NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE YEAR ENDED 30 NOVEMBER 2016

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

The company recorded an operating loss of £401,409 for the year (2015: £218,041). In common with many early stage technology companies, significant costs have to be incurred in bringing a fully developed product to market.

The board has considered the level of sales enquiries and is confident that orders will be forthcoming. However, they are also mindful of the fact that until such orders are placed current working capital will continue to be required in order to fund both marketing and product development work. Following the acquisition of the company by Intellitag Limited on 13 October 2017, the board considers it appropriate to adopt the going concern basis for preparing accounts as Intellitag Limited will ensure that the company is adequately resourced.

1.2 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

1.3 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts.

1.4 Research and development

Research expenditure is written off to the profit and loss account in the year in which it is incurred. Development expenditure is written off in the same way unless the director are satisfied as to the technical, commercial and financial viability of individual projects. In this situation, the expenditure is deferred and amortised over the period during which the company is expected to benefit.

The board has considered external software development expenditure incurred in the year and has resolved to defer and amortise over a ten year period. Software development assets are stated at cost less amortisation.

1.5 Deferred taxation

Deferred taxation is provided in full in respect of taxation deferred by timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable profits from which future reversal of underlying timing differences can be deducted.

The deferred tax balance has not been discounted.
