DIRECTORS' REPORT

The directors present their report together with the audited financial statements for the year ended 31 December 2019.

Principal Activity

The principal activity of the company during the year was that of property investment.

Results and dividends

The statement of comprehensive income is set out on page 7 and shows the results of the year. The company's profit for the year amounted to £4,279,099 (2018: £9,040 loss). The significant increase in profit is as a result of the fair value gain on investment properties. Details of the investment property gains are set out below and in note 7. The directors do not recommend the payment of a dividend for the current year and no dividend was paid in the prior year.

Business review and future developments

The directors are satisfied with the financial position of the company at the year end.

The directors do not expect there to be significant future developments which could adversely impact the business however notice should be taken of the potential legislative changes disclosed in the critical accounting estimates and assumptions section of Note 1.9.

Investment properties

The investment properties have been valued at 31 December 2019 at £7,028,963 (2018: £1,886,000). The resultant fair value gain in the year amounted to £5,142,963 (2018: £25,000 loss), substantially all of which arose as a result of the change from the directors' valuation which discounted cash flows over 50 years to an external actuarial valuation which discounts cash flows over 150 years. Details of the investment properties are set out in note 7.

Public pledge for leaseholders

In June 2019 a number of residential real estate developers and freeholders, of which the company was a party, signed a government-backed public pledge in relation to leaseholders. This pledge is a crucial step towards positive change in the residential leasehold market and reflects our commitment to promoting good practice. The company's appointed agent, Estates & Management Limited, a company related by virtue of common control and directors, also signed this pledge.

The pledge sets out a number of principles which will assist existing and future leaseholders in ensuring the leasehold system is as fair and transparent as possible. It also includes undertakings to work with other freeholders and stakeholders to develop a comprehensive Code of Practice which establishes the responsibilities of freeholders and enshrines the highest standards for the management and maintenance of properties.

Directors

The following directors have held office since 1 January 2019:

W K Procter C C McGill P A Hallam (appointed 10th July 2019)

DIRECTORS' REPORT (continued)

Statement of directors' responsibilities

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing those financial statements, the directors are required to:

- a. select suitable accounting policies and then apply them consistently;
- b. make judgements and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Statement as to disclosure of information to auditor

The directors who were in office on the date of approval of these financial statements have confirmed that, as far as they are aware, there is no relevant audit information of which the auditor is unaware. The directors have confirmed that they have taken all the steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that it has been communicated to the auditor.

Insurance of Officers

The company has maintained insurance throughout the year for its directors and officers against the consequences of actions which may be brought against them in relation to their duties for the company.

Auditor

The auditor, RSM UK Audit LLP, Chartered Accountants, has indicated its willingness to continue in office.

This report has been prepared in accordance with the provisions applicable to companies entitled to the small companies exemption. The directors have also taken the available exemption from the requirement to prepare a strategic report.

On behalf of the Board:

P A Hallam

Director

5/7/2020

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF INVESTMENT FREEHOLDS (PARKSIDE) LIMITED

Opinion

We have audited the financial statements of Investment Freeholds (Parkside) Limited (the 'company') for the year ended 31 December 2019 which comprise the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Changes in Equity and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2019 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter - Valuation of investment properties

We draw attention to the disclosures made in the accounting policies on page 11 and in note 7 to the financial statements concerning the fair values of the Company's investment properties, which in the year ended 31 December 2019 were valued by a firm of independent actuaries. In the year ended 31 December 2018 the company's investment properties were valued by the directors on the basis of a discounted cash flow of the projected income streams generated by those assets. The investment properties are included in the financial statements at 31 December 2019 at a value of £7m (2018: £1.9m). Substantially all of the £5.1m increase during the year can be attributed to the change in discounted cash flow valuation basis. As indicated in the notes, considerable volatility exists in these valuations as detailed in note 7 where the impact of changes in the underlying assumptions are detailed. Our opinion is not modified in respect of this matter.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties
 that may cast significant doubt about the company's ability to continue to adopt the going
 concern basis of accounting for a period of at least twelve months from the date when the
 financial statements are authorised for issue.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF INVESTMENT FREEHOLDS (PARKSIDE) LIMITED (continued)

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and .
- · the directors' report has been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- · we have not received all the information and explanations we require for our audit; or
- the directors were not entitled to take advantage of the small companies exemption from the requirement to prepare a strategic report or in preparing the directors' report.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement set out on page 3, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF INVESTMENT FREEHOLDS (PARKSIDE) LIMITED (continued)

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: http://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2019

1. Accounting policies

Company information

Investment Freeholds (Parkside) Limited ("the company") is a private company limited by shares, domiciled and incorporated in England. The address of the company's registered office and principal place of business is Berkeley House, 304 Regents Park Road, London, N3 2JX. The principal activity of the company during the period was that of property investment.

1.1 Basis of accounting

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006, including the provisions of the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008, and under the historical cost convention as modified to include investment properties at fair value.

With effect from 1 January 2019 the company has adopted the amendments to FRS 102 published in the Triennial Review 2017. There are no adjustments to the current or comparative period in relation to this amendment.

1.2 Company reduced disclosures

In accordance with FRS 102, the company has taken advantage of the exemptions from the following disclosure requirements:

- Section 4 'Statement of Financial Position' Reconciliation of the opening and closing number of shares
- Section 7 'Statement of Cash Flows' Presentation of a Statement of Cash Flow and related notes and disclosures
- Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instrument Issues' –
 Carrying amounts, interest income/expense and net gains/losses for each category of financial
 instrument; basis of determining fair values; details of collateral, loan defaults or breaches,
 details of hedges, hedging fair value changes recognised in profit or loss and in other
 comprehensive income
- Section 33 'Related Party Disclosures' Compensation for key management personnel.

The financial statements of the company are consolidated in the financial statements of Verdana Maya Limited. The consolidated financial statements of Verdana Maya Limited are available from Companies House, Crown Way, Cardiff, CF14 3UZ.

1.3 Going concern

In preparing the accounts on the going concern basis the directors have given consideration to the company's result for the year and the company's net asset position.

The directors have taken into account the potential legislative changes disclosed in the critical accounting estimates and assumptions section of note 1.9 and believe that the company has adequate financial resources to continue as a going concern for the foreseeable future. This is on the grounds that the loan facility drawn down in 2015 is a 65 year fully amortising facility and there are reserves in place to ensure that the necessary liquidity is retained in the structure so that funds are available to meet debt service liabilities as they fall due for the upcoming 53 week period. In 2018 there was an additional drawdown on the loan facility of £57.2m, which is amortised based on the original loan term of 65 years from 2015.

For the reasons disclosed in the post balance sheet events note on page 21 the directors do not believe the COVID-19 pandemic will have an impact on the company's ability to continue as a going concern.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2019

1.4 Functional and presentational currencies

The financial statements are presented in Sterling, which is also the functional currency of the company.

1.5 Turnover .

Turnover comprises rent receivable and other income arising from investment properties.

Rental income is recognised in accordance with the terms of the lease.

Turnover is recognised at the fair value of the consideration received or receivable for rental income charged to external customers in the ordinary nature of the business. Turnover is shown net of value added tax.

1.6 Investment properties

The company's holdings of freehold reversionary interests are classified as investment property and are initially measured at cost and subsequently measured at fair value where a reliable measure of fair value is available. Changes in fair value are recognised in the statement of comprehensive income.

These assets represent interests held in the freehold land on which third party developers have built and sold long leasehold properties. As such these assets generate income in the form of annual ground rents along with other ancillary income streams.

Recognising the nature of these investment properties and the lack of a regular market for significant portfolios of such assets, the directors are of the opinion that the best approximation to fair value for these properties is provided by a discounted cash flow valuation of the income streams generated by these assets. In 2018 the valuation of the entire freehold reversionary interest portfolio was undertaken by the directors on the basis of a discounted cash flow of the projected income streams generated by those assets.

In 2019 freehold reversionary interests have been valued based on an actuarial valuation carried out by a leading firm of third-party actuarial consultants.

The directors also recognise, given the lack of a regular market for significant portfolios of such assets, that these fair values may not be realised should the company seek to dispose of any or all of the investment properties in a short period of time.

Further details are given in note 7.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2019

1.7 Taxation

The tax expense represents the sum of the current tax expense and deferred tax expense. Current tax assets are recognised when tax paid exceeds the tax payable.

Current tax is based on taxable profit for the period. Taxable profit differs from profit for the financial year because it excludes items of income or expense that are taxable or deductible in other periods. Current tax assets and liabilities are measured using tax rates that have been enacted or substantively enacted by the reporting date.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled based on tax rates that have been enacted or substantively enacted by the reporting date.

Deferred tax liabilities are recognised in respect of all timing differences that exist at the reporting date. Timing differences are differences between taxable profits and profit before taxation that arise from the inclusion of income and expenses in tax assessments in different periods from their recognition in the financial statements. Deferred tax assets are recognised only to the extent that it is probable that they will be recovered by the reversal of deferred tax liabilities or other future taxable profits.

. For non-depreciable assets measured using the revaluation model and investment properties measured at fair value (except investment property with a limited useful life held by the company to consume substantially all of its economic benefits), deferred tax is measured using the tax rates and allowances that apply to the sale of the asset or property.

Current and deferred tax is charged or credited in the statement of comprehensive income, except when it relates to items charged or credited to other comprehensive income or equity, when the tax follows the transaction or event it relates to and is also charged or credited to other comprehensive income, or equity.

Current tax assets and current tax liabilities and deferred tax assets and deferred tax liabilities are offset, if and only if, there is a legally enforceable right to set off the amounts and the entity intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

1.8 Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102, in full, to its financial instruments.

Financial assets and financial liabilities are recognised when the company becomes a party to the contractual provisions of the instrument, and are offset only when the company currently has a legally enforceable right to set off the recognised amounts and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Financial assets

Debtors

Debtors which are receivable within one year and which do not constitute a financing transaction are initially measured at the transaction price. Debtors are subsequently measured at amortised cost, being the transaction price less any amounts settled and any impairment losses.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2019

1.8 Financial instruments (continued)

Financial liabilities

Creditors

Creditors payable within one year that do not constitute a financing transaction are initially measured at the transaction price and subsequently measured at amortised cost, being the transaction price less any amounts settled.

Borrowings

Borrowings are initially recognised at the transaction price, including transaction costs, and subsequently measured at amortised cost using the effective interest method. Interest expense is recognised on the basis of the effective interest method and is included in interest payable and other similar charges.

Derecognition of financial assets and liabilities

A financial asset is derecognised only when the contractual rights to cash flows expire or are settled, or substantially all the risks and rewards of ownership are transferred to another party, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party. A financial liability (or part thereof) is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

1.9 Critical accounting estimates and areas of judgement

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Critical accounting estimates and assumptions

In preparing these financial statements, the directors have made estimates and assumptions concerning the future. The resulting accounting estimates and assumptions will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Valuation of investment properties

A key accounting estimate in preparing these financial statements relates to the fair value of the investment properties. In the current year an external professional actuarial valuation has been used as the basis for the fair value of investment properties. Previously the directors valued the group's investment properties internally. However, the valuation of the group's investment properties is inherently subjective, as it is made on the basis of valuation assumptions which may in future prove not to be accurate, the risk of which is heightened due to the potential legislative changes noted below.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2019

1.9 Critical accounting estimates and areas of judgement (continued)

Valuation of investment properties (continued)

The Government, through the Department for Communities and Local Government, now known as the Ministry for Housing, Communities and Local Government (MHCLG) and the Competitions and Markets Authority (CMA), is undertaking a series of consultations on and reviews of the residential property market with a focus on the legal framework surrounding the freehold and leasehold classes of property interests. The implementation of legislative changes arising from these reviews could materially reduce the level of income generated by the portfolio of investment properties.

The directors are of the view that the proposed changes would be very damaging to the residential property market and against the interests of consumers and other property owners. The directors have engaged actively in the consultations and with other stakeholders and interested parties in order to convey the group's opposition to the current proposals. Recent public announcements by government and in the Law Commission's report have recognised that any proposals to make wholesale reforms retrospectively pose real problems with respect to the contravention of human rights legislation. As such the impact of reforms will be greatest for future leases and not those already in existence.

An intrinsic element of the long-term forecasts is the continuing rental income and lease extension premiums generated by the property assets held by these subsidiaries. The potential legislative changes raised above may affect these forecasts to the extent that the underlying assumption is no longer valid.

However, the likelihood of the changes, as proposed in their current form, coming into effect is believed to be low and the financial consequences of any changes are too uncertain to enable the directors to reasonably estimate the impact of such changes on their forecasts. It is assumed that the current methodology continues to represent a fair value of these assets and that the ability to meet the long-term obligations is not compromised.

Further details of the valuation of the investment property are set out in note 7.

Current taxation

In arriving at the tax charge for the year the directors have been required to consider legislation introduced by HMRC in respect of Corporate Interest Restrictions and restrictions on the use of losses from the 1st April 2017.

These rules are complex and may have a material impact on the group's tax charge. The assumptions made by the directors are as follows. The directors have assumed that a restriction arising from the corporate interest restriction calculation of £ Nil (2018: £4.8m final restriction) will be applied within the Verdana Maya Limited group. Total interest restrictions of £8.4m (2018: £8.4m final restriction) have been made to date and are available to carry forward against future profits of the wider Euro Investments Overseas Incorporated Group. No deferred tax asset has been recognised in respect of the restricted corporate interest due to uncertainty of recovery.

Whilst the directors believe their assumptions to be reasonable, the complex nature of the rules and their impact on the wider Euro Investments Overseas Incorporated group could mean the assumptions prove to be inaccurate.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2019

1.9 Critical accounting estimates and areas of judgement (continued)

Deferred taxation

Deferred tax liabilities are assessed on the basis of assumptions regarding the future, the likelihood that assets will be realised and liabilities will be settled and estimates as to the timing of those future events and as to the future tax rates that will be applicable.

2. Turnover

An analysis of the company's turnover by class of business is as follows:

	2019	2018
	£	£
Rent receivable	27,601	27,600
Other operating income	8,515	7,531
•	36,116	35,131

The company's turnover for the year has been derived from its principal activity wholly undertaken in the United Kingdom.

3. Interest payable and similar expenses

	·	2019 £	2018 £
Interest on pare	ent company loan	16,186	15,459
4. Profit/(loss) be	fore taxation	2019 £	2018 £
The profit/(los charging: - Auditor's rer	s) before taxation is stated after nuneration	9,000	8,350

5. Employees and directors

There were no employees during the year other than the directors. The directors are remunerated by the related party Fairhold Services Limited and this is recharged to the company as part of the management charge from Estates & Management Limited. This management charge, which in 2019 amounted to £794 (2018: £792) also includes a recharge of administration costs borne by Fairhold Services Limited on behalf of the company and it is not possible to identify separately the amount relating to the directors' remuneration

The tax assessed for the year is lower than the standard 19%). The differences are explained below: Profit/(loss) before tax Profit/(loss) multiplied by the standard rate of corporation tax in the UK of 19% (2018:19%). Effects of: Group relief received without charge Fair value loss on investment properties	2019 £ 5,153,099 ———————————————————————————————————	2018 £ (14,468) (2,749) (2,001) 4,750

The company has estimated non-trading losses of £1,387 (2018: £1,387), available to carry forward against future profits. No deferred tax asset has been recognised on the non-trading losses carried forward due to uncertainty of recoverability.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2019

7.

Investment properties		
	2019	2018
	£	£
Fair Value		
As at 1 January	1,886,000	1,911,000
Fair value gain/(loss)	5,142,963	(25,000)
As at 31 December	7,028,963	1,886,000

The investment properties represent a portfolio of freehold reversionary interests that generate ground rents as the principal income stream.

At 31 December 2019, the investment properties are valued at £7,028,963 (2018: £1,886,000).

In 2019, the investment properties have been valued using an actuarial valuation performed by a leading firm of financial and actuarial consultants as at 31 December 2019.

A fair value gain arose during the year substantially all of which is as a result of the change from the directors' valuation which discounted cash flows over 50 years to an external actuarial valuation which discounts cash flows over 150 years.

The basis of the independent valuation performed on an actuarial basis was to project risk adjusted income streams generated by the portfolio over 150 years discounted by a risk-free rate of return.

The principal assumptions used in the independent actuarial valuation were:

RPI basis for inflation assumptions	 implied inflation vector taken from the Bank of England website;
Residential property inflation	derived from market rental yields as found in the ARLA report and the UK Government gilt curve;
Risk free discount rate	a series of rates reflecting the UK government gilt curve - as applicable to each cashflow date;
Incidence rates for lease extensions and the price charged	- historic rates and FTT valuation;
Taxation	 no allowance has been made for taxation in projecting the future revenue flow;

The assumption with the most significant impact on the valuation is the discount rate used. Per the 31 December 2019 actuarial valuations, a 50-basis point increase or decrease in this rate reduces or increases the valuation by 28% and 44% respectively.

At 31 December 2018 the investment properties were valued by the directors using a projection of the income streams generated by the portfolio, discounted using risk adjusted discount factors.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2019

7. Investment properties (continued)

The principle assumptions used in these valuations were:

Freehold reversionary interests	 projection of discounted income streams generated by the portfolio over 50 years, together with an assessment of the residual value of the asset at the end of that 50 year term
Long Leaseholds	 projection of discounted income streams generated by the portfolio over the remainder of the lease term;
Discount rate	 The discount rate applied is obtained from the Bank of England swap curve with a premium of 140 or 200 bas points added;
RPI basis for inflation assumptions	- inflation data taken from publicly available sources;
Incidence rates of property	- projected according to historical incidence rate

sales, lease extensions, and other income

depending on the length of ownership and lease term remaining;

Taxation

- no allowance has been made for taxation in projecting the future revenue flow;

The assumption which has historically had the most significant impact on the valuation is the discount rate used.

If investment properties were stated on an historical basis rather than a fair value basis, the amounts would have been included as follows:

would have been included as follows.	٠	2019 £	2018 £
Cost		528,840	528,840

The company's investment property is subject to a debenture and charge in connection with a guarantee provided by the company in respect of the indebtedness of the holding company and other related parties (see note 13).

12. Share capital and reserves

Share capital	2019 £	2018 £
Allotted, issued and fully paid: 1 ordinary share of £1	1	1

Ordinary share rights

The company's ordinary shares, which carry no right to fixed income, each carry the right to one vote at general meetings of the company.

Reserves

Reserves of the company represent the following:

Profit and loss account

Cumulative profit and loss net of distributions to owners.

13. Guarantees

The company gave an unlimited guarantee in respect of some of the indebtedness of its holding company Verdana GR Limited. The guarantee is supported by a debenture and a charge over the Group's property holdings including the company's investment properties. At 31 December 2019 the total amount outstanding including accrued interest payable subject to that guarantee was £280.6m (2018: £277.4m). This includes interest payable outstanding at 31 December 2019 totalling £18.6m (2018: £15.4m).

The company is included in a group registration for VAT purposes and is therefore jointly and severally liable for all other participating group undertakings' unpaid debts in this connection.

14. Immediate parent company, ultimate parent company and ultimate controlling party

The company's immediate parent company is Verdana GR Limited which is the smallest group for which group accounts containing the company are prepared. Verdana GR Limited is domiciled and incorporated in the UK. The ultimate UK parent company is Verdana Maya Limited, which is the largest group for which group accounts containing the company are prepared. Copies of the financial statements are available from Companies House, Crown Way, Cardiff CF14 3UZ.

The directors regard the ultimate holding company to be Euro Investments Overseas Incorporated, a company incorporated in the British Virgin Islands.

The ultimate controlling party is the Tchenguiz Family Trust.

15. Related party transactions

The company has taken advantage of the exemptions provided by Section 33 of FRS 102 'Related Party Disclosures' and has not disclosed transactions entered into between two or more members of a group, provided that any subsidiary undertaking which is party to the transaction is wholly owned by a member of that group.

Management fees of £794 (2018: £792) were charged to the company in the year by a company related by virtue of common control and common directors.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2019

16. Post balance sheet events

In March 2020, the COVID-19 pandemic broke in the UK. This event has not impacted on the company's performance for the year ended 31 December 2019 or its financial position at 31 December 2019.

The current situation is unprecedented and the wider economic impact is uncertain. However, the directors are of the view that because of the very long-term nature of the company's financing structures and the nature of its core income, being a large number of small ground rent receipts, the impact on the company is likely to be minimal.
