2. BASIS OF PREPARING THE FINANCIAL STATEMENTS

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

These financial statements for the year ended 31 March 2017 are the first financial statements that comply with FRS 102 Section 1A small entities. The date of transition is 1 April 2015.

The principal accounting policies adopted in the preparation of the financial statements are set out below and have remained unchanged from the previous year, and also have been consistently applied within the same accounts.

At the date of transition the requirements under FRS 102 1A required the inventories value to be restated (see note 8).

The financial statements are prepared in £ sterling.

Going Concern:

Notwithstanding the net liabilities as at the balance sheet date, the financial statements have been prepared on the going concern basis with confirmed continued financial support of the parent company.

If the going concern basis proved to be invalid, the financial statements would have to be prepared on a break up basis in which the balance sheet would be restated to include all assets at their estimated realisable values and all liabilities would become current and would have to be increased to include those liabilities contingent on the company ceasing to trade.

Pension costs and other post-retirement benefits:

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.
