**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31ST DECEMBER 2014**

1. Accounting policies

Basis of accounting

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).
The balance sheet at the period end shows net liabilities of £231,892 which includes loans from the directors of £195,000. The directors confirm that the company is able to meet its liabilities as they fall due. Therefore, they consider it appropriate to adopt the going concern basis in preparing these accounts.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover, all of which arises in the U.K, represents revenue recognised in the accounts. Revenue is recognised when the company fulfils its contractual obligations to customers by supplying goods and services and excludes value added tax.

Tangible fixed assets

Tangible fixed assets are stated in the Balance Sheet at cost less depreciation.

Depreciation is provided at the following rates on the straight line method in order to write off each asset over its estimated useful life;

Leasehold improvements 5%

Plant and equipment 25%

Stock

Stock has been valued by the directors at the lower of cost and net realisable value.

Deferred tax

Deferred tax arises as a result of including items of income & expenditure in tax computations in periods different from those in which they are included in the company's accounts. Deferred tax is provided in full on timing differences which result in an obligation to pay more (or less) tax at a future date, at the average tax rates that are expected to apply when the timing differences reverse, based on current tax rates and laws. Deferred tax is not provided on timing differences arising from the revaluation of fixed assets when there is no commitment to sell the asset.

Operating leases

The cost of operating leases is charged to the profit and loss account on a straight line basis over the lease term.
