Strategic report

The business, its objective and strategy

The principal activity of the group is to hold and dispose of the assets transferred in accordance with the 'Realisation Plan', as adopted by the shareholders in Part 2 of the company's Articles of Association.

The principal objective of the group is to realise the assets in a measured fashion within the context of protecting value for the tax payer, while paying due regard to issues of transparency (where this would not prejudice the commercial interests of the group) and minimising market distortion. In general, the group seeks to dispose of liquid assets into cash and cash equivalents as quickly as possible to minimise any significant exposure to risk.

Cash and cash equivalents realised by the group through the disposal of assets are ultimately transferred to BIS.

The group's residual investment activities are principally managed by Beach Point Capital Management LP, LaSalle Investment Management, Pathway Capital Management LP, Bridgepoint Advisers II Limited, Hamilton Lane COPTL LP and Pantheon Ventures (UK) LLP (the "Investment Managers"), with the global custody arrangements delegated to JPMorgan Chase Bank N.A., London Branch.

Operating and financial review

All of the more liquid assets that transferred to the group, including listed equities, high grade corporate bonds, equity futures, inflation swaps and interest rate swaps were disposed of in the fourteen month period ended 31 March 2013 in line with the objectives of the 'Realisation Plan'. On 1 April 2013, the group had net assets of £3.6 billion, which primarily consisted of investments in properties (both directly held and property funds), private equity and a high yield portfolio.

At 31 March 2014, the group had a net assets of £2.5 billion as shown in the consolidated statement of financial position (31 March 2013: £3.6 billion).

For the year ended 31 March 2014, the total cash inflows arising from operating activities amounted to £1.3 billion (31 March 2013: £12.8 billion).

The net profit (before exceptional items) attributable to equity holders of the group for the year to 31 March 2014 was £211.7 million, as shown in the consolidated statement of comprehensive income and expenditure (31 March 2013: £136.2 million).

Just over 35% of the £3.6 billion net assets at 31 March 2013 were realised into cash during the course of the year.

The group will continue to keep the realisation strategy of the retained assets under review, with consideration given to holding the assets for an extended period of time where this is likely to provide a positive value for money outcome for the taxpayer.

Principal risks and uncertainties

The principal risks and uncertainties of the group relate to the exposure to financial risks arising from holding its financial assets. The group's overall risk management strategy seeks to minimise on-going exposure to financial risks by realising assets as promptly as is reasonably practicable, whilst achieving value for money for the taxpayer.

Further disclosure in respect of the group's exposure to financial risks, including market risk, credit risk and liquidity risk, is included in the notes to these financial statements.

Directors' report

Introduction

On 8 February 2012, BIS (Postal Services Act 2011) Company Limited (the "**company**") was incorporated and registered as a private limited company in England and Wales under the Companies Act 2006. The company is the sole shareholder of BIS (Postal Services Act 2011) B Company Limited ("**company B**") (together, the "**group**").

With effect from 1 April 2012 and by way of the provisions of the Postal Services Act 2011 which received Royal Assent on 13 June 2011, the Government assumed responsibility for both the Royal Mail Pension Plan ("**RMPP**") deficit and the majority of the plan's assets. The Government removed RMPP's defined benefit pension deficit by transferring certain historic liabilities to a new unfunded statutory pension scheme – the Royal Mail Statutory Pension Scheme ("**RMSPS**"). In conjunction with this, certain assets were also transferred out of Royal Mail Pensions Trustees Limited ("**RMPP Trustees**") under the Postal Services Act 2011 (Transfer of Assets) Order 2012 (the "Assets Transfer Order"). The RMPP was left fully funded as at the transfer date.

The group was incorporated and established to hold certain assets transferred from the RMPP Trustees to the Government. The ultimate controlling party for the group is the Secretary of State for the Department for Business, Innovation and Skills ("**BIS**").

Key performance indicators (KPIs)

BIS (Postal Services Act 2011) Company Limited is a wholly-owned subsidiary of the Secretary of State for the Department for Business, Innovation and Skills. As a result, both the management and reporting of risk and key performance indicators are undertaken at the Departmental level. For this reason, the group's directors believe that analysis using key performance indicators for the group is not necessary or appropriate for an understanding of the development, performance or position of the business of the group.

Details of directors

Details of the board of directors, including information about the board's composition, its attendance records and coverage of its work, can be found in the governance statement on page 7.

Dividends and payments to the ultimate controlling party

In accordance with Article 14, '*Remittance of Cash Proceeds to the Consolidated Fund*', and Article 12, '*Retention of Cash*', of the group's Articles of Association, a total cash remittance of £1.3 billion was made to BIS during the reporting period (31 March 2013: £14.3 billion). This amount has been recognised in the consolidated statement of changes in equity for the year ended 31 March 2014.

On 27 June 2013, the directors of BIS (Postal Services Act 2011) B Company Limited declared and paid a final dividend of £6.5 million to its immediate parent company BIS (Postal Services Act 2011) Company Limited.

Events after the reporting date

No material events have occurred since the end of the financial period that may significantly affect the financial performance or position of the reporting entity.

Statement of directors' responsibilities

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable laws and regulations.

Company law requires the directors to prepare financial statements for each financial period. In accordance with the requirements of the Companies Act, the directors have prepared the consolidated financial statements in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and the company and of the profit or loss of the group for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable IFRS as adopted by the European Union have been followed subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group's transactions and disclose with reasonable accuracy at any time the financial position of the group and the company and enable them to ensure that the financial statements comply with the Companies Act 2006 and, as regards the group financial statements, Article 4 of the International Accounting Standards (IAS) Regulation. They are also responsible for safeguarding the assets of the company and the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Directors' statement of disclosure of information to auditors.

The directors in office at the date of this annual report and financial statements have each confirmed that, so far as they are aware, there is no relevant information (as defined by section 418 of the Companies Act 2006) of which the group's auditors are unaware, and each of the directors has taken all the steps he/she ought to have taken as a director to make himself/ herself aware of any relevant audit information and to establish that the group's auditors are aware of that information. This confirmation is given and should be interpreted in accordance with the provisions of Section 418 of the Companies Act 2006.

Governance statement

Introduction

The principal objective of the group is to hold and dispose of assets in accordance with the 'Realisation Plan' adopted by the shareholders in Part 2 of the Articles of Association. The group is ultimately owned and controlled by the Secretary of State for the Department for Business, Innovation and Skills ("BIS") and is operated by the directors.

This statement sets out the governance structure, risk management and internal control procedures that have been operated within the group during the year to 31 March 2014.

The Governance Structure

Board responsibilities

The board provides the general oversight of the realisation exercise and ensures that it is managed in accordance with the 'Realisation Plan'. The board delegates to management (a separate 'project implementation team' led by the Shareholder Executive, an executive group within BIS) the day-to-day operation of the business, in accordance with appropriate risk parameters. The board monitors compliance with policy and achievement against objectives, by holding management accountable for its activities through regular updates. In addition, management is required to update the board on a regular basis, giving the board the opportunity to understand and explore issues in depth as appropriate.

During the financial year ended 31 March 2014, the board considered a wide range of issues, including:

- the progress of the asset realisation exercise;
- the financial position of the group;
- the long-term plan for the group;
- approving interim and full-period results;
- discussing and approving group strategy;
- considering opportunities for the realisation of assets; and
- discussing risk management and controls within the group.

Board structure

Directors

Mark Russell, Chairman

Ruth Elliot

Conrad Smewing

All directors are subject to retirement, and election or re-election, in accordance with the company's Articles of Association.

Board attendance

The board held 3 scheduled meetings in year ended 31 March 2014. Directors are expected to attend scheduled board meetings, unless they are prevented from doing so by prior commitments. Where directors are unable to attend meetings, they receive the papers scheduled for discussion in the relevant meetings, giving them the opportunity to raise any issues and give any comments to the chairman in advance of the meeting. Following the meeting the chairman briefs any member not present on the discussions and any decisions taken at the meeting. Directors leave the meeting where matters relating to them, or which may constitute a conflict of interest for them, are being discussed.

The attendance of directors at board meetings held during the year ended 31 March 2014 was as follows:

directors	Number of possible meetings attended	Actual meetings attended
Mark Russell, Chairman	3	3
Ruth Elliot	3	3
Conrad Smewing	3	3

Responsibility of the principal accounting officer of BIS

The principal accounting officer of BIS is responsible for approving the 'Realisation Plan' of the group and provides the oversight, in addition to the board, to ensure that the realisation of the assets represents value for money to the taxpayer as a whole. Where the realisation exercise deviates from the 'Realisation Plan', or where it is considered necessary to amend the original plan, the management will report to the board and the principal accounting officer as necessary. The directors and specifically the accounting officer of the group, who was designated by the principal accounting officer of BIS, have certain responsibilities. The primary responsibilities are: to adhere to chapter three of Managing Public Money, being responsible for safeguarding the public funds, for ensuring propriety and regularity in the handling of public funds, and for day to day operations and management of the group. The directors and the accounting officer of the group also ensure that the group are run on the basis of the standards, in terms of governance, decision making and financial management that are detailed in Chapter 3.1 of Managing Public Money.

Information received by the board and principal accounting officer

Written updates on the progress of the asset realisation exercise were provided by the management to the board on an ad hoc basis for the year to 31 March 2014. The board considers that the written updates provided by the management team during the financial period were relevant, sufficient and timely to satisfy its purpose.

Review of board's effectiveness

The composition of the board currently comprises a chairman and two directors. The chairman represents the Shareholder Executive within BIS, with one director each representing BIS Finance and HM Treasury. It is considered that the size and experience of the board is appropriate given that nature of the group's operations.

During the financial year ended 31 March 2014, no formal evaluation of the board's effectiveness has been carried out. The board met three times in the year and believes that its structure and monitoring framework are functioning effectively to enable the objectives of the group to be met.

Compliance with Corporate Governance Code

The UK Corporate Governance Code (the 'code') sets out the main principles and specific provisions on how companies should be directed and controlled to follow good governance practice. The rules of the Financial Conduct Authority (the 'FCA') require companies listed in the UK to disclose, in relation to the Code, how they have applied those principles and whether they have complied with the provisions throughout the financial period. Where the provisions have not been complied with, companies must provide an explanation for this.

The directors also follow and comply with the principles detailed in the "Corporate governance in central government departments" in so far as they are applicable to a company limited by shares incorporated under the Companies Act 2006.

BIS (Postal Services Act 2011) Company Limited is a private limited company that is ultimately owned by the Secretary of State for the Department for Business, Innovation and Skills. As a result, compliance with this code is not required.

Risk management and internal control

The board attaches considerable importance to, and acknowledges its responsibility for, the group's systems of internal control and risk management. The board's policy is to have systems in place which optimise the group's ability to manage risk in an effective and appropriate manner. The board has delegated, to officials of the department, the principal responsibilities for identifying, evaluating and monitoring risks facing the group and for deciding how these are to be managed.

There are ongoing controls and review procedures in place to monitor the performance of the investment managers that continue to manage investments on behalf of the group.

Given the specific nature of the group, its principal risks and uncertainties reside with the exposure to financial risks arising from its holdings of financial assets. A formal risk register for the purpose of risk assessment is not considered necessary.

Signed on behalf of the board by:

M. F. Russell

Mark Russell

Chairman and accounting officer

Independent auditor's report to the shareholders of BIS (Postal Services Act 2011) Company Limited

I have audited the financial statements of BIS (Postal Services Act 2011) Company Limited for the year ended 31 March 2014 which comprise the Consolidated Statement of Comprehensive Income and Expenditure, the Consolidated and Company Statements of Financial Position, the Consolidated and Company Statements of Cash Flows, the Consolidated and Company Statements of Changes in Equity and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards as adopted by the European Union and as regards the parent company financial statements, as applied in accordance with the provisions of the Companies Act 2006.

Respective responsibilities of the directors and the auditor

As explained more fully in the Statement of Directors' Responsibilities, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. My responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require me and my staff to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the group and the parent company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition I read all the financial and non-financial information in the Strategic and Directors' Reports to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by me in the course of performing the audit. If I become aware of any apparent material misstatements or inconsistencies I consider the implications for my report.

I am required to obtain evidence sufficient to give reasonable assurance that the expenditure and income recorded in the financial statements have been applied to the purposes intended by Parliament and the financial transactions recorded in the financial statements conform to the authorities which govern them.

Opinion on financial statements

In my opinion:

- the financial statements give a true and fair view of the state of the group's and the parent company's affairs as at 31 March 2014 and of the group's net profit for the year then ended; and
- the financial statements have been properly prepared in accordance with International Financial Reporting Standards as adopted by European Union; and
- the financial statements have been prepared in accordance with the Companies Act 2006.

Opinion on regularity

In my opinion, in all material respects the expenditure and income recorded in the financial statements have been applied to the purposes intended by Parliament and the financial transactions recorded in the financial statements conform to the authorities which govern them.

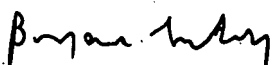

Opinion on other matter prescribed by the Companies Act 2006

In my opinion the information given in the Strategic and Directors' Reports for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which I report by exception

I have nothing to report in respect of the following matters where the Companies Act 2006 requires me to report to you if, in my opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for my audit have not been received from branches not visited by my staff; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- I have not received all of the information and explanations I require for my audit.

The notes on pages 20 to 44 form part of these financial statements.

Notes to the financial statements

Entity information

On 8 February 2012, BIS (Postal Services Act 2011) Company Limited (the "**company**") was incorporated as a private limited company in England and Wales under the Companies Act 2006 (company Number: 07941521). The company is the sole shareholder of BIS (Postal Services Act 2011) B Company Limited ("**company B**") (company Number: 07970529) (together, the "**group**"). The registered office of these companies is Masters House, 107 Hammersmith Road, London, W14 0QH.

With effect from 1 April 2012, a provision was made under the Postal Services Act 2011 (Transfer of Assets) Order 2012 (the "**Assets Transfer Order**") to transfer certain assets previously held by the Royal Mail Pensions Trustees Limited (the "**RMPP Trustees**") into the group.

The principal activity of the group is to hold and realise assets in accordance with the Realisation Plan adopted by the shareholders in Part 2 of the company's Articles of Association. The group's residual investment activities are principally managed by Beach Point Capital Management LP, LaSalle Investment Management, Pathway Capital Management LP, Bridgepoint Advisers II Limited, Hamilton Lane COPTL LP and Pantheon Ventures (UK) LLP (the "**Investment Managers**"), with the global custody arrangements delegated to JPMorgan Chase Bank N.A., London Branch.

The group is ultimately owned and controlled by the Secretary of State for the Department for Business, Innovation and Skills ("**BIS**").

Statement of accounting policies

Basis of preparation

The consolidated financial statements of BIS (Postal Services Act 2011) Company Limited have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union (IFRS as adopted by the EU), IFRIC Interpretations and those parts of the Companies Act 2006 applicable to companies reporting under IFRS. The financial statements are prepared in accordance with the disclosure and accounting requirements contained in the Financial Reporting Manual (FReM) where these do not conflict with the Companies Act and the requirements of IFRS. The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the group's accounting policies.

The financial statements are prepared in accordance with IFRS and Interpretations in force at the reporting date. The group has not adopted any Standards or Interpretations in advance of the required implementation dates. It is not expected that adoption of Standards or Interpretations which have been issued by the International Accounting Standards board but have not been adopted will have a material impact on the financial statements.

These financial statements have been prepared for the year ended 31 March 2014.

The comparative information is presented for the fourteen month period ended 31 March 2013.

Accounting convention

The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) and the measurement of investment properties at fair value.

These financial statements have been prepared on a going concern basis. The directors have considered the going concern status of the group and feel that the preparation of the financial statements on a going concern basis is not unreasonable. The directors are of the opinion that the group will continue as a going concern for at least 12 months from the signing of the financial statements for the year ended 31 March 2014.

Presentational currency

The financial statements are presented in pounds sterling and all values are rounded to the nearest thousand pound. The functional currency of the group is pounds sterling.

Basis of consolidation

Subsidiaries are all entities over which the company has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. Subsidiaries are fully consolidated from the date on which control is transferred to the company. They are de-consolidated from the date that control ceases. Inter-group transactions, balances and unrealised gains and losses arising on transactions between the companies are eliminated.

The company has taken advantage of the exemption contained within 408 of the Companies Act 2006 not to present its own statement of comprehensive income.

The total net profit for the year to 31 March 2014, in the financial statements of the company was £218.2 million (31 March 2013: £17.8 billion).

1. Accounting policies

1.1 Revenue recognition

Revenue comprises the realised gains on the disposal of investments generated in the ordinary course of the group's activities. Revenue is shown net of value-added tax.

The group recognises revenue when the amount of revenue can be reliably measured, and it is probable that future economic benefits will flow to the entity.

1.2 Rental income

Rental income from investment properties is recognised as revenue on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease.

1.3 Exceptional items

Exceptional items are those items that in the directors' view are required to be separately disclosed by virtue of their size or incidence to enable a full understanding of the group's financial performance.

1.4 Investment Properties

In accordance with IAS 40 Investment Properties, any investment property recognised is held only for the purpose of earning rental income or for capital appreciation. The fair value model has been adopted for the valuation of these properties. The fair value, which is open market value, is updated annually by external qualified independent valuers. Changes in fair values are recognised in the consolidated statement of comprehensive income and expenditure.

1.5 Investment in subsidiary undertakings

Investment in subsidiary undertakings as stated in the company's balance sheet and in note 9 are held at cost.

1.6 Investment in joint ventures

The group accounts for its interests in joint ventures under the equity method of accounting. Under the equity method of accounting, upon initial recognition investments in joint ventures are recognised at cost and subsequently, post acquisition, the operating results, assets and liabilities of joint ventures are reflected in the consolidated financial statements in accordance with IAS 31.

1.7 Financial instruments

The group recognises and measures financial instruments in accordance with IAS 39 Financial Instruments: Recognition and Measurement as interpreted by the FReM.

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognised in the statement of financial position when the group becomes a party to the contractual provisions of an instrument.

The fair value of financial instruments is determined by reference to quoted market prices where an active market exists for the trade of these instruments. The fair value of financial instruments which are not traded in an active market is determined using generally accepted valuation techniques.

Financial assets are derecognised when the rights to receive future cash flows have expired or are transferred and the group has transferred substantially all the risks and rewards of ownership. Financial liabilities are derecognised when the obligation is discharged, cancelled or expires.

Financial assets

The group's financial assets have been classified into the following categories, which are determined at initial recognition:

- Loans and receivables
- Held at fair value through profit or loss
- Available-for-sale assets

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The fair value of financial assets traded in active markets (such as publicly traded debt and equity securities) are based on quoted market bid prices at the close of trading on the nearest trading day.

Loans and receivables

Loans and receivables principally comprise accrued income and short-term receivables. Given the short-term nature of these assets, they are carried at transaction cost.

Cash and cash equivalents

Cash and cash equivalents comprise current balances with banks and other financial institutions, which are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value. The carrying amount of these assets approximates their fair value.

Held at fair value through profit or loss

The group classifies its investments in equity securities, holdings in a qualifying investment fund ("QIF") and derivatives, as financial assets at fair value through profit or loss.

Investments held at fair value through profit or loss are initially recognised at fair value. Any consequent movement in the valuation of the investment is recognised in the consolidated statement of comprehensive income and expenditure. This category has two sub-categories: financial assets held for trading; and those designated at fair value through profit or loss at inception.

(i) Financial assets held for trading

A financial asset is classified as held for trading if it is acquired or incurred principally for the purpose of selling or repurchasing in the near term or if on initial recognition is part of a portfolio of identifiable financial investments that are managed together and for which there is evidence of a recent actual pattern of short-term profit taking.

(ii) Financial assets designated at fair value through profit or loss at inception

Financial assets designated at fair value through profit or loss at inception are financial instruments that are not classified as held for trading but are managed, and their performance is evaluated on a fair value basis in accordance with the group's investment policy.

The group classifies gilts as financial assets held at fair value through profit or loss and measures the fair value based on the daily closing market bid prices until the point of disposal. Where gilts are cancelled and the company receives no consideration, the transaction is treated as an exceptional loss on disposal in the consolidated statement of comprehensive income and expenditure.

The purchases and sales of investments are recognised on the trade date, which is the date on which the group commits to purchase or sell the investment. Financial assets at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed as incurred in the consolidated statement of comprehensive income and expenditure.

Subsequent to initial recognition, all financial assets held at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of these assets are presented in the consolidated statement of comprehensive income and expenditure in the period in which they arise.

Available-for-sale assets

Available-for-sale (AFS) investments are non-derivative financial assets intended to be held for an indefinite period of time and that may be sold in response to liquidity requirements or changes in market prices. AFS investments are initially recognised at fair value. After initial recognition, these financial assets are carried at fair value. Gains and losses arising from changes in the fair value are recognised in other comprehensive income. When securities classified as AFS are sold or impaired, the accumulated fair value adjustments recognised in other comprehensive income are included in the consolidated statement of comprehensive income and expenditure. AFS assets, held by the group, principally comprise of a number of equity investment vehicles, investments in property funds and debt securities.

The unlisted securities within the private equity investment vehicles are not traded in an active market. The fair value is determined using the latest available valuation provided by the investment managers or at cost less any provisions for impairment when the group is unable to obtain a reliable estimate of fair value from the investment managers. Where a valuation is not available at the reporting date, the most recent valuation from the private equity manager is used, adjusted for cash flows between the most recent valuation and the balance sheet date.

The fair value of the private equity investments are estimated based on a variety of valuation techniques, adopted by the investment managers, that complies with the International Private Equity and Venture Capital (PEVC) Valuation Guidelines or the valuation guidelines produced by the British Venture Capital Association (BVCA). Valuation techniques used by the private equity investment managers include the use of earning multiple, discounted cash flow analysis, net asset value and other valuation techniques commonly adopted by market participants.

Impairments and derecognition of financial assets

The group assesses at the end of each reporting period whether there is objective evidence that available-for-sale assets are impaired. Evidence of impairment arises where there is observable data indicating that there is a measurable decrease in the estimated future cash flows from holding financial assets.

Gains and losses on AFS assets are recognised as a separate component of equity until the investment is deemed to be impaired at which time the cumulative gain or loss previously reported in equity is included in the consolidated statement of comprehensive income and expenditure.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the group has transferred substantially all risks and rewards of ownership.

When an asset is deemed to be impaired or derecognised, the associated gains and losses are recognised in the statement of comprehensive income and expenditure.

Derivative assets and liabilities

The group does not designate any derivatives as hedge instruments in a hedging relationship for the application of cash flow hedge accounting under IAS 39. As a result, all derivatives have been classified as financial assets or liabilities, held for trading, at fair value through profit or loss in accordance with IAS 39.

Derivative assets and financial liabilities are initially measured at fair value. Subsequent to initial recognition, all derivative assets and liabilities are measured at fair value. Gains and losses arising from changes in the fair value of these assets and liabilities are presented in the consolidated statement of comprehensive income and expenditure in the period in which they arise.

Financial liabilities

The group's financial liabilities have been classified as other financial liabilities at initial recognition. These comprise trade and other payables. Since these balances are expected to be settled within twelve months of the reporting date, there is no material difference between fair value, amortised cost and historical cost. All other financial liabilities are measured at amortised cost, after initial recognition.

1.8 Foreign exchange

Transactions that are denominated in a foreign currency are translated into sterling at the rate of exchange ruling on the date of each transaction, except where rates do not fluctuate significantly, in which case an average rate for a period is used. Monetary assets and liabilities denominated in foreign currencies at the date of the statement of financial position are retranslated at the rates of exchange ruling at that date. These translation differences are recognised in the consolidated statement of comprehensive income and expenditure.

1.9 Corporation tax

BIS (Postal Services Act 2011) Company Limited, with a registered number of 07941521, is exempt from UK corporation tax for any accounting period that begins and ends before 1 April 2015, as set out in The Postal Services Act 2011 (Taxation) Regulations 2012.

1.10 Significant accounting estimates and judgements

Other than the accounting estimates and judgements as disclosed in the accounting policies there are no other significant accounting estimates or judgements applied by management.

1.11 Dividends

Dividends are accounted for in the group's financial statements in the period in which they are approved by the group's shareholders.

1.12 Changes in accounting policy

Changes to IFRS

The group provides disclosure that it has not yet applied a new accounting standard and known or reasonably estimable information relevant to assessing the possible impact that initial application of the new standard will have on the financial statements.

The following new standards will be adopted by the group in full, when they are adopted by the FReM, unless the requirements are interpreted or adapted by the FReM:

- IAS 27 Separate Financial Statements requires that when a body prepares separate financial statements, investments in subsidiaries, associates, and jointly controlled bodies are accounted for either at cost, or in accordance with IFRS 9 Financial Instruments. The Standard also deals with the recognition of dividends, certain group reorganisations and includes a number of disclosure requirements. The standard was been endorsed by the EU in December 2012 and is effective for periods beginning on or after 1 January 2014. The application of this amendment is not expected to have a material impact on the group financial statements.
- IAS 28 Investments in Associates and Joint Ventures defines "significant influence" and provides guidance on how the equity method of accounting is to be applied, including exemptions from applying the equity method in some cases. It also prescribes how investments in associates and joint ventures should be tested for impairment. The standard was been endorsed by the EU in December 2012 and is effective for periods beginning on or after 1 January 2014. The application of this amendment is not expected to have a material impact on the group financial statements.
- IFRS 9: Financial Instruments, will replace IAS 39 Financial Instruments: Recognition and Measurement in its entirety when complete. IFRS 9 is expected to improve and simplify the reporting of financial instruments. The new standard will be effective for accounting periods beginning on or after 1 January 2015 subject to EU endorsement. The standard is part of a wider project to replace IAS 39 and it is not clear what the impact of the introduction of this standard will have on the group.
- IFRS 10 Consolidated Financial Statements and IFRS 11 Joint Arrangements cover the definition of and the accounting treatment required for subsidiaries and jointly controlled arrangements. Both standards were endorsed by the EU in December 2012 and are effective for periods beginning on or after 1 January 2014. The application of these standards is not expected to have a material impact on the group financial statements.

Note 2 Net realised gains arising from the sale of financial assets

The table below sets out the gains arising from the sale of financial assets by category under IAS 39:

	Group	Group
	For the year to 31 March 2014	For the fourteen month period to 31 March 2013
	£'000	£'000
Realised gains/(losses) arising from:		
- the sale of financial assets at fair value through profit or loss	(5,820)	124,347
- the sale of available-for-sale financial assets	171,357	36,377
Total	165,537	160,724

Note 3 Finance income

	Group	Group
	For the year to 31 March 2014	For the fourteen month period to 31 March 2013
	£'000	£'000
Finance income		
- Dividend income	7,031	8,982
- Interest income arising from financial assets	72,434	188,518
Finance income	79,465	197,500

Interest income relates to receipts arising from the group's investment holdings in bank deposits, gilts and corporate bonds.

Note 4 Other income

	Group	Group
	For the year to 31 March 2014	For the fourteen month period to 31 March 2013
	£'000	£'000
Other income:		
- Rental income from investment properties	18,155	38,202
- Investment income derived from available-for-sale property funds	18,413	22,061
Other Income	36,568	60,263

Note 5a Operating expenses

	Group	Group
	For the year to 31 March 2014	For the fourteen month period to 31 March 2013
	£'000	£'000
Investment management fees and custodian fees	34,444	43,303
Investment property maintenance costs	2,736	5,628
Movement in provision for bad debts	(255)	338
Bad debts written off	224	-
Miscellaneous expenses – See Note 5b	4,714	3,239
Total other costs	41,863	52,508

Note 5b Auditors remuneration

The figure of £4.72 million (31 March 2013: £3.24 million) within Note 5a includes auditor's remuneration as detailed below. During the year to 31 March 2014 the group obtained the following services from the group's auditor and its subsidiary undertakings:

	Group	Company	Group	Company
	For year to 31 March 2014	For year to 31 March 2014	For the fourteen month period to 31 March 2013	For the fourteen month period to 31 March 2013
	£'000	£'000	£'000	£'000
Audit fees payable by the company and group to the company's auditor in respect of the audit of the consolidated and company financial statements	51	51	48	48
Audit fees payable by the subsidiary company to the auditor in respect of the audit of the subsidiary company's financial statements	4	-	12	-

Note 5c Employees and directors

The directors do not receive remuneration for their services to the group. The group has no employees and does not incur any expenses in respect of the services of its directors.

Note 6 Foreign exchange gains/(losses)

The exchange differences charged to the statement of comprehensive income and expenditure are included as follows:

	Group	Group
	For the year to 31 March 2014	For the fourteen month period to 31 March 2013
	£'000	£'000
Other net loss:		
- Realised foreign exchange gains/(losses)	(9,001)	(34,283)
- Unrealised foreign exchange gains/(losses)	(82,445)	5,017
Total gains/(losses)	(91,446)	(29,266)

Included in the unrealised foreign exchange losses of £82.5 million (31 March 2013: £5.0 million gains) is £0.7 (31 March 2013: £0.4 million) of unrealised foreign exchange losses in respect of cash and cash equivalents.

Note 7 Exceptional items

Exceptional items are those items that in the directors' view are required to be disclosed separately by virtue of their size or incidence to enable a full understanding of the group's financial performance. Exceptional items comprised the following:

	Group	Group
	For the year to 31 March 2014	For the fourteen month period to 31 March 2013
	£'000	£'000
Exceptional items:		
• Exceptional gain arising from the assets transfer	-	(28,626,547)
• Exceptional loss arising from the cancellation of gilts	-	10,974,865
• Exceptional loss arising from the cancellation of accrued income	-	35,580
Exceptional items	-	(17,616,102)

An exceptional gain of £28.63 billion arose in the fourteen month period ended 31 March 2013 following the transfer of assets from the RMPP Trustees into the group under the Assets Transfer Order.

As a result of the Assets Transfer Order, the group held UK government gilts ("gilts") under the direction of HM Treasury from 1 April 2012. The gilts had maturity dates ranging from 2013 to 2062. In November 2012, the gilts were transferred to the Debt Management Account ("DMA"), within the Debt Management Office ("DMO"), for £nil consideration and sold to the National Loans Fund (for cancellation) at market value as required by the National Loans Act 1968. The gilts had a market value of £11.0 billion, including accrued income of £35.6 million, at the date of transfer to the DMA. This resulted in a total exceptional loss of £11.0 billion being recognised in the consolidated statement of income and expenditure in the period to 31 March 2013.

Prior to the transfer to the DMA, there was a fair value impairment of £172.4 million.

As part of the cancellation of the gilts, income that had accrued up to the date of the transfer was also cancelled. This resulted in a bad debt write-off of £35.6 million.

Note 8 – Investment properties

	Group	Company	Group	Company
	At 31 March 2014	At 31 March 2014	At 31 March 2013	At 31 March 2013
	£'000	£'000	£'000	£'000
At the beginning of the period	322,796	322,796	-	-
Transfers in	-	-	673,777	673,777
Additions	3,310	3,310	4,768	4,768
Disposals	(111,446)	(111,446)	(362,959)	(362,959)
Net gain arising from fair value adjustments	50,665	50,665	7,210	7,210
At 31 March	265,325	265,325	322,796	322,796

The group's investment properties are formally valued on an annual basis by independent professionally qualified valuers who hold a recognised relevant professional qualification and have recent experience in the locations and categories of the investment properties.

Since 1 April 2013, the net unrealised gain arising from fair value adjustments recognised in the consolidated statement of comprehensive income and expenditure was £50.7 million (31 March 2013: £7.2 million).

During the reporting period, total income of £18.2 million (31 March 2013: £38.2 million) was generated from the investment properties and total expenses of £2.7 million (31 March 2013: £5.6 million) in respect of the investment properties was recognised in the consolidated statement of comprehensive income and expenditure.

During the period, investment properties with a net book value of £111.5 million (31 March 2013: £363.0 million) were disposed of, generating a gain on disposal of £19.8 million (31 March 2013: loss of £1.7 million).

At 31 March 2014, all properties generated rental income. At 31 March 2013 one property, which was valued at £46.0 million did not generate any rental income in the reporting period.

Note 9 Investment in subsidiary undertaking

Details of the company's subsidiary at 31 March 2013 and 31 March 2014 is as follows:

Name of subsidiary	Place of incorporation	Proportion of ownership interest	Principal activity
BIS (Postal Services Act 2011) B. Company Limited	United Kingdom	100%	Manage and hold general partner interests in limited partnerships

Note 10 – Available-for-sale financial assets

The group has determined that the investments in high yield debt securities, private equity investments and property funds are to be classified as 'available for sale financial assets' and measured at fair value in accordance with IAS 39.

	Group	Company	Group	Company
	At 31 March 2014	At 31 March 2014	At 31 March 2013	At 31 March 2013
	£'000	£'000	£'000	£'000
Available-for-sale financial assets:				
Corporate bonds (at fair value)	621,810	621,810	1,029,067	1,029,067
Private equity investments (at fair value)	762,229	762,229	847,518	847,518
Property funds (at fair value)	411,306	411,306	463,201	463,201

* The latest available financial information being 31 December 2012

** The latest available financial information being 31 December 2012

The group has joint venture undertakings in Hermes Factory Outlets GP Limited and Talke General Partner Limited. Both companies are incorporated in England and Wales.

Hermes Factory Outlets GP Limited's principal activity is to hold and manage the property investments in Hermes Factory Outlets Limited Partnership. Talke General Partner Limited's principal activity is to safeguard and manage the property investments of Talke (Jersey) Limited Partnership.

Hermes Factory Outlets GP Limited and Talke General Partner Limited both have a cost of £1 each. Neither Hermes Factory Outlets GP Limited nor Talke General Partner Limited has generated a profit or loss for the period. Therefore, no adjustment has been made to the carrying value of the investments in joint ventures and these remain at £1 each at 31 December 2013.

Note 12 Trade and other receivables

	Group	Company	Group	Company
	At 31 March 2014	At 31 March 2014	At 31 March 2013	At 31 March 2013
	£'000	£'000	£'000	£'000

Prepayments and other receivables	76	76	287	287
Total	33,534	33,537	67,437	67,437

In the period to 31 March 2013 trade receivables of £133.5 million were transferred to the group by RMPP. These were received in full during the period to 31 March 2013.

Accrued income primarily relates to accrued interest arising from the investments in corporate bonds.

Note 13 Derivative financial instruments

The group held certain foreign exchange derivatives within its residual investments portfolio. These derivatives were originally entered into for the purpose of hedging the underlying foreign exchange risks of the investments against USD at the portfolio level. These hedges were not formally designated as hedge instruments in a hedging relationship for the application of cash flow hedge accounting under IAS 39. Therefore, all derivatives have been classified as financial assets or financial liabilities, held for trading, at fair value through profit or loss in accordance with IAS 39.

The fair values of derivative financial instruments have been disclosed in the consolidated statement of financial position as follows:

At 31 March 2014	Group			Company		
	At 31 March 2014			At 31 March 2014		
	Assets	Liabilities	Net Liabilities	Assets	Liabilities	Net Liabilities

Financial assets or liabilities designated as such upon initial recognition	-	-	-	-	-	-

At the reporting date, the derivatives held by the group comprise 67 (31 March 2013: 25) individual foreign currency forward contracts which will reach settlement between 17 July 2014 and 17 October 2014. A net derivatives liabilities position of £1.1 million is recognised at 31 March 2014 (31 March 2013: £3.9 million asset) in respect of these forward contracts. As a result, a net fair value loss of £1.1 million is recognised in the consolidated statement of comprehensive income and expenditure in the year to 31 March 2014 (31 March 2013: £3.9 million gain). The unrealised foreign exchange movement in the consolidated statement of comprehensive income and expenditure is included in note 6.

Liquidity risk

The group settles the foreign currency forward contracts on a net cash flow basis in which it pays or receives the fair values of the forward contracts, equating to the mark-to-market valuation of these contracts, at the date of maturity. The total net cash outflow for foreign currency forward contracts in the year to 31 March 2014 was £2.4 million (31 March 2013: £33.7 million).

A maturity analysis is presented below to show the remaining contractual maturities of the financial assets or liabilities arising from the foreign currency forward contracts at the reporting date:

31 March 2014	Group			Company		
	At 31 March 2014			At 31 March 2014		
	Assets (Receiving)	Liabilities (Paying)	Net	Assets (Receiving)	Liabilities (Paying)	Net

More than 120 days	-	1,115	1,115	-	1,115	1,115
Total	-	1,115	1,115	-	1,115	1,115

31 March 2013	Group			Company		
	At 31 March 2013			At 31 March 2013		
	Assets (Receiving)	Liabilities (Paying)	Net	Assets (Receiving)	Liabilities (Paying)	Net
	Fair value	Fair value	Fair value	Fair value	Fair value	Fair value
	£'000	£'000	£'000	£'000	£'000	£'000
1 – 30 days	2,539	-	2,539	2,539	-	2,539
More than 120 days	1,400	-	1,400	1,400	-	1,400
Total	3,939	-	3,939	3,939	-	3,939

The liquidity risk is monitored on an ongoing basis by management to ensure that there are sufficient resources available to meet any ongoing liabilities. The board of directors is satisfied that the group is a Government-backed entity and that it has sufficient certainty over future cash inflows from investments held and was not therefore exposed to any significant liquidity risk in respect of the settlement of the derivative contracts.

Credit risk

The maximum exposure in respect of derivative contracts at the reporting date is £1.2 million (31 March 2013: £3.9 million), which is equal to the carrying amount of the derivative liabilities.

Note 14 Financial assets at fair value through profit or loss

The financial assets held at fair value through profit or loss include equity shares and investments held within a qualifying investment fund (QIF). All of these financial instruments are classified as financial assets held for trading. In accordance with IAS 39, all financial assets held at fair value through profit or loss were classified as held for trading on transfer in.

	Group and company	Group and company
	At 31 March 2014	At 31 March 2013
	£'000	£'000
Financial assets		
At the beginning of the year / period	525,693	-

Cash and cash equivalents held by the Government Banking Service (GBS)	299,963	299,963	295,910	295,910
Total	384,145	384,145	340,756	340,756

At 31 March 2014, £60.2 million (31 March 2013: £16.6 million) of cash and cash equivalents held by the group is denominated in USD. Since the group uses GBP as its reporting currency, it is exposed to foreign currency exchange rate movement. Management estimates that a shift of +/-5% in the USD/GBP foreign exchange rate would not be deemed unreasonable and would result in an unrealised foreign exchange gain or loss of £2.9 million (31 March 2013: £0.8 million) being recognised in the consolidated statement of income and expenditure.

At 31 March 2014, £11.2 million (31 March 2013: £16.0 million) of cash and cash equivalents held by the group is denominated in EUR. Since the group uses GBP as its reporting currency, it is exposed to foreign currency exchange rate movement. Management estimates that a shift of +/-5% in the EUR/GBP foreign exchange rate would not be deemed unreasonable and would result in an unrealised foreign exchange gain or loss of £0.5 million (31 March 2013: £0.8 million) being recognised in the consolidated statement of income and expenditure.

Note 16 Trade and other payables

	Group	Company	Group	Company

Total	11,580	11,575	14,482	21,017

In the period to 31 March 2013 trade payables of £13.0 million were transferred to the group by RMPP. These were paid in full during the period to 31 March 2013.

Note 17 Financial instruments

Note 17(a) Financial risk factors

Financial risk management

The group's activities expose it to a variety of financial risks. The group's overall risk management programme seeks to minimise on-going exposure to financial risks by disposing of assets as promptly as reasonably practicable whilst achieving value for money for the taxpayer.

The day-to-day management of financial risks is carried out by the investment managers under policies approved by the group's management team. The management team provides written principles for overall risk management, as well as specific instructions covering the manner in which different classes of assets should be realised to meet its objectives.

Market risk

The group is exposed to market risk, primarily related to foreign currency exchange rates, interest rates and price risks. To manage the exposure to market risk, the group actively seeks to dispose of any liquid and volatile assets as promptly as reasonably practicable whilst achieving value for money for the taxpayer.

i. Foreign exchange risk

The group uses GBP as its reporting currency. As a result, the group is exposed to foreign currency exchange rate movements. The primary foreign exchange risks are USD and EUR due to its holdings in foreign currency denominated fixed income instruments and its investments in various private equity investment vehicles that have exposure to European and North American regions. The sterling value of the group's balance sheet can be affected by movements in exchange rates.

The table below summarises the sensitivity of the group's monetary assets to changes in foreign exchange movements at 31 March 2014. The analysis is based on the assumption that the relevant foreign exchange rate increased/decreased against GBP by the percentage disclosed in the table below with all other variables held constant. Management estimates that a movement in the foreign exchange rates of +/- 5% would not be

unreasonable, having regards to the historical volatility of those rates. The increase or decrease in the net assets arises primarily from a change in the fair value of USD and EUR denominated unquoted equity of the private equity portfolio and fixed interest securities that are classified as available-for-sale financial assets.

Group	Reasonable movement in rate	Impact on net assets	Impact on net assets
		At 31 March 2014	At 31 March 2013
Currency	%	£'000	£'000
US dollar denominated monetary assets	+/- 5%	+/- 53,363	+/- 65,770
Euro denominated monetary assets	+/- 5%	+/- 20,935	+/- 26,982

ii. Price risk

The group's strategy for managing price risk principally focuses on the disposal of highly volatile and liquid assets as promptly as possible whilst realising value for money for the taxpayer. During the financial period, the group continued to actively dispose of its investments, where practicable, to minimise its on-going exposure to price risk. The residual investments at 31 March 2014 were predominantly comprised of less liquid and highly diversified investments, including investments in private equity investment vehicles, high yield debt securities and property funds.

The sensitivity analysis below has been determined based on the exposure to each material price risk at the reporting date.

The group's private equity portfolio is primarily composed of investments in European and North American unquoted shares. During the year the group recognised a market value gain on its private equity portfolio of £28.9 million (31 March 2013: £46.0 million). If the valuation had been 5% higher/lower, the total value would have increased/decreased by £1.4 million (31 March 2013: £1.0 million), with the movement being recognised in other comprehensive income.

The fair value movement of debt securities is driven by the fluctuations in market interest rates. The fair value interest risk is further discussed below. The price risk on the investments in property funds is not expected to be material.

The performance of investments held by the group is monitored by management on a monthly basis.

iii. Interest rate risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and future cash flows. The group holds fixed interest securities that expose the group to fair value interest rate risk. The group also holds floating rate securities that are exposed to cash flow interest rate risk.

The group's principle risk management strategy is to manage the fair value risk by holding the high yield debt securities until maturity. At 31 March 2014, the high yield debt securities were valued at £62.0 million (31 March 2013: £1.0 billion). Of this 82% are fixed interest debt securities (31 March 2013: 75%). The remaining 18% are floating interest debt securities (31 March 2013: 25%). For the floating interest debt securities, if the interest rate had been 50 basis points higher/lower, with all other things being constant, the interest income earned would be £0.7 million higher/lower (31 March 2013: £0.3 million) and the fair value recognised would have been £0.1 million higher/lower (31 March 2013: £0.3 million).

Interest rate risk is not expected to have a significant impact on cash flows.

The group have no short or long term borrowings and is not therefore exposed to risk in respect of variable interest rate payments.

Credit risk

The group is exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The main concentration to which the group is exposed arises from the group's investments in debt securities.

As at 31 March 2014, the group held a mixed quality of debt securities. The investments in high yield bonds were initially transferred to the group as part of the Royal Mail Pension Plan's balanced investment portfolio. As would be normal in any high yield bond portfolio, the group is exposed to the counterparty credit risk on its high yield debt securities. Based on historic rates of market defaults, a 2% to 4% default rate within the existing yield debt securities portfolio would not be unexpected. The valuation of the high yield bond, as shown in the Consolidated Financial Position and associated notes, reflect the value of the high yield bonds after the default rate has been taken into consideration. To manage the risk of loss, the investments are broadly diversified. There are specific parameters for the holding of the debt securities within particular sectors and also a limit on individual holdings as a percentage of the total portfolio. The investment managers also have significant expertise in managing the risk of default.

The analysis below summarises the credit quality of the group's high yield debt portfolio as at 31 March 2014.

Credit rating	At 31 March 2014 £'000	At 31 March 2013 £'000
Group		
Available-for-sale debt securities:		
B- rating or higher	298,138	490,711
CCC rating or lower	323,672	538,989
Total	621,810	1,029,700

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting its obligations associated with financial liabilities. The liquidity risk is monitored on an ongoing basis to ensure that there are sufficient resources available to meet any ongoing liabilities. The group is a Government-backed entity. In addition, the board of directors are satisfied that it has sufficient certainty over future cash inflows from the investments held and that the group was not therefore exposed to any significant liquidity risk.

In addition, cash flow is monitored on an ongoing basis to ensure there are sufficient cash balances to pay any ongoing operational costs or commitments in respect of uncalled capital amounts payable to private equity investment managers, as and when they fall due.

Note 17(b) Fair value estimation

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following table presents the group's assets and liabilities that are measured at fair value at 31 March 2014.

Group	Level 1	Level 2	Level 3	Total
	£'000	£'000	£'000	£'000
Assets				
Financial assets at fair value through profit or loss				
- Trading securities	17,942	737	-	18,679
Available-for-sale assets	621,810	-	1,173,535	1,795,345
Total assets	639,752	737	1,173,535	1,814,024
	Level 1	Level 2	Level 3	Total
	£'000	£'000	£'000	£'000
Liabilities				
Financial assets at fair value through profit or loss				
- Derivatives	-	(1,115)	-	(1,115)
Total liabilities	-	(1,115)	-	(1,115)

The following table presents the group's assets and liabilities that are measured at fair value at 31 March 2013.

Group	Level 1	Level 2	Level 3	Total
	£'000	£'000	£'000	£'000
Assets				
Financial assets at fair value through profit or loss				
- Derivatives	-	3,939	-	3,939
- Trading securities	39,792	485,901	-	525,693
Available-for-sale assets	1,029,700	-	1,310,086	2,339,786
Total assets	1,069,492	489,840	1,310,086	2,869,418

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the group is the current bid price. These instruments are included in Level 1. Instruments included in Level 1 comprise primarily listed equity and debt investments classified as trading securities or available for sale.

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

Specific valuation techniques used to value financial instruments include:

- Quoted market prices or dealer quotes for similar instruments.
- The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows based on observable yield curves.
- The fair value of forward foreign exchange contracts is determined using forward exchange rates at the balance sheet date.
- Other techniques, such as discounted cash flow analysis, are used to determine fair value for the remaining financial instruments.

The following table presents the movement in Level 3 instruments for the period ended 31 March 2014 by class of financial instrument:

Group	Private equity investments	Property funds	Total
	£'000	£'000	£'000
At the beginning of the period	846,885	463,201	1,310,086

At 31 March	1	-	1	-

At the date of incorporation, one share was issued at par with a nominal value of £1. The £1 remains unpaid at 31 March 2014.

Note 20 Contingent liabilities

The group has no contingent liabilities at the date of the consolidated statement of financial position.

Note 21 Commitments

At 31 March 2014, the group and company had contractual obligations in respect of repair, maintenance or enhancement of the investments properties of £nil (31 March 2013: £4.8 million). These amounts are due in less than one year.

The group and company are required to fulfil capital contributions in respect of the private equity funds and property funds classified within the available-for-sale financial instruments. At 31 March 2014, the total unfunded commitment was £158.6 million (31 March 2013: £197.8 million) which is payable on demand with no set date for repayment.

Note 22 Ultimate controlling party

The ultimate controlling party for the group is the Secretary of State for the Department for Business, Innovation and Skills. These group financial statements are consolidated within the Department for Business, Innovation and Skills financial statements.

Note 23 Related-party transactions

Under Article 14, 'Remittance of Cash Proceeds to the Consolidated Fund', and Article 12, 'Retention of Cash', of the company's Articles of Association, the company has an obligation to reimburse 'excess cash' to its immediate parent company BIS. A total cash remittance of £1.3 billion was paid to BIS during the period to 31 March 2014 (31 March 2013: £14.3 billion).

During the year, the group reimbursed BIS £nil for costs paid by BIS on behalf of the group (31 March 2013: £0.6 million). At the year end there was £nil owed to/from the group to BIS (31 March 2013: £nil).

During the year, the company paid costs totalling £nil on behalf of its subsidiary undertaking, BIS (Postal Services Act 2011) B Company Limited (31 March 2013: £0.1 million). At 31 March 2014, the company was owed £0.1 million by its subsidiary undertaking (31 March 2013: £6.6 million). This primarily relates to any receipts of proceeds or payments of expenses by the company on behalf of the subsidiary undertaking.

The following transactions with governmental bodies occurred during the fourteen month period to 31 March 2013. The UK Debt Management Office ("**DMO**") is an executive agency of HM Treasury and is responsible for the management of the Government's debt on its behalf. Within the DMO is the Debt Management Account ("**DMA**") which records all the DMO's issuance and trading transactions. In agreement with the DMA, the investments in UK government gilts, which were held by the group under the direction of HM Treasury, were transferred to the DMA for £nil consideration and sold to the National Loans Fund (for cancellation) at market value as required by the National Loans Act 1968. The gilts had a market value of £11.0 billion including accrued income of £35.6 million at the date of transfer to the DMA. Total interest income of £96.9 million, in respect of the gilts, was included in the consolidated statement of comprehensive income and expenditure for the period to 31 March 2013. There were no such transactions with government bodies in the year to 31 March 2014.

Note 24 Events after the reporting period

There were no material events since the end of the financial period that may significantly affect the financial performance or position of the reporting entity.
