The following principal accounting policies have been applied:

2.2 Going concern

The company meets its day to day working capital requirements through a loan account with the parent company, the parent company has confirmed that these borrowings will not be withdrawn whilst it would prejudice the going concern of the company. In forming their decision on going concern the directors have considered a period of no less than 12 months from the date of accounts approval and have concluded that the company will receive sufficient funds to continue trading for the foreseeable future. On this basis, the directors consider it appropriate to prepare the financial statements on the going concern basis. The financial statements do not include any adjustments that would result from a withdrawal of borrowings.

2.3 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following criteria must also be met before revenue is recognised:

Sale of goods

Revenue from the sale of goods is recognised when all of the following conditions are satisfied:

- the Company has transferred the significant risks and rewards of ownership to the buyer;
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the Company will receive the consideration due under the transaction; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

2.4 Stocks
