidity management policy involves projecting cash flows in major currencies and assuming the level of liquid assets necessary to meet these.

Capital risk

The Company's capital structure comprises its equity and inter company debt (refer to the Statement of Changes in Equity). As at 31 December 2016 the Company had no external debt (2015: £nil).

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Investments at fair value through profit or loss (Level 3)	-	-	15,737	-	15,737
Total financial assets	-	-	15,737	-	15,737
Current liabilities					
Trade and other payables	-	-	-	(249)	(249)
Non-current liabilities					
Interest bearing loans and borrowings	-	-	-	(7,099)	(7,099)
Total financial liabilities	-	-	-	(7,348)	(7,348)
Net financial instruments	-	-	-	(7,348)	8,389

* FVTPL = Fair value through profit or loss

The above table provides an analysis of financial instruments that are measured subsequent to their initial recognition at fair value as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs to the asset or liability that are not based on observable market data (unobservable inputs).

There were no Level 2 assets or liabilities during the year (2015: none). There were no transactions between Level 1 and 2, Level 1 and 3 or Level 2 and 3 during the year (2015: none).

Reconciliation of Level 3 fair value measurement of financial assets and liabilities

An analysis of the movement between opening to closing balances of the investments at fair value through profit or loss is given in note 8. For financial assets at fair value through profit or loss, changing the discount rate used to value the underlying instruments would alter the fair value.

The investments at fair value through profit or loss, whose fair values include the use of level 3 inputs, are valued by discounting future cash flows from investments in both equity (dividends and equity redemptions) and subordinated loans (interest and repayments) to the Company at an appropriate discount rate. The basis of each discount rate, which is a weighted average cost of capital, is a long run average government bond rates adjusted by an appropriate premium to reflect PPP specific risk, phase of the PPP project and counterparty credit risk. The weighted average discount rate applied was in the range of 7.02% to 9.00% (31 December 2015: 7.19% to 8.46%). The discount rate is considered the most significant unobservable input through which an increase or decrease would have a material impact on the fair value of the investments at fair value through profit or loss.

The fair value of the PPP investments would be an estimated £1.8 million higher or £1.6 million lower (2015: estimated £1.9 million higher or £1.6 million lower) if the discount rate used in the discounted cash flow analysis were to differ by 1% from that used in the fair value calculation.

For a sensitivity analysis of Financial Assets at fair value through profit or loss, refer to Note 8.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
for the year ended 31 December 2016

17. GUARANTEES AND OTHER COMMITMENTS

As at 31 December 2016 the Company had no commitments (2015: no commitments).

18. DISCLOSURE - SERVICE CONCESSION ARRANGEMENTS

The Company holds investment in service concession arrangements in the Health sector. The concessions vary on the obligations required but typically require the construction and operation of an asset during the concession period. The concession may require the acquisition or replacement of an existing asset or the construction of a new asset. The operation of the asset may include the provision of facilities management services like cleaning, catering, caretaking and major maintenance. At the end of the concession period on the majority of the concessions the assets are returned to the concession provider. As at 31 December 2016 all the service concessions were fully operational (2015: All).

The rights of both the concession provider and concession operator are stated within the specific project agreement. The standard rights of the provider to terminate the project include poor performance and in the event of force majeure. The operator's rights to terminate include the failure of the provider to make payment under the agreement, a material breach of contract and relevant changes of law which would render it impossible for the service company to fulfil its requirements.

Sector	Company name	Project name	% owned	of concession arrangement	Short description			No. years	Project capex
					Start date	End date	Period of concession		
Health	Three Valleys Healthcare Limited	Roseberry Park Hospital	100%	Design, build, finance and operate a mental health facility in Middlesbrough.	18-Dec-2007	23-Mar-2040		32	Construction of hospital costing £75 million.

19. ULTIMATE PARENT UNDERTAKING

The Company's immediate parent entity is the JLF Limited Partnership, a limited partnership established in England under the Limited Partnership Act 1907, which acts through its General Partner, JLF (GP) Limited, registered in England. The Company's immediate parent entity is incorporated in Great Britain and the registered address is 1 Kingsway, London, WC2B 6AN.

The Company's ultimate parent and controlling entity is John Laing Infrastructure Fund Limited, a company incorporated in Guernsey, Channel Islands. Copies of the financial statements of John Laing Infrastructure Fund Limited are available from its website www.jlif.com.

20. INVESTMENTS IN SUBSIDIARIES AND JOINT VENTURE

Registered Office Address	Place of Incorporation	Percentage of interest	Financial year end	Net assets/ (liabilities) £000	Profit & Loss for the year £000
Three Valleys Healthcare Limited*	United Kingdom	100.00%	31/12/2016	(31,329)	(1,381)
Three Valleys Healthcare Holdings Limited	United Kingdom	100.00%	31/12/2016	50	-

* Indirectly held by the Company

** 1 Kingsway, London, WC2B 6AN

At 31 December 2016, none of the above subsidiaries are consolidated (2015: nil).

21. POST BALANCE SHEET EVENTS

During 2016 a dispute arose between the Roseberry Park Mental Health project SPV (100% owned by Palio (No 10) Limited) and the public sector client regarding the provision of certain FM services, the operation of the Helpdesk at the project, as well as certain alleged construction defects.

As at the balance sheet date, settlement negotiations were taking place. Both the project agreement and the loan agreement of the project SPV were in default as a consequence of the number of service failure points. The number of service failure points gave the Trust the right to terminate the project agreement, however, a standstill agreement was in place which prevented the Trust from exercising this right to terminate. A settlement had been reached in respect of the service failures up to 31 December 2015 and negotiations were continuing over further service failures and alleged construction defects. On 7 October 2016 the Company injected a further loan note of £1,828,721 into Three Valleys Healthcare Holdings Limited, which was funded by a loan from the Company's immediate parent. The directors were expecting that a settlement would be reached based on the negotiations that were ongoing and legal advice at the balance sheet date. As such the fair value of investments as at 31 December 2016 reflected the directors' belief that a settlement would be reached and that there continued to be value in the company's investment. Subsequent to the year-end, these negotiations did not proceed as expected, the standstill agreement expired and in July 2017 the Trust exercised its termination notice. In August 2017, a further standstill agreement which suspends the termination process was agreed between all parties to allow further work to be undertaken to finalise the fire compartmentation scope and work. However, on 11 September, the SPV company's lenders served notice to the project company enforcing its security and administrators were appointed to Three Valleys Healthcare Holdings Limited, the parent of the Roseberry Park Mental Health project SPV and the Company lost control of Three Valleys Healthcare Holdings Limited and its subsidiary.

As a consequence of the events that have taken place post year end the directors anticipate writing down the fair value of the investment to £nil during 2017. As there was no indication at 31 December 2016 that the negotiations would result in the lenders enforcing its security resulting in administrators being appointed to Three Valleys Healthcare Holdings Limited the Directors have classified this as a non adjusting post balance sheet event.

Following these events the financial statements have been prepared on a basis other than that of a going concern and consequently the financial assets and liabilities have therefore been reported on a fair value basis. All liabilities have been disclosed as current liabilities, as they will fall due on the date the Company ceases to trade.
