The directors consider that the company is entitled to exemption from the requirement to have an audit under the provisions of section 477 of the Companies Act 2006 ("the Act") and members have not required the company to obtain an audit for the period in question in accordance with section 476 of the Act.

The directors acknowledge their responsibilities for complying with the requirements of the Companies Act 2006 with respect to accounting records and for preparing financial statements which give a true and fair view of the state of affairs of the company as at 31 March 2014 and of its loss for the period in accordance with the requirements of sections 394 and 395 of the Act and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the company.

The abbreviated accounts, which have been prepared in accordance with the special provisions relating to companies subject to the small companies regime within Part 15 of the Companies Act 2006, were approved and authorised for issue by the board and were signed on its behalf on $22 \cdot 12 \cdot 2014$.

2. Di co

T Stirling Director

The notes on pages 3 to 5 form part of these financial statements.

NOTES TO THE ABBREVIATED ACCOUNTS FOR THE PERIOD ENDED 31 MARCH 2014

1. ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Going concern

During the period the company incurred a loss of £24,953 (2012: £29,563) and at the balance sheet date had a deficit on shareholders' funds of £60,759 (2012: £35,806). The company meets its day to day working capital requirements through support from its joint venture partners, Plastech Group Limited and Manufacturing Solutions.

The financial statements have been prepared on a going concern basis which assumes that the company will continue in operational existence for the foreseeable future. As at 31 March 2014, the company's joint venture partners had provided funding to the company in total of £91,622 (2012: £42,648). This funding is included in the company's financial statements as a creditor falling due after more than one year from the balance sheet date as there is no intention for the joint venture partners to demand repayment of the funding provided until such time as the company is in a financial position to do so.

If the company was unable to continue in operational existence for the foreseeable future adjustments would have to be made to amend the balance sheet values of assets to their recoverable amounts and to provide for future liabilities that might arise.

1.3 Cash flow

The financial statements do not include a Cash flow statement because the company, as a small reporting entity, is exempt from the requirement to prepare such a statement under the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.4 Turnover

Turnover comprises revenue recognised by the company in respect of goods and services supplied during the period, exclusive of Value Added Tax and trade discounts.

1.5 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Plant & machinery

- 10% per annum

Fixtures & fittings

- 20% per annum

NOTES TO THE ABBREVIATED ACCOUNTS FOR THE PERIOD ENDED 31 MARCH 2014

1. ACCOUNTING POLICIES (continued)

1.6 Leasing and hire purchase

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible fixed assets. Assets acquired by finance lease are depreciated over the shorter of the lease term and their useful lives. Assets acquired by hire purchase are depreciated over their useful lives. Finance leases are those where substantially all of the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the Profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

1.7 Operating leases

Rentals under operating leases are charged to the Profit and loss account on a straight line basis over the lease term.

1.8 Stocks

Stocks are valued at the lower of cost, which is made up of materials, and net realisable value. Cost is determined on a first-in, first-out basis and comprises the purchase price. Net realisable value is based on estimated selling price, less any further costs to completion.

1.9 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.

NOTES TO THE ABBREVIATED ACCOUNTS FOR THE PERIOD ENDED 31 MARCH 2014

2. TANGIBLE FIXED ASSETS

£

Cost	
At 1 January 2013 and 31 March 2014	44,026
Depreciation
