STRATEGIC REPORT

The Directors present their Strategic Report for Delamare Cards Funding 1 Limited (the Company) for the year ended 31 December 2016.

The Annual Report and Financial Statements comprises the Strategic Report, the Directors' Report and the Financial Statements and accompanying notes.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

Where this document contains forward-looking statements, these are made by the Directors in good faith based on the information available to them at the time of their approval of this report. These statements should be treated with caution due to the inherent risks and uncertainties underlying any such forward-looking information. The Company cautions users of these Financial Statements that a number of factors, including matters referred to in this document, could cause actual results to differ materially from those contained in any forward-looking statement. Such factors include, but are not limited to, those discussed under 'Principal risks and uncertainties' on pages 5 and 6 of this Annual Report.

BUSINESS MODEL

The principal activity of the Company is to act within a securitisation structure for credit card receivables originated and acquired by Tesco Personal Finance plc (TPF plc). The securitisation structure has been established as a means of raising finance for TPF plc.

The credit card receivables are held in Trust for the Company and the originator, TPF plc, by Delamare Cards Receivables Trustee Limited (the Trustee). The beneficial interest in the credit card receivables is represented by a Deemed Loan to TPF plc. The Company is domiciled in the United Kingdom (UK) where all of its business activities take place.

The activities of the Company are managed in accordance with the securitisation transaction documents, which set out the workings of the transaction and the principal risks to the holder of the Global Loan Notes issued by the Company. As such, these have not been reproduced in full in these Financial Statements.

BUSINESS PERFORMANCE

During the year, the Company earned £73,777k (2015: £73,667k) from TPF plc in relation to interest due on the Deemed Loan (note 2(n)). Interest proceeds were used to meet the Company's obligations on the Global Loan Note, payable to Delamare Cards MTN Issuer plc (MTN Issuer), and meet the administrative costs of the Company.

The Company made a profit for the year of £1k (2015: £1k). Profits for the Company are pre-defined under the securitisation transaction documents. Under the terms of these documents the Company retains the rights to £0.1k per month. This is reflected within the Statement of Comprehensive Income on page 11.

NOTE REDEMPTION

In May 2017 the Company shall redeem the £150m 2014-1 Class A1 of the Loan Note. To facilitate this redemption, the Trustee shall retain the Company's share of the Trusts' credit card principal receipts during a three month accumulation period and pay the principal to the Company (as the Funding 1 beneficiary), reducing the Company's share in the Trust prior to the scheduled redemption date. The Company's Deemed Loan with TPF plc will reduce accordingly each month over the accumulation period.

To protect the Company's ability to settle the Global Loan Note's interest payments during the accumulation period an Accumulation Reserve amount was established on 18 December 2016. On this date the Company retained £750k of excess spread within the Company's Accumulation Reserve Account. The reserve shall be drawn upon should the Company be unable to pay interest on any Global Loan Note being accumulated. Given the level of revenue expected from the Trustee during this accumulation period the Company does not expect to draw on this reserve.

STRATEGIC REPORT (Continued)

STRATEGIC PRIORITIES

The Company will continue to seek appropriate opportunities to raise finance to support the ongoing activities of TPF plc.

PRINCIPAL RISKS AND UNCERTAINTIES

The Company has implemented a set of policies and procedures in order to manage the risks associated with the transactions undertaken by the Company. The principal risks the Company is exposed to are detailed below.

Credit risk

Credit risk is the risk that a borrower will default on a debt or obligation by failing to make contractually obligated payments, or that the Company will incur losses due to any other counterparty failing to meet their financial obligations.

The Company is, therefore, exposed to credit risk via the ability of TPF plc to repay its obligations under the terms of the Deemed Loan. This is dependent on the ability of borrowers to meet their obligations as they fall due under the credit card receivables held by the Trust in which the Company has an investor beneficial interest.

The Directors continually monitor the performance of the underlying credit card receivables, taking into consideration any developing trends, but given the ability for changes to be made to the pool of credit card receivables at the discretion of the Transferor and each Rating Agency in order to mitigate the credit risk, the Directors do not consider the exposure to credit risk to be material to the Company.

Liquidity and funding risk

Liquidity risk is the risk that the Company is not able to meet its obligations as they fall due or can access these only at excessive cost. Liquidity risk arises from the mismatch in the timing of cash flows generated from assets and liabilities. Funding risk is the risk that the Company does not have sufficiently stable and diverse sources of funding. Funding risk arises from the ability of the Company to issue tranches of the Global Loan Note.

The principal financial asset held by the Company is the Deemed Loan issued to TPF plc. The main purpose of holding this financial asset, as agreed by the Directors, is to enable appropriate liquidity, ensuring the Company's liabilities in respect of the tranches of Global Loan Note are met as they fall due and to meet regulatory requirements in respect of liquidity management.

The principal financial liabilities of the Company are the aggregate outstanding Global Loan Note tranches and accrued interest thereon. A purpose of these financial liabilities, as agreed by the Directors, is to ensure the Company has sufficient funding.

The Directors do not consider the exposure to liquidity risk to be material to the Company as the Global Loan Note is designed to align to the maturity and repayment profile of the Deemed Loan backed by the credit card receivables.

Interest rate risk

Interest rate risk is the possibility that changes in interest rates will result in higher financing costs and/or reduced income in respect of the Company's interest bearing financial assets and financial liabilities.

The Directors do not consider exposure to interest rate risk to be material as the Company has no material fixed rate assets or liabilities and the originator of the Deemed Loan can amend its pricing to reflect changes in interest rates on the tranches of Global Loan Note.

Operational risk

Operational risk is the risk of potential error, loss, harm or failure caused by ineffective or inadequately defined processes, system failure, improper conduct, human error or from external events.

Delamare Cards Receivables Trustee Limited and the beneficial owners of the Trust property have retained TPF plc under the terms of the servicing agreement as the Servicer of the credit card receivables.

STRATEGIC REPORT (Continued)

TPF plc has performed all relevant activities in its capacity as Servicer and Cash Manager. Failure of the Servicer/Cash Manager to carry out its services could lead to a loss on the tranches of Global Loan Note and/or early redemption of the tranches of Global Loan Note.

The ability of TPF plc to make the payments due in respect of any Deemed Loan to the Company is in part dependent upon the Servicer administering the credit card receivables (which form the Trust's property) and transactions affecting the credit card receivables in a prompt and accurate manner.

The Directors consider the controls to be effective which, together with the appointment of Sanne Group as the successor servicer facilitator, reduces the level of operational risk to minimal levels.

KEY PERFORMANCE INDICATORS (KPIs)

The Company's Directors are of the opinion that analysis using KPIs is not necessary for an understanding of the development, performance or position of the Company. However, a defined set of KPIs for the securitisation transaction are set out in the securitisation transaction documentation and published in the monthly Servicer Reports, available on www.corporate.tescobank.com.

The KPI used by management in assessing the performance of the Company is the monitoring of actual cash flows against planned cash flows. In addition, performance is measured against the following KPIs to assess whether:

- Excess available funds averaged over a three month period is greater than £nil;
- The balance of the securitised credit card receivables is greater than a minimum balance as defined within the securitisation transaction documents; and
- The principal balance of the Trust's securitised credit card receivables is greater than the aggregate total amount of Delamare Cards MTN Issuer PIc's Notes in Issue.

The Company has made all necessary payments on the Global Loan Note in accordance with the scheduled payment dates for the year ended 31 December 2016.

BY ORDER OF THE BOARD

B.M. Surnam Director

23 February 2017

DIRECTORS' REPORT

The Directors present their Annual Report and the audited Financial Statements for the year ended 31 December 2016.

BUSINESS REVIEW AND FUTURE DEVELOPMENTS

The Company's business review and future developments are set out in the Strategic Report on pages 4 to 6.

RISK MANAGEMENT

The Company's risk management policies are set out in the Strategic Report on pages 4 to 6.

GOING CONCERN

The Directors have completed a formal assessment of the Company's going concern status, taking into account both current and projected cash flows.

Interest and principal will be paid on the tranches of Global Loan Note to the extent that funds are remitted from the financial assets to the Company in accordance with the securitisation transaction documents. The Directors expect that the Company will continue to meet all of its obligations as they fall due for a period of at least 12 months from the date of this report.

The Directors do not anticipate any external changes in the business environment which would adversely impact the Company. This is dependent on there being no change in the performance of the tranches of Global Loan Note, which in turn is dependent on there being no material change in performance of the credit card receivables. Additional details relating to the performance of the credit card receivables can be found in note 14.

As a result of this assessment, the Directors consider the Company to be in a satisfactory financial position and confirm that any solvency or liquidity risks can be managed effectively. Accordingly, the Directors continue to adopt the going concern basis in preparing the Financial Statements.

DIVIDENDS

During the year, no interim dividend has been paid (2015: £nil). The Directors do not recommend a final dividend for the year (2015: £nil). The Directors consider the results to be satisfactory and as expected in light of the Company's operating environment during the year.

DIRECTORS

On 21 September 2016 J.C. Bingham resigned as Director and was replaced by B.M. Surnam. M.C. Schnaier has served throughout the year. The present Directors and Company Secretary are listed on page 3.

EMPLOYEES

The Company does not have any employees (2015: none).

INDEPENDENT AUDITORS

The auditors, Deloitte LLP, have indicated their willingness to continue in office and a resolution that they be re-appointed will be proposed at the annual general meeting.

DIRECTORS' REPORT (Continued)

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The Directors are responsible for preparing the Annual Report and the Financial Statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare such Financial Statements for each financial year. Under that law the Directors have elected to prepare the Financial Statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union (EU). Under company law the Directors must not approve the Financial Statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these Financial Statements, International Accounting Standard (IAS) 1: Presentation of Financial Statements, requires that Directors:

- properly select and apply accounting policies;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- provide additional disclosures when compliance with the specific requirements in IFRSs are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance; and
- make an assessment of the Company's ability to continue as a going concern.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the Financial Statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Each of the Directors, whose names are listed on page 3 of the Annual Report and Financial Statements confirms that, to the best of their knowledge:

- the Financial Statements, which have been prepared in accordance with IFRSs as adopted by the EU, give a true
 and fair view of the assets, liabilities, financial position and profit of the Company;
- the Strategic Report contained in the Annual Report includes a fair review of the development and performance of the business and the position of the Company, together with a description of the principal risks and uncertainties that it faces; and
- the Annual Report and Financial Statements, taken as a whole, is fair, balanced and understandable and provides the information necessary for the Company's shareholder to assess the Company's position, performance, business model and strategy.

So far as each Director at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditors in connection with preparing this report, of which the auditors are unaware. All of the Directors have taken all the steps that they ought to have taken as Directors in order to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

BY ORDER OF THE BOARD

B.M. Surnam Director 23 February 2017

INDEPENDENT AUDITORS' REPORT TO THE MEMBER OF DELAMARE CARDS FUNDING 1 LIMITED

We have audited the Financial Statements of Delamare Cards Funding 1 Limited for the year ended 31 December 2016 which comprise the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Changes in Equity, the Statement of Cash Flows and the related notes 1 to 17. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

This report is made solely to the Company's member, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's member those matters we are required to state to them in an Auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's member as a body, for our audit work, for this report, or for the opinions we have formed.

RESPECTIVE RESPONSIBILITIES OF DIRECTORS AND AUDITOR

As explained more fully in the Statement of Directors' Responsibilities, the Directors are responsible for the preparation of the Financial Statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the Financial Statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

SCOPE OF THE AUDIT OF THE FINANCIAL STATEMENTS

An audit involves obtaining evidence about the amounts and disclosures in the Financial Statements sufficient to give reasonable assurance that the Financial Statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Directors; and the overall presentation of the Financial Statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited Financial Statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

OPINION ON FINANCIAL STATEMENTS

In our opinion the Financial Statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2016 and of its profit for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

OPINION ON OTHER MATTERS PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Directors' Report for the financial year for which the Financial Statements are prepared is consistent with the Financial Statements; and
- the Strategic Report and the Directors' Report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Strategic Report and the Directors' Report.

INDEPENDENT AUDITORS' REPORT TO THE MEMBER OF DELAMARE CARDS FUNDING 1 LIMITED (Continued)

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the Financial Statements are not in agreement with the accounting records and returns; or
- · certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Ann Aspinall, ACA (Senior Statutory Auditor) for and on behalf of Deloitte LLP

Chartered Accountants and Statutory Auditor

Edinburgh, UK

NOTES TO THE FINANCIAL STATEMENTS

1. BASIS OF PREPARATION

These Financial Statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB), and interpretations issued by the International Financial Reporting Interpretations Committee of the IASB as endorsed by the European Union (EU), and those parts of the Companies Act 2006 applicable to companies reporting under IFRSs.

The preparation of Financial Statements in conformity with IFRSs requires the use of certain estimates that affect the reported amounts of assets and liabilities at the date of the Financial Statements and the reported amounts of revenue and expense during the reporting period.

The Financial Statements are presented in Sterling, which is the functional currency of the Company. The figures shown in the Financial Statements are rounded to the nearest thousand unless otherwise stated. The Directors continue to adopt the going concern basis in preparing the Financial Statements.

2. ACCOUNTING POLICIES

(a) Accounting convention

The Company is incorporated and domiciled in the UK and registered in England. The Financial Statements have been prepared under the historical cost convention.

A summary of the Company's accounting policies is set out below. These policies have been consistently applied to all of the years presented, unless otherwise stated.

(b) Standards, amendments and interpretations which became effective in 2016 and are relevant to the Company

During the year to 31 December 2016, the Company has adopted the following new accounting standards and amendments to standards which became effective with relevant EU endorsement for annual periods beginning on or after 1 January 2016:

Annual Improvements

The Annual Improvements process covers minor amendments to IFRSs that the IASB consider non-urgent but necessary. The Annual Improvements 2012-2014 process resulted in several minor changes to standards which are effective for annual periods beginning on or after 1 January 2016. There has been no impact on the Company of the adoption of these amendments.

Amendment to IAS 1 'Presentation of financial statements: Disclosure initiative'

This amendment is effective for annual periods beginning on or after 1 January 2016. It clarifies some of the requirements for disclosure within the Financial Statements. There has been no impact on the Company of the adoption of this amendment.

(c) Standards and interpretations issued but not yet effective

The Annual Improvements 2014-2016 process resulted in several minor changes to standards which are effective for annual periods beginning on or after 1 January 2017. These amendments are not expected to impact the Company.

Annual Improvements

The Annual Improvements process covers minor amendments to IFRSs that the IASB consider non-urgent but necessary. The Annual Improvements 2012-2014 process resulted in several minor changes to standards which are effective for annual periods beginning on or after 1 January 2017. These amendments are not expected to have any significant impact on the Financial Statements of the Company.

Amendments to IAS 7 'Statement of cash flows: Disclosure initiative'

These amendments are effective for annual periods beginning on or after 1 January 2017, subject to EU endorsement. They extend the disclosures required by IAS 7 about an entity's liquidity and aim to improve disclosures about an entity's debt. These amendments will result in additional disclosures relating to movements in liabilities arising from financing activities for the Company for the year ended 31 December 2017 onwards.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. ACCOUNTING POLICIES (continued)

IFRS 15 'Revenue from contracts with customers'

IFRS 15 is effective for annual periods beginning on or after 1 January 2018, with early adoption permitted.

IFRS 15 introduces a five step approach to revenue recognition and will be applicable to all contracts with customers, with certain exceptions. The Company's interest income integral to financial instruments fall outside the scope of IFRS 15 and will continue to be accounted for in line with the other applicable standards, predominantly IAS 39, 'Financial instruments: Recognition and measurement'.

As all of the Company's income falls within the scope of IAS 39, IFRS 15 will have no impact on the Company.

Amendments to IFRS 15 'Clarifications to IFRS 15 'Revenue from contracts with customers"

These amendments are effective for annual periods beginning on or after 1 January 2018. They clarify how the principles of IFRS 15 should be applied in determining recognition of contract revenue and provide transitional relief on modified and completed contracts for entities implementing the standard. As all of the Company's income falls within the scope of IAS 39, IFRS 15 will have no impact on the Company.

IFRS 9 'Financial instruments'

IFRS 9 is effective for annual periods beginning on or after 1 January 2018, subject to EU endorsement. It is a replacement for IAS 39 'Financial Instruments: Recognition and Measurement', excluding the part of IAS 39 related to macro hedge accounting. Macro hedge accounting requirements are out of the scope of IFRS 9 and instead the IASB is developing a separate model for this. Entities are therefore permitted to continue accounting for macro hedge portfolios in line with IAS 39.

The principle features of IFRS 9 are as follows:

Classification and measurement of financial assets and financial liabilities:

IFRS 9 will require the Company's financial assets to be classified as either held at amortised cost, fair value through other comprehensive income or fair value through profit or loss, dependent on the business model and cash flow characteristics of the financial asset.

The Company continues to evaluate the overall effect, but expects that the classification and measurement basis of the majority of the Company's financial assets and financial liabilities will be unchanged on application of IFRS 9.

Recognition of impairment

IFRS 9 requires the Company to recognise expected credit losses (ECL) at all times, and to update the amount of ECL recognised at each reporting date to reflect changes in the credit risk of financial instruments. The ECL is measured under a three stage approach:

Upon origination of an asset, a loss allowance is established that is equal to the 12-month ECL, being the portion of life-time expected losses resulting from default events that are possible within the next 12 months. Financial assets where 12-month ECL is recognised are considered to be 'stage 1'.

Where a significant increase in credit risk since initial recognition is identified, a loss allowance equal to the lifetime ECL is established. This is considered to be 'stage 2'.

Where there is objective evidence that leads to an asset being considered credit impaired, a loss allowance equal to the lifetime ECL continues to be recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount. This is considered to be 'stage 3'.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. ACCOUNTING POLICIES (continued)

The assessment of credit risk and the estimation of ECL are required to be unbiased and probability-weighted: determined by evaluating at the reporting date for each financial asset a range of possible outcomes using reasonable and supportable information about past events, current conditions and forecasts of future events and economic conditions. The estimation of ECL also takes into account the time value of money.

The inclusion of loss allowances that incorporate an expectation of future drawings will tend to result in an increase in overall impairment balances when compared with the existing basis of measurement under IAS 39. The requirement to incorporate forward looking information increases the level of judgement as to how changes in these factors will affect ECL and is also likely to result in impairment charges being more volatile when compared to the current IAS 39 impairment model. The Company's governance processes and controls are being developed to integrate the revised ECL requirements into the Company's risk management and financial reporting processes.

The Company continues to evaluate the full impact of IFRS 9, but does not expect its results to be materially impacted on application of the new standard.

Hedge accounting:

The IFRS 9 hedge accounting requirements are designed to allow hedge accounting to be more closely aligned with financial risk management. The requirement does not apply to the Company.

(d) Early adoption of new standards

The Company did not early adopt any new or amended standards in the year ended 31 December 2016.

(e) Segmental reporting

The Company's activities, as considered by the Directors, constitute one segment due to the similarity of risks faced in relation to the issue of the tranches of Global Loan Note. Consequently all activities are presented as such and therefore the Company is not required to produce additional segmental information.

All of the Company's activities were undertaken in the UK therefore no geographic analysis is presented.

(f) Revenue recognition

Interest and similar income and interest expense for all financial assets or financial liabilities measured at amortised cost are recognised using the effective interest rate (EIR) method.

The EIR method is a method of calculating the amortised cost of a financial asset or financial liability (or group of financial assets or financial liabilities) and of allocating the interest income or interest expense over the expected life of the financial asset or financial liability. The EIR is the rate that exactly discounts estimated future cash flows to the instruments' initial carrying amount. When calculating the EIR, the future cash flows are estimated after considering all of the contractual and behavioural terms of the financial instrument.

(g) Administrative expenses

Administrative expenses are recognised on an accruals basis in the period in which they are incurred.

(h) Taxation

Current tax which is payable on taxable profits is recognised as an expense in the period in which the profits arise.

The Company's tax charge is based on the permanent tax regime for securitisation companies.

(i) Cash and cash equivalents

For the purposes of the Statement of Cash Flows, cash and cash equivalents include deposits held on call with banks and any highly liquid investments which meet the criteria set out in the securitisation transaction documents.

(j) Financial instruments

The Directors determine the classification of financial assets and financial liabilities at initial recognition in accordance with the substance of the contractual arrangement.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. ACCOUNTING POLICIES (continued)

Financial assets

The Company has classified its financial assets as loans and receivables. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition at fair value plus transaction costs, these assets are carried at amortised cost using the EIR method, less any impairment.

Financial liabilities

The Company measures all of its financial liabilities at amortised cost using the EIR method, after initial recognition at fair value

(k) Recognition/derecognition of financial instruments

The Financial assets classified as loans and receivables are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities at amortised cost are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets are derecognised when the contractual rights to receive cash flows have expired or where substantially all of the risks and rewards of ownership have been transferred and the transfer qualifies for derecognition. Financial liabilities are derecognised when they have been redeemed or otherwise extinguished.

(I) Fair value estimates

The fair value estimates are calculated using a discounted cash flow estimate appropriately adjusted to reflect credit risk. Taking account of their identical nature, the fair values for the tranches of Global Loan Note is considered to be the same as the Notes in Issue which have been issued by MTN Issuer.

(m) Impairment of financial assets

The Company assesses at each reporting date whether there is any objective evidence that a financial asset classified as loans and receivables is impaired. A financial asset is impaired and an impairment loss incurred if there is objective evidence of impairment as a result of an event or events since the initial recognition that have adversely affected the amount or timing of future cash flows from the asset.

For assets carried at amortised cost, the Company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If there is objective evidence that an impairment loss has been incurred, an impairment allowance is calculated based on the difference between the Directors' best estimate of the present value of future cash flows of the loan or group of loans (discounted at original EIR) and the loan's or group of loans' current carrying value. Impairment allowances are recorded within the Statement of Comprehensive Income.

Losses suffered by the Company in respect of the Deemed Loan to TPF plc will not trigger an impairment until all credit enhancements are exhausted. Credit enhancement is represented by excess spread (Deemed Loan receipts remaining following payment of Company liabilities) and cash reserves (a cash series loan issued by TPF plc and a programme reserve) from which Global Loan Note shortfalls can be drawn.

(n) Deemed Loan

The Company used the proceeds of the Global Loan Note to purchase a beneficial interest in a pool of credit card receivables originated by TPF plc and held in Trust by Delamare Cards Receivables Trustee Limited (the Trustee). These credit card receivables have been equitably assigned by TPF plc to the Trustee. However, this has not resulted in TPF plc passing on substantially all the risks and rewards associated with the credit card receivables. Accordingly, the credit card receivables remain on TPF plc's Statement of Financial Position and the Company has recognised a Deemed Loan with TPF plc.

(o) Other payables

Other payables arise in the normal course of the Company's trading activities. Other payables are carried at amortised cost.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. ACCOUNTING POLICIES (continued)

(p) Loan payable

The loan payable represents the credit enhancement (note 2(m)) passed to the Company by TPF plc, a fellow Group undertaking. The loan payable is carried at amortised cost.

(p) Global Loan Note

The tranches of Global Loan Note were issued by the Company to allow it to purchase a share in the credit card receivables originated by TPF plc, which as stated above is recorded as a Deemed Loan. The tranches of Global Loan Note are carried at amortised cost. The costs related to the issuance of tranches of Global Loan Note and the related Notes in Issue by MTN Issuer are capitalised and amortised over the life of the Notes in Issue.

3. NET INTEREST INCOME

	31 December 2016 £'000	31 December 2015 £'000

Global Loan Note	- 1,796,915	1,796,915
Total financial liabilities	- 1,861,940	1,861,940

Fair values of financial assets and financial liabilities

The Directors consider that the carrying values of cash and cash equivalents and other payables and receivables recorded on the Statement of Financial Position are approximately equal to their fair values due to their short term nature.

The fair values of the Deemed Loan, the Global Loan Note and the loan payable are not materially different to their carrying values. Based on the method used to establish their fair values they are all considered to be Level 3 in the fair value hierarchy.

NOTES TO THE FINANCIAL STATEMENTS (continued)

13. FINANCIAL INSTRUMENTS (continued)

The valuation techniques and inputs used to derive fair values at the year end are described below.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where an active market is considered to exist, fair values are based on quoted prices. For instruments which do not have active markets, fair value is calculated using present value models, which take individual cash flows together with assumptions based on market conditions and credit spreads, and are consistent with accepted economic methodologies for pricing financial instruments.

In each case the fair value is calculated by discounting future cash flows using benchmark observable market interest rates based on LIBOR rather than Overnight Index Swaps (OIS) as using OIS would have no significant impact. This is kept under review.

There are three levels to the hierarchy as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (for example, as prices) or indirectly (for example, derived from prices).

Derivative financial instruments which are categorised as Level 2 are those which either:

- Have future cash flows which are on known dates and for which the cash flow amounts are known or calculable by reference to observable interest and FX rates; or
- Have future cash flows which are not pre-defined, but for which the fair value of the instrument has very low sensitivity to changes in estimate of future cash flows.

In each case the fair value is calculated by discounting future cash flows using benchmark, observable market interest rates.

Fair values of investment securities classified as loans and receivables are based on quoted prices, where available, or by using discounted cash flows applying market rates.

The estimated fair value of subordinated liabilities is calculated using a discounted cash flow model based on a current yield curve appropriate for the remaining term to maturity.

Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

There were no transfers between levels in the year to 31 December 2016 (2015: no transfers).

14. FINANCIAL RISK MANAGEMENT

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Company is exposed to financial risks which it manages to achieve its financial and corporate objectives.

Strategy in using financial instruments

Financial instruments comprise the majority of the Company's financial assets and financial liabilities and these instruments expose the Company to financial risk. The Company does not trade in financial instruments.

NOTES TO THE FINANCIAL STATEMENTS (continued)

14. FINANCIAL RISK MANAGEMENT (continued)

Credit Risk

Credit risk is the risk that a borrower will default on a debt or obligation by failing to make contractually obligated payments, or that the Company will incur losses due to any other counterparty failing to meet their financial obligations:

The Company is, therefore, exposed to credit risk via the ability of TPF plc to repay its obligations under the Deemed Loan. This is dependent on the ability of borrowers to meet their obligations as they fall due under the credit card receivables held in Trust by the Trustee.

The table below presents the arrears performance of the credit card receivables in which the Company has a beneficial interest along with TPF plc. Through the Deemed Loan, the Company is exposed to a share of the credit risk in these credit cards. A financial asset is past due if a counterparty has failed to make a contractual payment when due.

The Directors continually monitor the performance of the underlying credit card receivables and take into consideration any developing trends. None of the financial assets of the Company were past due or impaired at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS (continued)

14. FINANCIAL RISK MANAGEMENT (continued)

The Company has a concentration risk in relation to the originator, TPF plc. The underlying assets of the securitisation originate in the UK market. The nature of the credit card receivables means that there is no significant counterparty credit risk.

The Company assesses its counterparties for credit risk before contracting with them. Credit rating is the main method used to measure credit risk. The securitisation transaction documents contain various rating triggers linked to key counterparties, which require certain actions be taken if triggers are breached.

Long Term Rating as at 31 December 2015	Long Term Rating as at 31 December 2016 and date of approval of Financial Statements	Counterparty	
(Moody's/S&P/Fitch)	(Moody's/S&P/Fitch)		
Aa2/AA-/AA-	Aa2/AA-/AA-	HSBC Bank plc	

Liquidity Risk

Bank account provider

Liquidity risk is the risk that the Company is not able to meet its obligations as they fall due or can access these only at excessive cost. Liquidity risk arises from the mismatch in the timing of cash flows generated from assets and liabilities.

The table below presents the cash flows payable by the Company under non-derivative financial assets and financial liabilities by remaining contractual maturities at the reporting date. The amounts disclosed in the table are the earliest contractual undiscounted cash flows:

,	Within 1	Between 1	Between 2	Between 3	Between 4	Beyond 5

Interest Rate Risk

Interest rate risk is the possibility that changes in interest rates will result in higher financing costs and/or reduced income in respect of the Company's interest bearing financial assets and financial liabilities.

The Company finances its obligations through the issue of Global Loan Note tranches. Six of the seven tranches of Global Loan Note in issue incur floating rates of interest. This floating rate of interest on borrowings is offset by interest earned on the corresponding Deemed Loan, Bank Account interest and securitisation credit enhancement. Should one month LIBOR move markedly, the originator could amend its pricing to ensure that the change in its funding costs would be largely offset by the change in interest receivable which in turn would benefit the Company. The seventh tranche of the Global Loan Note incurs a fixed 0.01% interest rate, as does its corresponding Deemed Loan tranche.

The Directors do not consider exposure to interest rate risk to be material as the Company has no material fixed rate assets or liabilities, it has a large excess of revenue and the originator of the Deemed Loan can amend its pricing to reflect marked changes in interest rates.

The interest rate profile of financial assets and financial liabilities is as follows:

As at 31 December 2016	Interest charging basis	Effective interest rate	
Assets			
Interest Receivable on:	-		
Deemed Loan	Interest bearing	n/a	
Other receivables	Non-interest bearing	n/a

15. CAPITAL COMMITMENTS AND CONTINGENT LIABILITIES

There were no outstanding capital commitments or contingent liabilities at the year end (2015: £nil).

16. CONTROLLING PARTY

The entire share capital of the Company is held by Delamare Cards Holdco Limited, a company incorporated in the UK and registered in England. Copies of the Financial Statements of Delamare Cards Holdco Limited may be obtained from Sanne Company Secretaries (UK) Limited, Asticus Building, 2nd Floor, 21 Palmer Street, London, SW1H 0AD.

The Directors' decisions and control of the entity are carried out in accordance with the securitisation transaction documents set up for the benefit of Tesco Personal Finance plc. Therefore the Company's immediate parent company is Tesco Personal Finance plc, a company incorporated in the UK and registered in Scotland. The smallest group into which the Company is consolidated is Tesco Personal Finance plc. Copies of the consolidated Financial Statements of Tesco Personal Finance plc can be obtained from its registered office at Interpoint Building, 22 Haymarket Yards, Edinburgh, EH12 5BH.

The Company's ultimate parent undertaking and controlling party is Tesco PLC, a company incorporated in the UK and registered in England. Copies of the consolidated Financial Statements of Tesco PLC can be obtained from its registered office at Tesco House, Shire Park, Kestrel Way, Welwyn Garden City, AL7 1GA. Tesco PLC is the largest group into which the Company is consolidated.

17. RELATED PARTY DISCLOSURE

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the party in making financial or operational decisions, or one other party controls both.

The terms and conditions of any transactions with key management personnel and their related parties are no more favourable than those available, or which might reasonably be expected to be available, on similar transactions to non-key management personnel or related entities on an arm's length basis.

During the year, the Company paid the Trust £26,410k in respect of servicer fee expenses and Company profit amount (2015: £28,786k). At year end, £4,666k was due to Delamare Cards Receivables Trustee Limited (2015: £6,080k).

NOTES TO THE FINANCIAL STATEMENTS (continued)

17. RELATED PARTY DISCLOSURE (continued)

The Company received £232,221k from the Trust (2015: £258,271k) in respect of finance collections.

In line with the Company's obligations under the securitisation transaction documents, the Company paid £193,913k to the Trust in respect of finance collections which were subsequently received by the Trust, and at no stage were the legal property of the Trust (2015: £219,613k). At year end, £17,046k was due from the Trust as part of these obligations (2015: £18,419k).

During the year, the Company paid the Trust £17,449k in relation to interest due on all tranches of the Global Loan Note, administrative expenses and Company profit amount (2015: £19,334k).

The Company held a Deemed Loan of £1.8bn due from TPF plc (2015: £1.8bn). At the year end, the Company had obligations to TPF plc of £12,641k in respect of finance collections (2015: £11,672k) and £46,144k in respect of loans (2015: £47,273k).

At year end, £489k was due to MTN Issuer in relation to interest due on the Global Loan Note (2015: £668k).

The Company was established by TPF plc, the ultimate parent Company of which is Tesco PLC, to facilitate the securitisation of credit card receivables originated by TPF plc.

Both M.C. Schnaier and B.M. Surnam are directors of Sanne Company Secretaries (UK) Limited.
