The notes on pages 3 to 9 form part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

1. General information

Ortona Properties Limited is a private company, limited by shares, incorporated in England and Wales. The registered office is 55 Colegate, Norwich, Norfolk, NR3 1DD.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006

The financial statements are presented in sterling which is the functional currency of the Company and rounded to the nearest £.

The following principal accounting policies have been applied:

2.2 Going concern

The Company, and Group of which it is part, has considerable financial resources and continues to trade profitably in the current financial year. The net current liabilities are caused by amounts owed to the Group and these will not be demanded by the Group until the Company is in a position to pay.

As a consequence, the Directors have concluded that they have a reasonable expectation that the Company will have adequate resources to continue in operational existence for the foreseeable future and therefore continue to adopt the going concern basis of accounting in preparing these financial statements.

2.3 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the turnover can be reliably measured. Revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

Rent is deemed to be receivable over the period for which a tenant occupies a property.

2.4 Finance costs

Finance costs are charged to the Statement of Comprehensive Income over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

2. Accounting policies (continued)

2.5 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in the Statement of Comprehensive Income except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the Statement of Financial Position date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will
 be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

2.6 Investment property

Investment property is carried at fair value determined annually and derived from the current market rents and investment property yields for comparable real estate, adjusted if necessary for any difference in the nature, location or condition of the specific asset. No depreciation is provided. Changes in fair value are recognised in the Statement of comprehensive income.

Any fair value movement is transferred to the fair value reserve. Where any decline in value below costs is considered to be permanent, the deficit is not transferred to the fair value reserve.

2.7 Debtors

Short term debtors are measured at transaction price, less any impairment.

2.8 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.9 Creditors

Short term creditors are measured at the transaction price.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

2. Accounting policies (continued)

2.10 Financial instruments

The Company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors and loans to and from related parties.

2.11 Dividends

Equity dividends are recognised when they become legally payable. Interim equity dividends are recognised when paid. Final equity dividends are recognised when approved by the shareholders at an annual general meeting.

3. Employees

The average monthly number of employees, including the directors, during the year was as follows:

	2021 No.	2020 No.

19,445,500

The 2021 valuations were made by Mr D K Burch, a director of the Company and member of the Royal Institute of Chartered Surveyors (RICS), on a fair value basis.

The open market value of the Company's residential property portfolio was assessed based on Land Registry data on local agent's particulars for sales values for similar properties where available. The commercial investment properties were based on external valuations or comparable property values where available. In all other cases the CBRE index was used to assess the change in the capital value of investment properties.

The historic costs of revalued assets in this Company is £12,463,259 (2020 - £12,463,259).

A fellow Group undertaking, Ortona Management Limited, holds bank loans which are secured by fixed charges over certain investment properties held by Ortona Properties Limited.
