VORDERE LIMITED

STRATEGIC REPORT

FOR THE YEAR ENDED 31 MARCH 2022

Chairman's Statement

It is with pleasure that I present the Board's annual report to shareholders for the year ended 31st March 2022. Shareholders will see that the Board has continued to actively manage the portfolio whilst working towards a liquidation of the assets. There have been two significant post balance sheet events.

Review of the business

The preservation and enhancement of property values remains the principal driver for the Directors and we remain committed to reducing professional fees whilst maintaining minimal operational costs to ensure the preservation of the assets. As is good practice, the board maintains 12- month forward projections of expenditure to ensure we have sufficient funds to operate the Group and to ensure that the value of the properties is protected.

Shareholders may recall in my statement last year, that your Board commenced litigation in the English courts against the former directors of Vordere, seeking substantial damages on the grounds of various breaches of duty and other causes of action. I am pleased to report that this litigation has now been successfully concluded with the result that on 14th July 2022, 3,020,514 shares have been returned to the Company and cancelled together with £600,000 in cash received on the 5th August 2022.

The Board has remained very active in managing each of the properties in terms of enhancing value or marketing those where limited or no value increase is considered possible.

The Group's loss for the year totalled £11,383,387 (2021: £1,789,108) of which £10,054,922 relates to the bad debt provision against the unpaid shares in relation to the shares issued in exchange for Jüterbog and Sehnde. Please see note 36 for further details.

The net asset value of the Group is £27,159,208 (2021: £38,583,626) and with 469,014,169 shares in issue, this represents a net asset value per share of £0.0579 or 5.79 pence.

The reduction in net asset value is predominantly as a result of the significant bad debt provision provided on the unpaid shares in relation to the shares issued in exchange for Jüterbog and Sehnde. This is as a result of an anomalous situation where the company, whilst owning 96% of the shares of the properties was unable to register title in the German equivalent of the Land Registry. The holders of the remaining 4% of the shares (Xenfin 1 Trading Limited) were in liquidation and for some reason the liquidators were unwilling to conclude the contract by transferring these remaining shares to the company. Clearly this placed your company in a very difficult position and so following extensive legal advice, your directors were able to cancel 95,933,093 shares and return the properties of Jüterbog and Sehnde to the liquidators of Xenfin Fund 1 Trading Limited. This took place post year end, on the 27th July 2022 and whereas provision has been taken for the loss of these properties, no allowance has been made for the reduction in the number of issued shares.

At the time of signing this report, the total number of shares in issue reduced to 370,060,562. The net asset value per share with this amount totals £0.0733 or 7.33 pence.

At the year-end the Group had £5.4m in cash (2021: £110k) and no secured debt (2021: £nil).

Property valuation methodology

Shareholders will recall that in 2020, the board obtained valuations from Knight Frank based on a more realistic 'as-is' valuation methodology. During the period, Knight Frank have provided updated valuations that are materially consistent with the 2020 valuations. The schedule of properties, their status and values, can be found on page 3 of this report.

As outlined in note 15, the valuation report of the investment properties contain material uncertainty disclaimer.

Loans receivable

The Group currently holds two loan receivables equal in total to £2.2m, both earning 7% annualised income. £0.9m of these loans is secured over a property whilst the remaining £1.1m is secured by personal guarantees. The Directors expect full recovery of these loans.

VORDERE LIMITED

STRATEGIC REPORT (CONTINUED)

FOR THE YEAR ENDED 31 MARCH 2022

Reduction in administration costs

I am pleased to report that your board has managed to further reduce the annual administration costs which are now £1.2m (2021: £1.8m) a further reduction of £0.6m. The vast majority of these are made up of legal and professional fees incurred as a result of the litigation described above. Next year, there should be another significant reduction in administration costs.

Litigation

I am pleased to report that at the time of signing this report, there is no current litigation.

As referred to above and outlined in note 36, there is post balance sheet event settlement reached with the Directors in connection with the GFG shares (further details can be found under post balance sheet events below).

Principal risks and uncertainties

The Board continually monitor the key risks facing the Group, together with assessing the controls used for managing these risks. The Board formally reviews and documents the principal risks facing the business at least annually.

Financial and liquidity risk

As indicated previously and in the last years Report and in these financial statements, the preservation of cash balances remains a principal risk for the Group and the Board remain committed to maintaining minimal operational costs to ensure that maximum funds remain available for working capital purposes and returns for shareholders. Expenditure levels are carefully monitored against available cash balances to mitigate this risk.

Exchange rate fluctuations

The Group's exposure to fluctuations in the Euro/Sterling exchange rate remains a significant risk. Whilst Vordere Limited is incorporated and based within the UK, all investment properties are held in Germany. As the Group's intention is to sell several of the properties and return funds to shareholders, there is exposure to exchange rate fluctuations when remitting funds to the UK.

The Board regularly reviews movements in exchange rates and considers opportunities to hedge for significant transactions to limit the group's exposure to losses on foreign exchange.

Realisable value of certain properties – special considerations

- The Hanau Property comprises thirteen residential buildings in Hanau, a town located in the federal state of Hesse, approximately 28km east of Frankfurt. The buildings are currently in a poor state of repair. At the time the Hanau property was agreed to be acquired by the previous Board, the City of Hanau lodged an objection to the sale to Vordere using a 'right of pre-emption'. Vordere acquired a 94% economic interest in the property and the priority notices are registered on the land for Vordere with respect to the asset purchase. The ongoing litigation between the City of Hanau and the seller centres around two key arguments which relate to the right of the City to invoke the pre-emption and secondly, if that right is deemed to be legal, the price that the City should pay for the property. Currently there is a credible offer that is close to the valuation and the Board is optimistic that a sale can be concluded in the not too distant future.
- The Bamberg Property consists of an existing derelict building fronting the road and a large plot to the rear fronting the river. The building was constructed in the year 1663 and has a total area of 770m². Currently, the property is in a poor condition, in need of complete refurbishment and is therefore vacant. The Group owns 94% of the economic interest in the property. The building is listed and the City is keen to therefore preserve as much as the original fabric of the building as possible. Depending on the conditions imposed by the City of Bamberg, the achievable sale value of the property may be less than the Knight Frank valuation. The Directors remain positive that if the City of Bamberg agreement came to a resolution then the sales value would be consistent with the fair value in the accounts.

Economic environment

Economic factors which could adversely impact the Group's business include the availability of credit and interest rate fluctuations.

VORDERE LIMITED**STRATEGIC REPORT (CONTINUED)**
FOR THE YEAR ENDED 31 MARCH 2022**Key performance indicators**

Due to the relative simplicity of the business, the Board does not formally consider key performance indicators. It does however monitor cash balances and property valuations on a regular basis, in addition to reviewing monthly management accounts and group budgets.

Status of current property portfolio

The Board continues to explore all available options and approaches relating to selling, optimising permissions and development in respect of the Company's property portfolio. I am pleased to report the following sales during the year:

- The sale of Berchtesgaden completed at the end of April 2021. The injection of €1.57m of cash has allowed the Board to settle a number of outstanding creditors.
- The sale of Haag completed at the beginning of July 2021. This resulted in an injection of funds of €0.64m.
- The sale of Usedom completed in December 2021. This resulted in an injection of funds of €8.75m.

The total proceeds of €10.96m can be seen in the Groups cashflow as £9.23m.

		Status		Book values as at 31 March 2022	
				€m	£m
Vordere Hanau I GmbH & Co KG	Being marketed			10	8.5
Vordere Bamberg I GmbH & Co KG	Being marketed			2	2
Vordere Pegau I GmbH & Co KG	Being marketed			1	0.5
Vordere Schkeuditz I GmbH & Co KG	Being marketed			10.1	8.5
				23.1	19.5
Vordere Sehnde I GmbH & Co KG	See note 38 for prior year adjustment				
Vordere Jüterbog I GmbH & Co KG	See note 38 for prior year adjustment				

The fair value of £19.5m is shown on page 13 in the groups statement of financial position under investment properties.

Post balance sheet events**GFG Shares**

As outline above, on 14th July 2022, shares of 3,020,514 were cancelled. The cancellation of shares are in connection to a dispute with the former directors. The 3,020,514 of shares were unpaid and the amount due for them totalled £604,102 which is included in other debtors at the year end.

This was resolved on 14 July 2022 when the shares were cancelled and a total of £600,000 was rewarded and received on 5 August 2022 in connection with the litigation. Further details can be found in note 36.

Jüterbog and Sehnde Investment properties

As referred to above and pursuant to a Board Meeting held on 27 July 2022, the 95,933,093 shares in the Group issued in respect of the properties at Jüterbog and Sehnde, registered in the name of Xenfin Fund 1 Trading Limited, were forfeited under the Company's articles of association, for non-payment. Further details can be found in note 36.

VORDERE LIMITED

STRATEGIC REPORT (CONTINUED)
FOR THE YEAR ENDED 31 MARCH 2022

Promoting the success of the company

The directors are aware of their duty under s.172 of the Companies Act 2006 to act in the way which they consider, in good faith, would be most likely to promote the success of Vordere for the benefit of its members as a whole and, in doing so, to have regard (amongst other matters) to:

- the likely consequences of any decision in the long-term;
- the interest of Vordere's stakeholders;
- the desirability of Vordere Ltd maintaining a reputation for high standards of business conduct and;
- the need to act fairly as between members of Vordere Ltd.

Finally, I would like to thank my two co-directors Michael (Micky) Fernandez and Dan Healey for the very substantial work and time that they have put into the Company this year.

I look forward to reporting further progress in due course.

On behalf of the board

VORDERE LIMITED

DIRECTORS' REPORT

FOR THE YEAR ENDED 31 MARCH 2022

The directors present their annual report and financial statements for the year ended 31 March 2022.

Principal activities

The principal activity of the Company and the Group continued to be that of a commercial property investment company.

Results and dividends

The results for the year are set out on page 11.

No ordinary dividends were paid. The directors do not recommend payment of a further dividend.

Directors

The directors who held office during the year and up to the date of signature of the financial statements were as follows:

D Healy
M Fernandes
PLR Hewitt, JP, FCSI (Chairman)

Qualifying third party indemnity provisions

Directors and officers of the Company have the benefit of a directors and officers liability insurance policy which provided appropriate cover in respect of legal actions brought against its directors.

Supplier payment policy

The group's current policy concerning the payment of trade creditors is to follow the CBI's Prompt Payers Code (copies are available from the CBI, Centre Point, 103 New Oxford Street, London WC1A 1DU).

The group's current policy concerning the payment of trade creditors is to:

- settle the terms of payment with suppliers when agreeing the terms of each transaction;
- ensure that suppliers are made aware of the terms of payment by inclusion of the relevant terms in contracts; and
- pay in accordance with the company's contractual and other legal obligations.

Financial risk management

The Group has a simple capital structure, and its principal financial assets are cash and loan receivables. The Group has exposure to market risk and currency risk and the Directors manage its exposure to liquidity risk by maintaining adequate cash reserves.

Further details regarding risks are detailed in note 35 to the financial statements.

Strategic decisions

The Board provides leadership within a framework of appropriate and effective controls. The Board has overall responsibility for setting the Group's strategic aims, defining the business objectives, managing the financial and operational resources of the Group and reviewing the performance of the officers and management of the Group's business.

Auditor

The company's auditor, Mercer & Hole, incorporated on 1 October 2022 to become Mercer & Hole LLP. The directors have consented to treating the incorporation of Mercer & Hole LLP as a continuation of the existing audit arrangement and in accordance with the company's articles, a resolution proposing that Mercer & Hole LLP be reappointed as auditor of the company will be put at a General Meeting.

VORDERE LIMITED

DIRECTORS' REPORT (CONTINUED)

FOR THE YEAR ENDED 31 MARCH 2022

Energy and carbon report

The Company is currently operating with minimal employees and, therefore, has minimal carbon emissions. It is not practical to obtain emissions data relating to the Group's activities at this stage in the Group's size, scope, and stage of development. However, this decision will remain under review.

Statement of disclosure to auditor

Each director in office at the date of approval of this annual report confirms that:

- so far as the directors are aware, there is no relevant audit information of which the company's auditor is unaware, and
- the directors have taken all the steps that they ought to have taken as a directors in order to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of section 418 of the Companies Act 2006.

Business review, risks and uncertainties

The review of business, principal risks and uncertainties, the position of the company at the year end, analysis based on key performance indicators and future developments are included in the Strategic Report as permitted by s.414 of the Companies Act 2006.

Going concern

The Company's activities, together with the factors likely to affect its future development and performance, the financial position of the Company, its cash flows and liquidity positions have been considered by the Directors and disclosed in the Strategic Report and Financial Statements. Current market conditions have also been considered by the Board.

The Directors believe that the group is a going concern for the foreseeable future. The Board has continued to focus on reducing ongoing operational costs and have raised additional funds through property sales to support the business for the next 12 to 18 months.

VORDERE LIMITED

DIRECTORS' RESPONSIBILITIES STATEMENT

FOR THE YEAR ENDED 31 MARCH 2022

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the group and parent company financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the United Kingdom. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and group and of the profit or loss of the group for that period.

In preparing these financial statements, International Accounting Standard 1 requires that directors:

- properly select and apply accounting policies;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- provide additional disclosures when compliance with the specific requirements in IFRSs are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance; and
- make an assessment of the company's ability to continue as a going concern.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company and groups transactions and disclose with reasonable accuracy at any time the financial position of the company and group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

VORDERE LIMITED

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF VORDERE LIMITED

Opinion

We have audited the financial statements of Vordere Limited (the 'parent company') and its subsidiaries (the 'group') for the year ended 31 March 2022 which comprise the group income statement, the group statement of comprehensive income, the group and parent company statement of financial position, the group and parent company statement of changes in equity, the group statement of cash flows and the group and parent company notes to the financial statements, including significant accounting policies.

The financial reporting framework that has been applied in their preparation is applicable law and UK adopted international accounting standards.

In our opinion:

- the financial statements give a true and fair view of the state of the group's and of the parent company's affairs as at 31 March 2022 and of the group's loss for the year then ended;
- the financial statements have been properly prepared in accordance with UK adopted international accounting standards; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report. We are independent of the group and parent company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter - effects on COVID-19 on the valuation of investment properties

We draw attention to Note 15 of the financial statements. The fair value of the investment properties were established in 31 March 2020 using an independent valuation. The Directors consider these valuations to remain appropriate at 31 March 2022.

As disclosed in Note 15, during March 2020 the outbreak of COVID-19 impacted global financial markets. Market activity was impacted in many sectors, including property. In response to this, the Group's property valuations include a 'Material Uncertainty' clause in all property valuation reports. Our opinion is not modified in respect of this matter.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's and parent company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

VORDERE LIMITED

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

TO THE MEMBERS OF VORDERE LIMITED

Other information

The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of our audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the group and parent company and their environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report. We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, the directors are responsible for assessing the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the parent company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

VORDERE LIMITED

INDEPENDENT AUDITOR'S REPORT (CONTINUED) TO THE MEMBERS OF VORDERE LIMITED

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to breaches of company and German property investment law, and we considered the extent to which non-compliance may have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Companies Act 2006.

We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements and the financial report (including the risk of override of controls), and determined that the principle risks were related to posting inappropriate entries including journals to overstate revenue or understate expenditure, and management bias in accounting estimates.

Audit procedures performed by the engagement team included:

- discussions with management, including considerations of known or suspected instances of noncompliance with laws and regulations and fraud;
- evaluation of the operating effectiveness of management's controls designed to prevent and detect irregularities;
- challenging assumptions and judgements made by management in its significant accounting estimates;
- identifying and testing high risk journal entries.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusions.

A further description of our responsibilities is available on the Financial Reporting Council's website at: <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

2 Accounting policies**Company information**

Vordere Limited is a private company limited by shares incorporated in England and Wales. The registered office is 1 London Bridge, London, SE1 9BG. The company's principal activities and nature of its operations are disclosed in the directors' report.

These consolidated financial statements comprise the Company and its subsidiaries (collectively the 'Group' and individually 'Group companies'). The Group is primarily involved in property investment and development.

2.1 Accounting convention

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted for use in the United Kingdom and with those parts of the Companies Act 2006 applicable to companies reporting under IFRS, except as otherwise stated.

These consolidated financial statements are presented in pound sterling, which is the Company's functional currency. All amounts have been rounded to the nearest pound, unless otherwise indicated.

The consolidated financial statements have been prepared on the historical cost basis except for the Investment Properties which are measured at fair value on each reporting date.

The financial statements of the Company are presented as required by the Companies Act 2006. The Company meets the definition of a qualifying entity under FRS 101 (Financial Reporting Standard 101) issued by the Financial Reporting Council. The financial statements have therefore been prepared in accordance with FRS 101 (Financial Reporting Standard 101) 'Reduced Disclosure Framework' as issued by the Financial Reporting Council.

As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under that Standard in relation to statement of share-based payments, financial instruments, disclosures of related party within the Group, disclosures of key management personnel and presentation of a cash flow statement and related notes.

VORDERE LIMITED**NOTES TO THE GROUP FINANCIAL STATEMENTS****FOR THE YEAR ENDED 31 MARCH 2022****2 Accounting policies****(Continued)****2.2 Business combinations**

The cost of a business combination is the fair value at the acquisition date of the assets given, equity instruments issued and liabilities incurred or assumed, plus costs directly attributable to the business combination. The excess of the cost of a business combination over the fair value of the identifiable assets, liabilities and contingent liabilities acquired is recognised as goodwill.

The cost of the combination includes the estimated amount of contingent consideration that is probable and can be measured reliably, and is adjusted for changes in contingent consideration after the acquisition date.

Provisional fair values recognised for business combinations in previous periods are adjusted retrospectively for final fair values determined in the 12 months following the acquisition date.

2.3 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Group and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at this time that decisions need to be made, including voting patterns at previous shareholders meetings.

All intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated on consolidation. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

The financial year of the parent company and its subsidiaries is 31 March 2022, except for St James Square Management GmbH which is 31 December 2021.

VORDERE LIMITED**NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED)****FOR THE YEAR ENDED 31 MARCH 2022****2 Accounting policies****(Continued)****2.4 Going concern**

The Groups activities, together with the factors likely to affect its future development and performance, the financial position of the Group, its cash flows and liquidity position have been considered by the Directors, taking account of the current market conditions which demonstrate that the group shall continue to operate within its own resources.

The Board has continued to focus on reducing ongoing operational costs and have raised additional funds through property sales to support the business for the next 12 to 18 months. The Directors believe the Group will have sufficient resources to meet its obligations as they fall due and that the going concern basis is therefore appropriate.

2.5 Revenue

Revenue is measured as the fair value of the consideration received or receivable. The revenue of £nil (2020: 181,099) arose during the year relates to rental income. Rental income is recognised in the period which it relates.

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognises revenue when it transfers control over a product or service to a customer.

2.6 Property, plant and equipment

Property, plant and equipment are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Fixtures and fittings	25% on cost
Office equipment	25% on cost

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is recognised in the income statement.

2.7 Investment properties

Investment properties are properties held to earn rent and/or for capital appreciation. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at fair value. All of the Group's property interests held under operating leases to earn rentals or for capital appreciation purposes are accounted for as investment properties and are measured using the fair value model. Gains and losses arising from changes in the fair value of investment properties are included in the income statement in the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement in the period in which the property is derecognised.

2.8 Non-current investments

Interests in subsidiaries, associates and jointly controlled entities are initially measured at cost and subsequently measured at cost less any accumulated impairment losses. The investments are assessed for impairment at each reporting date and any impairment losses or reversals of impairment losses are recognised immediately in profit or loss.

A subsidiary is an entity controlled by the parent company. Control is the power to govern the financial and operating policies of the entity so as to obtain benefits from its activities.

VORDERE LIMITED**NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 31 MARCH 2022****2 Accounting policies****(Continued)****2.9 Impairment of tangible and intangible assets**

At each reporting end date, the group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Impairment tests on goodwill and other intangible assets with indefinite useful economic lives are undertaken annually at the financial year end. Other non-financial assets are subject to impairment tests whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount (i.e. the higher of value in use and fair value less costs to sell), the asset is written down accordingly.

Where it is not possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the smallest group of assets to which it belongs for which there are separately identifiable cash flows; its cash generating units (CGUs). Goodwill is allocated on initial recognition to each of the Group's CGUs that are expected to benefit from a business combination that gives rise to the goodwill.

Impairment charges are included in profit or loss, except to the extent they reverse gains previously recognised in other comprehensive income. An impairment loss recognised for goodwill is not reversed.

2.10 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts.

2.11 Financial assets

Financial assets are recognised in the group's statement of financial position when the group becomes party to the contractual provisions of the instrument. Financial assets are classified into specified categories, depending on the nature and purpose of the financial assets.

At initial recognition, financial assets classified as fair value through profit and loss are measured at fair value and any transaction costs are recognised in profit or loss. Financial assets not classified as fair value through profit and loss are initially measured at fair value plus transaction costs.

VORDERE LIMITED

NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 MARCH 2022

2 Accounting policies

(Continued)

Financial assets at fair value through profit or loss

When any of the above-mentioned conditions for classification of financial assets is not met, a financial asset is classified as measured at fair value through profit or loss. Financial assets measured at fair value through profit or loss are recognized initially at fair value and any transaction costs are recognised in profit or loss when incurred. A gain or loss on a financial asset measured at fair value through profit or loss is recognised in profit or loss, and is included within finance income or finance costs in the statement of income for the reporting period in which it arises.

Impairment of financial assets

Financial assets carried at amortised cost and fair value through other comprehensive income are assessed for indicators of impairment at each reporting end date.

The expected credit losses associated with these assets are estimated on a forward-looking basis. A broad range of information is considered when assessing credit risk and measuring expected credit losses, including past events, current conditions, and reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

VORDERE LIMITED**NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED)****FOR THE YEAR ENDED 31 MARCH 2022****2 Accounting policies****(Continued)****Significant increase in credit risk**

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instruments as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's
- external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortised cost;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in the credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 60 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if i) the financial instrument has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a financial asset to have low credit risk when it has an internal or external credit rating of 'investment grade' as per globally understood definition.

For loan commitments and financial guarantee contracts, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing the financial instrument for impairment. In assessing whether there has been a significant increase in the credit risk since initial recognition of a loan commitment, the Group considers changes in the risk of a default occurring on the loan to which a loan commitments relates; for financial guarantee contracts, the Group considers the changes in the risk that the specified debtor will default on the contract.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying a significant increase in credit risk before the amount becomes past due.

VORDERE LIMITED**NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED)****FOR THE YEAR ENDED 31 MARCH 2022****2 Accounting policies****(Continued)****Credit-impaired financial assets**

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit impaired includes observable date about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or a past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrowers
- financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation;
- the disappearance of an active market for that financial asset because of financial difficulties.

Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership to another entity.

2.12 Financial liabilities

The group recognises financial debt when the group becomes a party to the contractual provisions of the instruments. Financial liabilities are classified as either 'financial liabilities at fair value through profit or loss' or 'other financial liabilities'.

Other financial liabilities

Other financial liabilities, including borrowings, trade payables and other short-term monetary liabilities, are initially measured at fair value net of transaction costs directly attributable to the issuance of the financial liability. They are subsequently measured at amortised cost using the effective interest method. For the purposes of each financial liability, interest expense includes initial transaction costs and any premium payable on redemption, as well as any interest or coupon payable while the liability is outstanding.

Derecognition of financial liabilities

Financial liabilities are derecognised when, and only when, the group's obligations are discharged, cancelled, or they expire.

2.13 Equity instruments

Equity instruments issued by the parent company are recorded at the proceeds received, net of direct issue costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer payable at the discretion of the company.

2.14 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

VORDERE LIMITED**NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED)****FOR THE YEAR ENDED 31 MARCH 2022****2 Accounting policies****(Continued)****Deferred tax**

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. Deferred tax assets and liabilities are offset when the group has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

2.15 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of inventories or non-current assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the group is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

2.16 Leases

At inception, the group assesses whether a contract is, or contains, a lease within the scope of IFRS 16. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Where a tangible asset is acquired through a lease, the group recognises a right-of-use asset and a lease liability at the lease commencement date. Right-of-use assets are included within property, plant and equipment, apart from those that meet the definition of investment property.

The group has elected not to recognise right-of-use assets and lease liabilities for short-term leases of machinery that have a lease term of 12 months or less, or for leases of low-value assets including IT equipment. The payments associated with these leases are recognised in profit or loss on a straight-line basis over the lease term.

2.17 Foreign exchange

Transactions in currencies other than pounds sterling are recorded at the rates of exchange prevailing at the dates of the transactions. At each reporting end date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the reporting end date. Gains and losses arising on translation in the period are included in profit or loss.

VORDERE LIMITED

NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED) **FOR THE YEAR ENDED 31 MARCH 2022**

3 Critical accounting estimates and judgements

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are outlined below.

Critical judgements

Deferred tax

In the current year a deferred tax asset arose on the loss brought forward and current year loss. However, management determined that they could not conclude with reasonable certainty that it would be recoverable in the future, as the properties are not yet realised and therefore a deferred tax asset should not be recognised.

Key sources of estimation uncertainty

Investment properties

All fair value estimates for investment properties are included in level 3 under the fair value hierarchy for determining the fair value of non-financial assets.

The fair value of investment properties were established using an 'as-is' basis and the valuations were carried out by Knight Frank and Dr H Geppert, external independent qualified valuers on 31 March 2020. During the period, Knight Frank have provided updated valuations that are materially consistent with the 2020 valuations.

The valuation of each property was prepared on an 'as-is' basis based on comparable transactions to provide expected market value for the sites without development. The Directors consider this valuation to remain appropriate and during the year ended 31 March 2022, the fair value of the investment properties has not decreased and no impairment has been recognised.

In the opinion of Management, the Group has only one segment in the current period being investment in property in Germany. There was no rental income in the year as the Berchtesgaden investment property was sold.

VORDERE LIMITED**NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED)****FOR THE YEAR ENDED 31 MARCH 2022****6 Exceptional items**

	2022	2021
	£	£
Expenditure		
Bad debt provision	10,054,922	-

During the year, exceptional costs were recognised totalling £10,054,922 relating to a bad debt provision against the remaining other receivables in connection with the unpaid shares for Jüterbog and Sehnde of £7,190,537 and £2,864,385 respectively.

As outlined in note 35, 95,933,093 of shares registered in the name of Xenfin Fund 1 Trading Limited, were forfeited under the Company's articles of association, for non-payment.

The shares originally issued were in exchange for the properties Jüterbog and Sehnde which had the connected fair values of £7,190,537 and £2,864,385 respectively. As the legal title did not transfer to the Vordere Group and subsequently the shares relating to the vendor cancelled, a bad debt provision of £10,054,922 has been made to remove the other receivable relating to Jüterbog and Sehnde.

At the time of signing this report, the total number of shares in issue total 370,060,562. The net asset value per share with this amount totals £0.0733 or 7.33 pence as at 31 March 2022.

7 Operating profit

VORDERE LIMITED**NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED)****FOR THE YEAR ENDED 31 MARCH 2022****13 Income tax expense**

	2022	2021
	£	£
Current tax		
UK corporation tax on profits for the current period	(17,567)	15,876

There were no factors that may affect future tax charges.

The charge for the year can be reconciled to the (loss)/profit per the income statement as follows:

	2022	2021
	£	£
(Loss)/profit before taxation	(11,400,954)	(1,773,232)
Expected tax credit based on a corporation tax rate of 19.00% (2021: 19.00%)	(2,166,181)	(336,914)
Effect of expenses not deductible in determining taxable profit	1,942,757	2,363
Income not taxable	-	(194,611)
Unutilised tax losses carried forward	-	308,184
Change in unrecognised deferred tax assets	714,123	236,854
Effect of change in UK corporation tax rate	(508,266)	-
Taxation (credit)/charge for the year	(17,567)	15,876

The Group has losses of approximately £8m (2021: £6.0m) which equate to a deferred tax asset of approximately £2m (2021: £1m).

Management determined that they could not conclude with reasonable certainty that it would be recoverable in the future, as the properties are not yet developed and therefore a deferred tax asset has not been recognised.

Foreign currency adjustments	(291,479)	(1,109,006)
At 31 March 2022	19,459,231	28,977,767

Rental income of £nil (2021: £181,099) was recognised in respect of the Berchtesgaden investment property which was sold during the year.

The fair value of the investment properties was established on 31 March 2020 using the an 'as is' value method and carried out by Knight Frank and Dr Hubert Geppert, external independent qualified valuers with recent experience valuing investment properties in the locations held by the Group. In response to the outbreak of COVID-19, declared a global pandemic by the World Health Organisation, a material uncertainty clause has been included in these valuations due to the unknown impact of COVID on the property markets.

The directors consider this valuation to remain appropriate for the valuations as at 31 March 2022.

All fair value estimates for investment properties are included in level 3 under the fair value hierarchy for determining the fair value of non-financial assets.

**denotes an indirectly held subsidiary*

The registered office of Luxembourg subsidiary is 14 Rue Edward Steichen, 2540 Luxembourg, the registered office of all German subsidiaries is Westendstraße 28, 60325 Frankfurt am Main, Germany.

All of the subsidiaries are included in the consolidation.

The Directors plan to liquidate the following entities; Vordere Berchtesgaden GmbH & Co KG, Vordere Haag GmbH & Co KG, Vordere Mohriner Allee GmbH & Co KG, Vordere Usedom GmbH & Co KG, Vordere Sehnde GmbH & Co KG and Vordere Juterbog GmbH & Co KG.

VORDERE LIMITED**NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED)****FOR THE YEAR ENDED 31 MARCH 2022****18 Trade and other receivables**

Group	Current		Non-current	
	2022	2021	2022	2021
	£	£	£	£
	as restated			
Trade receivables	145,206	95,104	-	-
Amounts owed by related parties	1,176,174	-	-	-
Other receivables	1,886,792	11,028,025	-	837,309
Prepayments	34,133	101,780	-	-
	<u>3,242,305</u>	<u>11,224,909</u>	<u>-</u>	<u>837,309</u>

Trade receivables disclosed above are classified as loans and receivables and are therefore measured at amortised cost.

The non-current loan receivables of £nil (2021: £837,309) represents a third party loan from Vordere Limited to JV11 Elendom AS, this was transferred to due within one year in line with the repayment terms.

On the 15 November 2017, Vordere Capital S.a.r.l. agreed to provide JV11 Elendom AS with a secured term loan facility of NOK 9,500,000 with interest of aggregate 6 percent per annum and 1 percent per annum. The loans are repayable 5 years from the Drawn down Dates of the loans, as described above. Interest receivable for year amounts to £57,975 (2021: £56,453).

The loan is secured over property.

Included in 2021, is the restated other receivable which includes £10,137,149 relating to the prior period adjustment disclosed in note 38.

19 Trade and other receivables

Company	Current		Non-current	
	2022	2021	2022	2021
	£	£	£	£

	2022 £	2021 £
Expense relating to short-term leases	-	19,800
	<u> </u>	<u> </u>

VORDERE LIMITED**NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED)****FOR THE YEAR ENDED 31 MARCH 2022****31 Financial instruments - fair values and risk management**

The Group's Investment Committee is responsible to the Board for the Group's financial risk management. This includes analysing the Group's exposure by degree and magnitude of risks. These risks include property market risk (including currency risk and interest rate risk) and liquidity risk.

The Group seeks to minimise the effects of these risks where possible. It does this by maintaining bank accounts in all currencies in which the Group holds the properties.

Accounting classifications and fair values**Group**

	Carrying amount 2022 £	Carrying amount 2021 £
Financial assets at amortised cost		
Other financial assets at amortised cost	3,172,247	1,823,289

	Carrying amount 2022 £	Carrying amount 2021 £
Financial liabilities at amortised cost		
Trade and other payables	1,018,684	2,472,440
Borrowings	-	100,000
	<u>1,018,684</u>	<u>2,472,440</u>

There are no financial assets and liabilities measured at fair value as at 31 March 2022.

32 Market risk**Market risk management**

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and the German property market. The Group reviews the need to enter into financial instruments on a regular basis but has not entered into any during the current or previous period. As the Group has no debt, it is not significantly exposed to interest rate risk on its financial liabilities and continues to seek to maximise the returns from bank deposits. The Group has no control over the German property market.

VORDERE LIMITED**NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED)****FOR THE YEAR ENDED 31 MARCH 2022****32 Market risk****(Continued)****Foreign exchange risk**

The Group undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters utilising forward foreign exchange contracts.

The carrying amounts of the Group's foreign currency denominated monetary current assets and monetary liabilities at the end of the reporting period are as follows:

	Assets		Liabilities	
	Assets		Liabilities	
	2022	2021	2022	2021
	£	£	£	£
Euro	247,162	182,459	817,614	1,412,126
NOK	890,241	837,309	-	-
	<u>1,137,403</u>	<u>1,019,768</u>	<u>817,614</u>	<u>1,412,126</u>

The Group is mainly exposed to the Euro and to a lesser extent, the NOK.

In addition to the current assets noted above, the Group holds investment properties located in Germany totaling €23m. At each year end, the impact of foreign currency fluctuations are recorded in other comprehensive income as noted in Note 29. In 2022, this amounted to a loss of £40k (2021: £1.5m).

The following table details the Group's sensitivity to a 3% increase and decrease in the pound sterling against the relevant foreign currencies. 3% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 3% change in foreign currency rates. The sensitivity analysis includes external loans as well as loans to foreign operations within the Group where the denomination of the loan is in a currency other than the functional currency of the lender or the borrower. A positive number below indicates an increase in profit or equity where the pound sterling strengthens 3% against the relevant currency. For a 3% weakening of the pound sterling against the relevant currency, there would be a comparable impact on the profit or equity, and the balances below would be negative.

	Euro Impact	
	2022	2021
	£	£
Profit or loss	(68,967)	(81,776)
	<u>(68,967)</u>	<u>(81,776)</u>

Interest rate risk

The Group's exposure to interest rate risk on borrowings is limited as there is no outstanding debt within the Group. The Group's exposures to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section of this note.

VORDERE LIMITED

NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 MARCH 2022

33 Credit risk

Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions. For banks and financial institutions, only independently rated parties with a minimum rating 'A' are accepted.

Credit risk also arises in relation to the non-current loan receivables but this is mitigated through the security over the properties bought with the proceeds of the loan. Management have applied the expected credit risk model on adoption of IFRS 9, which has resulted in the recognition of a loss allowance as described in note 2.2 i). Trade receivables and contract assets are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the group, and a failure to make contractual payments for a period of greater than 120 days past due. Impairment losses on trade receivables and contract assets are presented as net impairment losses within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

Credit risk for intercompany receivables is relevant only within the parent company financial statements and is assessed by reference to the carrying value of the counterparties net assets and an assessment of their ability to repay the outstanding balance. Provisions are made against the intercompany receivables to reflect impairment down to the carrying value of net assets.

The carrying amount of financial assets recorded in the financial statements, which is net of impairment losses, represents the group's maximum exposure to credit risk.

The group does not hold any collateral or other credit enhancements to cover this credit risk.

34 Liquidity risk

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has built an appropriate liquidity risk management framework for the management of the Group's short, medium and long term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves and banking facilities through share issuance, and by continuously monitoring forecast and actual cash flows.

35 Capital risk management

The Group's capital management objectives are:

- to ensure the Group's ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders, and
- to provide an adequate return to shareholders by pricing investment properties

The Group monitors 'adjusted capital' which comprises all components of equity (i.e. share capital, share premium and retained earnings). Management assesses the Group's capital requirements in order to maintain an efficient overall financing structure. The Group manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the return capital to shareholders or issue new shares.

VORDERE LIMITED**NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED)****FOR THE YEAR ENDED 31 MARCH 2022****36 Events after the reporting date****GFG Shares**

On 14th July 2022, shares of 3,020,514 were cancelled. The cancellation of shares are in connection to a dispute with the former directors. The 3,020,514 of shares were unpaid and the amount due for them totalled £604,102 which is included in other debtors at the year end.

This was resolved on 14 July 2022 when the shares were cancelled and a total of £600,000 was rewarded and received on 5 August 2022 in connection with the litigation.

Jüterbog and Sehnde investment properties

Pursuant to a Board Meeting held on 27 July 2022, the 95,933,093 shares in the Group issued in respect of the properties at Jüterbog and Sehnde, registered in the name of Xenfin Fund 1 Trading Limited, were forfeited under the Company's articles of association, for non-payment.

As the legal title had not transferred to the Vordere Group, the Directors are in the opinion that the risks and rewards were not transferred to the connected SPVs in the year 31 March 2020 therefore it was incorrect to recognise them as investment properties and the amount should have been recognised as an other receivable until the point the legal title was transferred. A prior year adjustment has taken place to reclassify the Jüterbog and Sehnde investment properties as other receivables.

As the legal title did not transfer within the specified timeframes within the sales purchase agreement (SPA), Vordere Limited withdrew from the contract and as a result the shares connected with purchase of properties for Jüterbog and Sehnde were cancelled on 27 July 2022. The shares cancelled are those connected with Xenfin Fund 1 Trading Limited and the shares issued to raise funds for the agent fees and connected legal fees remain in issue.

As the conditions of non-payment were present during the year to 31 March 2022, a bad debt provision of £10,054,922 has been made to remove the other receivable which represented the fair values of Jüterbog and Sehnde of £7,190,537 and £2,864,385 respectively.

At the time of signing this report, the total number of shares in issue total 370,060,562. The net asset value per share with this amount totals £0.0733 or 7.33 pence as at 31 March 2022.

Manustin Holdings Limited is related by virtue of having directors in common. The directors of the company, M Fernandes and D Healy have personal guarantees over the loaned amount.

VORDERE LIMITED**NOTES TO THE GROUP FINANCIAL STATEMENTS (CONTINUED)****FOR THE YEAR ENDED 31 MARCH 2022****38 Group - Prior period adjustment****31 March 2020 - Jüterbog and Sehnde**

During the year ended 31 March 2020, Vordere Limited issued shares in exchange for the investment properties Jüterbog and Sehnde. These properties were recognised as investment properties in the balance sheet. As at 31 March 2020, the legal title of the two properties had not been transferred to Vordere Jüterbog GmbH & Co KG and Vordere Sehnde GmbH & Co KG. The Directors are in the opinion that the risks and rewards were not transferred to the connected SPVs therefore it was incorrect to recognise them as investment properties and the amount should have been recognised as an other receivable. The impact of the prior year adjustment is set out below to show the impact on the balance sheet of reclassifying the investment property to other receivables. There is no impact to the net assets overall.

Changes to the statement of financial position

	At 31 March 2021		
	Previously reported	Adjustment	As restated
	£	£	£
Fixed assets			
Investment properties	39,114,917	(10,137,149)	28,977,768
Current assets			
Debtors due within one year	1,087,760	10,137,149	11,224,909
Net assets	38,583,626	-	38,583,626
	<u> </u>	<u> </u>	<u> </u>
Capital and reserves

Changes to the income statement

There is no impact on the income statement in the year to 31 March 2021.

Notes to reconciliation**Balance sheet**

In the year 31 March 2021, the Directors were of the opinion the debt is recoverable and the movement in the balance sheet relates to the investment properties being reclassified to the retranslation of other receivables.

The adjustment shown above of £10,137,150 is the reclassification of the investment properties to other receivables including the retranslation as at 31 March 2021.

Company

The prior period group adjustment has had no impact on the company's results previously reported.
