4. Other Commitments

Contingent liabilities

The Company has a constructive obligation to return the land on which the solar sites are built to its original condition at the end of the lease. The directors believe that given the nature of the assets, the lessor may wish to either take title of the assets for either continued use or to realise value through selling the assets. As such, the directors do not believe that an outflow is probable to settle this restoration obligation. The directors will continue to monitor this situation at each balance sheet date.

Commitments under operating leases

The total of future minimum lease payments under non-cancellable operating leases are set out below. The amounts due are increased each year by the RPI.
