The Company has determined that the Pound Sterling is its functional currency, as this is the currency of the economic environment in which the company predominantly operates.

**2 PRINCIPAL ACCOUNTING POLICIES**

**a) Basis of accounting**

The financial statements have been prepared under the historical cost convention and in accordance with Financial Reporting Standard 102 Section 1A, the Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland and the Companies Act 2006. **b) Turnover**

Turnover represents income receivable from fees charged for the provision of accounting and administrative services.

**c) Investments**

Investments are stated at cost less provision for impairment

**d) Deferred taxation**

Deferred taxation is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

**e) Financial instruments**

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of no more than 24 hours. - e) Trade and other receivable are measured at transaction price less any impairment. Any impairment loss is recognised in the income statement.

The impairment loss is measured as the difference between an asset's carrying amount and best estimate, which is an approximation of the amount that the Company would receive for the asset if it were to be sold at the reporting date.

Financial assets are derecognised when contractual rights to the cash flows from the financial asset expire or are settled, or when substantially all the risks and rewards of ownership have been transferred.

#### **Financial liabilities**

The Company's financial liabilities comprise basic financial liabilities, including trade and other payables, amounts due to members and accruals. These are initially recognised at transaction price and are measured subsequently at amortised cost.

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities.

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.
