Notes to the Abbreviated Accounts for the period 4th November 2011 to 30th April 2013

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of services, excluding value added tax.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Investment properties

In accordance with SSAP 19, (i) investment properties are revalued annually and the aggregate surplus or deficit is transferred to a revaluation reserve, and (ii) no depreciation or amortisation is provided in respect of freehold investment properties and leasehold properties with over 20 years to run.

The requirement of the Companies Act 1985 is to depreciate all properties, but that requirement conflicts with the generally accepted accounting principle set out in SSAP 19. The director considers that this accounting policy results in the accounts giving a true and fair view.

Depreciation is only one of the many factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified. In the event of a permanent diminution in value, the shortfall against original cost would be provided for in the profit and loss account.
