1. Accounting policies

General information

The Company is a private company limited by shares, which is incorporated and domiciled in the UK and is registered in England and Wales. The address of its registered office is One Edison Rise, New Ollerton, Newark, Nottinghamshire, NG22 9DP. The Company's functional currency is £ Sterling.

Statement of compliance

These financial statements have been properly prepared in accordance with United Kingdom adopted international accounting standards.

The principal accounting policies applied in the preparation of these financial statements are set out below. All accounting policies are consistent with the prior period.

Basis of preparation

The financial statements have been prepared under the historical cost convention and on a going concern basis.

The Company's accounting reference date is 22 April.

The Company was, at the end of the period, a wholly-owned subsidiary of another company incorporated in the EEA and in accordance with Section 400 of the Companies Act 2006, is not required to produce, and has not published, consolidated financial statements.

Going concern

The Company had no liabilities at the balance sheet date and the only activity anticipated by the Directors for the foreseeable future is the receipt of dividends from the Company's subsidiary undertaking and the subsequent on-payment of those dividends to Center Parcs (Holdings 1) Limited. As such, the financial statements have been prepared on the going concern basis.

Key assumptions and significant judgements

The preparation of financial statements requires management to make estimates and assumptions that affect the application of policies and reported amounts. Estimates and judgements are continually evaluated and are based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The directors do not consider that there are any critical account judgments or key sources of estimation uncertainty.

Investments in subsidiary undertakings

Investments are stated at cost, less any provision for impairment. If there are indications of impairment, an assessment is made of the recoverable amount. An impairment loss is recognised in the income statement when the recoverable amount is lower than the carrying value.

Dividends receivable from investments in subsidiary undertakings are recognised in the income statement when approved by the shareholders of the company paying the dividend.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Dividend distribution

Dividend distributions to the Company's shareholders are recognised as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholders. Interim dividends are recognised when paid.

Current and deferred tax

The tax currently payable is based on the taxable profit for the year. The current tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date and is measured at the amount expected to be paid to or recovered from the tax authorities.

Deferred tax is provided in full, using the liability method, on all differences that have originated but not reversed by the balance sheet date which give rise to an obligation to pay more or less tax in the future. Differences are defined as the differences between the carrying value of assets and liabilities and their tax base.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the assets can be utilised.

Deferred tax is calculated using tax rates that are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled, on the basis of the tax laws enacted or substantively enacted at the balance sheet date.

Deferred tax assets and liabilities are only offset when there is a legally enforceable right to offset current tax assets and current tax liabilities and when the deferred income taxes relate to the same fiscal authority and there is an intention to settle on a net basis.
