#### **Strategic Report**

#### **Principal Activity**

The BUUK Infrastructure No 2 Limited Group ("the Group") owns and operates "last mile" utility distribution systems in locations throughout mainland UK, providing essential services to both residential and commercial premises. The business operates in gas, electricity, fibre, water, waste water and district energy sectors, which are regulated by Ofgem (gas and electricity), Ofcom (fibre) and Ofwat (water and waste water).

#### **Business Model**

The Group competes against other infrastructure providers, including regional utility incumbents, to provide "last mile" utility network solutions to all types of new build developments. Once completed, the Group expects to own and operate these networks in perpetuity. The regulated entities owning and operating the utility assets are known as:

- Gas Independent Gas Transporter (IGT)
- Electricity Independent Distribution Network Operator (IDNO)
- Water New Appointment and Variations (NAV)

For the provision of its distribution networks and infrastructure, the Group charges the gas, electricity and water suppliers a regulated use-of-system tariff.

The Group has also developed similar business models in the provision of fibre optic communications networks and district heating networks.

#### **Financing**

The Group has £1,711.1m of long-term Senior Notes issued in 2013, 2014, 2015, 2016, 2018 and 2020 which have an investment grade credit rating of Baa2 from Moody's Investor Services. Additionally, in July 2022 the Group issued a further £350.0m of long-term Senior Notes, for which funding will be received in April 2023. £226.1m of the funds will be used to repay maturing 2013 10-year notes. The Group's existing short-term facilities totalling £350m expire on 18 September 2024.

# Review of performance during the year to 31 December 2022

# **Key Performance Indicators**

	Year ended	Year ended	Year ended
	31/12/22	31/12/21	31/12/21
		Normalised*	As reported
Revenue (GBP '000)	465,470	391,474	412,487
Adjusted EBITDA¹ (GBP '000)	269,250	244,578	265,400
FFO <sup>2</sup> (GBP '000)	207,139	183,523	204,345
AFFO <sup>3</sup> (GBP '000)	189,248	171,893	192,715
Cumulative Connections (No. of connections)	2,742,157	2,534,987	2,534,987

<sup>\*</sup>Stated excluding 5 months operations of Smart Meter Assets Ltd, disposed of in May 2021, to aid comparability of continuing operations.

Revenue has increased in the year driven by a greater number of connections in place throughout the year, transportation price and volume increases and increased construction activity over 2021. Revenue in 2022 includes £19,472,000 of non-recurring electricity billing in relation to the 'Supplier of Last Resort' process, which BUUK have been required to collect on behalf of Electricity Distribution Network Operators ('DNO's). This revenue is passed through to DNOs and as such is fully offset by an equivalent amount in direct costs, slightly reducing gross profit as a percentage of revenue.

The key financial metrics of EBITDA and FFO show an improvement in performance of the Group compared to both the prior year and the detailed budget for the year, driven by the increased Revenue. However, AFFO has decreased due to an increase in maintenance capital expenditure, compared to prior year.

At the year-end the Group had net assets of £1,266,558,000 (2021: £1,185,505,000).

<sup>&</sup>lt;sup>1</sup> Adjusted EBITDA (Earnings before Interest, Tax, Depreciation and Amortisation) is calculated as Operating Profit adding back depreciation, amortisation, bad debt expense, gains or losses on disposal of fixed assets or subsidiaries and share-based pay expense.

<sup>&</sup>lt;sup>2</sup> FFO (Funds from Operations) is calculated as Adjusted EBITDA less interest expense and tax paid or received.

<sup>&</sup>lt;sup>3</sup> AFFO (Adjusted Funds from Operations) is calculated as FFO less maintenance capital expenditure.

Note – EBITDA, FFO and AFFO are not defined under IFRS and may not be comparable to other organisations.

# **Strategic Report (continued)**

# Future Prospects

A key driver for the future growth of the Group is the general health of the UK residential housing market. As at the end of 2022, the Group had a contracted forward order book to complete approximately 1,520,000 connections across all of its services over the next 5-10 years, up from approximately 1,391,000 connections as at the end of 2021. Any favourable improvement in general economic conditions in the UK that improves the level of enquiries from house builders is generally positive for the Group's businesses. The substantial increases to inflation rates and interest rates in the UK economy in 2022 are not expected to have a significant negative impact on the Group's financial performance or position.

# **Principal Risks and Uncertainties**

The principal risks facing the group are:

#### Regulatory

The Group operates in stable and transparent regulated utility markets in the UK. The Group is not aware of any significant proposed changes impacting the existing regulatory frameworks in which it operates. Any such change could have either a positive or negative impact on our future business prospects. The Group has carried on investing in both regulated and non-regulated markets, diversifying its regulatory risk.

# Health, Safety and Environmental

The Group operates a comprehensive Health, Safety and Environmental framework to ensure that, as far as possible, it eliminates risk to its employees, customers, members of the public and the environment. The Group has an excellent track record in this regard and has culturally aligned itself to improve continually its performance in this area.

#### Liquidity and Interest Rates

The Group has a policy of seeking to have a number of sources of funds and financial instruments at any given time to meet its liquidity needs, as well as maintaining a balanced maturity profile to minimise, as far as possible, peaked repayments and refinancing risk. Debt facilities, as described in note 17, are arranged with appropriate financial and operating covenants, ensuring that management has the necessary flexibility in the operation of its business.

The majority of the Group's existing debt has an unexpired term exceeding 8 years and is subject to a fixed interest rate.

# Cash flow risk

The Group uses derivative financial instruments to manage certain exposures to fluctuations in interest rates, inflation rates and exchange rates. The Group does not hold any speculative financial instruments.

# Credit risk

Whilst the Group is dependent on a number of large customers, the credit risk from the failure of those customers is limited by regulatory regimes. The Group takes appropriate measures to reduce credit risk to a manageable level and has strict procedures to manage credit risk relating to trade receivables. Further information in relation to measures taken to address this are include in note 19.

# Strategic Report (continued)

# Statement by the Directors in performance of their statutory duties in accordance with s172(1) Companies Act 2006

The Board of Directors are presented with and review a wide range of papers relating to different stakeholders. The papers are discussed at Board meetings and form the basis by which policies and actions of the business are developed and, through this process, the Board have identified the key stakeholders. The Board consider that, both individually and together, they have acted in the way they consider, in good faith, would be most likely to promote the success of the Group for the benefit of its members as a whole in the decisions taken during the year and, in doing so, have had regard to the stakeholders and matters set out in s172(1) (a-f) of the Companies Act 2006.

The Board of Directors' intention is to behave responsibly and to ensure that management operate the business in a responsible manner to maintain a reputation for high standards of business conduct. The Board of Directors also recognise the importance of behaving fairly between the members of the company.

The Board of Directors aim to create a balance between the development of opportunities with our customers, stimulating and rewarding our staff, working with and supporting our local communities, sustaining the environment in which we operate, interact with and comply with policies of the relevant regulators and engage in positive relationships with lenders. The following disclosures describe how the Board of Directors has had regard to the matters set out in section 172(1) (a-f) in respect of the Group's stakeholders and forms the Directors' Statement required under Section 414CZA of The Companies Act 2006.

# Engagement with Employees

We aim to create, develop and retain highly motivated people and teams who are equipped with the necessary competencies and skills to perform highly and who demonstrate our core values.

We support and engage with our people in a range of ways:

Stimulating positive and responsive communication

- Company news is always available to employees through the Company's intranet
- Conduct quarterly cascade team briefings to keep employees appraised of business performance and industry changes followed by Q&A opportunities
- Regularly circulate internal magazines and articles
- Provide a platform where the business can pose challenges to employees for ideas and where employees can also
  post other ideas or questions
- Conduct annual face to face Directors presentations to encourage two-way communication
- Introduction of E-cards for employees to celebrate their colleagues' successes based on living our Core values.

Our ongoing commitment to the Great Place to Work® scheme also ensures we remain focused on the business benefits of high employee engagement, resulting in our business being an employer of choice for both existing and new colleagues.

Engagement is measured by a yearly employee survey and Culture Audit. The feedback we receive from employees is where we focus our attention to improve working practices for our colleagues. BUUK have ranked as one of the UK's Best Workplaces™ for five consecutive years and in two consecutive years have ranked in the UK's Best Workplaces™ for Women. In 2023 BUUK now also rank in the UK's Best Workplaces™ top 10 Super Large organisations for Wellbeing.

As a result of listening to our employees we have implemented the following initiatives:

- Enhanced Maternity, Paternity and Adoption Leave
- Dedicated Wellbeing Programme
- Volunteering Programme Providing leave for colleagues to help with the local community or charities
- Science, Technology, Engineering & Maths (STEM) Programme -building bridges between education & employment
- Increased employee recognition for outstanding work linked to our Core values
- Discounted FitBits to encourage colleagues to be more active
- Aspiring Managers Programme
- Leadership & Management Programme

The feedback loop created by the communication has led to the development and enhancement of policies which enhance the working environment and benefits employees receive.

# Strategic Report (continued)

Statement by the Directors in performance of their statutory duties in accordance with s172(1) Companies Act 2006 (continued)

Supporting appropriate learning and development opportunities

- Offer a dual utility engineering apprenticeship scheme
- Offer a Graduate Development Programme
- Annual process to identify training needs backed by investment in development for staff

# Supporting our staff to realise their full potential

- Offer a flexible employee benefits scheme
- Employee assistance programmes including stress counselling and medical information services
- Dedicated Health and Wellbeing Committee established
- Offer regular employee social events
- Maintaining a safe, healthy and sustainable working environment for our staff, those we work for and for the general public
- Work Safe, Home Safe platform for staff to commit to building a positive safety culture irrespective of role or responsibility
- Opportunities to work with the onHand charity partner to undertake volunteering opportunities during work time.

#### Equal opportunities

A fair and equal opportunities culture is operated throughout the Group. Employment opportunities, whether in the recruitment, training or promotion of employees, are granted on merit irrespective of race, colour, religion, national origin, age, gender, disability or sexual orientation.

Full consideration and equal opportunities are given to employment applications from disabled persons with due regard to the requirements of the job. Where existing employees become disabled every effort is made to provide opportunities for continued employment within the Group supported with training and development as appropriate.

# **Business Relationships**

We recognise the importance of engaging with the Group's suppliers and customers and the need to foster relationships with them.

# Customers

- Customer satisfaction is closely monitored across the Group via two key metrics, Net Promoter Score (NPS) and
  Customer Effort Score (CES). Results of these surveys are used to recognise where we are making customer
  journeys difficult and ensure that we are adding value wherever possible.
- Customer feedback is reviewed by Senior Management continuously and used to create positive outcomes. A
  recent example has been increasing the number of GTC project managers to make it easier for customers to get
  in contact.

# Suppliers

- Corporate social responsibility is a key selection and approval criteria for suppliers
- Group corporate social responsibility requirements are communicated to all suppliers and are accessible on our websites
- Collaborative working with suppliers is critical to the business, an example being the way a key supplier delivers stock to sites has been enhanced and automated to ensure stock is available at critical times.

# Strategic Report (continued)

Statement by the Directors in performance of their statutory duties in accordance with s172(1) Companies Act 2006 (continued)

#### Regulators

We have a positive relationship with our regulators and are focused on maintaining this and ensuring we act in a way which is open and transparent. We regularly liaise with our regulators at different levels and through a variety of "touch points" with regulatory and government departments to ensure the business evolves alongside any regulatory changes. Our engagement includes:

- Actively participating in strategic regulatory reviews through industry working groups, consultation responses and one to one meetings;
- Engaging with government departments and regulators on a one to one basis and through broader industry groups to promote industry change;
- Responding to regulatory consultations and requests for information;
- Meeting with regulators to promote industry change or to develop solutions to potential concerns;
- Hosting visits to our offices or to sites where we operate to demonstrate how our business model of operating in a multi-utility world brings value to customers.

The Board receive regular updates on regulatory interaction and are committed to complying with all relevant regulatory requirements and continue to closely monitor the status of our regulatory relationships, enhancing engagement across key regulatory changes.

#### Lenders

We actively engage with banks and other lenders to foster a strong relationship. The Board proactively ensures compliance with all borrowing covenants and has an open dialogue with lenders to manage the financing needs of the business.

- Proposals are prepared and reviewed with our lenders for all significant decisions pertinent to those lenders
- Lenders are kept up to date by sharing quarterly accounts and budget information

# Communities and Environment

In the Global Real Estate Sustainability Benchmarking (GRESB) survey undertaken in 2022 BUUK achieved its highest ever score of 95% and was awarded five stars. BUUK were also recognised as sector leaders. The GRESB is the leading environmental, social and governance benchmark for retail and infrastructure investments across the world with this year's survey including 649 companies from 71 countries.

BUUK recognises the impacts that it has on the community and the environment and seeks to make a positive difference in the places where it operates. In 2022:

- 235 employees were actively involved in volunteering activities, undertaking 1,225 community and environmental 'missions' including planting 1,923 trees.
- BUUK ambassadors promoted STEM subjects and opportunities at schools and university events.
- Gave work experience opportunities to six students from local schools and had five people on new apprenticeships.
- Developed a new decarbonisation plan for BUUK Energy Centres, a major source of Scope 1 emissions.
- All offices and depots, where BUUK control the electricity contractual arrangements, now on 100% renewably sourced supply contracts, with Energy Centres using 50% renewable supplies.
- Energy Savings Opportunities Scheme (ESOS) has been implemented at Head Office.
- The first iteration of Net Zero Carbon by 2050 roadmap has been completed and work is ongoing to implement the
  emissions reduction measures identified.
- Promotion of electric vehicles in BUUK's fleet, with EV charging points for staff and visitors at Head Office.
- Continuing sector-leading project to reduce unnecessary plastic packaging in BUUK's supply chain.
- Continued partnership with an IT provider to collect end of life IT assets. In 2022 149 computers, laptops and tablets
  were restored and reused, including some by charities.

# Strategic Report (continued)

Statement by the Directors in performance of their statutory duties in accordance with s172(1) Companies Act 2006 (continued)

Communities and Environment (continued)

- We have sourced a sustainable service provider in relation to end-of-life gas meters, which results in 98% of all
  constituent materials being recycled and reused.
- A new Climate Change Adaptation Plan was developed in 2022 and work is ongoing to mitigate the future risks.
- Maintained ISO 14001 environmental accreditation, with no areas for corrective or improvement action identified.

# Streamlined Energy and Carbon Reporting (SECR)

BUUK has appointed Carbon Footprint Ltd, a leading carbon and energy management company, to independently assess its Greenhouse Gas (GHG) emissions in accordance with the UK Government's 'Environmental Reporting Guidelines: Including Streamlined Energy and Carbon Reporting Guidance'.

The GHG emissions have been assessed following the ISO 14064-1:2018 standard and has used the 2022 emission conversion factors published by Department for Environment, Food and Rural Affairs (Defra) and the Department for Business, Energy & Industrial Strategy (BEIS). The assessment follows the dual reporting approach for assessing Scope 2 emissions from electricity usage. The financial control approach has been used.

The table below summarises the GHG emissions for reporting year: 1 January 2022 to 31 December 2022. As a business we have been assessing our carbon emissions since 1 January 2020 and have provided last year's assessment results for comparison.

Scope	Activity	2022 Location based (tCO2e)	2022 Market based	2021 Location based	2021 Market based
Scope 1	Site gas	9,589.35	(tCO2e) 9,589.35	<b>(tCO2e)*</b> 9,117.40	<b>(tCO2e)*</b> 9,117.40
	Van travel and distribution	5,265.36	5,265.36	3,397.50	3,397.50
	Company car travel	1,750.44	1,750.44	1,343.37	1,343.37
	Lorry freight (owned)	149.95	149.95	141.70	141.70
	Site Burning Oil (Kerosene)	13.97	13.97	n/a	n/a
	Site LPG	3.43	3.43	n/a	n/a
	Refrigerants	n/a	n/a	29.33	29.33
Scope 1 S	ub total	16,772.49	16,772.49	13,887.60	13,887.60
Scope 2	Purchased Electricity	638.10	169.75	640.47	223.70
Scope`2 S	ub total	638.1	169.75	640.47	223.70
Scope 3	Well to tank	2,350.28	2,222.80	2,758.52	2,576.99
	Employee-owned travel (grey fleet)	107.81	107.81	42.47	42.47
	Electricity transmission & distribution	58.37	13.70	56.68	19.80
	Company electric vehicles (charged off-site)	6.84	6.84	n/a	n/a
Scope 3 S	ub total	2,523.30	2,351.15	2,857.67	2,639.26
Total toni	nes of CO2e	19,933.89	19,293.40	17,385.74	16,750.56
Tonnes of	f CO2e per employee	9.82	9.51	9.92	9.56
Tonnes of	f CO2e per £M turnover	42.83	41.45	43.07	41.50
Total ene	rgy consumption (kWh)**	84,987,509	84,987,509	66,975,682	66,975,682

<sup>\*2021</sup> Owned vans emissions adjusted to split out Lorry freight (owned) for comparability to 2022 categories.

<sup>\*\*</sup>Total Energy Consumption includes Purchased Electricity, Electricity Generated from Solar Panels, UK Site Gas (for electricity generation and for internal consumption), UK Site Burning Oil (Kerosene), UK Site LPG, Company Owned Vehicles, Refrigerants, and Employee-owned vehicles (grey fleet).

### Strategic Report (continued)

Streamlined Energy and Carbon Reporting (SECR) (continued)

The increase in location based carbon footprint compared to 2021 is predominantly due to a rise in emissions from natural gas consumption at our sites. This is largely due to significant growth of business activity within our Metropolitan Heat business. Additionally a significant increase in van travel, in line with increased headcount. The increase is further driven by the first full year of Passiv UK Limited emissions, which was acquired in April 2021.

A number of key actions have been taken during the year to improve energy efficiency. These include tangible changes, such as implementation of an Energy Savings Opportunities Scheme (ESOS) at Head office and movement of offices and depots onto 100% renewably sources supply contracts. This is alongside regular engagement and education of employees on energy saving options, examples of which include continuing promotion of electric vehicles, including the fleet policy, and raising awareness of key sources of waste at home and in BUUK.

#### The Future of Heat

UK Government issued the Heat and Building Strategy (HABS) in October 2021, which sets out how the UK will decarbonise existing homes, as part of the path to achieve net zero by 2050. This includes the scaling up of trials to produce hydrogen along with use of the existing gas network. HABS also covers the potential deployment of hybrid heat pumps in homes connected to the gas grid. Early deployment of hybrid heat pumps would predominantly be expected to be in combination with natural gas boilers. In the longer-term hydrogen could displace this fossil fuel use. Government is progressing trials for both hydrogen and hybrid heat pumps to help determine the strategy for energy transformation, this includes the deployment of hybrid heat pumps in the Government's Electrification of Heat trial.

The UK Hydrogen Strategy published in August 2021 further sets out the UK Government's comprehensive approach to growing a UK hydrogen economy, including use of the existing gas network. Taking this into consideration along with the published HABS, BUÜK expect its existing gas infrastructure assets to continue to be an essential part of the supply of heat for decades to come.

This report was approved by the Board on 31 March 2023 and signed on its behalf.

D Corney Director

# Registered number: 08246443

**Directors' Report** 

The Directors present their annual report and audited financial statements for the Group and Company for the year ended 31 December 2022.

#### Information

BUUK Infrastructure No 2 Limited is a private Company limited by shares incorporated in the United Kingdom under the Companies Act 2006 and registered in England and Wales, registration number 08246443. The Company's registered address is Synergy House, Woolpit Business Park, Woolpit, Bury St Edmunds, Suffolk, IP30 9UP.

Details of the Group's future developments, equal opportunities, employee engagement, business relationships and Streamlined Energy and Carbon Reporting (SECR) can be found in the Strategic Report.

#### Results and dividends

The results for the year are shown in the Consolidated Income Statement on page 15. The profit for the year, after taxation, amounted to £78.9m (2021: £139.8m).

During the year interim dividends were approved and paid of £60.0m (2021: £330.0m). The Directors do not propose the payment of a final dividend (2021: £nil).

#### Directors

The Directors who served during the year and to the date of this report, unless otherwise stated, are as follows:

D Corney

C Linsdell

G Montesi

P Sim

N Hindle (appointed 8 April 2022)

C Teskey (resigned 12 January 2022)

# Directors' responsibilities statement

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom adopted international accounting standards. Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, International Accounting Standard 1 requires that directors:

- properly select and apply accounting policies;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- provide additional disclosures when compliance with the specific requirements of the financial reporting
  framework are insufficient to enable users to understand the impact of particular transactions, other events and
  conditions on the entity's financial position and financial performance; and
- make an assessment of the company's ability to continue as a going concern.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

#### Directors' Report (continued)

# **Going Concern**

The Directors have a reasonable expectation that the Company has adequate resources to continue to adopt the going concern basis in preparing the annual report and financial statements. Further details regarding the adoption of the going concern basis can be found in Note 2 of the financial statements.

On the basis of the financing facilities available together with the business plans which confirm the adequacy of the current facilities for a period of at least the next 12 months, and which support the proposed funding strategy in the longer term, the Directors have a reasonable expectation that the Group has adequate resources to continue in operation for the foreseeable future. Accordingly, the Directors continue to adopt the going concern basis in preparing the financial statements.

# Directors' indemnities

Qualifying third party indemnity provisions (as defined by section 234 of the Companies Act 2006) were in force during the year for the benefit of the then Directors and, as at the date of this report, remain in force for the benefit of the current Directors in relation to certain losses and liabilities which they may incur in connection with their duties, powers or office.

# Directors' statement as to disclosure of information to auditor

The Directors confirm that, so far as the Directors are aware, there is no relevant audit information of which the Company's auditor is unaware, and the Directors have taken all the steps that they ought to have taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information. This confirmation is given and should be interpreted in accordance with the provisions of S418 of the Companies Act 2006.

#### **Auditor**

Deloitte LLP has expressed its willingness to continue in office as auditor and a resolution to reappoint them will be proposed at the forthcoming Annual General Meeting.

# Financial risk management

Details of the Group's financial risk management objectives and policies can be found in note 19 of the financial statements.

This report was approved by the Board on 31 March 2023 and signed on its behalf.

D Corney Director

#### Independent Auditor's Report to the members of BUUK Infrastructure No 2 Limited

# Report on the audit of the financial statements

#### Opinion

In our opinion:

- the financial statements of BUUK Infrastructure No 2 Limited (the 'parent company') and its subsidiaries (the 'group') give a true and fair view of the state of the group's and of the parent company's affairs as at 31 December 2022 and of the group's profit for the year then ended;
- the group financial statements have been properly prepared in accordance with United Kingdom adopted international accounting standards and International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB):
- the parent company financial statements have been properly prepared in accordance with United Kingdom adopted
  international accounting standards and as applied in accordance with the provisions of the Companies Act 2006; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the consolidated income statement;
- the consolidated statement of comprehensive income;
- the consolidated and parent company statement of financial position;
- the consolidated and parent company statement of changes in equity;
- the consolidated and parent cash flow statements; and
- the related notes 1 to 28.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom adopted international accounting standards and, as regards the parent company financial statements, as applied in accordance with the provisions of the Companies Act 2006.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the group and the parent company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's and parent company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

# Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

# Independent Auditor's Report to the members of BUUK Infrastructure No 2 Limited (continued)

#### Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

# Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. 'Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

# Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the group's industry and its control environment, and reviewed the group's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management and the directors about their own identification and assessment of the risks of irregularities, including those that are specific to the group's business sector.

We obtained an understanding of the legal and regulatory frameworks that the group operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the financial statements. These included UK Companies Act and tax legislation; and
- do not have a direct effect on the financial statements but compliance with which may be fundamental to the group's ability to operate or to avoid a material penalty. These included regulatory license for parts of the group's business including Ofgem, Ofcom and Ofwat.

We discussed among the audit engagement team including relevant internal specialists such as IT specialists regarding the opportunities and incentives that may exist within the organisation for fraud and how and where fraud might occur in the financial statements.

As a result of performing the above, we identified the greatest potential for fraud in the presumed significant risk of fraud in revenue recognition, focusing specifically on connections revenue being incorrectly recorded due to management manipulation by adding fictitious customers, or adjusting total contributions. Our specific procedures performed to address this risk included testing the design, implementation and operating effectiveness of the controls around connections revenue. Sampling of, and agreeing projects, to a signed acceptance of quote and (if applicable) variation, recalcultaion of the revenue to be recognised based on the audited costs incurred and audited developer contribution.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

# Independent Auditor's Report to the members of BUUK Infrastructure No 2 Limited (continued)

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management and external legal counsel concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reading minutes of meetings of those charged with governance and reviewing correspondence with HMRC.

### Report on other legal and regulatory requirements

# Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the group and of the parent company and their environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

# Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

# Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

#### 1 General information

BUUK Infrastructure No 2 Limited is a private Company limited by shares incorporated in the United Kingdom and registered in England and Wales. The Company's registered address is Synergy House, Woolpit Business Park, Woolpit, Bury St Edmunds, Suffolk, IP30 9UP.

The principal activities of the Company and its subsidiaries (the Group) and the nature of the Group's operations are set out in the strategic report on pages 3 to 9.

The financial information is presented in pounds sterling, rounded to the nearest thousand, because that is the currency of the primary economic environment in which the Group operates.

# 2 Basis of preparation

#### Basis of accounting

The financial statements have been prepared in accordance with UK-adopted international accounting standards and with International Financial Reporting Standards as issued by the IASB.

The consolidated and Company financial information has been prepared under the historical cost convention, except for the revaluation of financial instruments and certain properties, plant and equipment that are measured at revalued amounts or fair values at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for the assets. The principal accounting policies adopted are set out below and on the following pages.

#### Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2 and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

# Basis of consolidation

The consolidated financial statements present results for the Company and its subsidiaries for the two 12 month periods ending 31 December 2021 and 2022.

A subsidiary is an entity controlled by the group. Control is achieved when the group is exposed to, or had rights over, variable returns from its investment and the ability to affect those returns through power over the financial and operating policies of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

# Going concern

The Group is cash generative and holds a Baa2 (investment grade) rating from Moody's. The rating was reconfirmed by Moody's in May 2022. At the date of approval of the financial statements the Group has undrawn committed facilities of £202.5m, with a syndicate of banks, of which £133.9m is available for general corporate purposes and £68.5m is linked to future capital expenditure. These facilities were renewed in 2019 and are due to expire on 18 September 2024.

The Group has Senior Secured Loan notes denominated in GBP (£1,510m) and US\$ (\$300m). The loan notes incur a fixed rate of interest and cross currency interest rate swaps have been taken out to fix the US\$ denominated interest and capital repayments. The Group's borrowings have an average remaining maturity of c.8.8 years with maturity dates ranging from 2023 to 2048. Amounts totalling £226m fall due for repayment in April 2023. The Group intends to meet this obligation through the issue of new Senior Secured Loan Notes which were signed in July 2022 to be received in advance of the repayment date.

#### 2 Basis of preparation (continued)

The Company is partially financed by intercompany debt, the majority of which has long-term agreements. Debt with no specific agreement is held as under 1 year. The directors have received assurances that the company will have access to the BUUK Group's financial resources for a period of at least one year from the date of signing of the financial statements, that companies in the BUUK Group will not demand repayment of any inter-company debt where the company does not have the financial resources to effect such payment, and that this financial support will be sufficient for the company to continue to trade and meet its obligations as they fall due. The Group's forecasts, taking into account reasonable possible changes in trading performance, show that the Company should have adequate resources to continue in operational existence for the foreseeable future.

Given the above, the Directors have a reasonable expectation that the Company can continue to meet its liabilities as they fall due, for a period of at least 12 months from the date of this annual report. Accordingly, they have prepared the financial statements on the going concern basis.

# Adoption of new and revised standards

The Group has not applied the following new and revised IFRSs that have been issued but are not yet effective:

IFRS 16 (amendments) COVID 19 Related Rent Concessions beyond 30 June 2021

**IFRS 17 Insurance Contracts** 

IFRS 17 (amendments)

IAS 1 (amendments) Classification of Liabilities as Current or Non-current

IAS 1 (amendments) Classification of Liabilities as Current or Non-current - Deferral of Effective Date

IFRS 4 (amendments) Extension of the Temporary Exemption from Applying IFRS 9

IAS 1 and IFRS Practice Statement 2 (amendments) Disclosure of Accounting Policies

IAS 8 (amendments) Definition of Accounting Estimates

IAS 12 (amendments) Deferred Tax related to Assets and Liabilities arising from a Single Transaction

IFRS 17 (amendments) Initial application of IFRS 17 and IFRS 9 – comparative information

IFRS 16 (amendments) Lease Liability in a Sale and Leaseback

IAS 1 (amendments) Non-current Liabilities with Covanents

The below new and revised standards came into effect during the year ended 31 December 2022. They have not had any significant impact on these financial statements.

IAS 16 (amendments) Property, Plant and Equipment – Proceeds before Intended Use

Annual Improvements to IFRS Standards 2018–2020

IFRS 3 (amendments) Reference to the Conceptual Framework

IAS 37 (amendments) Onerous Contracts - Cost of Fulfilling a Contract

The Directors anticipate that the adoption of the above Standards and Interpretations in future periods will not have a significant impact on these financial statements, except for additional disclosures, when the relevant standards come into effect.

# Critical accounting judgments and key sources of estimation uncertainty

In the application of the Group's accounting policies, which are described in Note 3, the directors are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

# Critical judgments in applying the Group's accounting policies

The Directors consider that there are no critical judgements to be disclosed that have been made in the process of applying the Groups accounting policies which have a significant effect on the amounts recognised in the financial statements.

# 2 Basis of preparation (continued)

# Key sources of estimation uncertainty

The following are key sources of estimation uncertainty at the statement of financial position date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

 Discount rate and long-term terminal growth rate used to determine the carrying amount of the Group's Infrastructure Assets:

Infrastructure Assets are stated in the statement of financial position at their re-valued amounts (with the exception of assets in the course of construction which are measured at cost), being the fair value at the date of revaluation, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations are performed by the Directors at each statement of financial position date. In determining the fair value at the statement of financial position date, the Directors use the income approach. The income approach requires the Directors to estimate the future cash flows expected to arise from the Infrastructure Assets and to discount those cash flows using a suitable discount rate in order to determine present value.

The discount rate applied by the Directors is an equity discount rate determined using various market based assumptions. Significant judgment is required when determining the risk premium to be applied in determining a suitable equity discount rate. The long-term terminal growth rate has been determined based on a combination of past experience, current order-book and management's expectations of future growth rates in the industry.

Details of the fair value calculation are set out in Note 12. As outlined in that note, a change in the discount rate or long-term terminal growth rate could have a significant impact on the calculated fair value.

# 3 Significant accounting policies

#### Fair value of derivatives and other financial instruments

As described in Note 19, the Directors use their judgment in selecting an appropriate valuation technique for financial instruments not quoted in an active market. Valuation techniques commonly used by market practitioners are applied. For derivative financial instruments, assumptions are made based on quoted market rates adjusted for specific features of the instrument. Other financial instruments are valued using a discounted cash flow analysis based on assumptions supported, where possible, by observable market prices or rates.

# Goodwill

Goodwill arising on the acquisition of a business, representing the difference between the cost of acquisition and the fair value of the identifiable net assets acquired, is capitalised and is tested annually for impairment. Goodwill is not amortised, and any impairment losses are not subsequently reversed. On the subsequent disposal or discontinuance of a previously acquired business, the relevant goodwill is dealt with in the income statement except for the goodwill already charged to reserves.

# Impairment of goodwill

The Group determines whether goodwill is impaired on at least an annual basis or more frequently when there are indicators of possible impairment. The impairment review requires an enterprise value calculation of the Group. In estimating the enterprise value, management is required to make an estimate of the expected future cash flows attributable to the Group and to choose an appropriate discount rate to calculate the present value of those cash flows. Further details are given in Note 9.

# 3 Significant accounting policies (continued)

#### Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods and services provided in the normal course of business, net of discounts, VAT and other sales-related taxes.

#### Connections revenue

Revenue is recognised on developer contributions in accordance with IFRS 15 (Revenue from Contracts with Customers). For connections revenue paid by developer customers, the performance obligation is satisfied when the construction of the new housing development progresses and the developer can add value to the land or sell domestic properties. This is judged to be on a percentage of completion of that infrastructure with reference to the whole-life contract costs.

There is a direct relationship between the inputs (spend on infrastructure) and the satisfaction of the performance obligation (delivery of a distribution network). As the input costs are incurred the customer's asset is enhanced and progress is made towards meeting the performance obligation.

Typical payment terms are immediately on receipt of a signed contract.

#### Transportation revenue

Transportation revenue largely comprises sales value derived from the transportation of gas, electric, fibre, water and waste, including an assessment of the value of services provided, but not invoiced, at the period end. It excludes value added tax and intra-group sales.

The sales value for the transportation of utilities is largely determined from the number of connections and capacity sold for the year, evaluated at contractual prices on a monthly basis. The customers for the transportation of utilities are energy suppliers, internet service providers and direct to households in the case of water and waste. The single performance obligation for these revenue streams is deemed to be the provision of the relevant utility services between the regional distribution network to the end consumers. The performance obligation is satisfied over time as the energy suppliers, internet service providers and households immediately control and consume the benefits that BUUK provides by having a network available. Although certain elements of the revenue are invoiced separately, the services are not distinct (the nature of the promise is to transfer a combined service) and only one performance obligation exists.

Income from energy suppliers, internet service providers and households is governed by the credit rules within each utility's industry code, or by reference to specific contracts. Payment terms are typically 14-30 days depending on the utility.

Revenue arising in relation to 'Supplier of Last Resort' (SoLR) process amendments, made in April 2022, is pass-though in nature and recognised in accordance with IFRS 15. Electricity revenue is recognised gross, when services are provided, with costs presented within cost of sales. Gas revenue is recognised net of costs, when services are provided, resulting in a nil impact in revenue.

# Construction revenue

Where the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the statement of financial position date. This is normally measured by the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs, except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable. Where the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred where it is probable they will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

# Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

# 3 Significant accounting policies (continued)

# **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred. Arrangement fees which are incurred in relation to long-term financing are amortised over the life of the associated finance using the effective interest rate method.

#### **Taxation**

The tax expense represents the sum of the tax currently payable and deferred tax.

#### Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the statement of financial position date.

#### Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the statement of financial position liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised.

Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted at the statement of financial position date.

# Current tax and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except where they relate to items that are recognised in other comprehensive income or directly in equity, in which case the current and deferred tax are also recognised in other comprehensive income or directly in equity as appropriate. Where current or deferred tax arises from initial accounting for a business combination, the tax effect is included in accounting for the business combination.

# 3 Significant accounting policies (continued)

# Property, plant and equipment

#### Initial measurement

Plant and equipment is stated at cost less accumulated depreciation and impairment losses. The cost of a tangible fixed asset comprises its purchase price and any costs directly attributable to bringing it into working condition for its intended use. The cost of self-constructed assets includes the cost of materials, direct labour and an appropriate proportion of production overheads.

Buildings held for use in the production or supply of goods or services or for administrative purposes are stated in the statement of financial position at cost less accumulated depreciation and impairment losses.

As stated in Note 2, completed Infrastructure Assets are stated in the statement of financial position at their re-valued amounts, being the fair value at the date of revaluation, less any subsequent accumulated depreciation and subsequent accumulated impaired losses.

Any revaluation increase arising on the revaluation of Infrastructure Assets is credited to a revaluation reserve, except to the extent that it reverses a revaluation decrease for the same asset previously recognised as an expense, in which case the increase is credited to the income statement to the extent of the decrease previously expensed. A decrease in carrying amount arising on the revaluation of such Infrastructure Assets is charged as an expense to the extent that it exceeds the balance, if any, held in the revaluation reserve relating to a previous revaluation of that asset.

Infrastructure assets in the course of construction are carried at cost, less any recognised impairment loss.

#### Depreciation

The cost of each item of property, plant and equipment is depreciated over its useful life. Depreciation is charged to the income statement so as to write-off the cost less estimated residual value on a straight-line basis over the estimated useful life of the asset. Depreciation commences on the date the assets are available for use and the asset carrying values are reviewed for impairment when there is an indication that they may be impaired. Freehold land and assets in the course of construction are not depreciated.

Infrastructure assets (infrastructure, mains, meters, inverters)	1.25% to 10%
Plant and machinery	20% to 33%
Ruildings	2%

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

# Inventories

Inventories are stated at the lower of cost and net realisable value. Costs comprise direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price less, all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

# Cash and cash equivalents

For the purposes of the consolidated and Company statement of cash flows, cash and cash equivalents include cash on hand and in banks, net of any outstanding bank overdrafts.

# 3 Significant accounting policies (continued)

#### Financial instruments

#### Recognition

The Group recognises financial assets and liabilities in its statement of financial position when it becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

#### Measurement

When financial assets and liabilities are initially recognised, they are measured at fair value being the consideration given or received plus directly attributable transaction costs. In determining estimated fair value, investments are valued at quoted bid prices on the trade date. When quoted prices on an active market are not available, fair value is determined by reference to price quotations for similar instruments traded.

Loans and receivables comprise loans and advances other than purchased loans. Loans and receivables are initially recognised in accordance with the policy stated above and subsequently re-measured at amortised cost using the effective interest method less any impairment. Allowance for impairment is estimated on a case-by-case basis.

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs and subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial derivative liabilities that are not classed as hedges are initially and subsequently held at fair value through profit or loss. Fair value is determined as being the discounted value of the expected future cash flows expected to arise from the transactions.

The Group use interest rate and cross currency swaps as derivative financial instruments to hedge risks associated with interest rate and exchange rate fluctuations. The cross currency swaps are designated as cash flow hedges. At the inception of the hedge relationship, the Group documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument that is used in a hedging relationship is highly effective in offsetting changes in cash flows of the hedged item. Note 19 sets out details of the fair values of the derivative instruments used for hedging purposes.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income. The gain or loss relating to the ineffective portion is recognised immediately in the income statement and is included in the 'other gains and losses' line item.

Amounts deferred in equity are recycled in the income statement in the periods when the hedged item is recognised in the income statement, in the same line of the income statement as the recognised hedged item. However, when the forecast transaction that is hedged results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously deferred in equity are transferred from equity and included in the initial measurement of the cost of the asset or liability.

Hedge accounting is discontinued when the Group revokes the hedging relationship, the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Any cumulative gain or loss deferred in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in the income statement. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was deferred in equity is recognised immediately in the income statement.

A derivative with a positive fair value is recognised as a financial asset whereas a derivative with a negative fair value is recognised as a financial liability. A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

# Derecognition

A financial asset is derecognised when the Group loses control over the contractual rights that comprise that asset. This occurs when the rights are realised, expire or are surrendered. A financial liability is derecognised when it is extinguished. Originated loans and receivables are derecognised on the date they are transferred by the Group.

# 3 Significant accounting policies (continued)

# Financial instruments (continued)

# Impairment of financial assets

The Group assesses at each statement of financial position date whether there is any objective evidence that a financial asset or group of financial assets is impaired. A financial asset or group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

The Group recognises loss allowances in the Income Statement for the expected lifetime credit losses on financial assets.

#### Retirement benefits

Payments to defined contribution retirement benefit schemes are recognised as an expense when employees have rendered the service entitling them to the contribution.

Equity settled share-based payments are measured at the fair value of the equity instruments at the grant date. The fair value excludes the effect of non-market-based vesting conditions. Details regarding the determination of the fair value of equity-settled share-based payment transactions are set out in Note 22.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest. At each statement of financial position date, the Group revises its estimate of the number of equity instruments expected to vest as a result of the effect of non-market based vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to equity reserves.

# Intangibles

Intangible assets acquired as part of a business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired as part of a business combination are reported at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over the estimated useful life of the asset. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

# Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

# The Group as a lessee

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability, adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use assets or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the-right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option.

# 3 Significant accounting policies (continued)

#### Leases (continued)

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

# **Business combinations**

Acquisitions of subsidiaries and businesses are accounted for using the acquisition method except for acquisitions of subsidiaries already under common control. The consideration for each acquisition is measured at the aggregate of the fair values (at the date of exchange) of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

Where applicable, the consideration for the acquisition includes any asset or liability resulting from a contingent consideration arrangement, measured at its acquisition-date fair value. Subsequent changes in such fair values are adjusted against the cost of acquisition where they qualify as measurement period adjustments (see below). All other subsequent changes in the fair value of contingent consideration classified as an asset or liability are accounted for in accordance with relevant IFRSs. Changes in the fair value of contingent consideration classified as equity are not recognised.

Where a business combination is achieved in stages, the Group's previously-held interests in the acquired entity are remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with IAS 12 Income Taxes and IAS 19 Employee Benefits respectively;
- liabilities or equity instruments related to the replacement by the Group of an acquiree's share-based payment awards are measured in accordance with IFRS 2 Share-based Payment; and
- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred over the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. These provisional amounts are adjusted during the measurement period, or additional assets and/or liabilities recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised as of that date.

# Changes in the Group's ownership interests in existing subsidiaries

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill) and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as permitted by applicable IFRSs).

# 4 Revenue

	Year ended 31 December 2022 £'000	Year ended 31 December 2021 £'000
Continuing operations in the UK		
Gas	139,029	132,504
Electricity	103,396	88,109
Fibre	23,952	19,488
Water & Waste	9,498	6,913
District Energy	7,013	4,493
Smart Metering	_	19,988
Transportation Revenue	282,888	271,495
Connections Revenue	139,439	120,406
Construction Revenue	4,708	8,845
Electricity SoLR Revenue*	19,472	-
Other Revenue	18,963	11,741
Total Revenue	. 465,470	412,487

<sup>\*</sup>Pass-through revenue associated with the Electricity Supplier of Last resort costs recovery process, requiring additional billing by BUUK on behalf of Distrubution Network Operators from April 2022 to April 2023. See revenue recognition policy within note 2 for further detail.

# 5 Investment revenues and finance costs

	Note	Year ended 31 December 2022 £'000	Year ended 31 December 2021 £'000
Interest income on bank deposits		316	14
Investment income recognised on derivative financial instruments		623	623
Net change in fair value of inflation rate swaps		-	-
Total interest income		939	637
Interest on bank overdrafts and loans		(62,264)	(59,306)
Amortisation of arrangement fees		(793)	(912)
Commitment fees		(2,265)	(2,114)
Interest on lease liabilities		(69)	(69)
Net change in fair value of inflation rate swaps	19	-	(3,457)
Total interest expense		(65,391)	(65,858)
Less: amounts included in the cost of qualifying assets		2,170	1,851
Net finance costs recognised in profit or loss		(62,282)	(63,370)

All interest and investment income was earned from loans and receivables (including cash and bank balances). The weighted average capitalisation rate on funds borrowed generally is 3.5% per annum (2021: 3.4%).

# 6 Profit for the year

Profit for the year has been arrived at after charging:

As at 31 December 2022 there were 5 (2021: 5) serving Directors of the Company. Two (2021: three) of these Directors are remunerated for their services by other members of the Brookfield Asset Management Inc Group and so are not reflected in the remuneration disclosed above. The remaining Directors' remuneration disclosed above reflects amounts paid to them for their services to the Group.

8	Tax
Λ.	Tax

	Year ended 31 December 2022 £'000	Year ended 31 December 2021 £'000
(a) Tax charge		
The tax charge is made up as follows		
Current tax:		
Adjustment to prior year	-	1
Current year group relief	<del>-</del> _	243
Total current tax (credit)/charge		244
Deferred tax:		
Adjustment to prior year	209	(323)
Origination and reversal of timing differences	26,707	22,710
Effect of increased tax rate on opening asset and liability		68,866
Total deferred tax charge	26,916	91,253
Tax charge (Note 8(b))	26,916	91,497

# (b) Factors affecting tax charge

The tax assessed on the profit on ordinary activities for the year is lower than the blended standard rate of corporation tax in the UK applicable to the Group in the year of 19.00% (2021 - 19.00%). The differences are reconciled below:

Profit on ordinary activities before tax	105,783	231,329
Standard rate of corporation tax in the UK	19.00%	19.00%
Profit on ordinary activities multiplied by effective rate of corporation tax in the UK	20,099	43,953
Effects of:		
Adjustments to prior year	209	(322)
Expenses not deductible/(Income not taxable) for tax purposes	198	(26,450)
Effect of difference between current and future tax rates	6,410	5,450
Change in corporation tax rate	-	68,866
Total tax charge for year	26,916	91,497

# (c) Factors that may affect future tax charges

The Finance Bill 2021, substantively enacted in May 2021, provided for the main rate of corporation tax rate increase to 25% from 1 April 2023. Accordingly, deferred tax has been calculated using a tax rate of 25%.

	Year ended 31 December 2022 £'000	Year ended 31 December 2021 £'000
Deferred tax	•	
Items that will not be reclassified subsequently to profit or loss: Gains on infrastructure asset revaluations Change in deferred tax rate	(21,224)	(24,783) (62,508)
Items that may be reclassified subsequently to profit or loss:  Cash flow hedges:  Gains arising during the year.	620	20
Gains arising during the year Change in deferred tax rate		(214)

#### 9 Goodwill

	2022 Group £'000	2021 Group £'000
Cost and carrying value	24.100	27.600
At 1 January Additions	24,180 -	27,608 3,483
Disposals	<u>-</u>	(6,911)
At 31 December	24,180	24,180

Goodwill comprises £19,058,000 arising on acquisition of Inexus Group Limited in November 2012, £1,801,000 on acquisition of EPLR Holdings Limited in February 2020 and £3,321,000 on acquisition of trade and assets of Passiv Systems Limited (PSL) on 21 April 2021.

Additions in 2021 relate to recognition of goodwill in relation to the acquisition of the trade and assets of Passiv Systems Limited and further goodwill of £163,000 recognised in relation to EPLR Holdings Limited.

In 2021 the Group disposed of its shareholding in Smart Meter Assets 1 Ltd.

Goodwill has been allocated to the Group as a whole following integration of the relevant businesses.

During the year goodwill was tested for impairment in accordance with IAS 36. In assessing whether an impairment of goodwill is required, the carrying value of the Group's net assets is compared to the fair value of the Group.

The Group calculates fair value using a discounted cash flow model, which estimates the future cash flows and discounts them using a discount rate of 7.2% (2021: 6.5%).

The key assumptions used in estimating the future cash flows are revenue growth, order-book build out rates, margins, capital expenditure growth and finance costs. These assumptions have been based on a combination of past experience, current order-book and management's expectations of future growth rates in the industry. The estimate is based on a 10 year valuation model using internally-approved budgets which are built on detailed RPI-based revenue growth models. A perpetuity calculation is then applied using a long-term growth rate of 2.0% (2021: 2.0%) and based on the final year of the 10 year model, normalised for any known one-off items reflected in year 10. The Directors consider this to be a Level 3 fair value in the hierarchy set out in the Accounting Policies.

On the basis of this assessment, the Directors consider that there is no requirement for impairment of goodwill in the year.

The estimated value in use was only materially sensitive to two input assumptions made in deriving the model – the discount rate and the long term terminal growth rate. A 100 basis point increase in the discount rate would result in a decrease in the value in use of approximately £366m and a 100 basis point decrease in the long term terminal growth rate would result in a decrease in the value in use of approximately £236m. Neither would indicate impairment.

Customer order book amortisation is charged on a straight line basis over 15 years representing the estimated useful life. Amortisation is included in the Income Statement within Depreciation and Amortisation. The remaining amortisation period for the order book is 6 years.

Additions of £426,000 relate to the capitalisation of product development costs.

During the year the customer order book was tested for impairment in accordance with IAS 36. In assessing whether an impairment of the customer order book is required, the same test as described in Note 9 was applied and on that basis the Directors consider that there is no requirement for impairment of the customer order book in the year. The Company does not hold any intangible assets.

#### 12 Property, Plant and Equipment (continued)

Included within land and buildings above are right of use assets with a carrying amount of £2,523,214 (2021: £1,145,028). During the year ended 31 December 2022, there were additions of £2,153,400 (2021: Nil) and depreciation of £775,214 (2021: £814,635) has been recognised in respect of right of use assets.

Infrastructure assets were revalued at the statement of financial position date by the Directors of the Group. The valuation was based on a fair value model which applied an RPI-based revenue growth methodology to a zero-connections growth scenario over a 10 year period using internally-approved budgets which are built on detailed RPI-based revenue growth models. A perpetuity calculation is then used and based on the final year of the 10 year model, normalised for any known one-off items reflected in year 10. The fair value model assumes an annual level of operating costs and maintenance expenditure sufficient only to support the continued operation of the infrastructure assets in existence at the statement of financial position date. The rate used to discount the estimated cash flows was 7.2% (2021: 6.5%). The Directors consider this to be a Level 3 fair value in the hierarchy set out in the Accounting Policies.

The estimated fair value was materially sensitive to two input assumption made in deriving the model – the discount rate and the long-term terminal growth rate of 2% (2021: 2%). A 100 basis point increase in the discount rate would result in a decrease in the fair value of approximately £224m and a 100 basis point decrease in the long-term terminal growth rate would result in a decrease in the fair value of approximately £141m.

The UK Government has set out its emissions target to reach net zero by 2050. The role of gas networks in achieving greenhouse gas emissions reductions targets is currently uncertain. However, BUUK's belief is that the gas assets we own and operate will continue to be in use beyond 2050 and therefore their useful lives remain appropriate.

At 31 December 2022, had infrastructure assets of the Group been carried at historical cost less accumulated depreciation and accumulated impairment losses, their carrying amount would have been approximately £2,405m (2021: £2,163m).

The Company holds no Property, Plant and Equipment.

#### 13 Construction contracts in progress at the statement of financial position date:

	Group	31 December 2022 Group £'000	31 December 2021 Group £'000
	Amounts due from contract customers included in trade and other receivables	57,740	44,044
	Amounts due to contract customers included in deferred income Amounts due to contract customers included in trade and other payables	(36,915)	(34,435) 9,609
	Contract costs incurred plus recognised profits less recognised losses to date	631,048	608,931
	Less: progress billings	(839,837) (208,789)	(753,065) (144,134)
	The Company holds no construction contracts. The Group holds no retentions.		•

		678,430	1,485,287	634,053	1,711,599

Trade payables and accrued expenses principally comprise amounts outstanding for trade purchases and ongoing costs. The average credit period taken for trade purposes is 30 days (2021 - 30 days). The Group has financial risk management policies in place to ensure that all payables are paid within the pre-agreed credit terms.

The Directors consider that the carrying amount of trade payables approximates to their fair values.

Amounts owed to fellow Group undertakings are unsecured and bear interest at between 2.36% and 4.65% (2021: between 2.36% and 4.55%). These amounts are repayable when the corresponding US Private Placement ("USPP") bond debt of the Group, disclosed in note 17, is required to be repaid.

The Company also has in issue £158,539,184 (2021: £158,539,184) of convertible loan notes which are non-interest bearing and which have been classified as equity (see Statement of Changes in Equity). The notes expire in 2044 and are redeemable in cash and/or convertible to equity at any time at the discretion of the Company.

Presented within accruals is £13,639,310 (2021: £13,404,866) of accrued but unpaid interest on the Group's borrowings.

Borrowings are secured by English law governed fixed and floating security over the assets of BUUK Infrastructure No 1 Limited, BUUK Infrastructure No 2 Limited, BUUK Infrastructure Issuer Plc, GTC Infrastructure Limited and certain other non-regulated group companies, and Guernsey law governed security over the shares and related rights in GTC Infrastructure Limited.

#### **Term Loans**

The Group's debt consists of US Private Placement ("USPP") bonds of which £601.1m were issued in 2013, £100m was issued in 2014, £100m was issued in 2015, £285m was issued in 2016, £300m was issued in 2018 and £325m was issued in 2020. These bonds consist of \$300m and £1,510m principal with original maturity dates of between 10 and 30 years and an average remaining maturity of 8.8 years (2021 - 9.8 years). Additionally, in July 2022 the Group issued a further £350m of long-term Senior Notes, for which funding will be received in April 2023. £226.1m of the funds will be used to repay maturing 2013 10-year notes.

In addition, the Group utilises a capex facility (facility 8), a working capital facility (facility C) and a liquidity facility.

Facility B has total available to draw down of £300m of which £130.5m was drawn down at 31 December 2022 (2021 – nil). Interest is charged at SONIA + Credit Adjustment Spread (CAS) + 1.75%. The Facility is drawn in tranches up to 6 months in length and the Group has the ability to rollover each drawdown at its discretion until the maturity of the facility in 2024. It is the Group's current intention to continue to rollover each drawdown, therefore in accordance with IAS 1 the liability is presented as non-current.

Facility C has total available to draw down of £50m of which £17m was drawn down at 31 December 2022 (2021 - nil). Interest is charged at SONIA + CAS + 1.75%.

The Liquidity facility has total available to draw down of £75m of which £nil was drawn down at 31 December 2022 (2021 – nil). Interest is charged at SONIA + CAS + 1.75%.

Current	144,864	78,239
Non-current	63,925_	65,895
,	208,789	144,134

The Group's standard terms of trade require the developer to make their contribution within 14 days of acceptance of the quote for new infrastructure. Upfront payments are held in deferred revenue in the statement of financial position and recognised as revenue in accordance with the percentage completion of the new infrastructure by reference to incurred and anticipated construction spend, in line with the Accounting Policy set out in Note 3. The Company holds no deferred income.

#### 19 Financial instruments and risk management

The Group's capital structure consists of a mixture of long-term fixed rate borrowing, short-term variable rate borrowings, long-term derivative financial instruments, convertible loan notes and ordinary shares. The long-term and short-term borrowings provide, in the opinion of the Directors, an appropriate combination of secured fixed instruments and more flexible, available-on-demand liquidity facilities and working capital, with the Group's capital management objective being to safeguard and support the business as a going concern through the business cycle. The derivative financial instruments exist to hedge risks arising from this capital structure, the main risks being interest rate risk, credit risk, currency risk and liquidity risk. These risks arise from exposures that occur in the normal course of business and are managed by the Group's finance department as well as Bookfield regional management. The responsibilities of the Group's finance department include, among others, the monitoring of financial risks, management of cash resources, debt and capital structure management, approval of counterparties and relevant transaction limits, and oversight of all significant treasury activities undertaken by the Group.

The Group's principal financial instruments comprise borrowings, cash and cash equivalents and derivatives used for risk management purposes. The Group's accounting policies with regard to financial instruments are detailed in note 3.

#### a) Derivatives, financial instruments and risk management

The Group uses derivative financial instruments to manage certain exposures to fluctuations in interest rates, inflation rates and exchange rates. The Group does not hold any speculative financial instruments.

As part of the issue of the fixed rate corporate bonds, the Group has entered into cross currency swaps with notional value \$300m to hedge the potential movement in the USD:GBP exchange rate. The fair value at 31 December 2022 of this instrument is a £47.5m asset (2021 - £22.5m asset) (including IFRS 13 CVA adjustments). The Directors consider this to be a Level 2 valuation in the hierarchy set out in the Accounting Policies in Note 3, with the valuation being calculated by third party experts, Chatham Financial, and based on the discounted value of expected future cash flows arising from the instrument. The Directors have creditrisk adjusted the third party valuations taking into account the creditworthiness of the group. The cross currency swap has been designated as a cash flow hedge. During the year a gain of £25m (2021: costs of £2.8m) has been recognised in other comprehensive income and £26.8m (2021: £2.2m) has been reclassified to profit and loss.

## b) Interest rate risk

The Group has financial assets and liabilities which are exposed to changes in market interest rates. Changes in interest rates primarily impact borrowings by changing their future cash flows.

#### c) Credit risk

counterparty credit risk

Exposure to credit risk arises as a result of transactions in the Group's ordinary course of business and is applicable to all financial assets. Investments in cash and cash equivalents and derivative financial instruments are with approved counterparty banks and other financial institutions. Counterparties are assessed prior to, during, and after the conclusion of transactions to ensure exposure to credit risk is limited to an acceptable level. The maximum exposure with respect to credit risk is represented by the carrying amount of each financial asset on the Statement of Financial Position.

The Group is exposed to credit risk in respect of trade receivables. Whilst the Group is dependent on a number of large customers, the credit risk from the failure of those customers is limited by regulatory regimes therefore credit risk is believed to be limited. The Group is not reliant on any particular customer in the markets in which it operates and there is no significant concentration of credit risk. The Group regularly monitors its exposure to bad debts in order to minimise this exposure.

The Group has strict procedures in place to manage the credit risk on trade receivables. Credit evaluations are performed for all customers and credit limits are established based on internal or external rating criteria. The credit quality of the Group's significant customers is monitored on an on-going basis, and receivables that are neither past due nor impaired are considered of good credit quality.

478

#### 19 Financial instruments and risk management (continued)

There were no material impairments of trade receivables as at 31 December 2022. The solvency of the debtor and their ability to repay the receivables were considered in assessing the impairment of such assets.

#### Ageing

Ageing of past due but not yet impaired receivables:

	31 December 2022	31 December 2021
	Group	Group
	£'000	£'000
Less than 90 Days	59,609	55,136
Greater than 90 Days	20,624	14,031
	80,233	69,167
Bad debt provisions (Note 19 e)	(12,448)	(13,668)
	67,785	55,499

#### d) Credit risk related to other financial assets and cash deposits

Credit risk relating to the Group's other financial assets, principally comprising cash and cash equivalents and derivative financial instruments, arises from the potential default of counterparties. Credit risk arising from balances with banks and financial institutions is managed by the Group's finance department. Investment of cash and deposits are made only with approved counterparties of high creditworthiness and are reviewed on a regular basis to take account of developments in financial markets.

No material exposure is considered to exist by virtue of the possible non-performance of the counterparties to derivative financial instruments and other receivables.

The carrying amount of financial assets represents the maximum credit exposure.

The Group holds no collateral as security in relation to credit advanced to customers nor deposits held at banks.

#### e) Movement in the allowance for expected credit losses

	31 December 2022	31 December 2021
	Group	Group
	£'000	£'000
Balance at the beginning of the year	13,668	11,026
Impairment losses recognised	2,730	5,600
Amounts written off during the year as uncollectible	(3,950)	(2,958)
Balance at the end of the year	12,448	13,668

## f) The value of trade receivables which are due or past due which are impaired:

	31 December 2022 Group £'000	31 December 2021 Group £'000
Between 90 and 120 days	4,310	2,020
Greater than 120 days	13,704	9,491
	18,014	11,511

#### g) Currency risk

The Group has financial liabilities which are exposed to changes in market currency exchange rates. Changes in exchange rates primarily impact borrowings by changing their future cash flows.

The Group uses derivative financial instruments to manage its exposure to fluctuations in exchange rates. The \$300m bonds have been hedged using forward cross currency swap contracts, fixed until April 2023.

This contract is designated as a cash flow hedge to eliminate the Group's cash flow exposure resulting from variable rates of exchange. The contract settles on a half-yearly basis simultaneously with the interest settlement of the associated bonds. £nil (2021: £nil) was recognised in the Income Statement in respect of ineffectiveness of the cash flow hedge arrangements.

# 19 Financial instruments and risk management (continued)

#### h) Liquidity risk

The Group maintains a balance between availability of funding and maximising investment return on cash balances through the use of short-term cash deposits, credit facilities and longer term debt instruments. Management regularly reviews the funding requirements of the Group. The Group has an additional liquidity facility totalling £75m in order to minimise the liquidity risk of the Group to its stakeholders.

This facility is available on demand with interest charged at SONIA-linked rates, plus a Credit Adjustment Spread (CAS), fixed at the point of drawdown, and is unsecured. CAS is a transitional adjustment for conversion of existing contracts from LIBOR to SONIA.

#### Maturity of financial assets and liabilities

The table below analyses the Group's financial assets and liabilities, which will be settled on a gross basis, into relevant maturity groups based on the remaining period at the statement of financial position date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

2022	Weighted - average effective	On demand £'000	0 to 3 months £'000	3 to 12 months £'000	1 to 5 years £'000	> 5 years £'000	Total £'000

## Committed borrowing facilities available

In addition to the £75m liquidity facility noted above the Group has undrawn committed borrowing facilities at 31 December 2022 of £202.5m (2021 - £350m) which expire in September 2024.

#### 19 Financial instruments and risk management (continued)

#### i) Fair value of financial assets and liabilities

Set out below is a comparison by class of the carrying amounts and fair value of the Group's financial instruments that are carried in the consolidated financial information.

·	31 December 2022 £'000 Carrying value	31 December 2022 £'000 Fair value	31 December 2021 £'000 Carrying value	31 December 2021 £'000 Fair value
Loans and other receivables	158,863	158,863	142,337	142,337
Cash and cash equivalents	3,002	3,002	31,496	31,496
Borrowings	(1,905,823)	(1,664,704)	(1,731,697)	(1,780,175)
Inflation Linked financial instruments	-	-	<u>-</u>	<u>.</u>
Cross currency financial instruments	47,515	47,515	22,509	22,509
Trade and other payables	(155,367)	(155,367)	(156,403)	(156,403)
Lease liabilities	(2,605)	(2,605)	(1,280)	(1,280)
	(1,854,415)	(1,613,296)	(1,693,038)	(1,741,516)

The fair value of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- cash and cash equivalents, trade and other receivables, trade and other payables approximate to their carrying amounts largely due to the short-term maturities of these instruments;
- the fair value of the net derivative financial instrument liability of £47.5m (2021 £22.5m) is estimated using risk-adjusted discounted future cash flow projections;
- provisions for cash payments are discounted back to their present value; and
- the fair value of derivatives are calculated using the method described in Note 19a. The Directors considered this and borrowings to be a Level 2 valuation in the hierarchy set out in the Accounting Policies in Note 3, with the valuation being based on the discounted value of expected future cash flows arising from the instrument.

## j) Changes in liabilities arising from financing activities

The below table details changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes. Liabilities arising from financing activities are those for which cash flows were, or future cash flows will be, classified in the Group's consolidated cash flow statement as cash flows from financing activities.

	Loans & Borrowings (note 17)	Finance fees (note 17)	Lease liabilities (note 28)	Derivative financial instruments	Total

#### Merger reserve

The merger reserve has been created to reflect the difference between the shares issued by the Company and the shares acquired as part of the acquisition of GTC Infrastructure Limited (and its subsidiaries) and The Gas Supply Company Limited via a share-for-share exchange in November 2012.

#### **Revaluation reserve**

The revaluation reserve relates to the revaluation of infrastructure assets in property, plant and equipment.

#### Cash flow hedge reserve

The cash flow hedge reserve represents the cumulative amounts of gains and losses on hedging instruments deemed effective in cash flow hedges. The cumulative deferred gain or loss on the hedging instrument is recognised in profit or loss only when the hedged transaction impacts the profit or loss, or is included as a basis adjustment to the non-financial hedged item, consistent with the applicable accounting policy.

#### 22 Share-based payments

#### **Equity settled LTIP share scheme**

The Company operates a Long Term Incentive Plan ("LTIP") share scheme for certain employees of a subsidiary of the Company. The awards to employees are in the form of non-voting growth shares in BUUK Infrastructure No 1 Limited. Shares are subject to a hurdle based on a deemed market value of equity at the date of award plus other preferred equity. The vesting period for 1,496,269 of the outanding shares is 5 years, with 20% of the shares vesting each year on the anniversary of the grant date. The vesting period for 1,100,000 of the oustanding shares is 4 years, with 50% of the shares vesting on each of the 3rd and 4th anniversaries of the grant date. There are no performance considerations attached to the shares. The shares are considered to be cash settled in the future as the participating employees have the right to sell the shares to the immediate parent company once vested. The equity value is computed by calculating an enterprise value of the BUUK Group and subtracting net debt and prior ranking securities. The equity value has been used as an input into a Black-Scholes option pricing model to arrive at the Fair Market Value of the shares.

	31 December 2022			31 December 2021
	Number of shares	Weighted	Number of shares	Weighted
•		average		average exercise
		exercise price		price (£)
•		(£)		
Outstanding at beginning of period	2,553,282	£0.37	2,884,994	<sup>-</sup> £0.32
Awarded during period	456,115	£0.63	. 186,854	£0.56
Forfeited during the period	-		-	
Exercised during the period	(413,128)	£0.25	(518,566)	£0.20
Expired during the period		_		
Outstanding at end of period	2,596,269	£0.43	2,553,282	£0.37
Vested at end of period	1,526,636	_	1,139,379	

The shares outstanding as at 31 December 2022 have an average remaining contractual life of 1.8 years (2021: 1.9 years). In 2022, 456,115 shares were awarded on 14 March 22. The fair market value of the shares awarded at that date was £0.63. In 2021 186,854 shares were awarded on 21 May 2021. The fair market value of the shares awarded on that date was £0.56 per share.

The inputs into the Black-Scholes model are as follows:

	31 December 2022	31 December 2021
Weighted average share price	£0.43	£0.37
Expected volatility	29%	24%
Expected life	1.85 years	1.91 years
Risk-free rate	3.74%	0.60%

Expected volatility was determined by benchmarking comparable companies in the UK utilities sector over the historical period that matches the expected term of the shares. The expected life used in the model is based on management's best estimate. The group recognised total expenses of £306,961 and £211,899 related to equity settled share-based payment transactions in 2022 and 2021 respectively.

## 23 Capital commitments

At 31 December 2022, the Group had entered into contractual commitments for the construction of infrastructure assets amounting to £523,495,000 (2021 - £536,392,000). The contractual obligations are expected to be constructed over the following profile:

	Infrastructure assets	Infrastructure assets
•	31 December	31 December
	2022	2021
	£'000	£'000
< 1 year	110,491	112,954
1-5 years	252,779	258,414
> 5 years	161,425	165,024
	524,695	536,392

#### 24 Contingencies

Borrowings are secured by English law governed fixed and floating security over the assets of BUUK Infrastructure No 1 Limited, BUUK Infrastructure No 2 Limited, BUUK Infrastructure Issuer Plc, GTC Infrastructure Limited and certain other non-regulated group companies, and Guernsey law governed security over the shares and related rights in GTC Infrastructure Limited.

#### 25 Related party transactions

Balances and transactions between companies within the Group which are related parties have been eliminated on consolidation and are not disclosed in this note.

#### Transactions with key management personnel

Key management includes directors and members of the management team of the Group. The compensation paid or payable to key management for employee services is shown below:

	31 December	31 December
	2022	2021
	£'000	£'000
Salaries and other short-term benefits	5,476	5,907
Post-employment benefits	106	108
Total	5,582	6,015

#### Other related party transactions

During the year, Group companies entered into the following transactions with related parties who are not members of the Group:

	31 December 2022		31 December 2021		
	Sale of goods	ale of goods Purchase of Sale of goods		Purchase of goods	
	£'000	£'000	£'000	£'000

Multiplex Construction Europe Limited	138		-	<u> </u>	

The following amounts were outstanding at the statement of financial position date:

	31 December 2022 £'000	31 December 2021 £'000
Payments made on behalf of - BUUK Infrastructure (Jersey) Limited	1,842	35
Receipts on behalf of - BUUK Infrastructure No 1 Limited	(6,306)	(6,019)
Amounts due from Braeburn Estates Developments (Infrastructure) Ltd	(106)	106
Amounts due from Multiplex Construction Europe Limited	175	-
Loan receivable - Brookfield Infrastructure Partners Capital Management SRL	8,000	15,000

All of the above companies are related parties due to sharing a common ultimate parent company, being Brookfield Asset Management Inc, a company registered in Canada. Each related party transaction above has been undertaken on an arm's-length basis. Amounts outstanding are unsecured, and repayable on demand.

Unsecured non-interest bearing loans made to a director of £808,000 (2021: £803,000) were outstanding at the year-end. The loans are repayable in between 1 and 5 years with £94,000 (2021: £nil) being repaid during the year. Unsecured non-interest bearing loans made to another director of £111,000 (2021: £111,000) were outstanding at the year-end. The loans are repayable in between 1 and 5 years with £nil (2021: £nil) being repaid during the year. Unsecured non-interest bearing loans made to another director of £121,000 (2021: £nil) were outstanding at the year-end. The loans are repayable in between 1 and 5 years with £nil (2021: £nil) being repaid during the year. Unsecured non-interest bearing loans made to another director of £67,000 (2021: £nil) were outstanding at the year-end. The loans are repayable in between 1 and 5 years with £nil (2021: £nil) being repaid during the year. Total loans made to directors of £1,107,000 (2021: £914,000) were outstanding at the year-end with £94,000 (2021: £nil) being repaid during the year.

#### 26 Retirement benefits

The Group operates a defined contribution retirement benefit scheme for all qualifying employees. The scheme is a stakeholder pension with the funds held within a discretionary trust by the scheme provider Scottish Widows. The only obligation of the Group with respect to the retirement benefit scheme is to remit the appropriate employer and employee contributions within time limits specified by the scheme.

The total cost charged to income of £7,812,754 (2021 - £5,452,908) represents contributions payable to the scheme by the Group at rates specified in the rules of the plan. As at 31 December 2022, contributions of £108,221 (2021- £61,678) due in respect of the current reporting period had not been paid over to the scheme.

#### 27 Parent Undertakings and Ultimate controlling party

The parent company of BUUK Infrastructure No 2 Limited is BUUK Infrastructure No 1 Limited, a Company registered in England and Wales. The ultimate controlling party is Brookfield Corporation, a company incorporated and registered in Canada quoted on the New York Stock Exchange and Toronto Stock Exchange.

The smallest Group the Company is a member of and for which Group financial statements are prepared is Brookfield Infrastructure Corporation. Copies of Brookfield Infrastructure Corporation's financial statements can be obtained from its registered office: Brookfield Infrastructure Corporation, Suite 300, Brookfield Place, 181 Bay Street, Toronto, Canada, ON M5J 2T3.

The largest Group the Company is a member of and for which Group financial statements are prepared is Brookfield Corporation. Copies of Brookfield Corporation's financial statements can be obtained from its registered office: Brookfield Corporation, Suite 300, Brookfield Place, 181 Bay Street, Toronto, Canada, ON M5J 2T3.
