TAMAR ENERGY LIMITED

STRATEGIC REPORT

Review of the business

The principal activities of Tamar Energy Limited and its subsidiaries, “the Group”, are the ownership and operation of five anaerobic digestion (AD) plants generating renewable energy and bio-fertiliser from the processing of food waste. The Group also owns and operates six composting plants, processing commercial and domestic ‘green waste’ into compost.

The company was acquired on 6 February 2018 by funds managed by Ancala Partners LLP, and, via a new parent company, Ancala Bioenergy Limited, was amalgamated with the Biogen group of companies. Further details of the enlarged group are disclosed in the financial statements of Ancala Bioenergy Limited.

Ancala Bioenergy Limited successfully completed a refinancing of the Company in March 2020 with Allied Irish Banks and NatWest. This returned capital to the investors and provides further funding to continue the development and growth of the Company.

The Coronavirus pandemic materialised with the lockdown of the UK from mid-March 2020. The Directors are pleased to confirm that the pandemic has had little impact on the performance of the Company in the year to March 2020. Due to the geographical spread of the portfolio and diversity in feedstock sources, the Company has been able to procure feedstock from other sources.

During the year to 31 March 2020 the Group continued to focus on the operational effectiveness across the portfolio of AD plants which have a combined installed generation capacity of 11.3MW, all of which receive Government subsidy applicable to renewable energy installations. During the year, a number of sites have been enhanced in order to optimise the efficiency and robustness of their operations to secure ongoing revenue generation.

The loss before taxation in the year is £3,578k (2019: £4,604k).

Looking further ahead, the directors are confident about the future business plan adopted by the Group.

The Company has not made any significant donations to charities or political parties in the year (2019: £nil).

PRINCIPAL RISKS AND UNCERTAINTIES

The Group face the following risks during the normal course of operations:

Price & availability of feedstock risk

The operating facilities of the Group require a consistent supply of suitable feedstock to maintain the biology of the plant and resulting generation. Market pressures, weather, plant issues/capacity can all impact feedstock supply. This risk is mitigated by maintaining strong relationships with a wide range of feedstock suppliers in addition to daily management of plant requirements / available feedstocks. Market pressures faced in recent years remain, however these are stabilising and the Group continues to expect that the gate fees will recover with the future implementation of The Waste and Resources Strategy outlined by the Government.

Plant operating risk

Failure of key components of an operating plant may lead to reduced generation. This risk is mitigated by scheduled planned maintenance and monitoring alongside a team of experienced engineers.

Regulatory compliance risk

The Group operates within a heavily regulated environment with failure to comply with regulations having the potential to impact operations. The Group operates ISO9001, ISO14001 and OHSAS18001 with an integrated management system. Compliance along with health and safety are a high priority of the directors and are reviewed regularly.

Credit risk

The Group mitigates credit risk by obtaining external credit reports for every new customer in conjunction with regularly monitoring customer credit levels. The Group has a large customer base and doesn't suffer from significant concentration of credit.

TAMAR ENERGY LIMITED

STRATEGIC REPORT (continued)

PRINCIPAL RISKS AND UNCERTAINTIES (CONTINUED)

Energy pricing risk

The Group operates in the UK energy market and as such is exposed to movements in wholesale power pricing. The Group enters into agreements to mitigate this risk. Plants that operate under the governments Feed in Tariff have the option of a fixed electricity export rate, and the business reviews this on a periodic basis.

Liquidity risk

The Group monitors and manages the cash flow requirements of the business with annual/rolling forecasts that are reviewed regularly by the directors. The capital requirements of the Group are met through cash reserves and shareholder loans.

Overall, the directors and shareholders are pleased with the progress made in 2020 and are confident that the business is on the right trajectory to deliver on the underlying business plan.

Approved by the Board of Directors and signed on behalf of the Board

R Parker

Director

Date 28/09/2020

TAMAR ENERGY LIMITED

Directors' report

The directors present their annual report on the affairs of the Group, together with the audited consolidated financial statements and auditors' report, for the year ended 31 March 2020.

DIRECTORS

The directors of the Company who were in office during the year and up to the date of signing of the financial statements were:

S Musther	
G K C Vincent	
C Lister	
R Parker	(appointed 4 December 2019)
A Feneley	(resigned 31 December 2019)

DIRECTORS' INDEMNITIES

The Company has made qualifying third party indemnity provisions for the benefit of its directors which remained in force at the date of this report.

DIVIDENDS

The directors do not recommend the payment of a dividend (2019: £nil) in respect of the year.

FINANCIAL RISK MANAGEMENT POLICY

The Company has adopted the following policies to manage financial risk;

Interest rate risk is minimal with the Group either agreeing fixed rates or linking borrowing to Libor.

The Group has limited exposure to foreign currency; where this arises, the Group enters into hedging agreements for a small number of material foreign currency transactions.

Liquidity is closely managed and reviewed by the board of directors regularly.

FUTURE DEVELOPMENTS

Details of future developments are set out in the Strategic Report.

GOING CONCERN

The Group meets its day-to-day working capital requirements through facilities provided by its parent company, Ancala Bioenergy Limited. The Group's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the Group should be able to operate within the level of its current facilities. Ancala Bioenergy Limited have provided written confirmation that they will not request repayment of the loan of £20,619k (2019: £19,189k) in the twelve months from approval of these financial statements.

After making enquiries, the directors have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. The Group therefore continues to adopt the going concern basis in preparing its financial statements.

Directors' report (continued)

STATEMENT OF DISCLOSURE OF INFORMATION TO AUDITORS

Each of the persons who are a director at the date of approval of this annual report confirms that:

- so far as the director is aware, there is no relevant audit information of which the Company's auditors are unaware; and
- the director has taken all the steps that he ought to have taken as a director to make himself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE FINANCIAL STATEMENTS

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the group and company financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and company and of the profit or loss of the group and company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 102, have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group and company will continue in business.

The directors are also responsible for safeguarding the assets of the group and company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group and company's transactions and disclose with reasonable accuracy at any time the financial position of the group and company and enable them to ensure that the financial statements comply with the Companies Act 2006.

DIRECTORS' CONFIRMATIONS

In the case of each director in office at the date the Directors' Report is approved:

- so far as the director is aware, there is no relevant audit information of which the group and company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the group and company's auditors are aware of that information.

PricewaterhouseCoopers LLP have expressed their willingness to continue in office as auditors and a resolution to reappoint them will be proposed at the forthcoming Annual General Meeting.

Approved by the Board of Directors
and signed on behalf of the Board

TAMAR ENERGY LIMITED

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF TAMAR ENERGY LIMITED

Report on the audit of the financial statements

Opinion

In our opinion, Tamar Energy Limited's group financial statements and company financial statements (the "financial statements"):

- give a true and fair view of the state of the group's and of the company's affairs as at 31 March 2020 and of the group's loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual report and financial statements (the "Annual Report"), which comprise: the consolidated and company statements of financial position as at 31 March 2020; the consolidated statement of comprehensive income, and the group and company statements of changes in equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the group's and company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the group's and company's ability to continue as a going concern.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

TAMAR ENERGY LIMITED

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF TAMAR ENERGY LIMITED

Strategic Report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 31 March 2020 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the group and company and their environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities in respect of the financial statements, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the company financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

TAMAR ENERGY LIMITED

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2020

1. GENERAL INFORMATION

Tamar Energy Limited and its subsidiaries operate a number of anaerobic digestion and green waste composting plants across the UK.

The Company is a private company limited by shares and is incorporated in England. The address of its registered office is Milton Parc, Milton Ernest, Bedfordshire MK44 1YU.

2. STATEMENT OF COMPLIANCE

The group and individual financial statements of Biogen (UK) Limited have been prepared in compliance with United Kingdom Accounting Standards, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102") and the Companies Act 2006.

3. ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated and separate financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

These consolidated and separate financial statements are prepared on a going concern basis, under the historical cost convention.

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group and Company accounting policies. These are disclosed later in this note.

The Company has taken advantage of the exemption in section 408 of the Companies Act from disclosing its individual statement of comprehensive income.

FRS 102 allows a qualifying entity certain disclosure exemptions. The Company has taken advantage of the following exemptions, given its results are included in the consolidated financial statements of its parent company Ancala Bioenergy Holdco Limited (these financial statements can be obtained from the address given in note 21):

- under FRS 102 paragraph 1.12(b), exemption from preparing a statement of cash flows, on the basis that it is a qualifying entity and its ultimate parent company, Ancala Bioenergy Holdco Limited, includes the Company's cash flow in its own consolidated financial statements
- under FRS 102 paragraph 33.7, from disclosing key management personnel compensation in total

Going concern

The Group meets its day-to-day working capital requirements through facilities provided by its parent company, Ancala Bioenergy Limited. The Group's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the Group should be able to operate within the level of its current facilities. Ancala Bioenergy Limited have provided written confirmation that they will not request repayment of the loan of £20,619k (2019: £19,189) in the twelve months from approval of these financial statements. After making enquiries, the directors have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. The Group therefore continues to adopt the going concern basis in preparing its financial statements.

TAMAR ENERGY LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 31 March 2020

3. ACCOUNTING POLICIES (Continued)

Basis of consolidation

The Group consolidated financial statements include the financial statements of the Company and all of its subsidiary undertakings made up to 31 March. Profits or losses on intra-group transactions are eliminated in full. On acquisition of a subsidiary, all of the subsidiary's assets and liabilities which exist at the date of acquisition are recorded at their fair values reflecting their condition at that date.

Turnover

Turnover is the total amount receivable by the Group in the ordinary course of business from outside customers for goods supplied as a principal and for services provided including revenue from gate fees, electricity and subsidies, excluding value added tax and trade discounts. Turnover from the supply of services represents the value of services provided under contracts to the extent that there is a right to consideration and is recorded at the value of the consideration due. Where payments are received from customers in advance of services provided, the amounts are recorded as deferred income and included as part of creditors due within one year.

Revenue recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding discounts and value added tax.

Services rendered

Revenue earned from gate fees is recognised when waste is received over the gate.

Electricity

Revenue from the sale of electricity and associated renewable certificates, embedded benefits and feed-in tariffs, is recognised based on the quantity of electricity exported or generated, as applicable, at the contracted price, on the date of generation.

Employee benefits

The Group provides a range of benefits to employees, including annual bonus arrangements, paid holiday arrangements and defined contribution pension plans.

1. Short term benefits

Short term benefits, including holiday pay and other similar non-monetary benefits, are recognised as an expense in the period in which the service is received.

2. Defined contribution pension plans

The Group operates a defined contribution plan for its employees. A defined contribution plan is a plan under which the Group pays fixed contributions into a separate entity. Once the contributions have been paid the Group has no further payment obligations. The contributions are recognised as an expense when they are due. Amounts not paid are shown in accruals in the Statement of Financial Position. The assets of the plan are held separately from the Group in independently administered funds.

3. Annual bonus plan

The Group operates a discretionary annual bonus plan for employees. An expense is recognised in the statement of comprehensive income when the Group has a legal or constructive obligation to make payments under the plans as a result of past events and a reliable estimate of the obligation can be made.

TAMAR ENERGY LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 31 March 2020

3. ACCOUNTING POLICIES (Continued)

Taxation

Taxation expense for the period comprises current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income.

Current tax is the amount of income tax payable in respect of the taxable profit for the year or prior years. Tax is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the period end. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax arises from timing differences that are differences between taxable profits and total comprehensive income as stated in the financial statements. These timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is recognised on all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are only recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities of other future taxable profits. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the period end and that are expected to apply to the reversal of the timing difference.

Accrued income

Income that has been earned but not yet invoiced is accrued for at the rate at which the invoice will be raised.

Intangible assets - goodwill

Goodwill arising on the acquisition of subsidiary undertakings and businesses, representing any excess of the fair value of the consideration given over the fair value of the identifiable assets and liabilities acquired, is capitalised and written off on a straight line basis over its economic life. Provision is made for any impairment.

Tangible fixed assets

Tangible assets are stated at cost less accumulated depreciation and accumulated impairment losses. Cost include the original purchase prices, costs directly attributable to bringing the asset to its working condition for its intended use, dismantling and restoration costs.

No depreciation is provided on assets in the course of construction or long leasehold land and buildings. On other fixed assets depreciation is calculated to write down the cost of tangible fixed assets on the straight line basis over their expected useful lives. The expected useful economic lives are as follows:

Plant and machinery	3 – 25 years
Computers and software	3 years

Long leasehold buildings, which are not depreciated, are reviewed for impairment at the end of each reporting period.

Decommissioning

Decommissioning costs may be incurred by the group at the end of the operating life of some of the plants. These are determined under the terms of leases entered into for each site and the group assesses its decommissioning provision at each reporting date. The ultimate decommissioning costs can be uncertain and cost estimates vary in response to a number of factors, including resale value of equipment being decommissioned, changes to relevant legal requirements, the emergence of new restoration techniques and experience at other sites. The expected timing, extent and amount of expenditure can also change, for example in response to changes in laws and regulations or their interpretation.

The provision at reporting date represents managements best estimate of the present value of the future decommissioning costs required.

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31 March 2020

3. ACCOUNTING POLICIES (Continued)

Impairment of non-financial assets

Impairment of non-financial assets is reviewed at each reporting date or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable, to determine whether there is any indication of impairment. If any such indication exists, the recoverable amount of the asset is estimated.

If the recoverable amount of the asset is estimated to be less than the carrying amount, the carrying amount of the asset or cash-generating unit is reduced to the recoverable amount. The impairment is recognised in the income statement as an expense. Recoverable amounts are estimated for individual assets or, where an individual asset cannot generate cash flows independently, the recoverable amount is determined for the larger cash-generating unit to which the asset belongs.

A previously recognised impairment will be reversed insofar as estimates change as a result of an event occurring after the impairment was recognised. An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of impairment is recognised in the income statement.

After recognition of an impairment loss, the depreciation or amortisation charge for the asset is adjusted in the future periods to allocate the asset's revised carrying amount, less its residual value, on a systematic basis over its useful life.

Financial instruments

The group has chosen to adopt Sections 11 and 12 of FRS 102 in respect of financial instruments.

Financial assets

Subsequent to initial measurement, trade and other receivables and cash and cash equivalents are carried at amortised cost using the effective interest rate method. Gains and losses are recognised in income when the receivables are derecognised or impaired, as well as through the amortisation process.

The company's financial assets are reviewed at each reporting date or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable, to determine whether or not there is any indication of impairment.

Trade and other receivables are stated net of an allowance for uncollectible amounts.

Financial liabilities

Loans and trade and other payables are classified as financial liabilities and are subsequently measured at amortised cost. Gains and losses are recognised in income when the financial liabilities are derecognised or impaired as well as through the amortisation process. Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Any instrument that includes a repayment obligation is classified as a liability.

Borrowing costs

Borrowing costs during construction are capitalised, costs are attributed to the fixed asset the borrowing was used to finance and amortised over the life of that asset. All other borrowing costs are recognised in the profit and loss in the period in which they are incurred.

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31 March 2020

3. ACCOUNTING POLICIES (Continued)

Finance leases

Leases of assets that transfer substantially all the risks and rewards incidental to ownership are classified as finance lease.

Finance leases are capitalised at commencement of the lease as assets at the fair value of the leased asset or, if lower, the present value of the minimum lease payments calculated using the interest rate implicit in the lease. Where the implicit rate cannot be determined the Group's incremental borrowing rate is used. Incremental direct costs, incurred in negotiating and arranging the lease, are included in the cost of the asset.

Assets are depreciated over the shorter of the lease term and the useful economic life of the asset. Assets are assessed for impairment at each reporting date.

The capital element of lease obligations is recorded as a liability on inception of the arrangement. Lease payments are apportioned between capital repayment and finance charge, using the effective interest rate method, to produce a constant rate of charge on the balance of the capital repayments outstanding.

Operating leases

Leases that do not transfer all the risks and rewards of ownership are classified as operating leases. Payments under operating leases are charged to the statement of comprehensive income on a straight-line basis over the period of the lease.

Investments

Investments held as fixed assets are stated at cost less provision for any impairment in value.

Stock

Stocks of spare parts for plant and machinery and feedstocks are held for use within the operating plants and are capitalised or expensed in the period in which they are acquired or used.

Feedstock is held for use in the Agri AD plants when the plant requires them. The costs are expensed in the period in which they are used.

Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks with original maturities of three months or less and bank overdrafts.

Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount of the obligation can be estimated reliably.

Related party transactions

The Group discloses transactions with related parties which are not wholly owned within the same group. Where appropriate, transactions of a similar nature are aggregated unless, in the opinion of the directors, separate disclosure is necessary to understand the effect of the transactions on the Group financial statements.

Critical accounting policies, judgements/estimates

The preparation of financial statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies.

TAMAR ENERGY LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 31 March 2020

3. ACCOUNTING POLICIES (Continued)

The most critical accounting policies and estimates in determining the financial condition and results of the company are those requiring a greater degree of subjective or complete judgement. These relate to;

- The assessment of property, plant and equipment, intangible assets, investments and intergroup receivables (company only) for potential impairment, where the recoverable amount has been determined based on value in use. Management has to make significant estimates when putting together the budgets and projections which are used in the value in use calculations. These estimates are mainly in relation to projected revenues (primarily being income from food waste and electricity generation). Should the actual income received be significantly lower than that assumed in the impairment review an impairment would result.
- Deferred tax assets are only recognised on losses to the extent that future probable taxable profits will be available against which the deferred tax asset can be utilised. This is based upon future taxable profit forecasts of the Group. Management has to make significant estimates and judgements when forecasting future taxable profits. These estimates are mainly in relation to projected revenues (primarily being income from food waste and electricity generation). Should the actual taxable profits generated differ, the ability to utilise deferred tax assets may change.

The directors do not consider there to be any critical judgements.

4. TURNOVER

The turnover and loss are attributable to one activity, waste management and alternative energy production, and all arises within the United Kingdom.

5. LOSS BEFORE INTEREST AND TAXATION

	2020	2019
	£'000	£'000
Operating loss is stated after charging/(crediting):		
Depreciation on owned assets	2,279	1,743
Depreciation on assets held under finance leases	41	197
Loss on disposal of fixed assets	13	17
Inventory recognised as an expense/(credit)	(720)	1,516
Rentals under operating leases:		
- Hire of plant and machinery	943	1,415
- Land and buildings	<u>645</u>	<u>780</u>

The audit fees for the group are being paid for by another group Company, Biogen (UK) Limited.

TAMAR ENERGY LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 31 March 2020

6. INFORMATION REGARDING DIRECTORS AND EMPLOYEES

Employees

The average monthly number of persons (including executive directors) employed by the Group and Company during the year was:

	2020 No.	2019 No.
Production staff	55	56
Sales	-	2
Administration	-	4
	<u>55</u>	<u>62</u>

Staff costs incurred during the year in respect of these employees were:

	2020 £'000	2019 £'000
Wages and salaries	1,858	2,301
Social security costs	186	231
Other pension costs	55	53
Staff costs charged to profit and loss	<u>2,099</u>	<u>2,585</u>

Pension contributions of £nil (2019: £nil) for a defined contribution scheme were outstanding at the year end.

Directors

In the year to 31 March 2020 none of the directors received any remuneration (2019: £nil) and there were no contributions to a defined contribution pension scheme (2019: £nil). The directors are deemed to be the key management personnel.

TAMAR ENERGY LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 31 March 2020

7. INTEREST PAYABLE AND SIMILAR EXPENSES

	2020 £'000	2019 £'000
On loans and overdrafts	21	-
On other borrowings	-	12
Finance charges in respect of finance leases and similar	3	8
On loans from group undertakings	2,113	1,924
Unwinding of discount on provision	98	82
Total interest payable and similar charges	<u>2,235</u>	<u>2,026</u>

8. TAX ON LOSS

Tax assessed for the year is lower (2018: lower) than the standard rate of corporation tax in the UK for the year ended 31 March 2019 of 19% (2018: 19%). The differences are explained below:

(a) Tax charge/ (credit) included in profit and loss	2020 £'000	2019 £'000
--	---------------	---------------

Deferred tax:

- Origination and reversal of timing differences	118	2,701
- Adjustments in respect of prior periods	(84)	70
- Impact of change in tax rate	(808)	(284)
Total deferred tax credit	<u>(774)</u>	<u>2,487</u>

Tax charge/(credit) on loss	<u>(774)</u>	<u>2,487</u>
-----------------------------	--------------	--------------

(b) Reconciliation of tax charge

	2020 £'000	2019 £'000
Loss on ordinary activities before taxation	(3,578)	(4,604)
Loss multiplied by the standard rate of tax in the UK of 19% (2019: 19%). The differences are explained below:	(680)	(875)
- Expenses not deductible	-	59
- Income not taxable	(32)	59
- Effects of group relief/other reliefs	369	547
- Adjustments in respect of prior periods	(84)	70
- Tax rate changes	(819)	(284)
- Unrecognised deferred tax	472	2,970
Tax (credit)/charge for the year	<u>(774)</u>	<u>2,546</u>

The Finance (No 2) Act 2016, which provides for reductions in the main rate of corporation tax from 20% to 19% effective from 1 April 2017 and to 18% effective from 1 April 2020, was substantively enacted on 26 October 2016. Subsequently, the Finance Act 2018, which provides for a further reduction in the main rate of corporation tax to 17% effective from 1 April 2020, was substantively enacted on 15 March 2018. These rate reductions have been reflected in the calculation of deferred tax at the balance sheet date.

TAMAR ENERGY LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 31 March 2020

9. TANGIBLE ASSETS

The Group	Plant and machinery £'000	Computers and software £'000	Total £'000
Cost			
At 1 April 2019	77,726	506	78,232
Additions	1,746	11	1,757
Disposals	(130)	-	(130)
At 31 March 2020	<u>79,342</u>	<u>517</u>	<u>79,859</u>
Accumulated depreciation			
At 1 April 2019	45,842	457	46,299

TAMAR ENERGY LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 31 March 2020

17. PROVISIONS FOR LIABILITIES

The Group	Decomm- issioning provision £'000	Onerous contract £'000	Other provisions £'000	Total £'000
At 1 April 2019	720	1,627	964	3,311
Arising during the year	-	-	80	80
Utilised in the year	-	(167)	(474)	(641)
Unwinding of discount	14	84	-	98
At 31 March 2020	<u>734</u>	<u>1,544</u>	<u>570</u>	<u>2,848</u>

The group makes full provision for the future cost of decommissioning anaerobic digestion plants on a discounted basis on commencement of construction. The decommissioning provision represents the present value of decommissioning costs, which are expected to be incurred up to 2043, which is when the anaerobic digestion plants are expected to cease operations. These provisions have been created based on the group's internal cost estimates. Assumptions based on the current economic environment have been made, which management believes are a reasonable basis upon which to estimate the future liability. These estimates are reviewed regularly to take into account any material changes to the assumptions. Actual decommissioning costs will ultimately depend upon future market prices for the necessary decommissioning works required:

Provision has been made for the discounted cost of future annual payments up to April 2029, required under a trading agreement that the directors consider to be onerous

The discount rate used in the calculation of the provisions as at 31 March 2020 was 1.9% (2019: 1.9%).

Other provisions relates to a number of compliance and operational matters which are deemed to present liabilities which have arisen from incidents that occurred. Expenditure on these items is expected to occur in the forthcoming year. Provision has also been made in respect of a boundary dispute at one of the AD plants.
