DIRECTORS' REPORT

FOR THE YEAR ENDED 31 DECEMBER 2016

The Directors present their annual report and audited financial statements for the Group and Company for the year ended 31 December 2016.

The Directors' report has been prepared in accordance with the special provisions relating to small companies within Part 15 of the Companies Act 2006. Accordingly, no Strategic Report has been presented.

Principal activities

The Company operates principally as a holding company for Amber Solar Parks Limited. The principal activity of the Group is the generation of renewable energy through harnessing solar power and supplying energy produced to the national grid. The Group currently owns two solar parks in Hampshire and Berkshire.

The directors have considered the use of the going concern basis in the preparation of the financial statements in light of current market conditions and concluded that it is appropriate. More information is provided in note 1 to the financial statements.

Directors

The Directors who held office during the year and up to the date of signature of the financial statements were as follows:

C J Tanner

J M Linney

Results and dividends

The results for the year are set out on page 6.

The Group paid ordinary dividends amounting to £289,000 (2015: £Nil). The Directors do not recommend payment of a final dividend.

Qualifying third party indemnity provisions

The Group has made qualifying third party indemnity provisions for the benefit of its Directors during the year. These provisions remain in force at the reporting date.

Financial risk management objectives and policies

Liquidity risk

The Group manages its cash and borrowing requirements in order to maximise interest income and minimise interest expense, whilst ensuring the Group has sufficient liquid resources to meet the operating needs of the business. The Group has debt facilities with its parent company to ensure that the Group has sufficient funds over the life of the project.

Interest rate risk

The Group's borrowings expose it to cash flow risk primarily due to the financial risks of changes in interest rates. The Group uses a fixed rate loan to limit this risk.

Exposure to market prices

The Group is exposed to long term electricity market prices for the sale of power. This risk has been partially mitigated by the Group entering a short term fixed price Power Purchase Agreement ('PPA') with Haven Power Limited. This PPA expired on 31 March 2016 after which a new agreement has been signed with SmartestEnergy Limited, expiring on 31 March 2017 at a unit price of 3.9 pence per kWh for both Five Oaks and Fryingdown Solar Sites. Five Oaks has since signed a further contract with Bristol Energy Limited, expiring on 31 March 2018 at a unit price of 5.7 pence per kWh and Fryingdown has signed a further contract with Opus Energy Renewables Limited, expiring on 31 March 2018, at a unit price of 5.2 pence per kWh.

DIRECTORS' REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2016

Credit risk

The Group's principal financial assets are cash and trade and other receivables. The Group's credit risk is primarily attributable to its trade receivables and accrued income which are with two counterparties. The Group monitors the financial standing of those counterparties in order to manage their credit risk.

Energy yield risk

The Group has, in preparing the project, engaged consultants to assess long term irradiation predictions and consequent energy yield for the given solar parks. It is recognised that while best practice methodologies were used to the Funder's satisfaction, there still remains a risk that energy yield may be less (or more) than modelled. The project was financed on an assumption that realistic downsides would not materially jeopardise the project. The Group will continue to monitor performance against the modelled plan.

Future developments

The Directors are not aware, at the date of this report, of any major changes in the Group's activities in the next year.

Auditor

The auditor, Deloitte LLP, is deemed to be reappointed under section 487(2) of the Companies Act 2006.

Statement of disclosure to auditor

Each of the Directors in office at the date of approval of this annual report confirms that:

- so far as the Director is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- the Director has taken all the steps that he/she ought to have taken as a director in order to make himself/ herself aware of any relevant audit information and-to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of section 418 of the Companies Act 2006.

On behalf of the board

DIRECTORS' RESPONSIBILITIES STATEMENT FOR THE YEAR ENDED 31 DECEMBER 2016

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland". Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and Company, and of the profit or loss of the Group for that period. In preparing these financial statements, the Directors are required to:

- · select suitable accounting policies and then apply them consistently;
- · make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group and Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Group's and Company's transactions and disclose with reasonable accuracy at any time the financial position of the Group and Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Group and Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF AMBER SOLAR PARKS (HOLDINGS) LIMITED

We have audited the financial statements of Amber Solar Parks (Holdings) Limited for the year ended 31 December 2016 which comprise the Group Statement of Comprehensive Income, the Group Balance Sheet, the Company Balance Sheet, the Group Statement of Changes in Equity, the Company Statement of Changes in Equity, the Group Statement of Cash Flows and the related notes on pages 12 - 27. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland".

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Directors' Responsibilities Statement, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Group's and the parent company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the Group's and the parent company's affairs as at 31 December 2016 and of the Group's profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
 and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of our audit,

- the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements, and
- the Directors' Report has been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the Group and its environment obtained in the course of the audit, we have not identified material misstatements in the Directors' Report .

INDEPENDENT AUDITOR'S REPORT (CONTINUED) TO THE MEMBERS OF AMBER SOLAR PARKS (HOLDINGS) LIMITED

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- · the parent company financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- · we have not received all the information and explanations we require for our audit; or
- the Directors were not entitled to take advantage of the small companies' exemption in preparing the directors' report and take advantage of the small companies exemption from the requirement to prepare a strategic report.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2016

1 Accounting policies

Company information

Amber Solar Parks (Holdings) Limited is a private company limited by shares domiciled in the United Kingdom, incorporated in Great Britain and registered in England and Wales. The registered office is 8 White Oak Square, London Road, Swanley, BR8 7AG.

The Group consists of Amber Solar Parks (Holdings) Limited and all of its subsidiaries.

1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006.

The financial statements are prepared in pound sterling, which is the functional currency of the Company. Monetary amounts in these financial statements are rounded to the nearest £'000.

The financial statéments have been prepared under the historical cost convention, modified to include certain financial instruments at fair value. The principal accounting policies adopted are set out below and have been applied consistently in the current and prior year.

1.2 Going concern

At the time of approving the financial statements, the Directors have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Thus the Directors continue to adopt the going concern basis of accounting in preparing the financial statements.

1.3 Turnover

Turnover is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods and services provided in the normal course of business, net of discounts, VAT and other sales related taxes.

1.4 Intangible fixed assets other than goodwill

Intangible assets acquired separately from a business are recognised at cost and are subsequently measured at cost less accumulated amortisation and accumulated impairment losses. Intangible assets acquired on business combinations are recognised separately from goodwill at the acquisition date if the fair value can be measured reliably.

Amortisation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Licences, planning permission and development

25 years straight line

1.5 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Plant and equipment

25 years straight line

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2016

1 Accounting policies

(Continued)

Residual value represents the estimated amount which would currently be obtained from disposal of an asset, after deducting estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life.

1.6 Fixed asset investments

Equity investments are measured at fair value through profit or loss, except for those equity investments that are not publicly traded and whose fair value cannot otherwise be measured reliably, which are recognised at cost less impairment until a reliable measure of fair value becomes available.

In the Parent Company financial statements, investments'in subsidiaries, associates and jointly controlled entities are initially measured at cost and subsequently measured at cost less any accumulated impairment losses.

A subsidiary is an entity controlled by the Group. Control is the power to govern the financial and operating policies of the entity so as to obtain benefits from its activities.

1.7 Impairment of fixed assets

At each reporting period end date, the group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

The carrying amount of the investments accounted for using the equity method is tested for impairment as a single asset. Any goodwill included in the carrying amount of the investment is not tested separately for impairment.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Recognised impairment losses are reversed if, and only if, the reasons for the impairment loss have ceased to apply. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

1.8 Cash and cash equivalents

Cash and cash equivalents are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2016

1 Accounting policies

(Continued)

1.9 Financial instruments

The Group has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the Group's balance sheet when the Group becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset and the net amounts presented in the financial statements when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Other financial assets

Other financial assets, including investments in equity instruments which are not subsidiaries, associates or joint ventures, are initially measured at fair value, which is normally the transaction price. Such assets are subsequently carried at fair value and the changes in fair value are recognised immediately in the statement of comprehensive income except that investments in equity instruments that are not publicly traded and whose fair values cannot be measured reliably are measured at cost less impairment.

Loans and receivables

Trade debtors, loans and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment.

Interest is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial. The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating the interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the debt instrument to the net carrying amount on initial recognition.

Impairment of financial assets.

Financial assets, other than those held at fair value through profit and loss, are assessed for indicators of impairment at each reporting end date.

Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected. If an asset is impaired, the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been, had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2016

1 Accounting policies

(Continued)

Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire or are settled, or when the Group transfers the financial asset and substantially all the risks and rewards of ownership to another entity, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party.

Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

Basic financial liabilities

Basic financial liabilities, including creditors, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities

Financial liabilities are derecognised when the group's contractual obligations expire or are discharged or cancelled.

1.10 Equity instruments

Equity instruments issued by the Group are recorded at the proceeds received, net of direct issue costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the Group.

1.11 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2016

1 Accounting policies

(Continued)

Deferred tax

Deferred tax liabilities are generally recognised for all timing differences and deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Such assets and liabilities are not recognised if the timing difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. Deferred tax assets and liabilities are offset if, and only if, there is a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority.

1.12 Provisions

Decommissioning

Provisions for future decommissioning costs is made in full when the Group has an obligation to dismantle and remove a facility and to restore the site on which it is located, and when a reasonable estimate of that liability can be made.

The amount recognised is the present value of the estimated future expenditure. An amount equivalent to the discounted initial provision for decommissioning costs is capitalised as part of the underlying fixed asset and depreciated over the life of that asset. Any change in the present value of the estimated expenditure resulting from changes in expected cash flows, inflation or discount rate is reflected as an adjustment to the provision and the underlying asset.

The unwinding of the discount is recognised as a finance cost in or in the period it arises.

Other

Provisions are recognised when the Group has a legal or constructive present obligation as a result of a past event, it is probable that the Group will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting end date, taking into account the risks and uncertainties surrounding the obligation.

Where the effect of the time value of money is material, the amount expected to be required to settle the obligation is recognised at present value.

1.13 Leases

Rentals payable under operating leases, including any lease incentives received, are charged to income on a straight-line basis over the term of the relevant lease except where another more systematic basis is more representative of the time pattern in which economic benefits from the lease asset are consumed.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2016

2 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies, the Directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

Critical judgements

The following judgements (apart from those involving estimates) have had the most significant effect on amounts recognised in the financial statements.

Power Purchase Agreement

The Directors have considered whether the Power Purchase Agreement entered into by the Group meets the definition of a derivative under FRS 102 in the context of characteristics of derivative contracts set out within the definition. The Power Purchase Agreement was entered into and continues to be held for the purpose of the Group delivering electrical output to be received by the offtaker in accordance with the requirements set out in the contract, and therefore is not considered to be a financial instrument.

Key sources of estimation uncertainty

The estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are as follows.

Decommissioning provision

The Group has a decommissioning provision resulting from its obligation at the end of the license period to return the solar park sites to their original state and condition. The calculation used to estimate the future expected cost of decommissioning the site is based on a historic estimate of per panel costs plus anticipated fixed cost overheads provided by a qualified third party consultant, discounted back to present value at a suitable discount rate. The net present value of the provision at the balance sheet date was £831,000 (2015: £692,000). Details of the provision are set out in Note 19. The Directors will continue to monitor market prices for decommissioning works for indications of material changes to the assumptions underlying the decommissioning provision calculation.

Recoverability of tangible fixed assets

During the year, management reconsidered the recoverability of the tangible fixed assets included in the balance sheet of £18,269,000 (2015: £19,013,000). The project continues to perform in a satisfactory manner, however, due to a reduction in expected future floating power prices received and historical performance against budget, management has reconsidered the power price and generation assumptions reflected in its long-term projections. Detailed sensitivity analysis has been carried out and management is confident that the carrying amount of the tangible fixed assets will be recovered in full through use. This situation will be closely monitored, and adjustments made in future periods if future market activity indicates that adjustments are appropriate.

10 Taxation (Continued)

The actual charge for the year can be reconciled to the expected charge based on the profit or loss and the standard rate of tax as follows:

	2016 £'000	2015 £'000
Profit before taxation	784	578
Expected tax charge based on a corporation tax rate in the UK of 20.00% (2015: 20.25%)	157	117
Tax effect of expenses that are not deductible in determining taxable profit	110	111
Effect of change in corporation tax rate	(54)	(13)
Prior year adjustments	121	241
Tax expense for the year	334	456

For the year ended 31 December 2016, the UK rate of 20% is applied.

The Finance (No 2) Act 2015, which provides for reductions in the main rate of corporation tax from 20% to 19% effective 1 April 2017 and to 18% effective 1 April 2020, was substantively enacted on 26 October 2015. Subsequently, the Finance Act 2016, which provided a further reduction in the main rate of corporation tax to 17% effective 1 April 2020, was substantively enacted on 6 September 2016. These rate reductions have been reflected in the calculation of deferred tax at the balance sheet date.

19 Loans and overdrafts

(Continued)

The loans are secured by a fixed and floating charge over all the assets of the Group and a charge over the shares of the Group.

Senior debt

On 3 April 2014 the Group entered into a principal loan agreement with its parent company for the amount of £24,386,000 bearing an interest rate of 5.65%, stepping up to 5.9% on 30 June 2017. Loan repayments are made in instalments over the life of the loan by 31 December 2032 based on an agreed repayment profile. The principal amount of the Group's unsecured senior debt fixed rate loan notes outstanding at 31 December 2016 was £20,067,000 (2015: £20,511,000). Repayments of £444,000 (2015: £2,724,000) were made during the year and interest accrued as at 31 December 2016 was £286,000 (2015: £98,000).

Subordinated debt

The Group also has a £636,000 unsecured debt fixed rate loan from its parent company due in June 2036 bearing an interest rate of 9.8% per annum. Interest accrued as at 31 December 2016 was £18,000 (2015: £36,000). The loan is repayable on demand, however, the parent company has no intention of demanding repayment until such time as the Group has sufficient funds.

During the previous year, the intercompany loan balance of £108,000 was written off against the subordinated debt.

Provisions for liabilities 20

(Continued)

The Group's decommissioning provision results from its obligation at the end of the license period to return the solar park sites to their original state and condition. The Group has estimated the net. present value of the decommissioning provision to be £831,000 as at 31 December 2016 (2015: £692,000) based on an undiscounted total future liability of £1,182,000 (2015: £1,182,000). The discount factor, being the risk free rate related to the liability, was 1.78% as at 31 December 2016 (2015: 2.58%).

Deferred taxation

Deferred tax assets and liabilities are offset where the Group or Company has a legally enforceable right to
