The financial statements have been prepared under the historical cost convention.

Financial instruments

Financial instruments are accounted for according to their substance, as financial assets, financial liabilities or equity instruments.

Equity instruments are contracts where there exists a residual interest in the assets of a company after deducting all of its liabilities.

Impairment

Assets not measured at fair value are assessed for indications of impairment at each balance sheet date.

Where an asset is deemed to be impaired, an impairment loss is recognised in the profit and loss account.

Impairment arises when there is evidence that the estimated recoverable value of an asset has been reduced.

Where impairment is decreased it is reversed on the individual asset up to the value at which the asset would be had there been no impairment loss.

Going concern

After reviewing the company's forecasts and projections, the directors have a reasonable expectation that the company has adequate resource to continue in operational existence for the foreseeable future. The company therefore continues to adopt the going concern basis in preparing its financial statements.
